Nays—None.

The following is said resolution as adopted:

Resolved, That the following rules be and they are hereby declared to be the rules of this Council:

RULE 1. Regular meetings of the City Council shall be held every Monday afternoon at 2 o'clock, unless

otherwise ordered at a regular meeting. Special meetings may be held at any time, on call of the Mayor, or any three or more Aldermen; such call shall be in writing, duly signed, and shall be presented to the Clerk, who shall proceed immediately to prepare notices of the same and shall cause them to be served on members of the Council, at least twenty-four hours prior to the day and hour set for said special meeting except for special meetings called on account of death of a member of this Council or in an extreme emergency; such notices shall describe, in brief, the nature or objects of the call.

At every special meeting the call for the same shall be read and afterward filed by the Clerk; and no business other than that proposed by the call, shall be in order at such meeting.

Order of Business.

RULE 2. Each meeting of the Council shall convene at the hour appointed for such meeting. In the absence of the Mayor a temporary chairman for the meeting shall be elected by a majority vote of the Aldermen present. The Clerk (or some one appointed to fill his place) shall thereupon immediately call the roll of members. If no quorum be present, the Council shall not thereby stand adjourned, but the members present shall be competent to adjourn the Council by a majority vote.

A quorum for the transaction of business shall consist of a majority of all the Aldermen entitled by law to be elected. When a quorum is present the Council shall proceed to the business before it, which shall be conducted in the following order:

1. The reading of the Journal of the Proceedings of the last meeting or meetings, and correction and approval of the same, unless dispensed with by the Council.
2. Reports and communications from city officers.
3. Reports of standing committees.
4. Reports of select committees.
5. Presentation of petitions, communications, resolutions and ordinances by Aldermen, and improvement ordinances recommended by the Board of Local Improvements.
6. Unfinished business of preceding meetings.
7. Miscellaneous business.

RULE 3. All questions relating to the priority of business shall be decided by the Chair, without debate, subject to appeal.

Duties and Privileges of President.

RULE 4. The presiding officer shall preserve order and decorum, and may speak to points of order in preference to other members, rising from his seat for that purpose, and shall decide all questions of order, subject to an appeal to the City Council, on which appeal no member shall speak more than once without the unanimous consent of the Council.

Duties and Privileges of Members.

RULE 5. While the presiding officer is putting the question, no member shall walk across or out of the Council room.

RULE 6. Every member, previous to his speaking, making a motion or seconding the same, shall rise from his seat and address himself to the presiding officer, and say, "Mr. President," but shall not proceed with his remarks until recognized and named by the Chair.

RULE 7. When two or more members rise at once, the presiding officer shall name the member who is first to speak.

RULE 8. During the session of the Council, only city officers, ex-aldermen and persons connected with the press shall be admitted within the bar of the City Council Chamber, unless upon invitation of the Chairman. Lobbying shall not be permitted.

RULE 9. In case of any disturbance or disorderly conduct, the presiding officer shall have the power to require the Chamber to be cleared if necessary.

RULE 10. When a member wishes to present a communication, petition, order, resolution or other original matter, he shall send it to the desk of the Clerk, who shall read such matter when reached in its proper order; and the Chairman shall call each ward for the fifth order of business, beginning one meeting at the First Ward, and the next meeting at the Thirty-fifth Ward, and so on alternately during the term of the Council.

RULE 11. No member, without leave of the Council, shall speak more than once upon the same subject, until every member desirous of speaking shall have spoken; and no member shall speak longer than five minutes at any one time, except by consent of the Council.

RULE 12. A member when called to order by the Chair shall thereupon take his seat unless permitted by the Chair to explain. If there be no appeal, the decision of the Chair shall be conclusive; but, if the member appeal from the decision of the Chair, such appeal shall be decided by the Council.

RULE 13. While a member is speaking, no member shall hold any private discourse nor pass between the speaker and the Chair.

RULE 14. Every member who shall be present when a question is stated from the Chair, shall vote thereon, unless excused by the Council, or unless he is directly interested in the question, in which case he shall not vote.

RULE 15. No member shall be allowed to leave the Council while in session unless excused by the presiding officer; and for attempting to do so, or for persistent violation of any other rule or order, may be restrained or otherwise dealt with as the President of the Council may direct.

Motions and Resolutions.

RULE 16. Any matter before the Council may be set down as a special order of business at a time certain, if two-thirds of the Aldermen present vote in the affirmative, but not otherwise.

RULE 17. No motion shall be put or debated unless it be seconded. When a motion is seconded, it shall be stated by the presiding officer before debate, and every such motion shall be reduced to writing, if required by a member, and the proposer of the motion shall be entitled to the floor.

1918/19

RULE 18. After a motion or resolution is stated by the presiding officer, it shall be deemed to be in possession of the Council, but may be withdrawn at any time before decision or amendment, by consent of the Council.

RULE 19. If any question under consideration contains several distinct propositions, the Council by a majority vote of the members present may divide such question.

RULE 20. In all cases where a resolution or motion is entered on the Journal of the Council, the name of the member moving the same shall be entered also.

Taking and Entering Vote.

RULE 21. If any member require it, the yeas and nays upon any question shall be taken and entered on the Journal; but the yeas and nays shall not be taken unless called for previous to any vote on the question.

RULE 22. The result of all votes by yeas and nays shall not be announced by the Clerk, but shall be handed by him to the Chairman for announcement, and no vote shall be changed after the tally list has passed from the hands of the Clerk.

Precedence of Questions.

RULE 23. When a blank is to be filled, and different sums or times proposed, the question shall be taken first on the least sum or the longest time.

RULE 24. When a question is under debate, the only motions in order shall be: 1, to adjourn to a day certain; 2, to adjourn; 3, to lay on the table; 4, the previous question; 5, to refer; 6, to amend; 7, to substitute; 8, to postpone indefinitely or to a day certain; Nos. 2, 3 and 4 to be decided without debate.

Adjournment.

RULE 25. A motion to adjourn the Council shall always be in order, except: 1, when a member is in possession of the floor; 2, while the yeas and nays are being called; 3, when the members are voting; 4, when adjournment was the last preceding motion, and 5, when it has been decided that the previous question shall be taken.

RULE 26. A motion simply to adjourn shall not be subject to amendment, but a motion to adjourn to a time certain shall be, and shall be subject to debate.

RULE 27. The Council may at any time adjourn over one or more regular meetings, on a vote of a majority of all the Aldermen authorized by law to be elected.

Previous Question.

RULE 28. When the previous question is moved and seconded it shall be put in this form: "Shall the main question now be put?" If such question be carried, all further amendments and all further motions and debate shall be excluded, and the question put without delay, upon the pending amendments in proper order, and then upon the main question.

To Lay on the Table.

RULE 29. A motion to simply lay a question on the table shall not be debatable; but a motion to lay on the table and publish, or any other condition, shall be subject to amendment and debate.

A motion to take any motion or other proposition from the table may be proposed at the same meeting at which such motion or proposition was laid upon the table, provided two-thirds of the Aldermen vote therefor.

RULE 30. A motion to lay any particular motion or proposition on the table shall apply to that motion or proposition only.

Indefinite Postponement.

RULE 31. When consideration of a motion or other proposition is postponed indefinitely, it shall not be again taken up at the same meeting.

To Refer.

RULE 32. A motion to refer to a standing committee shall take precedence over a similar motion to refer to a select committee.

To Amend.

RULE 33. A motion to amend an amendment shall be in order, but one to amend an amendment to an amendment shall not be entertained.

RULE 34. An amendment modifying the intention of a motion shall be in order; but an amendment relating to a different subject shall not be in order.

RULE 35. On an amendment to "strike out and insert," the paragraph to be amended shall first be read as it stands, then the words proposed to be stricken out, then those to be inserted and finally, the paragraph as it will stand if so amended shall be read.

To Substitute.

RULE 36. A substitute for any original proposition in debate may be entertained when further amendment is not admissible; and if accepted by the mover of such original proposition, or by the Council by vote, it shall entirely supersede such original proposition and cut off all amendments appertaining thereto.

Reconsideration.

RULE 37. A vote or question may be reconsidered at any time during the same meeting, or at the first regular meeting held thereafter. A motion for reconsideration having been once made, and decided in the negative, shall not be renewed, nor shall a vote to reconsider be reconsidered.

RULE 38. A motion to reconsider must be made and seconded by members who voted on the prevailing side of the question to be reconsidered, unless otherwise provided by law; provided, however, that where a motion is lost only by reason of its not having received a two-thirds or three-fourths vote required for its passage, a motion to reconsider may be made and seconded by those voting in the affirmative on such motion.

Precedence of Business.

RULE 39. The City Council shall at all regular meetings resume business at the same order on which it was engaged immediately preceding the last adjournment with the exception of orders Nos. 1, 2, 3, 4 and 5 of Rule 2, which shall be called and disposed of before resuming business as herein provided.

RULE 40. The following shall be the standing com-

538481

mittees of the City Council and the membership thereof:

1. On Finance; 15 members.
2. On Local Transportation; 17 members.
3. On Gas, Oil and Electric Light; 17 members.
4. On Harbors, Wharves and Bridges; 15 members.
5. On Local Industries; 15 members; seven members to be selected from the West Side wards, five from the South Side wards, and three from the North Side wards.
6. On Judiciary; 17 members.
7. On Streets and Alleys; 15 members: seven members to be selected from the West Side wards, five from the South Side wards, and three from the North Side wards.
8. On License; 15 members.
9. On Buildings and City Hall; 15 members.
10. On Schools, Fire, Police and Civil Service; 15 members.
11. On Public Health; 15 members.
12. On Railway Terminals; 15 members.
13. On Compensation; 9 members.
14. On Track Elevation; 9 members.
15. On Parks, Playgrounds and Beaches; 15 members, including nine Aldermen to be selected by the Council, and six other citizens of Chicago, to be appointed by the Mayor to act in an advisory capacity.
16. Committee on Home Defense; 9 members.

RULE 41. The Committee on Parks, Playgrounds and Beaches shall act in conjunction with the Mayor in all matters pertaining to small parks, playgrounds and bathing beaches.

Select Committees.

RULE 42. On the acceptance of a final report from a select committee, the said committee shall be discharged without a vote, unless otherwise ordered.

Jurisdiction of Committees.

RULE 43. All matters relating exclusively to streets and alleys, taxation and street nomenclature shall be referred to the Committee on Streets and Alleys, provided, that all applications for switch tracks and for street or alley vacations for industrial purposes shall be referred to the Committee on Local Industries.

All matters relating exclusively to state legislation, elections and rules, shall be referred to the Committee on Judiciary.

All matters relating exclusively to the water supply shall be referred to the Committee on Finance.

All matters relating to bathing beaches and recreation piers, shall be referred to the Committee on Parks, Playgrounds and Beaches.

All matters authorizing or granting private uses or special privileges in any street, alley, public dock, pier or other public ground, or providing for the vacation thereof, excepting franchises for public utilities, shall be referred by the respective committees to which they have been referred for consideration, to the Committee on Compensation for the purpose of fixing the amount of compensation to be paid before such matters are reported to this Council by said committees.

The principal duty of the Committee on Home Defense shall be to co-operate and confer with the State Council of Defense, State Food Administrator, State Fuel Administrator and such other officials as deal or will deal with similar subjects, for the purpose of devising plans and programs to aid and assist in food production, distribution, conservation and regulation and in supplementing the efforts of state and national officials in limiting retailers' prices and profits, and further to obtain adequate qualities and quantities of foods, supplies and materials for Chicago and its citizens, so that a Chicago consumer may get the benefit at once of any assistance it may be able to give, and to confer and co-operate with the State Council of Defense and Federal Government in all matters relating to the protection of life and property in the City of Chicago.

Committee Meetings—Attendance of Aldermen.

RULE 44. Unless in cases of emergency, committee meetings shall be called at least twenty-four hours prior to the time of the meetings, and each member shall attend promptly at the hour stated in the notice, and three consecutive violations of this rule shall subject the offender to removal from the committee by the President of the Council.

The City Clerk shall keep an accurate and complete record of attendance of all Council Committee sessions called, whether a quorum is present or not, and shall submit to the Council a semi-annual report on the first meeting after the summer vacation and the last meeting in March of each year, showing the number of committee meetings called, the number held, the number not held because of lack of a quorum, the number of opportunities each Alderman had for attending committee meetings and the percentage of his attendance based upon the number of meetings called; provided, that whenever an Alderman shall have been absent from a committee meeting, or committee meetings, by virtue of an appointment by the Mayor or the City Council to absent himself from the city on business for the City of Chicago, and he shall notify the City Clerk of the time of his departure from the city by virtue of said appointment, and shall report to the City Clerk upon his return to the city, the City Clerk shall not take into consideration the meetings of committees of which such Alderman is a member held during his absence from the city for the purpose of computing the percentage of committee attendance of such Alderman; and provided that when an Alderman is present at a regularly called meeting and due at another regularly called meeting at the same hour, the City Clerk shall take into consideration but one of said meetings in computing the percentage of committee attendance of such Alderman, and the City Clerk shall, when presenting his report of attendance at committee meetings, include in such report the causes of non-attendance of any Alderman at any committee meeting.

A meeting of all chairmen of the various Council Committees shall be held, to be called by the Chairman of the Finance Committee, after the selection of Council Committees, for the purpose of setting the day and hour of meetings of such committees throughout the term of the Council. Except in cases of emergency the

schedule so adopted shall be complied with and a copy of such schedule shall be posted by the City Clerk in a conspicuous place in the corridor adjoining the rooms provided for committee meetings.

Reference of Matters to Committees.

RULE 45. All ordinances, petitions, resolutions, orders and communications to the Council shall, unless by unanimous consent, be referred to appropriate committees, to be decided by the Chair, and only acted upon by the Council at a subsequent meeting, on the report of the committee having the same in charge.

RULE 46. All appointments in which Council concurrence is necessary shall lie over for one week or until the next meeting of the City Council.

RULE 47. When two or more committees are called, the Council shall decide to which committee the subject matter shall go.

Reports of Committees.

RULE 48. Standing and select committees, to whom references are made, shall in all cases report in writing at least once in each month (unless further time is granted by a vote of the Council) the state of facts with their opinion thereon. Minority reports may be received at the same time with the majority reports.

RULE 49. All reports of committees shall be addressed: "To the Mayor and Aldermen of the City of Chicago in City Council Assembled:". They shall briefly describe the matter referred, and the conclusion to which the committee has arrived; which conclusion shall be summed up in the form of an ordinance, order, resolution, recommendation or some other distinct proposition; and such reports may be presented to the Council by the chairmen of the committees during the call of the wards, when the wards they respectively represent are reached.

Records of Proceedings of Committees.

RULE 50. Each committee of the City Council shall cause to be kept a record of its proceedings; and whenever a roll call is had by any such committee, such record shall plainly indicate the vote of each member thereof. These records shall be filed in the office of the City Clerk and shall be open to public inspection.

General Provisions Concerning Ordinances.

RULE 51. All ordinances for the vacation of streets, alleys or other public property in the City of Chicago shall contain, in addition to the legal description of the property sought to be vacated by such ordinances, the popular description of the property, giving in the case of a lot the street number, in the case of an alley the names of the streets surrounding the block or blocks in which such alley is located and in the case of a street the names of the two nearest intersecting cross streets. Said legal and popular description and the name of the beneficiary or beneficiaries shall be printed in the Journal of the Council proceedings of the meeting at which any such ordinance is introduced.

Before any vacation ordinance is finally acted upon by the Council the legal description of the property sought to be vacated shall be verified by the City's Bureau of Maps and Plats.

All ordinances amending any section of the Code of Chicago or any general or special ordinance of the city shall be so printed in the Council Journal that the change made in the original ordinance shall be shown in italics in the event that sentences, phrases or provisions are added to the original ordinance.

All ordinances approved by standing committees of the Council shall, immediately upon such approval, be published in pamphlet form by the City Clerk for distribution and shall be published by a sufficiently identifying caption in the Council Journal until after the final passage of said ordinance or ordinances by the City Council, when they shall be published in full.

All ordinances granting rights in streets to public utility corporations which relate to or include within their provisions anything concerning the vacation, closing, opening, crossing otherwise than on the surface or undermining of streets or alleys shall, after the same have been approved by the special or standing committee of the council to which they were referred, and after having been deferred and published, and on being called up for final passage, be considered section by section; and no such ordinance shall be passed unless it has attached thereto as a part of same a complete and adequate map or plat showing in detail how the streets and alleys involved will be affected thereby.

All ordinances (except those emanating from the Board of Local Improvements) which are submitted to the City Council for action shall be presented in duplicate.

RULE 52. The rules of parliamentary practice comprised in "Robert's Rules of Order" shall govern the Council in all cases to which they are applicable, and in which they are not inconsistent with the standing rules of this Council.

Suspension, Etc., of Rules.

RULE 53. These rules may be temporarily suspended by a vote of four-fifths of all the Aldermen elected and shall not be repealed, altered or amended unless by concurrence of two-thirds of all the Aldermen entitled by law to be elected.

Sergeant-at-Arms.

RULE 54. There shall be elected by ballot, by the members of the Council, a Sergeant-at-Arms of this Council, who shall preserve order, obey the directions of the City Council and perform all duties usually appertaining to the office of Sergeant-at-Arms of deliberative assemblies. Said Sergeant-at-Arms shall have power to appoint such number of assistants as he my deem necessary, for any length of time, not exceeding twenty-four hours at any one time; provided, that such Sergeant-at-Arms shall be removable at the will of the Council by resolution duly adopted.

Censure.

RULE 55. Any member acting or appearing in a lewd or disgraceful manner, or who uses opprobrious, obscene or insulting language to or about any member of the City Council, or who does not obey the order of the Chair, shall be, on motion, censured by a majority vote of the members present, or expelled by a two-thirds vote of all members elected. In case of censure, the Sergeant-at-Arms, his assistants, or any person acting under direction of the Chair, shall cause the member censured to vacate his seat and come before the bar of the Council and receive censure from the Chair.

Floral Displays.

RULE 56. Floral displays or decorations shall not be permitted in the Council Chamber during the session of the Council.

Soliciting of Passes and Other Favors.

RULE 57. No member of this Council shall solicit or accept any pass or discriminatory or preferential rate or charge from any railroad or other public service corporation.

No member of this Council shall request or direct any city employee to solicit any such pass or discriminatory or preferential rate for the said Alderman or for any other purpose.

No member of this Council shall solicit, either for himself or for any other person, employment with any railroad or public service corporation operating in the City of Chicago.

RULE 58. The Council shall not permit the general collection of funds for charity upon the city streets in the manner commonly called "Tag Day," in which emblems are used or flowers or other merchandise sold, the possession of which indicates those who have contributed, except twice annually, such "Tag Days" to be at least five months apart.

One of the aforesaid "Tag Days" shall be for the sole benefit of children's charities and shall be under the auspices of the Chicago Childrens' Benefit League. The other "Tag Day" shall be for the benefit of adult charities and shall be granted only to a Federation of Charities organized along the general lines of the Chicago Children's Benefit League and not without the recommendation of the Committee on Finance of the City Council.

In each case the list of charities to be beneficiaries shall be submitted to the Committee on Finance and approved by that committee before the Council shall designate a "Tag Day."

Election of Standing Committees.

By unanimous consent, Ald. Richert presented a list of proposed members of standing committees for the year 1918-1919, which was read by the Clerk.

Ald. Richert moved that each standing committee be composed of the members specified on said list, for the year 1918-1919, and that the first-named Alderman under each committee act as the chairman of such committee.

Hospitals, Homes and Day Nurseries: Construction Requirements (Amendments).

The Clerk presented the following communication submitted by the Commissioner of Buildings, which was, together with the amendments transmitted therewith, referred to the Committee on Public Health:

DEPARTMENT OF BUILDINGS,
CHICAGO, April 18, 1918.

To the Honorable, the Mayor, and the City Council:

Gentlemen—I am submitting herewith a form of proposed amendments to Section 1215 and Section 1229 of the Chicago Code of 1911, having to do with matters of construction requirements in buildings used for hospitals, homes and day nurseries.

These amendments supplement the amendments submitted by this Department on March 1, 1918, which were printed as a part of Pamphlet No. 850, on the subject matter of hospitals, homes and day nurseries.

I would respectfully request that you give this matter your early and your favorable consideration.

Respectfully yours,

(Signed) CHAS. BOSTROM,
Commissioner of Buildings.

DEPARTMENT OF PUBLIC WORKS.

Vacations of Justine St., Laflin St. and Adjacent Alleys (Amendment).

The Clerk presented the following communication submitted by the Commissioner of Public Works, which was, together with the ordinance submitted therewith, referred to the Committee on Local Industries:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, April 22, 1918.

To the Honorable, the Mayor, and City Council:

Gentlemen—I transmit herewith an ordinance providing for the vacation of Justine street, Laflin street and S. Bishop street, and the alleys in the blocks lying between Ashland avenue and Loomis street, 119th street and 120th street, for the benefit of the International Harvester Corporation.

The streets and alleys in question were vacated by the International Harvester Corporation in 1911 under the Statutes, which vacation was declared invalid by the Corporation Counsel.

The International Harvester Corporation now has plans for the construction of a tractor plant at this location which is adjoining their Plano Works, and as a result of negotiations between the Bureau of Compensation and the Company, it has signified its willingness without waiving any legal rights in the matter to pay the customary compensation in the event that the Council will pass an ordinance vacating the streets and alleys.

Yours very truly,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

Superintendent of Compensation.

St. Hedwig's Industrial School for Girls and Polish Manual Training School for Boys: Connection of Sewer System with the City's Sewer in Harlem Av.

The Clerk presented the following communication submitted by the Commissioner of Public Works, which was, together with the form of agreement submitted therewith, referred to the Committee on Public Health:

DEPARTMENT OF PUBLIC WORKS,
CHICAGO, April 17, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Gentlemen—The St. Hedwigs' Industrial School for Girls and the Polish Manual Training School for Boys occupy property belonging to the Catholic Bishop of Chicago, located on the east side of Harlem avenue south of Park Ridge boulevard just outside of the city limits.

These schools have been drained and sewered easterly through the Village of Niles to the North Branch of the Chicago River. Because of the consequent pollution of the river, the Village of Niles requires these schools to provide other sewage facilities.

The City of Chicago has recently built a sewer in Harlem avenue near the schools. It is entirely practicable for the schools to install a pump and sewers and to discharge this sewage into the city sewers. The trustees of the schools and the Caholic Bishop of Chicago desire permission to do this.

Within the city limits on the west side of Harlem avenue opposite the schools is a tract of land, about 30 acres in area, which is too low to drain by gravity into the city sewer in Harlem avenue. The city desires permission from the trustees of the schools and the Catholic Bishop of Chicago to drain this land and its surface water across the lands of the schools, and to construct sanitary sewers to serve this low lying tract, and to connect with the pumps and sewers which are to serve the schools.

A form of contract has been drawn up which gives to the trustees of the schools and the Catholic Bishop of Chicago the desired permission to connect their

system of sewers with the city sewer and which also provides for the drainage and sewerage of the low lying tract of land within the city limits.

This form of contract is transmitted herewith, with the request that proper ordinance be drawn and passed by the City Council authorizing the proper officials of the City of Chicago to sign this contract.

Yours very truly,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

Dated, Chicago, April 22, A. D. 1918.

ESTIMATE OF ENGINEER.

To the Board of Local Improvements of the City of Chicago, and to the Mayor and Aldermen of the City of Chicago, in City Council Assembled:

The Board of Local Improvements of the City of Chicago, having adopted a resolution that the roadways of a system of streets as follows, to wit: North Latrobe avenue from the northerly line of West Grand avenue to the south line of Fullerton avenue; North Lockwood avenue from the northerly line of West Grand avenue to the south line of Fullerton avenue; North Long avenue from the northerly line of West Grand avenue to the south line of Fullerton avenue; Dickens avenue from the west line of North Laramie avenue to the east line of North Lockwood avenue; Palmer street from the west line of North Laramie avenue to the east line of North Long avenue; Belden avenue from the west line of North Laramie avenue to the east line of North Long avenue, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described (except the intersections of North Lorel avenue with Belden avenue and with Palmer street), be improved by adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick manhole and new brick catchbasins complete, constructing a tile pipe sewer in Palmer street, constructing a granite concrete combined curb and gutter on cinders, gravel or sand, grading and paving with asphalt on six inches of Portland cement concrete, swept with natural hydraulic cement, and presented to the City Council of the City of Chicago, a recommendation that such local improvement be made. I hereby submit an estimate of the cost of such improvement, including labor and materials, viz:

Granite concrete combined curb and gutter on cinders, gravel or sand, 20,300 lineal feet at 95c	$ 19,285.00
Grading 16,850 cubic yards at $2.00	33,700.00
Paving with asphalt on six inches of Portland cement concrete, swept with natural hydraulic cement, 31,600 square yards at $2.60	82,160.00
Constructing a 10-inch tile pipe sewer, 25 lineal feet at $3.00	75.00
Constructing 88 new brick catchbasins complete at $75.00	6,600.00
Constructing 1 new brick manhole complete	65.00
Adjusting sewer manholes and catchbasins, and constructing and connecting catchbasin inlets	9,544.00
Deficiency in interest on the assessment, cost of making, levying and collecting said assessment, and lawful expenses attending the making of said improvement	7,571.00
Total	$159,000.00

And I hereby certify that in my opinion the above estimate does not exceed the probable cost of the above proposed improvement and the lawful expenses attending the same.

(Signed) C. D. HILL,
Engineer of the Board of Local Improvements.

Dated, Chicago, April 22, A. D. 1918.

AN ORDINANCE

For the improvement—adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick manhole and new brick catchbasins complete, constructing a tile pipe sewer in Palmer street, constructing a granite concrete combined curb and gutter, grading and paving—of the roadways of a system of streets as follows, to wit: North Latrobe avenue, from the northerly line of West Grand avenue to the south line of Fullerton avenue; North Lockwood avenue, from the northerly line of West Grand avenue to the south line of Fullerton avenue; North Long avenue, from the northerly line of West Grand avenue to the south line of Fullerton avenue; Dickens avenue, from the west line of North Laramie avenue to the east line of North Lockwood avenue; Palmer street, from the west line of North Laramie avenue to the east line of North Long avenue; Belden avenue, from the west line of North Laramie avenue to the east line of North Long avenue, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described (except the intersections of North Lorel avenue with Belden avenue and with Palmer street), in the City of Chicago, County of Cook and State of Illinois.

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That a local improvement shall be made within the City of Chicago, County of Cook and State of Illinois, the nature, character, locality and description of which local improvement is as follows, to wit:

That the roadway of North Latrobe avenue from the northerly line of West Grand avenue to the south line of Fullerton avenue, also the roadway of North Lockwood avenue from the northerly line of West Grand avenue to the south line of Fullerton avenue, also the roadway of North Long avenue from the northerly line of West Grand avenue to the south line of Fullerton avenue, also the roadway of Palmer street from the west line of North Laramie avenue to the east line of North Long avenue, also the roadway of Belden avenue from the west line of North Laramie avenue to the east line of North Long avenue, the width of each of said roadways being hereby established at thirty (30) feet, also the roadway of Dickens avenue from the west line of North Laramie avenue to the east line of North Lockwood avenue, the width of said roadway being hereby established at twenty (20) feet, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points hereinbefore described, except as hereinafter specifically provided, be and the same are hereby ordered improved as follows:

A tile pipe sewer of ten (10) inches internal diameter shall be constructed in Palmer street along the center line thereof from and connecting with the sewer in North Latrobe avenue to the west line of North Latrobe avenue. The bottom of the inside of said sewer at its connection with the sewer in North Latrobe avenue shall be at an elevation of twenty-eight and two-tenths (28.2) feet above Chicago city datum as established by the City Council of the City of Chicago, and thence shall

rise gradually to an elevation of twenty-nine and five-tenths (29.5) feet above said Chicago city datum at the west line of North Latrobe avenue.

One (1) new brick manhole shall be built upon said sewer and located at a necessary point. Said manhole shall be cylindrical in shape and shall have an internal diameter of three (3) feet. The invert of the sewer through the manhole shall be built of two (2) rings of sewer brick, and on each side thereof shall be built a solid sewer brick foundation twelve (12) inches thick, making the entire foundation four (4) feet and six (6) inches in diameter. The wall of said manhole shall be eight (8) inches thick and shall be built of sewer brick, and the top of said manhole shall narrow to two (2) feet internal diameter, being drawn in by means of six (6) header courses, the diameter being decreased two (2) inches for each course.

Said manhole shall be provided with a suitable cast-iron cover with a tight lid, which cover, inclusive of lid, shall weigh five hundred and forty (540) pounds. Said cast-iron cover shall be set so that the top of the same shall coincide with the finished surface of the pavement hereinafter described.

The tile pipe used throughout said improvement shall be straight, smooth and sound, thoroughly burned, well glazed and free from lumps and other imperfections, and seven-eighths (⅞) of an inch thick.

All brick and the joints of the tile pipe above referred to shall be laid with the best quality of natural hydraulic cement mortar, composed of one (1) part natural hydraulic cement and two (2) parts clean, sharp sand.

A granite concrete combined curb and gutter shall be constructed on each side of the roadway of each of said above specified streets between the points hereinbefore described (except the intersections of North Lorel avenue with Belden avenue and with Palmer street and except across the roadways of all other intersecting streets, and also except across the roadways of all intersecting alleys between the points hereinbefore described) in such a manner that the roadway face of the curb shall be parallel with and fifteen (15) feet from the center line of said North Latrobe avenue, said North Lockwood avenue, said North Long avenue, said Palmer street and said Belden avenue and in such a manner that the roadway face of the curb shall be parallel with and ten (10) feet from the center line of said Dickens avenue, between the points hereinbefore described; and a granite concrete combined curb and gutter shall be constructed on each side of the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points hereinbefore described (except the intersections of North Lorel avenue with Belden avenue and with Palmer street) in such a manner that the roadway face of the curb shall conform with the curb line produced on each side of all said intersecting streets and in such a manner that the back of the curb shall conform with the alley line produced on each side of all said intersecting alleys, between the points hereinbefore described.

Said combined curb and gutter shall be made as follows, to wit:

The concrete to be used shall consist of the best quality of Portland cement mixed with fine crushed granite in the proportion of one (1) part cement and two (2) parts fine granite, into which shall be incorporated four (4) parts of broken granite of varying sizes which will pass through a ring of one and one-half (1½) inches internal diameter and be held on a ring of one-fourth (¼) of an inch internal diameter. The cement shall be mixed thoroughly with fine crushed granite, after which it shall be moistened with water to form a mortar and into which shall be incorporated the four (4) parts of broken granite as specified above and rammed into forms until solid.

The material to be used in finishing the surface of said combined curb and gutter shall consist of the best quality of Portland cement mixed with finely crushed granite in the proportion of two (2) parts cement and three (3) parts granite, which, after being moistened with water to form a mortar, shall be evenly spread over the top and roadway face of the curb to a thickness of one-fourth (¼) inch, and over the surface of the gutters to a thickness of one (1) inch, so as to insure a smooth and even surface on the exposed surfaces of the combined curb and gutter after being evenly trowelled and finished with a broom.

The curb shall be seven (7) inches thick and the height at the back shall vary from eighteen (18) inches at the catchbasin inlets to eleven (11) inches at the summits, and the gutter shall be twelve (12) inches in width and eight (8) inches in thickness. The upper roadway edge of the curb shall be rounded to an arc of a circle having a radius of one and one-half (1½) inches.

Said combined curb and gutter shall be constructed upon a bed of cinders, gravel or sand three (3) inches in depth after being flooded with water and thoroughly compacted to an even surface, and said combined curb and gutter shall be backfilled with earth, free from animal or vegetable matter, said filling to be four (4) feet wide at the top of the curb and even therewith and shall slope down at the rate of one and one-half (1½) feet horizontal to one (1) foot vertical.

Said combined curb and gutter shall be so constructed that the upper surface of the gutter shall conform to the surface of the finished roadways as hereinafter described, and the top edge of the curb on each side of the roadway of each of said above-specified streets shall be at the elevation of straight lines connecting the several points at the elevations hereinafter described, and the top edge of the curb on each side of the roadways of all intersecting streets extended from the curb line to the street line produced on each side of each of said above specified streets shall be at the elevation of said intersecting streets hereinafter described; and the top edge of the curb on each side of the roadways of all intersecting alleys extended from the curb line to the street line produced on each side of each of said above-specified streets shall rise from the curb line to the street line produced at the rate of one (1) inch vertical to three (3) feet horizontal from the elevation of the curb of said above-specified streets between the points hereinbefore described, which elevations shall be as follows, to wit:

At the intersection of Belden avenue with North Laramie avenue, 36.00 feet above datum.

At the intersection of Palmer street with North Laramie avenue, 34.00 feet above datum.

At the intersection of Dickens avenue with North Laramie avenue, 34.00 feet above datum.

At the intersection of Fullerton avenue with North Latrobe avenue, 35.50 feet above datum.

At the intersection of Belden avenue with North Latrobe avenue, 36.50 feet above datum.

At the intersection of Palmer street with North Latrobe avenue, 35.50 feet above datum.

At the intersection of Dickens avenue with North Latrobe avenue, 35.00 feet above datum.

At the intersection of West Grand avenue with North Latrobe avenue, 35.00 feet above datum.

At the intersection of Fullerton avenue with North Lockwood avenue, 36.00 feet above datum.

At the intersection of Belden avenue with North Lockwood avenue, 36.00 feet above datum.

North Lockwood avenue, 250 feet north of Palmer street, 38.50 feet above datum.

At the intersection of Palmer street with North Lockwood avenue, 36.80 feet above datum.

At the intersection of Dickens avenue with North Lockwood avenue, 36.50 feet above datum.

At the intersection of West Grand avenue with North Lockwood avenue, 36.50 feet above datum.

At the intersection of Belden avenue with North Lorel avenue, 36.00 feet above datum.

At the intersection of Palmer street with North Lorel avenue, 36.80 feet above datum.

At the intersection of Fullerton avenue with North Long avenue, 37.50 feet above datum.

At the intersection of Belden avenue with North Long avenue, 36.80 feet above datum.

At the intersection of Palmer street with North Long avenue, 37.00 feet above datum.

North Long avenue at the alley first north of West Grand avenue, 37.00 feet above datum.

At the intersection of West Grand avenue with North Long avenue, 37.50 feet above datum.

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadways of the several streets specified above between the points hereinbefore described, and also the roadways of all streets and alleys intersecting the several streets specified above and extending from the curb line to the street line produced on each side of each of said above-specified streets between the points hereinbefore described, (except the intersections of North Lorel avenue with Belden avenue and with Palmer street), shall be so graded that after being thoroughly puddled and rolled with a roller of ten (10) tons weight until the roadbeds are thoroughly compacted and after the pavement hereinafter described shall have been placed thereon, the surface of the pavement at the center of the finished roadway of each of said above-specified streets, and the center of the finished roadways of all intersecting streets extended from the curb line to the street line produced on each side of each of said above-specified streets, shall be at the elevation of the top of the curbing hereinbefore described; and the surface of the finished roadways at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and the surface of the finished roadways at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be ten (10) inches below the top of said curbing.

The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets, and a transverse section of the finished surface of the pavement shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadways, at every part of the roadway of each of said above-specified streets, and at every part of the roadways of all streets intersecting the several streets specified above, between the points hereinbefore described.

In all intersecting alleys hereinbefore specified at the street lines produced of said above-specified streets, the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway of said alleys shall be three (3) inches below the top of the curbing, and a transverse section of the finished surface of the pavement at the street lines produced of said above-specified streets shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadways. The surface of the said pavement thence shall slope gradually to meet the gutters hereinbefore specified.

Upon the roadbeds thus prepared between said points and between said gutters shall be spread a layer of Portland cement concrete six (6) inches in thickness. Said cement shall be so ground that ninety-two (92) per cent will pass through a standard number one hundred (100) sieve having ten thousand (10,000) meshes per square inch.

Briquettes made from a mortar composed of one (1) part said Portland cement and three (3) parts torpedo sand, or three (3) parts of limestone screenings, free from dirt, dust and other impurities, exposed to the air for one (1) day and immersed in water for six (6) days, shall develop an ultimate tensile strength of two hundred (200) pounds per square inch.

One (1) part cement which shall stand the above test and comply with the above requirements, and three (3) parts of torpedo sand, or three (3) parts of limestone screening, free from dirt, dust and other impurities, shall be thoroughly mixed dry and then made into a mortar with the least possible amount of water.

Six (6) parts of the best quality of slag, limestone, or other stone which shall be equal in quality for concrete purposes, of a size that will pass through a ring of two (2) inches internal diameter and be held on a ring of one half (½) inch internal diameter, all of which slag or stone shall be thoroughly cleaned, free from all foreign substances and drenched with water, shall then be incorporated immediately with the mortar. Each batch of concrete shall be thoroughly mixed and at once spread upon the surface of said roadbeds and thoroughly compacted by ramming until free mortar appears on the surface. The surface of said layer of concrete shall be parallel with and three and one-half (3½) inches below the top of the finished pavement.

Upon the concrete foundation as above specified shall be laid a binder course, composed of asphaltic cement and gravel or clean broken limestone crusher run and of varying sizes which will pass through a ring of one (1) inch internal diameter.

The gravel or stone shall be heated and thoroughly mixed with the asphaltic cement in the proportions of six (6) parts by weight of asphaltic cement and ninety-four (94) parts by weight of gravel or stone. This binder shall be spread on the base above described, and while in a hot and plastic condition shall be rolled until it has a uniform thickness of one and one-half (1½) inches. The upper surface shall be exactly parallel with and two (2) inches below the finished surface of the pavement.

Upon this binder course shall be laid a wearing surface or pavement proper, which shall be composed of asphaltic cement seventeen (17) parts, sand seventy-three (73) parts, and pulverized carbonate of lime or pulverized silica ten (10) parts. The sand and asphaltic cement shall be heated separately to a temperature of three hundred (300) degrees Fahrenheit. The pulverized carbonate of lime or the pulverized silica shall be mixed with the sand and these ingredients then mixed with the asphaltic cement at the above temperature in an apparatus which shall effect a perfect mixture.

The material for pavement when mixed as above shall be spread at a temperature of two hundred and fifty (250) degrees Fahrenheit. It shall be carefully spread by means of hot iron rakes in such manner as to give uniform and regular grade to such a depth, that after having received its ultimate compression it will have a thickness of two (2) inches.

The entire surface of the roadways thus improved shall then be compressed by hand rollers, after which natural hydraulic cement in the proportion of one (1) barrel to each one thousand (1,000) square yards of surface shall be swept over it, and the whole then thoroughly compressed by rolling with a steam roller of ten (10) tons weight, the rolling being continued for five (5) hours for each one thousand (1,000) square yards of surface.

All asphaltum used in the making of the asphaltic cement for both the binder and the wearing surface shall be asphaltum obtained from Pitch Lake in the Island of Trinidad, or asphaltum which shall be equal in quality for paving purposes to that obtained from Pitch Lake in the Island of Trinidad.

Sixteen (16) new brick catchbasins shall be constructed and trapped and connected with the sewer in North Latrobe avenue and located in the roadway of said North Latrobe avenue at necessary points, adjacent to the curb lines of said North Latrobe avenue.

Twenty-two (22) new brick catchbasins shall be constructed and trapped and connected with the sewer in North Lockwood avenue and located in the roadway of said North Lockwood avenue at necessary points, adjacent to the curb lines of said North Lockwood avenue.

Twenty (20) new brick catchbasins shall be constructed and trapped and connected with the sewer in North Long avenue and located in the roadway of said North Long avenue at necessary points, adjacent to the curb lines of said North Long avenue.

Four (4) new brick catchbasins shall be constructed and located in the roadway of Dickens avenue at necessary points, adjacent to the curb lines of said Dickens avenue, two (2) of said catchbasins to be trapped and connected with the sewer in North Laramie avenue and two (2) to be trapped and connected with the sewer in North Latrobe avenue.

Twelve (12) new brick catchbasins shall be constructed and located in the roadway of said Palmer street at necessary points, adjacent to the curb lines of said Palmer street, two (2) of said catchbasins to be trapped and connected with the sewer in North Long avenue, four (4) to be trapped and connected with the sewer in North Lorel avenue, two (2) to be trapped and connected with the sewer in North Lockwood avenue, two (2) to be trapped and connected with the sewer in North Latrobe avenue and two (2) to be trapped and connected with the sewer in North Laramie avenue.

Fourteen (14) new brick catchbasins shall be constructed and located in the roadway of Belden avenue at necessary points, adjacent to the curb lines of said Belden avenue, four (4) of said catchbasins to be trapped and connected with the sewer in North Lorel avenue, four (4) to be trapped and connected with the sewer in North Lockwood avenue, four (4) to be trapped and connected with the sewer in North Latrobe avenue and two (2) to be trapped and connected with the sewer in North Laramie avenue.

Each of said catchbasins shall be seven feet two inches deep, measuring from the top of the brickwork, and shall have an internal diameter of four feet at the bottom and to a plane five feet above and parallel therewith. The walls of said catchbasins shall be eight inches thick and shall be built of two courses of sewer brick laid edgewise in perpendicular courses, upon a floor of pine plank two inches in thickness. The top of each of said catchbasins shall decrease to two feet internal diameter, being drawn in by means of nine header courses, the diameter being decreased uniformly for each course.

Each of said catchbasins shall be connected with the sewer with tile pipe of eight inches internal diameter and shall be trapped with a half trap also of tile pipe of eight inches internal diameter. The said trap of each said catchbasins shall be set so that the elevation of the bottom of the inside of the same shall be three feet six inches above the floor of the catchbasin.

Each of said catchbasins shall be provided with a suitable cast-iron cover, each of which covers, inclusive of lid, shall weigh five hundred and forty pounds. Each of said cast-iron covers shall be set so that the top of the same shall coincide with the finished surface of the pavement herein described.

The tile pipe specified above shall be straight, smooth and sound, thoroughly burned, well glazed and free from lumps and other imperfections, and three-fourths of an inch thick.

All brick and the joints of the tile pipe above referred to shall be laid with the best quality of natural hydraulic cement mortar, composed of one part natural hydraulic cement and two parts clean, sharp sand.

The several sewer manholes and catchbasins located in said roadways shall be raised or lowered as may be necessary to make them conform to the finished surface of said pavement; and the several catchbasins located outside of said roadways shall be raised or lowered as may be necessary to make them conform to the elevations herein described. The several catchbasins located on the line of the curb shall be raised or lowered and adjusted as may be necessary to make them conform to the finished surface of said pavement, or to said elevations according to whether the major part of said catchbasin lies within or without the line of said curb.

Catchbasin inlets shall be constructed at necessary points in said gutters. The catchbasins not located in the gutters shall be connected with said inlets by means of tile pipe of eight (8) inches internal diameter laid with the best quality of natural hydraulic cement mortar, composed of one (1) part natural hydraulic cement and two (2) parts clean, sharp sand. Said tile pipe shall be straight, smooth and sound, thoroughly burned, well glazed, free from lumps and other imperfections, and three-fourths of an inch thick.

Said work to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

SECTION 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement together with the estimate of the cost thereof, including the lawful expenses attending the same, made by the engineer of said Board both hereto attached, be and the same are hereby approved.

SECTION 3. That said improvement shall be made and the cost thereof, including the lawful expenses attending the same, be paid by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled, "An Act Concerning Local Improvements," approved June 14th, A. D. 1897, and the amendments thereto and that of said special assessment, the sum of seven thousand five hundred and seventy-one ($7,571.00) dollars, not exceeding five (5) per centum of the amount of said assessment as finally determined after the completion of said improvement in accordance with Section 84 of said Act, shall be applied toward the payment of the cost of making, levying and collecting said special assessment, and of letting and executing contracts, advertising, clerical hire, engineering and inspection, court costs and deficiency in interest in the matter of said special assessment, in accordance with the provisions of said Act.

SECTION 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five per centum per annum according to law until paid.

SECTION 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement, bonds shall be issued payable out of said installments bearing interest at the rate of five per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements," approved June 14th, A. D. 1897, and the amendments thereto.

SECTION 6. That the Corporation Counsel be and is hereby directed to file a petition in the Circuit, Superior or County Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

SECTION 7. That all ordinances or parts of ordinances conflicting with this ordinance be and the same are hereby repealed.

SECTION 8. This ordinance shall be in force from and after its passage.

—

C. & W. I. R. R. Co. (Belt Railway Co. of Chicago, Lessee): Elevation of Tracks at W. 26th St. and S. Kenton Av.

The Mayor submitted the following veto message:

OFFICE OF THE MAYOR,
CHICAGO, May 6, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I return herewith, without my approval, an ordinance passed by Your Honorable Body and appearing on page 2575 requiring the Chicago & Western Indiana Railroad Company to elevate certain tracks at West 26th street and South Kenton avenue.

I withhold my approval of the said ordinance because I am advised by the Corporation Counsel that there is no plat attached to or made a part of the ordinance so as to locate the right of way or tell the number of tracks to be located at this street, and that this is absolutely necessary to properly safeguard the rights of the city.

I am also advised by the Corporation Counsel that Section 1 of said ordinance contains a blanket clause which gives to the said railway company the right to lay more tracks or rearrange the tracks to suit themselves without further permission of the city, and under which the railroad company could claim the right to lay tracks on all streets in this vicinity.

There are a number of other objections to this ordinance urged by the Corporation Counsel, and I therefore recommend that the vote by which this ordinance was passed be reconsidered and that the same be referred back to the Committee on Track Elevation for further investigation.

Yours respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Toman moved to reconsider the vote by which said ordinance, vetoed by His Honor the Mayor, was passed.

The motion prevailed.

Ald. Toman moved to recommit said ordinance to the Committee on Track Elevation.

The motion prevailed.

Veto.

—

C., R. I. & P. Ry. Co.: Extension of Time for Completion of Track Elevation Work under Ordinance of July 13, 1908.

The Mayor submitted the following veto message:

OFFICE OF THE MAYOR,
CHICAGO, May 6, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I return herewith, without my approval, an ordinance passed by Your Honorable Body and appearing on page 2582 of the Journal of the Proceedings of the City Council of April 22, 1918, granting to the Chicago, Rock Island & Pacific Railway Company an extension of time for the completion of work to be performed under the ordinance requiring the elevation of tracks of said company.

I withhold my approval of the said ordinance because I am advised that it is not for the best interests of the citizens of Chicago to longer extend the period of time in which the work required by the ordinance in question should be completed.

I also withhold my approval of the said ordinance for the reason that I am advised that the Chairman of the Committee on Track Elevation asked to have the said ordinance re-referred to the Committee on Track Elevation and not for the passage of the same.

I, therefore, recommend that the vote by which the said ordinance was passed be reconsidered and that the ordinance in question, together with this communication, be referred back to the Committee on Track Elevation for further investigation.

Yours respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Maypole moved to reconsider the vote by which said ordinance, vetoed by His Honor the Mayor, was passed.

The motion prevailed.

Ald. Maypole moved to recommit said ordinance to the Committee on Track Elevation.

The motion prevailed.

Veto.

—

Frankfust, Marchovitz and Levin: Glass Display Case.

The Mayor submitted the following veto message:

OFFICE OF THE MAYOR,
CHICAGO, May 6, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I return herewith, without my approval, an order passed by your Honorable Body at its last regular meeting directing the Commissioner of Public Works to issue a permit to Frankfust, Marchovitz and Levin to place a portable glass display case, 3 feet by 2 feet by 6 feet, adjacent to building at 515 North Clark street, for the reasons contained in the attached communication from the Commissioner of Public Works.

Yours respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

The following communication was submitted with the said veto message:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, May 2, 1918.

Hon. Wm. Hale Thompson, Mayor, City of Chicago:

DEAR SIR—Your attention is respectfully called to an order passed by the City Council at the last regular meeting, April 22, 1918, page 20 Council Proceedings, on motion of Ald. McCormick of the Twenty-first Ward, directing the Commissioner of Public Works to issue a permit to Frankfust, Marchovitz and Levin to place a portable glass display case, 3 feet by 2 feet by 6 feet, adjacent to building at 515 North Clark street.

No permits of this character have been issued for the past ten years and a number of similar orders have been vetoed from time to time. It is therefore suggested that said order be vetoed and referred to the Committee on Streets and Alleys for consideration.

Yours very truly,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

(Signed) H. V. MCGURREN,
Superintendent of Compensation.

Ald. Richert moved to reconsider the vote by which said order, vetoed by His Honor the Mayor, was passed.

The motion prevailed.

Ald. Richert moved to place said order on file.

The motion prevailed.

Hugh Norris: Appointment as Oil Inspector.

The Mayor presented the following communication:

OFFICE OF THE MAYOR,

Aliens: Repeal of Prohibition against Issuance of Licenses.

The Mayor presented the following communication:

OFFICE OF THE MAYOR,
CHICAGO, May 6, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I have been advised by His Excellency, the Governor of Illinois, that he has received a communication from the Honorable Robert Lansing, Secretary of State for the United States, with reference to an ordinance passed by Your Honorable Body on December 28, 1917, providing that no person shall be granted a license to conduct any business for which a license is required by the ordinances of the City of Chicago unless such person shall be a citizen of the United States or a declarant and recognized as such by the laws of the State of Illinois.

The Secretary of State in his communication to the Governor states that the enforcement of the ordinance in question would undoubtedly unfavorably affect the foreign relations of this Government, on account of Articles of treaties concluded by the Government of the United States with many foreign Governments, which contain provisions relating to certain rights and privileges of citizens or subjects of foreign countries in the United States, and that the enforcement of the ordinance would contravene the enforcement of treaties between the United States and other countries, and requests that prompt action be taken in order to prevent a happening of such conditions.

In a communication to Your Honorable Body on

April 22, 1918, Council Proceedings, page 2525, I directed the attention of Your Honorable Body to a complaint filed by the Consul for Switzerland in this city, and informed you that I was advised by the Corporation Counsel that "the ordinance" in question "is in violation of the terms of the treaty entered into between the Government of the United States and the Government of Switzerland; and that the Constitution of the United States provides (Article VI, Section 1, paragraph second):

"This constitution and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made under authority of the United States, shall be the supreme law of the land; and the judges in every state shall be bound thereby; anything in the constitution or laws of any state to the contrary notwithstanding.'"

I have been advised by the representatives of the Government of the United States that the United States of America has concluded treaties with China, Belgium, Bolivia, Brazil, Colombia, Japan, Denmark, and many other foreign Governments, which contain Articles relating to certain rights and privileges of citizens or subjects of foreign countries in the United States, and respectfully call the attention of Your Honorable Body to the fact that the ordinance in question contravenes Articles contained in said treaties, and for the City of Chicago to undertake to enforce the provisions of the ordinance in question might result in grave embarrassment to the Government of the United States in its dealing with other Governments.

I do not believe that it is the wish or desire of the members of Your Honorable Body to bring about any such undesirable condition, and as the subject is one that of necessity requires most careful consideration on the part of Your Honorable Body, I have directed the Corporation Counsel to prepare an ordinance repealing the ordinance passed by Your Honorable Body on December 28, 1917, and I recommend that the rules be suspended and the ordinance in question repealed so that Your Honorable Body, if you so desire, may have an opportunity to give this matter that careful and deliberate consideration that its importance most urgently demands.

Respectfully submitted,

(Signed) WM. HALE THOMPSON,
Mayor.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Schwartz moved to pass the ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Kerner, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Thos. J. Lynch—63.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That an ordinance passed December 28, 1917, and appearing on page 1801 of the Journal of the Proceedings of the City Council of said date, providing as follows:

"On and after May 1, A. D. 1918, no person shall be granted a license, or be given a free permit, to conduct any business for which a license is required by the ordinances of the City of Chicago unless such person shall be a citizen of the United States, or a declarant and recognized as such by the laws of the United States."

be and the same is hereby repealed.

SECTION 2. This ordinance shall be in full force and effect from and after its passage and approval.

Thereupon Ald. Kostner moved to refer said communication of the Mayor to the Committee on Home Defense.

The motion prevailed.

CITY CLERK.

Liberty Day (April 26, 1918): Proclamation.

The Clerk presented the following proclamation submitted by the Mayor, which was ordered published and placed on file:

OFFICE OF THE MAYOR,
CHICAGO, April 24, 1918.

PROCLAMATION.

WHEREAS, The President of the United States has officially designated Friday, April 26, as Liberty Day, and has called upon the people of the nation to honor this day by discontinuing their daily duties in the afternoon and devoting themselves to public patriotic observances in furtherance of the sale of Third Liberty Loan Bonds; and

WHEREAS, It is the duty and obligation of communities and citizens of this republic to render undivided allegiance to their government and give it unstinted financial aid, and to respond to the call of the President in every situation where the welfare of the nation is involved and support is needed; and

WHEREAS, The City Council of the City of Chicago has, by befitting resolutions recognized the significance of the observance of the day in question by the municipality;

Therefore, I, William Hale Thompson, Mayor of the City of Chicago, by virtue of the authority in me vested, do hereby declare and proclaim the afternoon of Friday, April 26, a holiday in this city, in accord with the purposes proclaimed by the President of the United States; and all departments of the city government except those that must remain open for the transaction of necessary business, are hereby ordered closed at one o'clock P. M., and the citizens of Chicago are earnestly appealed to to unite and exert their energy and enthusiasm in doing everything in their power to give patriotic aid to the cause of the government and the sale of Liberty Bonds, that the honor of Chicago may be

upheld, and its generosity and love for country liberally demonstrated through the over-subscription of its allottment of Third Liberty Loan Bonds.

(Signed) WM. HALE THOMPSON,
Mayor.

Children's Day (June 27, 1918): Proclamation.

The Clerk presented the following proclamation submitted by the Mayor, which was ordered published and placed on file:

OFFICE OF THE MAYOR,
CHICAGO, April 24, 1918.

PROCLAMATION.

WHEREAS, There are in the City of Chicago many poor children who, from force of circumstances, are compelled to act in the capacity of newsboys, etc., in order to eke out a meager existence, and

WHEREAS, It has been the usual custom during the last thirty-two years, through the benevolence of our newspapers and citizens in general, to give these children an outing picnic, and such an outing will be given this year under the auspices of the Volunteers of America, at Washington Park, and

WHEREAS, The 27th day of June has this year been selected as the day for holding said annual picnic,

Therefore, I, Wm. Hale Thompson, Mayor of the City of Chicago, do hereby proclaim the 27th day of June as Children's Day, and earnestly recommend its observance to the citizens at large. I call upon them to support the project of giving the children of Chicago a happy day's outing among the trees and flowers of one of our city parks, thus bringing into many clouded lives some of the gladness and sunshine so freely enjoyed by children in happier circumstances.

Furthermore, I appoint Major General Edward Fielding to be the Director General of the day.

Respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

R. R. to Longwood drive and Longwood drive from West 94th street to West 107th street, which was

Referred to the Committee on Streets and Alleys.

"Bar Permits": Attitude of Sec. of the Navy.

The Clerk presented the following communication submitted by the Secretary of the Navy, which was ordered published and referred to the Committee on Home Defense:

COPY.

THE SECRETARY OF THE NAVY,
WASHINGTON, April 22, 1918.

To the Members of the City Council, Chicago, Illinois:

GENTLEMEN—When I was in Chicago a delegation of prominent citizens called upon me and brought to my attention the fact that the City Council is contemplating repealing the Special Bar Permit Ordinance, by which liquor can be sold at dance halls from three o'clock in the afternoon until three o'clock the next morning, and requested that I should look into the matter.

We have more than twenty thousand sailors at the Great Lakes Training Station who are given their leave to spend in Chicago. It has been a matter of great gratification to the Department to observe the hospitality which the good people of your city have extended to these sailor lads, and I venture to express the earnest hope that this hospitality will continue by such action by the city authorities as will throw every possible safeguard around these young men by closing such institutions as injure their moral and physical welfare, and by making it so that parents all over the country can rejoice that their sons who are in the Navy have the privilege of spending their spare hours in your city.

I was greatly impressed by the appeal made by the delegation of citizens, representing men of every faith and creed in your city, and I take it that a copy of this appeal has been furnished to your honorable body. As Secretary of the Navy I am concerned above all else in the welfare and fitness of the men in the Navy, and I hope that the petition of these high-minded men will be granted.

Sincerely yours,

(Signed) JOSEPHUS DANIELS.

"Bar Permits": in Matter of Repeal of Ordinance.

The Clerk presented a communication, submitted by the Congregational Ministers of the City of Chicago, urging the repeal of the special "bar permit" ordinance, which was

Referred to the Committee on Home Defense.

Venereal Diseases: in Matter of Requirement for Reports to the Department of Health.

The Clerk presented a communication from Dr. G. Frank Lydston, requesting repeal of an ordinance requiring the reporting of venereal disease cases, which was

Referred to the Committee on Public Health.

Shelter Home and Farm Colony for Women Offenders.

The Clerk presented a communication from The Chicago Law Enforcement League, urging immediate utilization of available funds for the erection and maintenance of a shelter home and farm colony for women offenders, which was

Referred to the Committee on Finance.

Plummer and Davis: Issuance of Water Pipe Certificates.

The Clerk presented a claim of Plummer and Davis for issuance of water pipe certificates, which was

Referred to the Committee on Finance.

CITY COLLECTOR.

"Bar Permits": Report of Permits Issued.

The Clerk presented a report, submitted by the City Collector, containing a list of persons to whom special

"bar permits" were issued since the last preceding meeting of the Council, which was ordered

Placed on file.

CITY COMPTROLLER.

City Depositaries: Minimum and Average Daily Balances (for April, 1918).

The Clerk presented the following communication submitted by the City Comptroller, which was, together with the statement submitted therewith, referred to the Committee on Finance:

DEPARTMENT OF FINANCE,
CHICAGO, May 6, 1918.

To the Honorable, the Mayor and Aldermen, in City Council Assembled:

GENTLEMEN—In accordance with the order of the City Council passed February 3, 1914, we beg to submit herewith City Comptroller's bank statement showing the minimum and average daily balances in each of the City Depositaries for the month of April, 1918.

Respectfully,

(Signed) EUGENE R. PIKE,
Comptroller.

DEPARTMENT OF GAS AND ELECTRICITY.

Local No. 9, I. B. of E. W.: in Matter of Threatened Strike.

The Clerk presented the following communication submitted by the Commissioner of Gas and Electricity, which was referred to the Committee on Finance:

DEPARTMENT OF GAS AND ELECTRICITY,
OFFICE OF THE COMMISSIONER,
CHICAGO, May 6, 1918.

THREATENED STRIKE, LOCAL NO. 9, I. B. OF E. W.

To the Honorable, the Mayor and City Council, City of Chicago:

GENTLEMEN—The working agreement of Local No. 9 of the International Brotherhood of Electrical Workers stipulates that on such work as pulling of cable and setting of poles, four linemen and one foreman shall constitute a gang. On other classes of work, known as repair work, such as putting on crossarms, insulators, etc., the agreement in force prior to 1918 does not stipulate that four linemen shall be employed in each gang. On all, or nearly all, of this work, however, the city has had four linemen with each foreman, but on account of the shortage of funds which necessitated a lay-off of fifteen linemen at the close of the year 1917, and failure on the part of the City Council to provide funds sufficient to pay the increases in salary which have been allowed, we are at present very short-handed and are now using only two men with the foreman on these small repair jobs. The members of this local are objecting, and threaten to go on strike if we do not increase each gang to at least four linemen and one foreman.

In order to make up the deficit caused by increase in salaries for which funds have not been provided, it will be necessary for us to save the equivalent of 104 man months, by laying off the last men certified or adopting a system of enforced vacations without pay. This will mean approximately fifteen men for the balance of the year.

The force we have today is scarcely able to keep up with repairs so as to insure anything like efficient lighting service, and if it becomes necessary to lay off more men and to put in force the provision for 5-men gangs mentioned above, it will be impossible to keep the lights burning. Lights reported out at the present time on account of trouble on the lines are usually back in service within two or three days, but if the man power is further reduced, these lights may be out two or three weeks, and possibly a month, before repairs can be made on circuits and lamps put back in service.

No lay-offs have as yet been made to cover increases in salary for which provision was not made in the Budget, as it was expected that additional appropriations might be made.

Eight additional linemen would be required to increase the size of the gangs in accordance with demand of the union, and this for the balance of the year would require an appropriation of $7,200.00.

Three additional electrical repairers should be employed to insure anything like efficiency in the lighting service, and this, together with the amount necessary to cover increases in salary for which provision has not been made, would require $15,000.00. If the total of these two—$22,200.00—is added to our Fund 60-A-100 it will enable us to comply with the demands of the union as to size of gangs, to retain our present force and pay the increases in salary which have been allowed, and also to employ three additional electrical repairers. The following employes are members of Local No. 9:

General Foreman of Circuits.
General Foreman of Linemen.
Foreman of Linemen.
Electrical Repairers.
Telegraph Repairers.
Assistant Telegraph Repairers.
Fire Telephone Operators.
Batterymen.
Linemen.

The matter of a threatened strike is a serious proposition and is respectfully referred to your honorable body for such action as you may wish to take in the premises.

Yours very respectfully,

(Signed) WILLIAM G. KEITH,
Commissioner.

DEPARTMENT OF LAW.

Vehicle License Fees: Collection of Unpaid Fees.

The Clerk presented the following communication submitted by the Corporation Counsel, which was, to-

gether with the order transmitted therewith, referred to the Committee on Finance:

DEPARTMENT OF LAW,
CHICAGO, May 6, 1918.

IN RE COLLECTION OF DELINQUENT VEHICLE TAXES.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—The question whether the City receives all the license fees for motor vehicles to which it is entitled under the law has received consideration from this department from time to time since the vehicle tax was first authorized. In the nature of things little assistance could be given the City Collector, because the difficulties involved were not legal questions. The one important factor was the check on the ownership of cars.

Inasmuch as there is no way of determining officially how many of the cars registered in the County of Cook actually belong to residents of the City of Chicago, such a thing as obtaining an absolutely correct list is impracticable.

The City Collector has inaugurated a system of which he feels justly proud, under which the number of licenses paid for in the last license period has increased from 60,072 to 73,320, and the receipts have jumped from $988,759.90 to $1,130,144.18.

Nevertheless, it is claimed by persons who have given the subject attention that a considerable portion of the license fees are lost to the City. That some persons evade paying the fees can hardly be questioned. Just how many cannot be readily ascertained.

I have received a communication from Mr. James R. Howe, an attorney of standing, who says that he has exceptional facilities for investigating the subject of such license fees. Mr. Howe has presented a summary of his investigations, and in this he indicates his belief that 21,963 motor vehicles escaped the wheel tax during the last license year, and estimates that the loss of revenue equals $329,445.

Acting on his conclusions Mr. Howe is seeking to obtain a contract with the City, whereby he should act as the agent of the Law Department and City Collector on a percentage basis, the City to pay contingent fees or commissions only for collections actually made.

While Mr. Howe may be mistaken as to the figures he presents, I am impressed with his earnestness and his willingness to demonstrate his faith in them by undertaking the collection of delinquent license fees on a contingent basis without initial expense to the City, and am of the opinion that it would undoubtedly be of advantage to the City to test the matter in this way.

The City Collector states that he is through with the collections for the license periods preceding May 1, 1918 —that he has exhausted every effort to secure information and has prosecuted in every instance where he has discovered a delinquent. It therefore follows that every dollar that may be secured on the license period running from May 1, 1917, to May 1, 1918, will be a clear gain to the City. The same is true as to all preceding years.

Under these circumstances I recommend that authority be given to the Corporation Counsel by appropriate action of Your Honorable Body, to make a contract with Mr. Howe by which the City will pay a contingent fee for collections of license fees for vehicles which have accrued prior to May 1, 1918, and are still unpaid, such contract to be limited strictly to such delinquent wheel taxes.

In order that such action may be taken without delay, in case it is considered advisable, I forward herewith draft of an order embodying the proposal made by Mr. Howe, with a blank in same for the amount or percentage of compensation to be awarded to him, and I submit the same for the consideration of Your Honorable Body.

Yours very truly,

(Signed) SAMUEL A. ETTELSON,
Corporation Counsel.

Judges and Clerks of Election: in Matter of Payment of Fees.

The Clerk presented the following communication submitted by the Corporation Counsel, which was referred to the Committee on Finance:

CHICAGO, May 6, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—There is pending, before Judge Walker, in the Circuit Court of Cook County, a suit brought by the Board of Election Commissioners of the City of Chicago, in which they seek to compel the officers of the City by mandamus to pay the judges and clerks of election for their services at the municipal election held on April 2, 1918.

The attorneys for the City and its officers filed a demurrer to the petition, which was overruled on Thursday, May 2, 1918. Under ordinary circumstances the respondents in such a case would be ordered to answer within 5 days, but the court indicated that if the matter was presented to the City Council action would in all probability be taken to obviate the necessity of a long struggle in the courts. In order to afford the Council an opportunity to act, the rule to answer was entered so that it defers further court proceedings until May 15.

While there are numerous interesting and complicated questions of law involved in this case, and it is far from certain that such a proceeding will be effective, we beg to advise your Honorable Body that, no matter what the outcome of the present suit may be the City is bound to pay for the services of these judges and clerks. A contest which will entail the usual expenses of litigation, therefore, cannot result otherwise than in loss to the public and will at best only result in the settling of academic questions.

In view of these facts we beg to advise your Honorable Body that the Law Department will contest this suit to the limit in order to protect the executive officers of the City where they are doing their full duty, but we recommend that, instead of putting the burden of such contest on these officers and incurring the expense that is inevitable for no purpose except to settle controverted questions of law, such action be taken as will assure the prompt payment of these judges and clerks, thereby dispensing with further court proceedings.

Yours truly,

(Signed) LEON HORNSTEIN,
Assistant Corporation Counsel.

SECTION 2. That this ordinance shall be in force from and after its passage.

Albro B. Prindle and Others: Vault in Alley.

The Clerk presented the following communication submitted by the Commissioner of Public Works, which was, together with the ordinance transmitted therewith, referred to the Committee on Compensation:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, May 6, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith for consideration

by your Honorable Body an ordinance authorizing Albro B. Prindle, Martha P. Griffin, James P. Prindle and James W. T. McCrea to reconstruct an existing vault under alley in the rear of 558-60 West Washington boulevard. This vault has been maintained for a number of years without authority from the city. The passage of the enclosed ordinance will enable the city to secure the customary annual compensation for the privilege in accordance with arrangements made by the Bureau of Compensation with the grantees in said ordinance when application for the reconstruction of the vault was submitted.

Yours very truly,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.
H. V. MCGURREN,
Superintendent of Compensation.

A. P. Callahan & Co.: Bridges or Passageways across Alley.

The Clerk presented the following communication submitted by the Commissioner of Public Works, which was, together with the ordinance submitted therewith, referred to the Committee on Streets and Alleys:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, May 4, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith for consideration by your Honorable Body an ordinance authorizing A. P. Callahan & Company to maintain certain bridges or passageways across alley adjoining premises at 2401-59 South La Salle street which were constructed some time ago without the necessary authority from the city. Through the passage of the enclosed ordinance the city will secure an annual compensation for the privileges, in accordance with arrangements made by the Bureau of Compensation with the company.

Yours very truly,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.
H. V. MCGURREN,
Superintendent of Compensation.

HARBOR BOARD.

Municipal Pier: Installation of Coin Locks on Public Toilets.

The Clerk presented the following communication submitted by the Harbor Board:

HARBOR BOARD,
CHICAGO, May 6, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith an ordinance authorizing the Commissioner of Public Works to enter into a contract with the Michigan Coin Lock Company for the installation of coin locks on not exceeding 50 per cent of the public toilets on the Municipal Pier. These locks are to be operated by depositing a 5-cent coin, and 40 per cent of the gross receipts derived from the privilege are to be paid to the City of Chicago.

Locks of this character are being installed in a number of public buildings, railroad stations and comfort stations throughout the country. In addition to granting more privacy, there is an opportunity for the city to derive some revenue to apply towards the expense of maintaining toilet facilities on the Pier.

The enclosed ordinance covers a term from May 15, 1918, to December 31, 1922, and provides, however, that the same may be cancelled by the Commissioner of Public Works on December 31, 1918, or at any subsequent date in event that the locks are not satisfactory.

It is my intention in the event that the enclosed ordinance is passed by your Honorable Body, to install 40 of these locks as an experiment and if it is shown that there is a public demand for the same to install a greater amount, and if on the contrary there is no demand, to cause the removal on December 31st of this year. There are 232 public toilets on the Pier, and at no time have these toilets been used to their full capacity, so that the installation of a small number of locks as an experiment will not in any way interfere with the public requirements.

Your early consideration of the matter is suggested so that the toilet rooms will be in use for the opening of the season on the Pier.

Respectfully yours,

(Signed) FRANK I. BENNETT,
Chairman, Harbor Board.
H. V. MCGURREN,
Secretary, Harbor Board.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Littler moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works be and he is hereby authorized to make and enter into contract, without advertising, on behalf of and in the name of the City of Chicago with the Michigan Coin Lock Company, to install and maintain coin locks on not exceeding fifty (50) per cent of the public toilets; said locks to be operated by depositing a five (5) cent coin.

Said contract to be for the term beginning May 15, 1918, and ending December 31, 1922, and be subject to cancellation by the Commissioner of Public Works on December 31, 1918, or at any other subsequent time, if in his judgment the operation of said locks are not satisfactory.

Said contract to provide for the payment to the City of Chicago of forty (40) per cent of the gross receipts derived from said privilege.

Said contract to be subject to approval as to form and legality by the Corporation Counsel.

SECTION 2. This ordinance shall be in force and effect from and after its passage.

Municipal Pier: Lease of Storage Space to United States Government.

The Clerk presented the following communication submitted by the Harbor Board:

HARBOR BOARD,
CHICAGO, May 4, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith for consideration by your Honorable Body an ordinance authorizing the United States Government to use 50,000 square feet of storage space on the Municipal Pier at the rate of $0.20 per square foot. The Government has already secured authority from the City Council for the use of 100,000 square feet of space on the same basis, which is not sufficient to meet its requirements, and has therefore made application for an additional 50,000 square feet.

Early consideration of the matter is suggested in order that the Government may take possession of the space desired at the earliest possible moment.

Very truly yours,

(Signed) FRANK I. BENNETT,
Chairman, Harbor Board.
H. V. MCGURREN,
Secretary, Harbor Board.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Richert moved to pass said ordinance.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works be and he is hereby authorized and directed to enter into a lease on behalf of and in the name of the City of Chicago with the United States Government for the use of fifty thousand (50,000) square feet of space on the first or freight floor of the freight and passenger building on the Municipal Pier for the period from May 1, 1918, to June 30, 1918; said lease to provide for the payment of rental at the rate of twenty (20) cents per square foot per annum and to be subject to cancellation by either the City of Chicago or the United States Government at any time on thirty (30) days' notice thereof in writing; the lease to be drawn in a manner and form satisfactory to the Corporation Counsel of the City of Chicago.

SECTION 2. This ordinance shall take effect and be in force from and after its passage.

MORALS COMMISSION.

Special "Bar Permits": Effect on Public Morals.

The Clerk presented the following report submitted by the Morals Commission of the City of Chicago, which was ordered published and referred to the Committee on Home Defense:

CHICAGO, May 3, 1918.

To the Honorable, the Mayor and the City Council of Chicago:

GENTLEMEN—The Morals Commission of the City of Chicago have the honor to report certain facts concerning special bar permits as they affect public morals.

Under the statutes by which your commission exists, two functions are expected, viz., investigation of facts and also recommendation of ordinances to meet exigencies in the realm of public morals. Gentlemen, it is with due appreciation of your own intelligent sense of obligation to your oath of office, not only as to Chicago's welfare, but the welfare of the whole country in the present world crisis, that we limit ourselves chiefly and place main emphasis upon the facts in the case against special bar permits.

We are quite sure that knowing the facts you can be depended upon to act upon them justly. Everybody knows that this subject of bar permits has been a bone of contention or to change the figure, a springboard for effusive political oratory of all kinds. It would be difficult to adequately estimate the great amount of time and discussion given to this topic. This special privilege has been modified, trimmed and amended for several years but presents itself now for acute consideration as if no surgery had been attempted. The subject has been a kind of nightmare both in the Council and in local politics since its beginning.

The Morals Commission thinks you will agree that the present crisis calls for patriotism, morality and economy in Government. Your Commission has abundant affidavits to show the justice of a recent protest made by the Army and Navy officials against the evil effects on soldiers and sailors in uniform who have been served with intoxicants in violation of the United States law. It is estimated that in January about 5,000

men in uniform attended these dances. Two thousand were served liquor and over three hundred became intoxicated. It is well known that war conditions tend to increase juvenile delinquency. Special bar permits but add fuel to the flames. It is estimated further that during January 7,000 minors illegally attended these dances and about 2,000 drank liquor, while 350 became intoxicated. In January about 500 policemen were detailed at these dances. The recent crime wave has shown how sorely these officers were needed to protect the lives and property of citizens in Chicago, especially during the hours from 8 p. m. to 3 a. m., when they are detailed in charge of these special privileges. The city receives $6.00 each for these bar permits, while the entire expense of license issuance investigation and policing sums up to $25 or $30 for each permit. A conservative estimate shows a net loss to the city of approximately $20 on each bar permit. For twelve months, ending April 30, 1917, there were 3,630 of these affairs, given at a financial loss to the city of $20 each, or a total loss of $72,600.

The money basis may be looked upon as not a weighty consideration. True, provided the money expenditure becomes an uplift in public welfare, but with a bankrupt exchequer plus the depression instead of uplift, the economic side of this issue is not to be ignored; even though the total loss were only half of $72,000.

We are told that the pleasures of the people should not be curtailed in times when war clouds begloom the horizon of joy. The political leaders of our foreign people tell us the masses will be discouraged. After mingling with many of our foreign-born citizens we feel prepared to assert that they do not think as much of their ancient habits and customs as they do of the welfare of their adopted land, America. They are ready to respond to not only a simple appeal of what might seem a slight sacrifice but will joyfully respond to an heroic appeal that is patriotic. Leadership among these people may well note the fact that no longer can they be capitalized and cashed in as current coin in the field of political assets and liabilities. Though of foreign accent and birth they are 100 per cent American.

It may be conceded and it should be conceded that these people are not always intelligently responsible to handle the sale of intoxicants under special bar permits. They do not have any business interests and invested capital as a bond for good behavior and orderly conduct on the part of the people who gather there. Yet they may be and doubtless are patriots and will yield to the principle of the greatest good to the greatest number. They are ready to say "America first, last and forever." In fact the American people as a whole are practically all ready not only to forego time honored customs in the interest of peace with victory, but to make the maximum sacrifice for democracy and righteousness.

Gentlemen, has not the time come for the *immediate repeal* of the special bar permit law, or suspension thereof if that is lawful and satisfactory to the government at Washington, in order to protect the ever increasing number of men in uniform who visit our city? Is not this an opportunity to present to our government, to the Army and Navy, a solid Chicago, ready to subserve local issues to the supreme ideals of the Nation?

Respectfully submitted,

ESTIMATE OF ENGINEER.

To the Board of Local Improvements of the City of Chicago, and to the Mayor and Aldermen of the City of Chicago, in City Council Assembled:

The Board of Local Improvements of the City of Chicago, having adopted a resolution that the roadways of a system of streets as follows, to wit: South Homan avenue, from the south line of West 55th street to the north line of West 59th street; South Turner avenue, from the south line of West 55th street to the north line of West 59th street; South Spaulding avenue, from the south line of West 55th street to the north line of West 59th street; South Sawyer avenue, from the south line of West 55th street to the north line of West 59th street; West 56th street, from the west line of South Kedzie avenue to the east line of South Homan avenue; West 57th street, from the west line of South Kedzie avenue to the east line of South Homan avenue; West 58th street, from the west line of South Kedzie avenue to the east line of South Homan avenue, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described, be improved by adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick catchbasins complete, constructing a granite concrete combined curb and gutter on cinders, gravel or sand, grading and paving with asphalt on six inches of Portland cement concrete, swept with natural hydraulic cement, and presented to the City Council of the City of Chicago, a recommendation that such local improvement be made. I hereby submit an estimate of the cost of such improvement, including labor and materials, viz:

Granite concrete combined curb and gutter on cinders, gravel or sand, 27,900 lineal feet at 95 cents	$ 26,505.00
Grading 11,100 cubic yards at $1.50	16,650.00
Paving with asphalt on six inches of Portland cement concrete, swept with natural hydraulic cement, 44,900 square yards at $2.45	110,005.00
Constructing 44 new brick catchbasins complete at $75.00	3,300.00
Adjusting sewer manholes and catchbasins, and constructing and connecting catchbasin inlets	13,064.00
Deficiency in interest on the assessment, cost of making, levying and collecting said assessment, and lawful expenses attending the making of said improvement	8,476.00
Total	$178,000.00

And I hereby certify that in my opinion the above estimate does not exceed the probable cost of the above proposed improvement and the lawful expenses attending the same.

(Signed) C. D. HILL,
Engineer of the Board of Local Improvements.

Dated, Chicago, May 6th, A. D. 1918.

AN ORDINANCE

For the improvement—adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick catchbasins complete, constructing a granite concrete combined curb and gutter, grading and paving—of the roadways of a system of streets as follows, to wit: South Homan avenue, from the south line of West 55th street to the north line of West 59th street; South Turner avenue, from the south line of West 55th street to the north line of West 59th street; South Spaulding avenue, from the south line of West 55th street to the north line of West 59th street; South Sawyer avenue, from the south line of West 55th street to the north line of West 59th street; West 56th street, from the west line of South Kedzie avenue to the east line of South Homan avenue; West 57th street, from the west line of South Kedzie avenue to the east line of South Homan avenue; West 58th street, from the west line of South Kedzie avenue to the east line of South Homan avenue, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described, in the City of Chicago, County of Cook and State of Illinois.

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That a local improvement shall be made within the City of Chicago, County of Cook and State of Illinois, the nature, character, locality and description of which local improvement is as follows, to wit:

That the roadway of South Homan avenue from the south line of West 55th street to the north line of West 59th street, also the roadway of South Turner avenue from the south line of West 55th street to the north line of West 59th street, also the roadway of South Spaulding avenue from the south line of West

55th street to the north line of West 59th street, also the roadway of South Sawyer avenue from the south line of West 55th street to the north line of West 59th street, also the roadway of West 56th street from the west line of South Kedzie avenue to the east line of South Homan avenue, also the roadway of West 57th street from the west line of South Kedzie avenue to the east line of South Homan avenue, also the roadway of West 58th street from the west line of South Kedzie avenue to the east line of South Homan avenue, the width of each of said roadways being hereby established at thirty (30) feet, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points hereinbefore described, be and the same are hereby ordered improved as follows:

A granite concrete combined curb and gutter shall be constructed on each side of the roadway of each of said above specified streets between the points hereinbefore described (except across the roadways of all intersecting streets and alleys between the points hereinbefore described) in such a manner that the roadway face of the curb shall be parallel with and fifteen (15) feet from the center line of each of said above specified streets; and a granite concrete combined curb and gutter shall be constructed on each side of the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points hereinbefore described in such a manner that the roadway face of the curb shall conform with the curb line produced on each side of all said intersecting streets and in such a manner that the back of the curb shall conform with the alley line produced on each side of all said intersecting alleys between the points hereinbefore described.

Said combined curb and gutter shall be made as follows, to wit:

The concrete to be used shall consist of the best quality of Portland cement mixed with fine crushed granite in the proportion of one (1) part cement and two (2) parts fine granite, into which shall be incorporated four (4) parts of broken granite of varying sizes which will pass through a ring of one and one-half (1½) inches internal diameter and be held on a ring of one-fourth (¼) of an inch internal diameter. The cement shall be mixed thoroughly with fine crushed granite, after which it shall be moistened with water to form a mortar and into which shall be incorporated the four (4) parts of broken granite as specified above and rammed into forms until solid.

The material to be used in finishing the surface of said combined curb and gutter shall consist of the best quality of Portland cement mixed with finely crushed granite in the proportion of two (2) parts cement and three (3) parts granite, which, after being moistened with water to form a mortar, shall be evenly spread over the top and roadway face of the curb to a thickness of one-fourth (¼) inch, and over the surface of the gutters to a thickness of one (1) inch, so as to insure a smooth and even surface on the exposed surfaces of the combined curb and gutter after being evenly trowelled and finished with a broom.

The curb shall be seven (7) inches thick and the height at the back shall vary from eighteen (18) inches at the catchbasin inlets to eleven (11) inches at the summits, and the gutter shall be twelve (12) inches in width and eight (8) inches in thickness. The upper roadway edge of the curb shall be rounded to an arc of a circle having a radius of one and one-half (1½) inches.

Said combined curb and gutter shall be constructed upon a bed of cinders, gravel or sand three (3) inches in depth after being flooded with water and thoroughly compacted to an even surface, and said combined curb and gutter shall be backfilled with earth, free from animal or vegetable matter, said filling to be four (4) feet wide at the top of the curb and even therewith and shall slope down at the rate of one and one-half (1½) feet horizontal to one (1) foot vertical.

Said combined curb and gutter shall be so constructed that the upper surface of the gutter shall conform to the surface of the finished roadways as hereinafter described, and the top edge of the curb on each side of the roadway of each of said above specified streets shall be at the elevation of straight lines connecting the several points at the elevations hereinafter described, and the top edge of the curb on each side of the roadways of all intersecting streets extended from the curb line to the street line produced on each side of each of said above specified streets shall be at the elevation of said intersecting streets hereinafter described; and the top edge of the curb on each side of the roadways of all intersecting alleys extended from the curb line to the street line produced on each side of each of said above specified streets shall rise from the curb line to the street line produced at the rate of one (1) inch vertical to three (3) feet horizontal from the elevation of the curb of said above specified streets between said points, which elevations shall be as follows, to wit:

At the intersection of West 55th street with South Homan avenue, 22.00 feet above datum.

At the intersection of West 56th street with South Homan avenue, 22.50 feet above datum.

At the intersection of West 57th street with South Homan avenue, 23.00 feet above datum.

At the intersection of West 58th street with South Homan avenue, 23.00 feet above datum.

At the intersection of West 59th street with South Homan avenue, 23.30 feet above datum.

At the intersection of West 55th street with South Turner avenue, 22.00 feet above datum.

At the intersection of West 56th street with South Turner avenue, 22.00 feet above datum.

At the intersection of West 57th street with South Turner avenue, 22.50 feet above datum.

At the intersection of West 58th street with South Turner avenue, 23.00 feet above datum.

At the intersection of West 59th street with South Turner avenue, 23.00 feet above datum.

At the intersection of West 55th street with South Spaulding avenue, 22.00 feet above datum.

At the intersection of West 56th street with South Spaulding avenue, 22.00 feet above datum.

At the intersection of West 57th street with South Spaulding avenue, 23.00 feet above datum.

At the intersection of West 58th street with South Spaulding avenue, 23.00 feet above datum.

At the intersection of West 59th street with South Spaulding avenue, 23.00 feet above datum.

At the intersection of West 55th street with South Sawyer avenue, 21.50 feet above datum.

At the intersection of West 56th street with South Sawyer avenue, 22.00 feet above datum.

At the intersection of West 57th street with South Sawyer avenue, 22.30 feet above datum.

At the intersection of West 58th street with South Sawyer avenue, 22.70 feet above datum.

At the intersection of West 59th street with South Sawyer avenue, 23.00 feet above datum.

At the intersection of West 56th street with South Kedzie avenue, 22.50 feet above datum.

At the intersection of West 57th street with South Kedzie avenue, 23.00 feet above datum.

At the intersection of West 58th street with South Kedzie avenue, 23.00 feet above datum.

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadways of the several streets specified above between the points hereinbefore described, and also the roadways of all streets and alleys intersecting the several streets specified above and extending from the curb line to the street line produced on each side of each of said above specified streets between the points hereinbefore described, shall be so graded that after being thoroughly puddled and rolled with a roller of ten (10) tons weight until the roadbeds are thoroughly compacted and after the pavement hereinafter described shall have been placed thereon, the surface of the pavement at the center of the finished roadway of each of said above specified streets, and the center of the finished roadways of all intersecting streets extended from the curb line to the street line produced on each side of each of said above specified streets, shall be at the elevation of the top of the curbing hereinbefore described; and the surface of the finished roadways at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and the surface of the finished roadways at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be ten (10) inches below the top of said curbing.

The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets, and a transverse section of the finished surface of the pavement shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadways, at every part of the roadway of each of said above-specified streets, and at every part of the roadways of all streets intersecting the several streets specified above, between the points hereinbefore described.

In all intersecting alleys hereinbefore specified at the street lines produced of said above-specified streets, the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway of said alleys shall be three (3) inches below the top of the curbing, and a transverse section of the finished surface of the pavement at the street lines produced of said above-specified streets shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadways. The surface of the said pavement thence shall slope gradually to meet the gutters hereinbefore specified.

Upon the roadbeds thus prepared between said points and between said gutters shall be spread a layer of Portland cement concrete six (6) inches in thickness. Said cement shall be so ground that ninety-two (92) per cent will pass through a standard number one hundred (100) sieve having ten thousand (10,000) meshes per square inch.

Briquettes made from a mortar composed of one (1) part said Portland cement and three (3) parts torpedo sand, or three (3) parts of limestone screenings, free from dirt, dust and other impurities, exposed to the air for one (1) day and immersed in water for six (6) days, shall develop an ultimate tensile strength of two hundred (200) pounds per square inch.

One (1) part cement which shall stand the above test and comply with the above requirements, and three (3) parts of torpedo sand, or three (3) parts of limestone screenings, free from dirt, dust and other impurities, shall be thoroughly mixed dry and then made into a mortar with the least possible amount of water.

Seven (7) parts of the best quality of slag, limestone, or other stone which shall be equal in quality for concrete purposes, of a size that will pass through a ring of two (2) inches internal diameter and be held on a ring of one half (½) inch internal diameter, all of which slag or stone shall be thoroughly cleaned, free from all foreign substances and drenched with water, shall then be incorporated immediately with the mortar. Each batch of concrete shall be thoroughly mixed and at once spread upon the surface of said roadbeds and thoroughly compacted by ramming until free mortar appears on the surface. The surface of said layer of concrete shall be parallel with and two and one-half (2½) inches below the top of the finished pavement.

Upon the concrete foundation as above specified shall be laid a binder course, composed of asphaltic cement and gravel or clean broken limestone crusher run and of varying sizes which will pass through a ring of three-fourths (¾) inch internal diameter.

The gravel or stone shall be heated and thoroughly mixed with the asphaltic cement in the proportions of six (6) parts by weight of asphaltic cement and ninety-four (94) parts by weight of gravel or stone. This binder shall be spread on the base above described, and while in a hot and plastic condition shall be rolled until it has a uniform thickness of one inch. The upper surface shall be exactly parallel with and one and one-half (1½) inches below the finished surface of the pavement.

Upon this binder course shall be laid a wearing surface or pavement proper, which shall be composed of asphaltic cement seventeen (17) parts, sand seventy-three (73) parts, and pulverized carbonate of lime or pulverized silica ten (10) parts. The sand and asphaltic cement shall be heated separately to a temperature of three hundred (300) degrees Fahrenheit. The pulverized carbonate of lime or the pulverized silica shall be mixed with the sand and these ingredients then mixed with the asphaltic cement at the above temperature in an apparatus which shall effect a perfect mixture.

The material for pavement when mixed as above shall be spread at a temperature of two hundred and fifty (250) degrees Fahrenheit. It shall be carefully spread by means of hot iron rakes in such manner as to give uniform and regular grade to such a depth, that after having received its ultimate compression it will have a thickness of one and one-half (1½) inches.

The entire surface of the roadways thus improved shall then be compressed by hand rollers, after which natural hydraulic cement in the proportion of one (1) barrel to each one thousand (1,000) square yards of surface shall be swept over it, and the whole then thoroughly compressed by rolling with a steam roller of ten (10) tons weight, the rolling being continued for five (5) hours for each one thousand (1,000) square yards of surface.

All asphaltum used in the making of the asphaltic cement for both the binder and the wearing surface shall be asphaltum obtained from Pitch Lake in the Island of Trinidad, or asphaltum which shall be equal in quality for paving purposes to that obtained from Pitch Lake in the Island of Trinidad.

Eight (8) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Sawyer avenue and located in the roadway of said South Sawyer avenue at necessary points, adjacent to the curb lines of said South Sawyer avenue.

Two (2) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Spaulding avenue and located in the roadway of said South Spaulding avenue at necessary points, adjacent to the curb lines of said South Spaulding avenue.

Four (4) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Turner avenue and located in the roadway of said South Turner avenue at necessary points, adjacent to the curb lines of said South Turner avenue.

Six (6) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Homan avenue and located in the roadway of said South Homan avenue at necessary points, adjacent to the curb lines of said South Homan avenue.

Eight (8) new brick catchbasins shall be constructed and located in the roadway of West 56th street at necessary points, adjacent to the curb lines of said West 56th street, four (4) of said catchbasins to be trapped and connected with the sewer in South Turner avenue and four (4) to be trapped and connected with the sewer in South Sawyer avenue.

Eight (8) new brick catchbasins shall be constructed and located in the roadway of West 57th street at necessary points, adjacent to the curb lines of said West 57th street, two (2) of said catchbasins to be trapped and connected with the sewer in South Homan avenue, two (2) to be trapped and connected with the sewer in South Turner avenue and four (4) to be trapped and connected with the sewer in South Sawyer avenue.

Eight (8) new brick catchbasins shall be constructed and located in the roadway of West 58th street at necessary points, adjacent to the curb lines of said West 58th street, four (4) of said catchbasins to be trapped and connected with the sewer in South Turner avenue and four (4) to be trapped and connected with the sewer in South Sawyer avenue.

Each of said catchbasins shall be seven feet two inches deep, measuring from the top of the brickwork, and shall have an internal diameter of four feet at the bottom and to a plane five feet above and parallel therewith. The walls of said catchbasins shall be eight inches thick and shall be built of two courses of sewer brick laid edgewise in perpendicular courses, upon a floor of pine plank two inches in thickness. The top of each of said catchbasins shall decrease to two feet internal diameter, being drawn in by means of nine header courses, the diameter being decreased uniformly for each course.

Each of said catchbasins shall be connected with the sewer with tile pipe of eight inches internal diameter and shall be trapped with a half trap also of tile pipe of eight inches internal diameter. The said trap of each of said catchbasins shall be set so that the elevation of the bottom of the inside of the same shall be three feet six inches above the floor of the catchbasin.

Each of said catchbasins shall be provided with a suitable cast-iron cover, each of which covers, inclusive of lid, shall weigh five hundred and forty pounds. Each of said cast-iron covers shall be set so that the top of the same shall coincide with the finished surface of the pavement herein described.

The tile pipe specified above shall be straight, smooth and sound, thoroughly burned, well glazed and free from lumps and other imperfections, and three-fourths of an inch thick.

All brick and the joints of the tile pipe above referred to shall be laid with the best quality of natural hydraulic cement mortar, composed of one part natural hydraulic cement and two parts clean, sharp sand.

The several sewer manholes and catchbasins located in said roadways shall be raised or lowered as may be necessary to make them conform to the finished surface of said pavement; and the several catchbasins located outside of said roadways shall be raised or lowered as may be necessary to make them conform to the elevations herein described. The several catchbasins located on the line of the curb shall be raised or lowered and adjusted as may be necessary to make them conform to the finished surface of said pavement, or to said elevations according to whether the major part of said catchbasin lies within or without the line of said curb. Catchbasin inlets shall be constructed at necessary points in said gutters. The catchbasins not located in the gutters shall be connected with said inlets by means of tile pipe of eight (8) inches internal diameter laid with the best quality of natural hydraulic cement mortar, composed of one (1) part natural hydraulic cement and two (2) parts clean, sharp sand. Said tile pipe shall be straight, smooth and sound, thoroughly burned, well glazed, free from lumps and other imperfections, and three-fourths of an inch thick.

Said work to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

SECTION 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement together with the estimate of the cost thereof, including the lawful expenses attending the same, made by the engineer of said Board, both hereto attached, be and the same are hereby approved.

SECTION 3. That said improvement shall be made and the cost thereof, including the lawful expenses at-

tending the same, be paid by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled, "An Act Concerning Local Improvements," approved June 14th, A. D. 1897, and the amendments thereto and that of said special assessment, the sum of eight thousand four hundred and seventy-six ($8,476.00) dollars, not exceeding five (5) per centum of the amount of said assessment as finally determined after the completion of said improvement in accordance with Section 84 of said Act, shall be applied toward the payment of the cost of making, levying and collecting said special assessment, and of letting and executing contracts, advertising, clerical hire, engineering and inspection, court costs and deficiency in interest in the matter of said special assessment, in accordance with the provisions of said Act.

SECTION 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five per centum per annum according to law until paid.

SECTION 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement, bonds shall be issued payable out of said installments bearing interest at the rate of five per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements," approved June 14th, A. D. 1897, and the amendments thereto.

SECTION 6. That the Corporation Counsel be and is hereby directed to file a petition in the Circuit, Superior or County Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

SECTION 7. That all ordinances or parts of ordinances conflicting with this ordinance be and the same are hereby repealed.

SECTION 8. This ordinance shall be in force from and after its passage.

Ald. Richert moved to concur in said report and to pass said order.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put, the vote thereon was as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—67.

Nays—None.

The following is said order as passed:

Ordered, That the City Comptroller be and is hereby authorized and directed to enter into a contract with W. J. Hartman Company, they being the lowest responsible bidders after duly advertising, for printing the Comptroller's Annual Report for the year 1917 at a price not to exceed Twenty-eight Hundred and Seventy Dollars. This order shall be in force and effect from and after its passage.

Fifty-first St.: Water Supply Pipe.

ALSO,

The same committee submitted a report recommending the passage of an order submitted therewith, authorizing the laying of a water supply pipe in East 51st street.

Ald. Richert moved to concur in said report and to pass said order.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put, the vote thereon was as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—67.

Nays—None.

The following is said order as passed:

Ordered, That the Commissioner of Public Works be and he is hereby authorized and directed to lay a 6-inch water main in East 51st street from the present mains in Hyde Park boulevard to a point three hundred and twenty-five feet east of east line of said boulevard. Expense of laying said main to be paid from Appropriation 110 X 81.

Fire Department: Purchase of Horses.

ALSO,

The same committee submitted a report recommending the passage of an order submitted therewith, authorizing the purchase of twelve horses for the Fire Department.

Ald. Richert moved to concur in said report and to pass said order.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put, the vote thereon was as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—67.

Nays—None.

The following is said order as passed:

Ordered, That the Fire Marshal be and he is hereby authorized, in accordance with his requests attached hereto, to purchase in the open market from the several owners thereof twelve (12) horses for use in the Fire Department at the best obtainable market price.

Community Gardens: Free Supply of Water.

ALSO,

The same committee submitted a report recommending the passage of an order submitted therewith, authorizing the free use of water from fire hydrants for community garden purposes.

Ald. Richert moved to concur in said report and to pass said order.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put, the vote thereon was as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—67.

Nays—None.

The following is said order as passed:

Ordered, That the Commissioner of Public Works be and he is hereby authorized and directed to issue permits to responsible associations and individuals for the free use of water from fire hydrants where used for community gardening purposes. Said permits to describe conditions under which use may be permitted and to be revocable at any time and not to extend beyond September 15, 1918.

South Shore Bathing Beach: Sale and Removal of Old Buildings.

ALSO,

The same committee submitted a report recommending the passage of ten ordinances submitted therewith, authorizing the sale and removal of old buildings on property purchased for the South Shore Bathing Beach.

Ald. Richert moved to concur in said report and to pass the ordinance submitted therewith, accepting the offer of Frederick M. Tilden.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put, the vote thereon was as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz,

Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—67.

Nays —None.

The following is said ordinance as passed:

WHEREAS, The City of Chicago is the owner of a brick residence building known as No. 7766 Lake Park avenue, situated on property acquired for the new south shore beach, which building is no longer necessary or useful to or its longer retention for the best interests of the City of Chicago, and

WHEREAS, Frederick M. Tilden has offered to purchase said building for removal for the sum of Thirteen hundred ten and no/100 ($1,310.00) dollars, furnishing bond of indemnity to the city in the sum of $10,000.00, and undertaking to complete the work of removal by May 31, 1918, bearing all expense and obtaining all necessary permits for such removal, leaving said premises clean and free from all rubbish:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the offer of Frederick M. Tilden to purchase for the sum of thirteen hundred ten and no/100 ($1,310.00) dollars the building at 7766 Lake Park avenue for removal be and hereby is accepted.

SECTION 2. That the work of removing said building shall be inspected from time to time by the Commissioner of Public Works or his representative, who shall require that said work be done in accordance with said purchaser's proposal.

SECTION 3. This ordinance shall be in force and effect from and after its passage and approval.

—

The following is said ordinance as passed:

AN ORDINANCE

In relation to undistributed or unclaimed money received from the making of local improvements paid for wholly or in part by special assessment or special taxation and the creation therefrom of a special fund to be known as the Unclaimed Rebate Fund.

WHEREAS, there are certain rebates or refunds which have remained for a period of eight years or more, undistributed or unclaimed, in the funds collected on account of special assessments levied for local improvements designated by the warrant numbers and being of the nature and in the location hereinafter stated. And

WHEREAS, the Board of Local Improvements of the City of Chicago has caused a notice to be published at least once a week for eight successive weeks in the Chicago Evening Post, a secular daily newspaper of general circulation within the City of Chicago, County of Cook and State of Illinois, the date of the first publication of said notice being February 13, 1918, and the date of the last publication thereof being April 3, 1918, that after the expiration of sixty days from the date of the first publication of said notice said City of Chicago will by ordinance set aside and transfer all money which has remained in said funds for a period of eight years or more, undistributed or unclaimed as a rebate or refund, into a fund known as the Unclaimed Rebate Fund in which notice said funds were designated by the warrant numbers and the description of the improvement as hereinafter stated, and whereas said Board of Local Improvements has recommended the passage of an ordinance making the transfer hereinafter directed as by statute in such case made and provided now therefore;

By unanimous consent, on motion of Ald. Thos. J. Lynch, said ordinance was passed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—67.

Nays—None.

Adjournment.

Ald. Richert moved that the Council do now adjourn.

The motion prevailed and the Council stood adjourned to meet on Monday, May 13, 1918, at 2:00 o'clock P. M.

J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark and Thos. J. Lynch.

Absent—Ald. Richert and R. H. McCormick.

Call to Order.

At 2:00 o'clock P. M. (the hour appointed for the meeting), the Mayor called the Council to order.

Quorum.

The Clerk called the roll of members, and there was found to be

A quorum present.

JOURNAL.

Ald. Powers moved to approve the printed record of the Proceedings of the regular meeting held Monday, May 6, 1918 (as submitted and signed by the City Clerk), as the Journal of the Proceedings of said meeting, and to dispense with the reading thereof.

The motion prevailed.

Communications from the Mayor, City Clerk and Other Officers, Departments and Branches of the City Government.

Releases from House of Correction: Report.

The Mayor submitted a report containing a list of the names of persons released by him from the House of Correction during the week ended May 11, 1918, together with the cause of each release, which was ordered

Placed on file.

Mayor's Annual Message: for 1917-18.

The Mayor submitted the following message, which was ordered published and placed on file:

MAYOR'S OFFICE,
CHICAGO, May 13, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—With the changes resulting from our annual municipal election completed, Chicago's eighty-first City Council takes up the task of meeting the problems and conditions confronting it with gains in experience, wisdom and powers as a heritage of the many years of productive legislative life preceding it. It is to this Honorable Body, charged with reflecting the great forces which combine to make our municipality, that I submit my third annual message.

The underlying principle upon which your membership is chosen exemplifies the maximum of political freedom, based upon the most liberal suffrage in the world. Rich and poor have an equal vote in your election and if the American theory of representative government could find logical expression upon your council floor, the voice of the poor and plain citizen would predominate in every enactment, as it should, for government is to protect the poor and weak against the rich and powerful who possess the means to take care of themselves. But it is the perversity of the grasping and covetous rich which corrupts this principle and is the real cause of the tribulation afflicting our body politic.

I have no thought of questioning the independence of any alderman any more than my own, but you are hampered, just as I am hampered, by the craving and intrigue of the crooked wealth in Chicago which shouts, "Vox populi, vox Dei," and then proceeds by falsity and hypocrisy to grapple with and seize every vestige of power which the people themselves, of right, ought to retain. In my first annual message, two years ago, I gave it as my opinion "that in the interest of equality every council member should have a voice in determining the method of committee selections," and called attention to the fact "that a certain percentage of your body, duly chosen by the people in wards of this city, were forcibly deprived of their inalienable right to participate in the organization of the Council and that the closing of this door to a considerable number of citizens and taxpayers, no matter what apology was offered for the action, was wrong in practice, contrary to American doctrine and could not endure." In this very body today, under the system imposed by the Municipal Voters' League, one-third of your membership were denied the right to participate in selecting committees, where ninety per cent of the Council work is done, because certain of your predecessors, members of the outgoing Council, met in secret, under the guardianship of the "League", and selected the machine to control your conduct of the city's business.

Personally, I have no suggestions to offer as to members of Council Committees, but believe they should be selected by and with the advice of all the aldermen. It is certain that the present system is destructive of freedom.

"Taxation without representation" was the cry to which my forefathers and yours responded in 1776, which lit the fires of liberty which then burned and have since burned, and are now raging throughout the civilized world. But the tax-evading multi-millionaires in Chicago who find shelter behind the benevolent mask of the Municipal Voters' League, the "Public Efficiency Bureau" referred to in my message of February 4, 1918, and all the other Leagues and Bureaus and interests organized to grab and divert the birthright of the people to their own avaricious use, operate boldly and without shame upon the theory of "representation without taxation."

I first want to draw your attention to the report of the City Comptroller made to me under date of April 26, 1918, setting forth financial facts relative to the city government and the activities of the Department of Finance. The full report is on file in my office, as is the report of every other department, and I cordially invite and urge the members of the Council to call at their convenience and read these communications over, as in a message I feel restricted to discussion of only the more important phases of municipal matters.

The City Comptroller, under date of March 20, 1918, addressed a communication to your Honorable Body, conveying the information that the Corporate Fund, out of which is defrayed the expenses of the City Government, is exhausted, and further informing you that after the first three months of the current year all cash received for corporate purposes would be required in meeting the pay-rolls for the balance of the year, and therefore the payment of supply and contract obligations payable from the Corporate Fund would have to be deferred until the passage of the 1919 budget.

Many factors have contributed to the financial condition now facing the city. For one thing, the County Treasurer has failed in making prompt returns on tax collections. The City has now pending against the County, suit for $193,508.00, the estimated amount of interest withheld by the County on 1916 collections.

Suit has also been brought on an indebtedness to the City of over $900,000.00 for the maintenance of county prisoners at the Bridewell.

For several years past many of our largest property-owners have refused to pay their taxes, alleging technical deficiencies in the levying of same. Attorneys representing these property-owners have been very successful in the courts in saving their clients money. By a recent decision of the Supreme Court, holding the entire Corporate levy for the year 1916 invalid, the City sustained a loss of over $1,000,000.00 in this fund. Information is at hand setting forth that many of these same large property-owners who have withheld payment of taxes in the past on legal technicalities, are doing the same thing now, and protesting the collection of the 1917 taxes. Slovenly methods of spreading assessments should be remodeled at once, and the negligence of county officials in permitting this condition to continue should be severely condemned on one hand, but on the other hand the City's known financial distress should cause the wealthy and influential interests, who evade their obligations of citizenship on trivial, technical grounds, to hang their heads in shame before the people of Chicago for refusing to pay their just share of taxes. However, as there seems to be no disposition on the part of these interests to be fair to the public, judging from the number of suits now being filed, I would recommend that your Honorable Body outline a policy that will expose this reprehensible practice to the taxpayer of small means, whose name is legion, and who has to bear the burden thus shifted.

The main trouble with the City of Chicago's revenue

is that the same portion of the ultra rich and their under-strappers and imitators who contribute to the Municipal Voters' League and stimulate the uproars of the other leagues, bureaus and proxies of organized hypocrisy, systematically defy the tax laws and hide considerable of their property holdings, particularly securities, from the Assessors. If your Honorable Body will obtain exact information as to the amount of actual wealth in Chicago, find out who owns it, and see that the rate of taxation is applied to it, you will have no more trouble over city finances or deficits, but will be abundantly able to maintain larger police and fire departments, better protect the health and housing of the poor, give cleaner streets and alleys and more pavements, sidewalks and lights to the citizens generally.

For the year 1917 the city spent $26,220,612.66 for general municipal purposes. For the same identical purposes for the year 1918 your Honorable Body has appropriated the sum of $23,031,846.87, exclusive of $1,740,000.00 to be advanced by business men for salary increases, or $3,188,765.79 less.

For the current year the depository banks have agreed to pay the city 3% on its money. This is the highest rate ever received and is the result of the ordinance passed by your Honorable Body at the suggestion of the Comptroller, authorizing the naming of an active bank for as long a period as one year.

On May 9th the City paid $2,850,000.00 balance due on Third Liberty Loan bonds.

The Board of Local Improvements will require $4,000,000.00 or $5,000,000.00 during the next three or four months to pay the court awards for land damages in the Michigan Boulevard Improvement.

Bond issues aggregating $2,150,000.00 were approved by the voters during the past year.

The bonded debt of the city was reduced $3,308,000.00 during the past year by the retirement of this amount of outstanding bonds.

During the year the Comptroller purchased in the open market $267,000.00 worth of city bonds for $262,645.77, at a saving in principal of $4,354.23.

All bonds disposed of during the past year have been sold over the counter at par or better, or else purchased with surplus funds in the city treasury.

The plan of disposing of bonds over the counter, originated by the present City Comptroller, results in a great saving in interest as compared with the plan of selling to bankers and brokers. In the latter case the money is permitted to lie idle in the city treasury, whereas when bonds are sold over the counter the money is received in comparatively small sums, sufficient to finance improvements from time to time. In the item of the Bridge, Light and Michigan Avenue Bonds alone, this manner of selling has saved an entire year's interest on $580,000.00, or $23,200.00.

The following is a debt statement as of December 31, 1917:

Total debt incurring power		$53,147,990.10
Debt	$33,859,550.76	
Bonds authorized but not used	12,965,700.00	
Sanitary District Judgment	1,896,003.51	48,721,254.27
Constitutional debt-incurring power remaining		$ 4,426,735.83

The Comptroller has carried on a number of important investigations during the past year, resulting in proposals for economy which have been approved and adopted. Among these are the plan of operation and organization for the consolidation and centralization of city purchasing, improvements in methods of sanitary and food inspection, the plan of operation and reorganization of the Department of Finance, and the improvement in operation of capital accounts.

The city has purchased over $700,000.00 worth of real estate during the past year, at prices far below the estimates allowed by your honorable body.

A number of important statistical and accounting systems have been installed, principally for the Municipal Pier, as required by statute, the Contagious Disease Hospital and various shop operations.

The most important recommendation offered by the Comptroller is that the present statute allowing the County Collector 2% for collections as Town Collector for each town, be repealed. There is no reason why the city should pay the County Collector for collecting its taxes, in view of the fact that the interest earnings withheld more than compensate for the service rendered.

By a recent Act of the Legislature, the City Collector is authorized to make all special assessment collections up to the time of sale. Heretofore, the County Collector made collections subsequent to March 10th of each year, and the City was required to await his pleasure in making returns. Under the new law, the City Collector makes his returns daily to the City Treasurer. This will effect an estimated saving in interest of $50,000.00 a year and will enhance the credit of special assessment paper through prompt payment and greatly increase the aggregate of collections.

The City Collector has required a very strict compliance with the Vehicle Tax Ordinance during the past year, with the result that every owner of an automobile residing in Chicago has been obliged to pay the City Wheel Tax, except in a few remote cases where owners moved and could not be located. Practically all the other collections of the City Collector's office, except saloon licenses have exceeded that of previous years by a fair margin.

The Law Department.

The Law Department has continued to be engaged in an increased amount of routine work necessary in the matter of passing upon contracts, leases and other agreements, ordinances and questions of law relating to the activities of municipal officers, with a force of assistants which has been considerably reduced. More than 3,000 opinions were rendered in the past year and hundreds of ordinances prepared.

The burden of the Law Department was considerably increased by reason of the fact that in the matter of the enforcement of the United States Selective Service Law, it acted as the representative of the Provost Marshal General in the organization of the local draft boards, and the registration of over 300,000 male citizens coming within the provisions of the act. This without any recompense for expenditures entailed as a result thereof, at a time when the shortage of funds was the greatest. A letter of commendation was received from Adjutant General Frank S. Dickson, complimenting the officials of the city upon the excellent

showing made. This department collected during the year 1917 approximately $100,000.00 on delinquent warrants, and up to April 15, 1918, an additional sum of $98,000.00, whereas in the year 1914 only $7,700.00 was collected.

There were 264 personal injury cases disposed of by the City Attorney. There are still pending 648 cases. The amount of judgments obtained against the city and the cases disposed of aggregate $62,000.00. While the average amount claimed in these suits was $5,000.-00, the average judgment obtained was $204.00.

The litigation handled by the Prosecuting Attorney has continued to increase and has been handled by a constantly decreasing force of assistants. The total suits handled in this office alone was 108,859.

The Empire Voting Machine case has been dragging for several years, and was finally disposed of, and thereby a claim against the city amounting to $287,-000.00 was dismissed and is now pending on appeal in the United States Circuit Court of Appeals.

For many years efforts have been made to secure relief against the obnoxious practice of holding up patrons of the theatre by requiring them to go to ticket scalpers for seats and paying an increased price for the same. The ordinance passed by your honorable body, requiring an applicant for an amusement license to agree that his license might be revoked in case it was shown that the tickets were disposed of to scalpers by the theatres, was sustained by the Supreme Court.

In order to determine the powers of the public utilities commission, the city instituted suit against that body for the purpose of contesting the jurisdiction of the commission and preserving the city's control over the street railways operating upon its streets, which was decided against the city by the Supreme Court of Illinois. The Corporation Counsel has secured the issuance of a writ of error by the Supreme Court of the United States for a review of this decision.

Seventy track elevation cases have been disposed of by the rendition of judgments amounting to $96,355. The amount sued for by the claimants was $1,730,000, and indicates a recovery of only 5½ per cent of the damages sought.

On the appeal of a recent suit against the City of Chicago, the Supreme Court of Illinois held that the keeper of a saloon could not keep open on Sunday, even for the sale of soft drinks. This case was appealed to the Supreme Court of the United States, and the decision of the State Supreme Court was affirmed.

Gas Litigation.

When I was a candidate for Mayor, I promised the gas consumers of Chicago that I would do all in my power to help them get the rebates due them, and that I would appoint a committee consisting of Aldermen Lawley, Utpatel, Merriam, Capitain, Nance and Richert, to engage competent counsel to prosecute the pending suits for permanent price reductions and the return of refunds due the people.

Immediately upon my inauguration as Mayor, I redeemed this promise to the people and appointed the committee named, and for three years they have had an absolutely free hand in the matter at issue.

When the committee recommended as their counsel Donald R. Richberg, political ally of Charles E. Merriam, a member of the committee, and law partner of Harold L. Ickes, Merriam's bosom confidant, I was disappointed because it indicated that the right of the people to their rebates was to be subordinated to a ruthless game of politics. Nevertheless I have given the matter the benefit of the doubt for three years, only taking occasion to urge action.

In Mr. Richberg's report to me and to the Special Committee on Gas Litigation, rendered in September, 1915, he promised immediate action, stating that there were certain preliminary legal questions in the case which should have been determined long before his report was rendered, and that immediate settlement of these legal questions would be obtained through a decision of court. Two and one-half years have elapsed since Mr. Richberg made this promise and over three hundred thousand dollars of the people's money have been spent, and he has completely failed in his promise of September, 1915, to the Special Committee and to the Mayor, to secure an immediate court decision.

Under the law, he is representing the City as an Assistant Corporation Counsel, through the recommendation of the Special Committee on Gas Litigation, and by appointment of the Corporation Counsel. He not only has been grossly extravagant, in my opinion, and wasteful of the City's funds; but he has ignominiously failed to carry out his promises, and has exhibited utter lack of ability or willingness; I don't know which, because the Corporation Counsel's office has accomplished in sixty days what Mr. Richberg has failed to accomplish in two and one-half years, viz: secured a judgment of a court in favor of the people, which judgment is now on its way to the Supreme Court for final adjudication. This achievement of the Corporation Counsel on behalf of the people, seems to have enraged Mr. Richberg to such an extent that he has treacherously insulted his superior, the Corporation Counsel, and, since such insult was published in the newspapers of Chicago, the Corporation Counsel directed that he be discharged from the city service, and rightly so, in my opinion.

I believe it is worthy of note by your Honorable Body that this litigation has been in the courts since 1911 and has cost the City nearly four hundred thousand dollars, which cost must, in the last analysis, be paid by the taxpayers of Chicago. It is apparent, from the methods employed in dragging this case along, that the special counsel has been more interested in spending large sums of the taxpayers' money and securing fees for himself than in protecting the interests of the taxpayer and gas consumer, and the whole proceeding has every appearance of being continued indefinitely to serve selfish and political ends.

I have not the slightest interest in the personnel of the Special Committee on Gas Litigation. What I desire and desire only is results for the people who pay the bills—action for the gas consumers and economy in behalf of the taxpayers. I will name any Aldermen as a committee to continue this work that your Honorable Body approves, and when it comes to the selection of counsel I only insist that the attorney in the case be free from partisan and factional domination, above politics of every sort, of the highest standing at the bar and one whom neither the gas company or its officials and representatives, the newspapers, the Republican, Democratic or Progressive County Committees, or the putrid and hypocritical tools of organized wealth, operating behind the scenes, can reach or manipulate, or

swerve from his duty in the slightest degree. I again renew my advice to all gas consumers to save their receipted gas bills.

DEPARTMENT OF PUBLIC WORKS,

The Wilson avenue water tunnel system, practically completed, consists of a lake intake crib located about 16,128 feet, or a little over three miles, east of the shore shaft, at Wilson and Clarendon avenues; 5,603 feet of thirteen foot diameter tunnel and 37,665 feet of twelve foot diameter tunnel connecting the above crib with the Mayfair Pumping Station at Wilson and North Lamon avenues, five miles inland. In addition, a connecting tunnel was constructed between the Wilson avenue tunnel and the Lake View Crib, which will later enable the abandonment of the use of the Lake View Crib. The Lake View Pumping Station will then secure a purer supply from the Wilson avenue crib through this connecting tunnel. The tunnel, over eight miles in length, with a capacity of 350,000,000 gallons per day, has been built in solid rock, and with the exception of a short length at the crib, has been constructed entirely by day labor.

Of the 350,000,000 gallons daily, the Lake View Pumping Station will require 100,000,000 gallons and the Mayfair Pumping Station 150,000,000 gallons, leaving a capacity of 100,000,000 gallons for future extensions of the water system.

Before undertaking the work of tunnel construction, bids were received and the decision to construct the same by day labor followed, with a result that the tunnel was completed within the time specified at less cost than the lowest contract bid, notwithstanding the unusual advance in cost of materials and labor, which are illustrated by the following few items:

	Prices in 1914	Prices in 1917	Percentage of increase
Dynamite, per 100 lbs.	$13.65	$30.75	125.28
Exploders, Per M	42.50	93.50	120.00
Rails, per cwt	1.175	2.75	134.00
Cement, per bbl	1.59	2.13	33.98
Labor, increase average shift, 14.28%	3.20	3.60	14.28
	4.00	4.60	
	4.60	5.20	

The construction of the tunnel by City day labor has assured a high standard of quality of material and workmanship. The Mayfair Pumping Station itself has been constructed by day labor and will be in service early this summer.

The total pumpage of the various water stations was a little over two hundred thirty-four billion gallons last year. The prices of coal, oil, supplies and materials for repairs have risen rapidly, thereby increasing the pumpage cost. This condition has required the department to exercise increased vigilance in watching the relation of coal consumption to the pumpage output, in order to prevent the cost of operation, maintenance and repairs overbalancing the revenue derived from the sale of water.

The work of extending the water works system during the past year has included the preparation of new plans, letting of new contracts, and doing a considerable amount of work by day labor for new construction and remodeling of existing water pumping stations and tunnels, including a study for determining a schedule for the increase in the water supply to meet the increasing growth of the city.

Approximately ninety miles of water mains were laid during the past year, and twelve hundred new fire hydrants were installed. Approximately twenty-two hundred new water meters were installed during the past year, or 35% more than during the previous year, and the general cost of maintenance of meters was reduced from $4.40 to $3.15 each, or 29%, as compared with the previous year.

The increased revenue collected by the Bureau of Water from meter services over the previous year amounted to approximately $430,000.00 and the gross collections show an increase of 10%.

The new Municipal Shops now contain all the shops of the city, as originally planned, consolidation and organization having been completed during the past year.

The new Municipal Power Plant within the grounds of the House of Correction, was placed in operation during the past year and is now furnishing heat, light and power to the Municipal Shops and the Contagious Disease Hospital, and is designed to furnish light for the House of Correction.

The new Municipal Warehouse, including delivery system and truck service furnished to the various bureaus and divisions of the city government has operated satisfactorily during the past year. The work accomplished by the warehouse has proceeded along the lines looking to a consolidation of all the city's purchases. It is recommended that the facilities of the warehouse be extended to include all departments in its service and that the ordinance bearing upon the powers of the Business Agent be amended accordingly.

Each recurring year the mileage of streets to be cleaned and kept in repair and the quantity of refuse to be removed increases in excess of the increase in labor and equipment provided. During 1917, 123 miles of streets and 43 miles of alleys were added to what we already had, yet the appropriations made for the functions of street cleaning, garbage and ashes removal for 1918 requires retrenchment of approximately $1,300,000.00 in comparison to service provided for in 1917.

In the latter part of 1917 the wages of teams and laborers were increased and the wages of laborers were again increased in 1918, which, together with a reduced appropriation, necessitates the performance of the work of these functions at the comparative saving above mentioned.

There are now 12% less teams and 21% less laborers employed in this work. Under this handicap I consider that the Bureau of Streets is making an exceptionally creditable showing.

The percentage of appropriation expended during the first four months of 1918 amounted to 41% which is in excess of a pro rata amount of 33 1/3%. This increased percentage of expenditure is largely due to the unusual expenditure occasioned by the severe snow storms since January 1st of this year, which caused an expense of at least $200,000.00 more than the previous year.

On January 8, 1918, after a general conference in the Mayor's office, I issued a proclamation appealing to the people in their home districts to help clean the streets of snow and open up the catchbasins and inlets so that the sewers might drain and the vast volume of slush and water resulting might be carried away. One million people throughout the city, including one hundred

thousand school children, responded and rendered invaluable service to the community. The timely cooperation of the Federal government and the Drainage Board in facilitating the dumping of snow in the river and the aid of the Park Boards, the Real Estate Boards and many local improvement societies in furnishing vacant lots, thereby decreasing the length of hauls, was of vital assistance. Altogether the city achieved the most marvelous record in its history in overcoming a condition of this kind.

The public must be appealed to this year for cooperation in the cleaning of streets and removal of waste for reasons of economy both to the people and the city for in these activities the health and comfort of the public is materially aided.

The lack of dumps in the city presents a serious problem worthy of special consideration by your Honorable Body. It will undoubtedly be necessary to provide for the construction of centrally located incinerators for the consumption of all combustible material.

Experience with motor-driven apparatus for the collection of garbage and ashes proves that this is the correct method for the future.

The Municipal Pier has been of great service to the Government thus far during the war, and will undoubtedly be of greater service in the future. The passenger sheds have been used as drilling spaces for numerous military organizations and as dormitories for members of the United States Navy. Considerable space has been used by the United States Naval Training School, where an average of five hundred men have been in continuous training to become officers in the Navy. Considerable space is also being used by the National Government for storage purposes.

The recreation features of the Pier will be continued the coming season on a larger and more effective scale than in the past.

Municipal Reduction Plant.

The Municipal Reduction Plant is now operating at a profit. The reduction plant operated at a loss on manufacturing cost of $31,011.00 during the year 1917, as against a loss of $75,948.00 during the year 1916. An increase in revenue from the sale of products amounting to more than $200,000.00 is assured, which will result in a profit in the operation of the reduction plant during 1918 of more than $100,000.00, based on cost of manufacture. The grease content of garbage received has been approximately 30% less than during the preceding year, but notwithstanding this fact and the higher costs of manufacture a substantial profit will result this year, for the first time since its operation by the City.

The total amount of raw garbage received at the plant aggregated 100,146 tons during the year 1917, with the resultant production of 4,023,480 pounds of garbage grease, and 22,480 tons of garbage tankage. The revenue from the sale of products in 1917 aggregated the sum of $426,378.

The Bureau of Parks, Public Playgrounds and Bathing Beaches, transferred to the Department of Public Works during the past year, has carried on much important work. The action of the last Legislature in authorizing a five-mill tax for playground purposes will bring in a revenue of about $500,000.00 for the operation of playgrounds and the acquisition of sites. This will relieve the Corporate Fund of that expense and put the work of providing recreation and play spaces for the children of the city on a firm financial basis.

Seventy playgrounds are now in operation, with a total attendance during the past year of approximately fifteen million persons.

Means should be provided as soon as possible for the proper development of the Seventy-ninth Street Bathing Beach land, which when completed, will make one of the finest recreation spots in the city.

The four Municipal Bathing Beaches already in operation have been liberally attended; particularly the Clarendon Beach, which handled a crowd of 25,000 bathers in one day, without difficulty. It is very urgent that adjoining land be acquired for this beach before the opportunity to secure same is gone.

Board of Local Improvements.

The litigation involved in the widening of West Twelfth street has finally been concluded and the actual work of widening has been practically completed from Clinton street to Ashland avenue and the street paved with granite and new sidewalks laid.

A representative of the Federal Government has just recommended to his department that the City be permitted to proceed with the building of the approaches to the Twelfth street viaduct.

The 8,500 law suits incident to the Michigan Boulevard Link improvement have been adjudicated. The City won a notable victory in the County court in that the damages assessed against the City were even less than set out by the Commissioners. The judgment in favor of the City has enabled the actual work of wrecking buildings and building the street to proceed and has saved over $1,000,000.00.

The President of the Board of Local Improvements has acquainted the United States Government with the fact that the Michigan Boulevard Link improvement is a necessary part of the Military Road to be maintained between the City of Chicago and Ft. Sheridan and the Great Lakes Naval Station, and that in the construction of this link in its entirety the interests of the Government are vitally concerned.

The first contract for the construction of the Michigan avenue bridge over the Chicago River, at an approximate cost of $800,000 has been let.

It has been accurately computed that $1,800,000 worth of gasoline is wasted each year on account of the congestion at Rush street bridge and the consequent continual stopping and starting of all motor vehicles using it.

Considerable surveying work preliminary to the proposed extension of Ogden avenue from Union Park to Lincoln Park has been accomplished. It is anticipated that unless this department is unduly retarded in its work, from one hundred and fifty to one hundred and sixty miles of streets and alleys will be paved during the coming year. Two hundred miles of sidewalks have been laid during the past year, approximately one-third by City contract and two-thirds by private contract.

Building Department.

War conditions have had a depressing effect upon building operations and the erection of many residences and apartment buildings heretofore planned has practically ceased, and operations have been con-

fined largely to manufacturing plants, warehouses and railway freight terminals. These conditions will probably not change during the continuance of the war.

The amendment of the Building and Fire Prevention Ordinances during the past year have produced satisfactory results and done away with considerable overlapping of inspections and conflict of authority between these two agencies.

DEPARTMENT OF SMOKE INSPECTION.

During the past winter the supply of smokeless coal for Chicago became practically exhausted, compelling the use of Illinois and Indiana coal exclusively in power and heating plants and private residences. In consequence, the smoke nuisance has been particularly acute, menacing both the health and comfort of the City and entailing large expense upon householders for renewals of furnishings and decorations.

Complaints during the past year were three times what they were during preceding years. The coal situation will undoubtedly present a similar condition the coming year.

This Department will continue its campaign this summer to secure the co-operation of apartment building owners in an effort to equip their buildings so that Illinois and Indiana coal can be used without creating dense smoke.

If the coal stringency of the past winter is to be avoided the coming winter it will be necessary to use every means of co-operation in the matter of conserving fuel, as the minimizing of smoke means practical conservation of fuel.

DEPARTMENT FOR THE INSPECTION OF STEAM BOILERS, STEAM AND COOLING PLANTS.

This Department earned a net revenue during the past year of $31,821.22.

No accidents of any consequence have been reported and not a single loss of life on account of defective boilers has occurred. This is a remarkable record in view of industrial conditions, when many boilers are working beyond their normal capacity in order to assist the Government.

It is the recommendation of the Chief Inspector that more inspectors be provided for, in order that greater safeguards may be provided, and incidentally the revenue of the City increased.

FIRE DEPARTMENT.

The operation of the two platoon system in accordance with an ordinance passed by your honorable body, October 30, 1916, has continued with excellent results, fully justifying the wisdom of this humane legislation. The department's efficiency has been raised due to this ordinance and the continued substitution of motor drawn apparatus for horse drawn. The fire losses for the past year were $1,324,032.00 less than during the preceding year. Statistics show that such projects as the widening of Twelfth street and Michigan avenue, the building of the new Union Station and freight terminals has relieved the city of many hazardous and dangerous fire risks. The Fire Prevention Bureau has by inspections and suggestions for regulations, greatly aided public safety. This Bureau has also worked with the United States Government along numerous lines on matters concerning local as well as national security and safety.

DEPARTMENT OF GAS AND ELECTRICITY.

The recommendation of the Commissioner of Gas and Electricity made last year for the erection of a building for the main fire alarm office is renewed. This building should be erected on the lake front or in some park or open space, where the fire hazard would be small.

Fire alarm offices similar to the one now in the Englewood district should be established on the north and west sides.

DEPARTMENT OF SUPPLIES.

There has recently been prepared an ordinance providing for the organization of an independent purchasing department for the City, empowered to make purchases of all kinds, except public improvements, for all departments. This ordinance is now under consideration by the Committee on Finance, and when passed will create a modern purchasing system, such as the City needs.

Although the price of every conceivable article has advanced materially during the past year, nevertheless purchases have been made at satisfactory prices and deliveries have been prompt, due to the wide range of competition which has been invited.

DEPARTMENT OF PUBLIC SERVICE.

The Commissioner of Public Service advises that the loading zone ordinance has reduced the loading and unloading time of street cars as well as making it more convenient and safe to alight from and board these vehicles where loading zones are established.

The anti-parking ordinance has relieved the congestion in the downtown streets and has facilitated the movement of all traffic to a considerable degree, and the liability for accidents has been greatly reduced.

This Department is in a position to render valuable aid to your honorable body in relation to all public utility matters.

Problems continually arising in the administration of municipal affairs require the technical knowledge of practically trained men for solution. A great saving could be made by referring many of these items to the City's own employes, instead of to outside engineers, experts and special investigators. In the matter of the revision of telephone rates, the present five year period expires this month, May 26th, and the Department of Public Service has collected valuable data which is at the disposal of your honorable body and the use of which will undoubtedly save the City thousands of dollars ordinarily handed over to self-constituted professionals eager to absorb the City's fees.

On the subject of telephone rates, it is my view that the people are paying entirely too much for this service and should be granted a substantial reduction in your forthcoming revision and at the same time the consumer should be protected by a meter, so that he has a means of checking against the Company on all calls made by him. At present the operation of the measured service system benefits only the Company.

The rate revision of the Commonwealth Edison Company also comes before your honorable body this year, and I sincerely hope that the rates on electrical energy to consumers may be lowered for the next five year period.

DEPARTMENT OF HEALTH.

Chicago's death rate from typhoid fever has been reduced to 1.68 per one hundred thousand of population, a rate never before equaled in this or any other American city. This has been due largely to the exercise of constant surveillance over both our water and milk supplies. Our water supply at the present time is 99.44% pure and the milk supply is 99% pasteurized.

The death rate from pneumonia has been higher than it should have been, due largely to conditions brought about through the use of soft coal.

The contagious disease situation is generally very favorable.

Chicago's record in the matter of suppression and control over other diseases has been excellent during the past year.

The death rate from tuberculosis for the past year was 149.18 per one hundred thousand, which is the lowest ever reported for this City. The result is due to measures of sanitary control recently put into force.

The Municipal Tuberculosis Sanitarium housed and fed a daily average of 780 patients during the past year, at a per capita cost of $10.73 per week, and 34,000 patients were cared for at the various dispensaries.

Recently the City was divided into eighty districts and a plan devised for the quarantining of tuberculosis, it being treated as a contagious disease. This is the only City in the United States that is attempting to enforce quarantine in this regard.

The capacity of the Sanitarium has been increased by nearly two hundred beds, so that at the present time 900 patients can be accommodated.

Our dispensaries are open daily from nine o'clock in the morning to five o'clock in the afternoon, and two evenings each week.

DEPARTMENT OF WEIGHTS AND MEASURES.

The work of this department is of unusual importance under present conditions, due to the necessity for examining all scales and measures, so that the purchasing public may be protected against short weights.

Due to extraordinarily high prices of all commodities today, it is more necessary than ever to maintain rigid inspections. There is hardly an article sold that has not advanced in cost, so that short weights mean considerable more loss to the purchaser than formerly.

Conditions in the hay and feed line particularly have become so acute that the dealers have organized for the purpose of stamping out short weights and unfair competition. They have requested the assignment of two inspectors to their work and have even offered to pay the salaries of the men required. The opinion of the Law Department, however, is that these men would have no standing in court and consequently would be of little value.

An increase of several more men in this Department would bring the City at least $10,000 in fees and the people would be saved many thousands of dollars through protection against short weights.

DEPARTMENT OF PUBLIC WELFARE.

This Department has been working under severe handicap, due to shortage of funds. Its Bureau of Employment has placed approximately 2,500 persons in positions since last October. A Bureau of Information has been instituted, which performs social service work in connection with the women's department of the House of Correction. This is the first time any definite program has been put into effect to assist women released from the House of Correction. A Bureau of this kind should be established upon a permanent basis by ordinance.

Unfortunately and through short-sightedness the City government is daily neglecting the best interests of the people of Chicago in failing to give adequate support to the garden movement. Last year a volunteer garden movement was inaugurated, and a temporary organization formed, supported by subscriptions, to which I gave space in my office. Thousands of acres were planted and people all over the city co-operated generously in the work. The people will enthusiastically support plans for cultivating and gardening if only afforded the co-operation of some central agency. No work that can be done this summer and fall at home will lend greater aid to the Government than the stimulation of economy, thrift and conservation through intelligent gardening. I called the attention of your Honorable Body to the importance of this subject in my last annual message and urged the establishment of a permanent bureau with adequate appropriations to maintain it, but appropriations have not been made to secure the required benefits.

The Department of Public Welfare with its limited facilities is rendering some service in gardening to hundreds of people who apply for assistance. It is operating two community gardens now and has applications for numerous others. There are many tracts of land all over Chicago containing good soil which should be plowed and crops of potatoes, beets, carrots, turnips and cabbage grown thereon. What is needed is an organization to provide lectures, distribute literature, supply seeds, arrange for plowing and have available the services of a force of competent gardeners. I again appeal to your Honorable Body to give consideration to one of the gravest problems confronting our people, the conservation of every available kind of food. You can render no more efficient service to Chicago or the nation than concentrating local public interest upon intense and intelligent devotion to gardening at this opportune season.

HOUSE OF CORRECTION.

The increase in the number of inmates of this institution has presented quite a problem, particularly in the matter of finding suitable employment for so great a number. Under existing conditions this problem has been temporarily solved through an arrangement with the Bureau of Streets, whereby several hundred inmates are working cleaning alleys and vacant lots in various sections of the city. The work is done under the direction of the Bureau of Streets while the men are supervised by guards from the House of Correction. This arrangement has the approval and support of organized labor in Chicago due to the fact that ordinary labor is unavailable on account of nation-wide industrial conditions and therefore not in competition, and that the City is short of funds and compelled to put economies into practice in directions that do not deprive taxpayers of public service to which they are justly entitled. The plan has worked without friction or injury thus far and is saving the City thousands of dollars at a time when the money is needed.

Chicago Public Library.

This institution suffered the loss of its Chief Librarian last September in the death of Henry E. Legler. His first assistant has succeeded to the vacant post by virtue of a civil service examination.

The home circulation of books has increased 22½% and the reference use of books 16% during the past year.

The library has assumed a number of new responsibilities in connection with war service. It has purchased considerable quantities of drill manuals and books on military organization for public use.

It has carried on the work of securing contributions of books for military and naval camp libraries and the armies in the field. Up to the present time approximately 260,000 volumes have been received, sorted, prepared for use and distributed among the various camps. It is the central collecting station for the middle west.

The increased clerical work is being done without additional expense to the library fund, being contributed by members of the staff working after hours and on holidays.

It has had charge of the installation of thoroughly equipped libraries at Camp Grant and the Great Lakes Naval Station.

It has also co-operated with the Food Administration, the National Council of Defense, and other agencies and has cared for the free distribution of bulletins, posters and exhibits, calling attention to pamphlets and other publications for the United States Government.

Civil Service Commission.

Over 600 examinations have been conducted during the past year, participated in by over 76,000 applicants, all in strict compliance with the provisions of the Civil Service Law.

Since the beginning of the war the Commission has amended its rules so that leaves of absence may be granted for the period of the war to all employes of the City entering the military or naval service. Under this rule, the Commission has up to the present time approved 734 leaves of absence for military and naval service.

Strict control has been maintained over the granting of temporary authorities for employment. Numerous cases bearing upon the Civil Service law have been tried in the lower and Appellate Courts. This class of litigation continues to increase each year.

Police Department.

During the year 1917 the decrease in crimes committed in this City was 18% as compared with the year 1916. This year from January 1st to April 16th the decrease was 44% as compared with the correspnding period in 1917. For the month of April, 1918, the decrease was 51% as compared with April, 1917. Between May 1, 1917 and April 16, 1918, property valued at $563,000 was recovered by police officers. From January 1, 1917, to April 16, 1918, 13,695 criminal arrests were made by police officers, exclusive of violations of city ordinances and for minor offenses. During this same period eight brave officers sacrificed their lives on duty. During this same period twenty-eight spectacular crimes, involving bank and pay-roll robberies, several culminating in shooting and murder, have all been cleared up by the Police Department, the perpetrators arrested, some convicted and some awaiting trial.

In addition, a large amount of work has been carried on for the Federal Government endeavoring to eradicate commercialized vice and along secret service lines. This is appreciated in a commendatory communication from the Department of Justice in Washington forwarded to the Acting General Superintendent of Police three weeks ago. Chicago is freer from crimes and criminals today than ever before in its history. The people of Chicago are to be complimented upon the general law-abiding conditions which prevail and for maintaining a record as the most orderly big city in America since our country has been in war.

These statistics authenticated by detailed reports in my office and the office of the Chief of Police speak volumes for the efficiency and integrity of the Police Department. Aside from normal progress, other causes have contributed to results achieved. The re-districting of the city and the abolition of a number of superfluous stations has saved overhead expense and put more men on the street. The assignment of a large number of special detail men to regular duty and the distribution of a number of mounted officers throughout numerous districts has added to the effectiveness of patrolling. The substitution of auto patrols for horse drawn wagons has increased facilities for handling prisoners, and the salary increases awarded members of the department below the rank of lieutenant has spurred the ambition of the men to faithful performance of duty.

I recommend to your Honorable Body efforts to raise the compensation of the higher grades in the department to a level in keeping with the arduous duties and responsibilities imposed upon the officers in these positions. The captains and lieutenants in their respective districts are charged with the direct supervision of protecting life and property and preserving order and seeing to it that laws and ordinances are obeyed and respected. This service to the citizens and taxpayers is worth a higher competence than the City is paying. I urge that the salaries of lieutenants of police be raised immediately from $2,000 a year to $3,000 a year and that the salaries of captains be increased from $3,000 a year to $4,000 a year. This standard is low enough for the exacting work required.

The Acting General Superintendent of Police recommends the selection of a site and the construction of a new Central Police Station in the downtown district, to include accommodations for the Detective Bureau, the first and second precincts and the branch municipal courts. The City is now paying $23,300 annual rental for the quarters now occupied by these precincts and the Detective Bureau and they are not fit for the purposes used. What Chicago really needs is a Police Administration Building that will house the general headquarters, provide accommodations for the force policing the downtown district, sufficient court facilities and quarters for a comprehensive school for police instruction.

I again renew my recommendation that your Honorable Body through its Committee on Schools, Fire, Police and Civil Service draft a new police ordinance that will provide for a modern organization. The so-called police reorganization ordinance under which the

department is operating has proved a failure and is a handicap to efficient police work. It is impracticable, misleading in its provisions and violates all sound principles of police administration.

CONCLUSION.

There are other items of pubic concern which I shall take the liberty of addressing your Honorable Body upon later. I shall submit for your consideration a report upon the administration of the public school system and my views upon the present status of the traction and subway question at an early date.

In closing, I importune the members of Chicago's Common Council to look this big City over that we who are charged with governing it may give thought to the destinies of the silent multitudes comprising its citizenship. You come from the body of the people and should remain steadfast in devotion to their interests and not mistake the voice of greed for the voice of God. Unfortunately we have living among us a number of pharisees and their retainers whose commands sound imperative, a class who cry loudly in accusation of folly in others to distract attention from the uncleanness in themselves. To such as these the columns of a section of the public press are free and open while to a majority of American manhood and womanhood they are closed. For in the commercial code of some newspapers greater profits grow out of libel, malice and abuse than from truth, sincerity and good-will.

Among the plain people, however, mostly poor in worldly goods and with no axes to grind, there exists actual sincerity, love for country of birth or adoption and loyalty to city and state. To interpret the true interests of these should be our problem and our guide in administration of municipal affairs without fears or forebodings. Then we can maintain popular government and appreciate the surpassing privilege of living under the Stars and Stripes.

Respectfully submitted,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Walker moved that the City Clerk be directed to have printed 10,000 copies of said message in pamphlet form.

The motion prevailed.

Ald. Lipps moved that the various committees of the City Council give consideration to those portions of said message which pertain to the work of their respective committees.

The motion prevailed.

Illinois Motor Corps: Permission to Park Automobiles.

The Mayor submitted the following communication:

MAYOR'S OFFICE,
CHICAGO, May 12, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith a communication from the Woman's Committee of the State Council of Defense and the Woman's Committee of the Council of National Defense in which they request permission to park cars in the vicinity of their headquarters, to be used by them in a campaign for Liberty Loan Bonds and War Savings Stamps and other activities in which they are engaged.

I also transmit herewith a draft of an order giving the necessary authority and I submit the same for your consideration.

Respectfully submitted,

(Signed) WM. HALE THOMPSON,
Mayor.

Unanimous consent was given for consideration of the order submitted with the foregoing communication.

Ald. Schwartz moved to pass said order.

The motion prevailed.

The following is said order as passed:

Ordered, That the General Superintendent of Police be and he is hereby requested to permit the Illinois Motor Corps to park not to exceed eight automobiles in the street in front of and in the vicinity of 120 West Adams street, the building occupied by the State Council of Defense; the said machines to be used by the Woman's Committee of the State Council of Defense and the Woman's Committee of the Council of National Defense, Illinois Division, for the purpose of enabling them to carry on campaigns in aid of the Liberty Loan and War Savings Stamps and other activities in which the committee is engaged in its efforts to aid in the prosecution of the war.

CITY CLERK.

Report of Acceptances and Bonds Filed.

The City Clerk submitted a report of acceptances and bonds under ordinances, filed in his office and not previously reported to the Council, which was ordered published and

Placed on file.

Said report reads as follows:

OFFICE OF THE CITY CLERK,
CHICAGO, May 13, 1918.

To the Honorable, the Mayor and City Council:

GENTLEMEN—In accordance with the provisions of The Chicago Code of 1911, I hereby make report of acceptances and bonds filed in this office:

Central Cold Storage Company: Acceptance and bond, ordinance of February 15, 1918, switch track; filed April 15, 1918.

The Illinois Vinegar Manf'g Company: Acceptance and bond, ordinance of February 15, 1918, switch track; filed April 10, 1918.

Abner H. Stone: Bond, under ordinance of February 6, 1913, and assignment from original grantee, B. H. Hellen, canopy; filed May 6, 1918.

Montgomery Ward & Co., Inc.: Acceptance and bond, ordinance of February 15, 1918, as amended March 14, 1918, switch tracks; filed April 9, 1918.

C., M. & St. P. Ry. Company: Acceptance, amendatory track elevation ordinance of April 22, 1918; filed May 13, 1918.

Respectfully yours,

(Signed) JAMES T. IGOE,
City Clerk.

"Tag Day": Chicago Federation of Aged and Adult Charities (Proclamation).

The Clerk presented the following proclamation, submitted by the Mayor, which was ordered published and placed on file:

MAYOR'S OFFICE,
CHICAGO, May 10, 1918.

PROCLAMATION.

TO THE PEOPLE OF CHICAGO—On Monday, May 13th, the Chicago Federation of Aged and Adult Charities will hold their annual tag day. The money given for tags on this day will go to the maintenance of the institutions and organizations represented by the federation.

It is urgent that the people contribute to this cause as generously as their means will permit, because of the humane and constructive service these organizations render to those who through misfortune become dependent upon the community.

The people of Chicago are now meeting many calls for aid toward causes which our country's entrance into war have created. But it is equally important that they continue to support and maintain the charitable institutions and agencies which shelter and protect our helpless and destitute at home.

I bespeak for the Chicago Federation of Aged and Adult Charities the sympathy and generosity of the people of Chicago and hope they will respond bountifully to the individual appeals made to them next Monday, May 13th.

(Signed) WM. HALE THOMPSON,
Mayor.

Billy Sunday Services: Invitation to Attend.

The Clerk presented an invitation from the chairman of the executive committee of the Sunday Evangelistic Campaign, inviting the members of the City Council to attend the services, which was ordered

Placed on file.

Vacation of Seward St.: between W. 16th and W. 18th St.

The Clerk presented an ordinance providing for the vacation of Seward street between West 16th street and West 18th street (Peter Schoenhoefen Brewing Company, beneficiary), which was

Referred to the Committee on Local Industries.

Oscar Heineman Co.: Vault in Alley.

The Clerk presented an ordinance granting permission and authority to Oscar Heineman Company to construct and maintain a vault in alley in rear of premises known as 1937-45 North Fairfield avenue, which was

Referred to the Committee on Streets and Alleys.

Jos. A. Schultz: Auto-shed.

The Clerk presented an order directing issuance of a permit to Joseph A. Schultz to construct and maintain an auto-shed in rear of 535 N. Trumbull avenue, which was

Referred to the Committee on Buildings and City Hall.

Y. M. C. A. Hotel: in Matter of Exemption from Payment of Water Rates.

The Clerk presented a communication from The Young Men's Christian Association of Chicago, requesting that the Y. M. C. A. Hotel be exempted from payment of water rates, which was

Referred to the Committee on Finance.

A. S. King: Claim.

The Clerk presented a claim of A. S. King for a refund of license fee, which was

Referred to the Committee on Finance.

CITY TREASURER.

Red Cross Campaign: Assistance of City Employes.

The Clerk presented the following communication submitted by the City Treasurer:

OFFICE OF THE CITY TREASURER,
CHICAGO, May 13, 1918.

To the Honorable, the City Council, of the City of Chicago:

GENTLEMEN—On May 20, 1918, the Red Cross organization will enter upon their campaign for the purpose of raising money to carry on their work. This is of vital interest to every American who is interested in the welfare of every boy at the front who is defending American rights and liberty.

The City employes did excellent work in putting the City Hall over the top in the Third Liberty Loan drive. This same good work could be performed by them on behalf of the Red Cross in their respective wards, as I feel that they are ever ready and willing to perform any patriotic service they may be called upon to perform by your Honorable Body.

The purpose of this communication to you is to suggest that you call the attention of every City and School employe to the fact that an opportunity is open to them to perform a patriotic service by reporting to the Ward Chairman of the Red Cross organization in his or her respective ward—for the purpose of assisting in the canvass which is about to be made by the Red Cross organization.

Very sincerely yours,
CLAYTON F. SMITH.

Ald. Lipps moved that the City Clerk be directed to inform the heads of the various departments to notify their employes of the contents of the above communication.

The motion prevailed.

DEPARTMENT OF PUBLIC WORKS.

Grades: Sundry Streets.

The Clerk presented the following communication submitted by the Commissioner of Public Works:

DEPARTMENT OF PUBLIC WORKS,
CHICAGO, May 13, 1918.

To the Honorable, the Mayor, and the City Council:

GENTLEMEN—I transmit herewith a proposed ordinance for the establishment of sundry street grades in the City of Chicago with the recommendation that it be passed.

Respectfully,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

WILLIAM R. MATTHEWS,
Bench and Grade Engineer.

GEO. E. McGRATH,
Supt. Bureau of Sewers.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Littler moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—67.

Nays—None.

The following is said ordinance as passed:

BOARD OF EDUCATION.

Public School Buildings: Cleaning and Calcimining.

The Clerk presented the following communication, submitted by the business manager of the Board of Education, which was ordered published and placed on file:

BOARD OF EDUCATION,
CHICAGO, May 7, 1918.

Hon. James T. Igoe, City Clerk, City of Chicago:

DEAR SIR—Your communication of February 6, 1918, embodying a resolution passed by the City Council at its regular meeting, held on January 28, 1918, requesting the Board of Education to furnish the City Council with information relative to the cleaning and calcimining of schools, was referred by the Committee on Buildings and Grounds of the board to the business manager for consideration and report.

It has been the custom of the Board of Education for many years to calcimine all school buildings in Chicago once every three years, one-third of the buildings being calcimined each year, during the summer vacation.

This policy seems to have given satisfaction in the past, and especially since the oiling of floors began.

The estimated cost of calcimining all our public schools at one time is $410,000.00

Yours very truly,

(Signed) PERCY B. COFFIN,
Business Manager.

HARBOR BOARD.

Municipal Pier: Lease of Space to Chicago, Duluth and Georgian Bay Transit Co. (Amendment).

The Clerk presented the following communication, submitted by the Harbor Board:

HARBOR BOARD,
CHICAGO, May 10, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—Under date of November 26, 1917, an ordinance was passed by the City Council, on recommendation of the Harbor Board, directing the Commissioner of Public Works to enter into a lease with the Chicago, Duluth & Georgian Bay Transit Company for the west twenty (20) feet of the east eighty (80) feet of the freight and passenger building on the south side of the Municipal Pier.

This space is immediately adjacent to the space formerly occupied by the Roosevelt Steamship Company, and inasmuch as the steamer "Theodore Roosevelt" has been taken over by the Government, that company will have no requirements for space during the coming season. I am therefore enclosing herewith an amendment to the ordinance shifting the space to that previously occupied by the Roosevelt Steamship Company, which will eliminate the necessity of equipping an additional office for the use of the Chicago, Duluth & Georgian Bay Transit Company.

Yours very truly,

(Signed) FRANK I. BENNETT,
Chairman, Harbor Board.

(Signed) H. V. MCGURREN,
Secretary, Harbor Board.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Littler moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Novak, Ahern, Horne, Maypole, Smith,

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That an ordinance passed by the City Council on November 26, 1917, and appearing upon page 1520 of the Journal of the Proceedings of that date, authorizing the Commissioner of Public Works to enter into a lease on behalf of and in the name of the City of Chicago with the Chicago, Duluth & Georgian Bay Transit Company, a corporation, for the west twenty (20) feet of the east eighty (80) feet of the freight and passenger building on the south side of the Municipal Pier, be and the same is hereby amended by striking out the word and figures "eighty (80)" in line 6, Section 1 of said ordinance and inserting in lieu thereof the word and figures "sixty (60)".

SECTION 2. This ordinance shall take effect and be in force from and after its passage.

Placed on file.

Winona St. from C. M. & St. P. R. R. to N. Long Av., Etc. (System): Paving with Granite or Trap Rock Asphaltic Macadam.

The Clerk presented the following recommendation, estimate and ordinance, submitted by the Board of Local Improvements, which were ordered published in the Journal and referred to the Committee on Home Defense:

RECOMMENDATION, ESTIMATE AND ORDINANCE.

RECOMMENDATION BY BOARD OF LOCAL IMPROVEMENTS.

To the Mayor and Aldermen of the City of Chicago, in City Council Assembled:

We hereby submit an ordinance for the improvement —adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick catchbasins complete, curbing with sandstone curbstones supported at each joint by one and one-half cubic feet of Portland cement concrete, grading and paving with eight inches of blast furnace slag or eight inches of limestone and two and one-half inches of granite or trap rock bonded with asphaltic cement, the roadways of a system of streets as follows, to wit:

Winona street, from the westerly line of the right of way of the Chicago, Milwaukee and St. Paul Railroad to the east line of North Long avenue;

Carmen avenue, from a line parallel with and 425 feet east of the east line of Leclaire avenue to the northeasterly line of Norwood Park avenue produced northwesterly;

Winnemac avenue, from the west line of North Lavergne avenue to the east line of North Long avenue;

Lovejoy avenue, from the north line of Carmen avenue to a straight line connecting the southeast and southwest corners of Foster avenue;

North Lotus avenue, from the north line of Carmen avenue to the south line of Foster avenue;

North Long avenue, from the northeasterly line of Norwood Park avenue to the south line of Foster avenue;

North Lockwood avenue, from the north line of Argyle street to the south line of Foster avenue;

North Laramie avenue, from the north line of Argyle street to the south line of Foster avenue;

Leclaire avenue, from the north line of Argyle street to the south line of Foster avenue, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described, in the City of Chicago, County of Cook and State of Illinois, together with an estimate of the cost of said improvement, and recommend the passage of said ordinance and the making of the improvement contemplated therein.

Respectfully submitted,

ESTIMATE OF ENGINEER.

To the Board of Local Improvements of the City of Chicago, and to the Mayor and Aldermen of the City of Chicago, in City Council Assembled:

The Board of Local Improvements of the City of Chicago, having adopted a resolution that the roadways of a system of streets as follows, to wit: Winona street, from the westerly line of the right of way of the Chicago, Milwaukee and St. Paul Railroad to the east line of North Long avenue; Carmen avenue, from a line parallel with and 425 feet east of the east line of Leclaire avenue to the northeasterly line of Norwood Park avenue produced northwesterly; Winnemac avenue, from the west line of North Lavergne avenue to the east line of North Long avenue; Lovejoy avenue, from the north line of Carmen avenue to a straight line connecting the southeast and southwest corners of Foster avenue; North Lotus avenue, from the north line of Carmen avenue to the south line of Foster avenue; North Long avenue, from the northeasterly line of Norwood Park avenue to the south line of Foster avenue; North Lockwood avenue, from the north line of Argyle

street to the south line of Foster avenue; North Laramie avenue, from the north line of Argyle street to the south line of Foster avenue; Leclaire avenue from the north line of Argyle street to the south line of Foster avenue, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described, be improved by adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick catchbasins complete, curbing with sandstone curbstones supported at each joint by one and one-half cubic feet of Portland cement concrete, grading and paving with eight inches of blast furnace slag or eight inches of limestone and two and one-half inches of granite or trap rock bonded with asphaltic cement, and presented to the City Council of the City of Chicago, a recommendation that such local improvement be made. I hereby submit an estimate of the cost of such improvement, including labor and materials, viz:

Sandstone curb stones supported at each joint by 1½ cubic feet of Portland cement concrete, 29,100 lineal feet at $0.85	$ 24,735.00
Grading 23,600 cubic yards at $0.80	18,880.00
Paving with eight inches of blast furnace slag or eight inches of limestone and two and one-half inches of granite or trap rock bonded with asphaltic cement, 43,000 square yards at $1.60	68,800.00
Constructing 47 new brick catch basins complete at $50.00	2,350.00
Adjusting sewer manholes and catchbasins, and constructing and connecting catchbasin inlets	5,235.00
Total	$120,000.00

And I hereby certify that in my opinion the above estimate does not exceed the probable cost of the above proposed improvement.

(Signed) C. D. Hill,

Engineer of the Board of Local Improvements.

Dated, Chicago, May 13, A. D. 1918.

AN ORDINANCE

For the improvement—adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick catchbasins complete, curbing, grading and paving—of the roadways of a system of streets as follows, to wit: Winona street, from the westerly line of the right of way of the Chicago, Milwaukee and St. Paul Railroad to the east line of North Long avenue; Carmen avenue, from a line parallel with and four hundred and twenty-five (425) feet east of the east line of Leclaire avenue to the northeasterly line of Norwood Park avenue produced northwesterly; Winnemac avenue, from the west line of North Lavergne avenue to the east line of North Long avenue; Lovejoy avenue, from the north line of Carmen avenue to a straight line connecting the southeast and southwest corners of Foster avenue; North Lotus avenue, from the north line of Carmen avenue to the south line of Foster avenue; North Long avenue, from the northeasterly line of Norwood Park avenue to the south line of Foster avenue; North Lockwood avenue, from the north line of Argyle street to the south line of Foster avenue; North Laramie avenue, from the north line of Argyle street to the south line of Foster avenue; Leclaire avenue, from the north line of Argyle street to the south line of Foster avenue, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above-specified streets between the points herein described, in the City of Chicago, County of Cook and State of Illinois.

Be it ordained by the City Council of the City of Chicago:

Section 1. That a local improvement shall be made within the City of Chicago, County of Cook and State of Illinois, the nature, character, locality and description of which local improvement is as follows, to wit:

That the roadway of Winona street from the westerly line of the right of way of the Chicago, Milwaukee and St. Paul Railroad to the east line of North Long avenue, also the roadway of Carmen avenue from a line parallel with and four hundred and twenty-five (425) feet east of the east line of Leclaire avenue to the northeasterly line of Norwood Park avenue produced northwesterly, also the roadway of Winnemac avenue from the west line of North Lavergne avenue to the east line of North Long avenue, also the roadway of Lovejoy avenue from the north line of Carmen avenue to a straight line connecting the southeast and southwest corners of Foster avenue, also the roadway of North Lotus avenue from the north line of Carmen avenue to the south line of Foster avenue, also the roadway of North Long avenue from the northeasterly line of Norwood Park avenue to the south line of Foster avenue, also the roadway of North Lockwood avenue from the north line of Argyle street to the south line of Foster avenue, also the roadway of North Laramie avenue from the north line of Argyle street to the south line of Foster avenue, also the roadway of Leclaire avenue from the north line of Argyle street to the south line of Foster avenue, the width of each of said roadways being hereby established at twenty-six (26) feet, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points hereinbefore described, be and the same are hereby ordered improved as follows:

The best quality of sandstone curbstones shall be set on edge along their length on each side of the roadway of each of said above-specified streets between the points hereinbefore described (except across the roadways of all intersecting streets and alleys between the points hereinbefore described) in such a manner that the roadway face of the curbstones shall be parallel with and thirteen (13) feet from the center line of each of said above-specified streets; and the best quality of sandstone curbstones shall be set on edge along their length on each side of the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above-specified streets between the points hereinbefore described in such a manner that the roadway face of the curbstones shall conform with the curb line produced

on each side of all said intersecting streets and in such a manner that the back of the curbstones shall conform with the alley line produced on each side of all said intersecting alleys between said points.

Said curbstones shall be five (5) feet long, eighteen (18) inches deep and six (6) inches thick after being dressed with the top edge straight, full and square. Each curbstone shall be neatly dressed on its top surface, and on its roadway face for the space of fourteen (14) inches down from the top, and on its back for the space of three (3) inches down from the top, and shall have a straight base its whole length. The upper roadway edge of said curbstones shall be cut to an arc of a circle having a radius of one and one-half (1½) inches.

Said curbstones shall be supported at each joint by being firmly bedded upon a layer of Portland cement concrete eighteen (18) inches in length, twelve (12) inches in width and six (6) inches in depth. The roadway face of said layer shall conform with the roadway face of the curbstones and nine (9) inches of each end of each of said curbstones shall rest upon said layer. A layer of Portland cement concrete eighteen (18) inches in length, six (6) inches in width and twelve (12) inches in depth shall be placed at the back of said curbstones. The top of said last-mentioned layer shall be six (6) inches below the top of said curbstones and the roadway face of said last mentioned layer shall extend along the back of said curbstones for a distance of nine (9) inches from each end of each of said curbstones, and shall support said curbstones. The above-described layers of Portland cement concrete shall be constructed at the same time, so as to form a monolithic mass.

The concrete to be used to support said curbstones shall consist of the best quality of Portland cement mixed with torpedo sand or limestone screenings in the proportion of one (1) part cement and three (3) parts of torpedo sand or three (3) parts of limestone screenings, into which shall be incorporated six (6) parts of the best quality of slag, limestone or other stone which shall be equal in quality for concrete purposes and of a size that will pass through a ring of two (2) inches internal diameter and be held on a ring of one-half (½) inch internal diameter. The cement shall be mixed thoroughly with the torpedo sand or limestone screenings, after which it shall be moistened with water to form a mortar and into which shall be incorporated the six (6) parts of slag, limestone or other stone as specified above and rammed into forms until solid.

The Portland cement used in this improvement shall be so ground that ninety-two (92) per cent will pass through a standard number one hundred (100) sieve having ten thousand (10,000) meshes per square inch.

Briquettes made from a mortar composed of one (1) part said Portland cement and three (3) parts torpedo sand, or three (3) parts of limestone screenings, free from dirt, dust and other impurities exposed to the air for one (1) day and immersed in water for six (6) days shall develop an ultimate tensile strength of two hundred (200) pounds per square inch.

Earth filling, free from animal or vegetable matter, shall be placed at the back of said curbing; the top of said filling to be even with the top of said curbing. Said filling shall be four (4) feet wide at the top and shall slope down at the rate of one and one-half (1½) feet horizontal to one (1) foot vertical.

The curbstones on each side of the roadway of each of said above-specified streets shall be set so that the top edge of the same shall be at the elevation of straight lines connecting the several points, at the elevations hereinafter described, and the curbstones on each side of the roadways of all intersecting streets extended from the curb line to the street line produced on each side of each of said above-specified streets shall be set so that the top edge of the same shall be at the elevation of said intersecting streets hereinafter described, and the curbstones on each side of the roadways of all intersecting alleys extended from the curb line to the street line produced on each side of each of said above-specified streets shall be set so that the top edge of the same shall rise from the curb line to the street line produced at the rate of one (1) inch vertical to three (3) feet horizontal from the elevation of the curb of said above-specified streets between the points hereinbefore described, which elevations shall be as follows, to wit:

Winona street at the westerly line of the right of way of the Chicago, Milwaukee and St. Paul Railroad, 32.00 feet above datum.

At the intersection of Winona street with Leclaire avenue, 32.00 feet above datum.

At the intersection of Winona street with North Laramie avenue, 32.00 feet above datum.

At the intersection of Winona street with North Lockwood avenue, 32.50 feet above datum.

At the intersection of Winona street with North Long avenue, 33.00 feet above datum.

Carmen avenue at a line 425 feet east of Leclaire avenue, 32.00 feet above datum.

At the intersection of Carmen avenue with Leclaire avenue, 32.00 feet above datum.

At the intersection of Carmen avenue with North Laramie avenue, 32.00 feet above datum.

At the intersection of Carmen avenue with North Lockwood avenue, 32.50 feet above datum.

At the intersection of Carmen avenue with North Long avenue, 33.00 feet above datum.

At the intersection of Carmen avenue with North Lotus avenue, 34.00 feet above datum.

At the intersection of Carmen avenue with Lovejoy avenue (south curbs), 34.00 feet above datum.

At the intersection of Carmen avenue with Lovejoy avenue (northeast curb corner), 34.00 feet above datum.

At the intersection of Carmen avenue with Lovejoy avenue (northwest curb corner), 34.50 feet above datum.

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadways of the several streets specified above between the points hereinbefore described, and also the roadways of all streets and alleys intersecting the several streets specified above and extending from the curb line to the street line produced on each side of each of said above-specified streets between the points hereinbefore described, shall be so graded that after being thoroughly puddled and rolled with a roller of ten (10) tons weight until the roadbeds are thoroughly compacted and after the pavement hereinafter described shall have been placed thereon, the surface of the pavement at the center of the finished roadway of each of said above-specified streets, and the center of the finished roadways of all intersecting streets extended from the curb line to the street line produced on each side of each of said above-specified streets, shall be three (3) inches above the top of the curbing hereinbefore described, except at the intersection of Carmen avenue with Lovejoy avenue, where the surface of the pavement at the center of said finished roadway shall be at the elevation of center of roadway hereinbefore described; and the surface of the finished roadways at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and the surface of the finished roadways at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be ten (10) inches below the top of said curbing.

The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets, and a transverse section of the finished surface of the pavement shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadways, at every part of the roadway of each of said above-specified streets, and at every part of the roadways of all streets intersecting the several streets specified above, between the points hereinbefore described.

In all intersecting alleys hereinbefore specified at the street lines produced of said above-specified streets, the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway of said alleys shall be three (3) inches below the top of the curbing, and a transverse section of the finished surface of the pavement at the street lines produced of said above-specified streets shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadways. The surface of the said pavement thence shall slope gradually to meet the gutters hereinbefore specified.

Upon the roadbeds thus prepared between said points shall be spread a layer of blast furnace slag, free from dirt, or a layer of the best quality of broken limestone. If slag is used in said improvement said slag shall be practically uniform in quality and as near cubical in form as possible and broken so as to pass through a ring of six (6) inches internal diameter, and all the large pieces shall, as far as practicable, be placed at the bottom of the layer. Said layer of slag shall be covered with fine slag or other material equal thereto for bonding purposes in such quantity so as to fill all the interstices in said layer of slag. Said layer of slag shall be wetted and thoroughly rolled with a roller of ten (10) tons weight until the same is bonded solid and unyielding. The thickness of said layer after being thus rolled shall be eight (8) inches.

If limestone is used in said improvement, it shall be of the best quality of broken limestone, crushed to a size that will pass through a ring of four (4) inches internal diameter and be held on a ring of two (2) inches internal diameter, which layer of limestone shall be covered with the best quality of limestone screenings, in such quantity so as to fill all the interstices in said layer of limestone. Said layer of limestone shall be wetted and thoroughy rolled with a roller of ten (10) tons weight until the same is bonded, solid and unyielding. The thickness of said layer after being thus rolled shall be eight (8) inches.

Upon said layer of slag or upon said layer of limestone shall be spread a layer of the best quality of broken granite or trap rock crushed to a size that will pass through a ring of two (2) inches internal diameter and be held on a ring of one (1) inch internal diameter. Said layer of broken granite or trap rock shall be rolled with a roller of ten (10) tons weight until the same is brought to a true and uniform surface, after which asphaltic cement in the proportion of one and one-half (1½) gallons to each square yard of surface shall be poured over it in such a manner as to thoroughly and uniformly coat the granite or trap rock. At the time of the application of said asphaltic cement the granite or trap rock must be in a dry condition.

Immediately after applying the asphaltic cement, the surface shall be covered with dry granite or trap rock, free from dirt, crushed to a size that will pass through a ring of one-half (½) inch internal diameter and be held on a ring of one-fourth (¼) inch internal diameter, in sufficient quantity so as to fill all the interstices in the above course and then shall be thoroughly rolled with a roller of ten (10) tons weight until the said granite or trap rock is thoroughly bonded in this layer.

The roadways shall then be swept and any excess of granite or trap rock removed, after which asphaltic cement in the proportion of one-half (½) gallon to each square yard of surface shall be poured over the same. The surface of the pavement shall then receive a one-fourth (¼) inch dressing of granite or trap rock screenings, free from dust.

The entire surface of the roadways as thus improved shall then be rolled with a roller of ten (10) tons weight until the same is thoroughly bonded, and of a true, uniform and unyielding surface. The thickness of said layer when bonded as hereinbefore described shall be two and one-half (2½) inches.

The asphaltic cement shall comply with the following requirements:

The asphatic cement shall have a specific gravity at seventy-seven (77) degrees Fahrenheit of not less than ninety-seven one-hundredths (0.97).

The bitumen of the asphaltic cement shall be soluble in carbon tetra chloride to the extent of at least ninety-eight and one-half (98½) per cent.

The melting or softening point of the asphaltic cement shall be not less than one hundred (100) degrees Fahrenheit nor more than one hundred and thirty-five (135) degrees Fahrenheit.

The asphaltic cement shall have a penetration of from eighty (80) to one hundred and fifty (150) degrees, which shall be varied within these limits to adapt it to the particular asphalt and flux used, and to conditions of the streets.

When fifty (50) grams of the asphaltic cement of the consistency used in the paving mixture are heated for five (5) hours at a temperature of three hundred and twenty-five (325) degrees Fahrenheit, in a tin box two and one-quarter (2¼) inches in diameter, there must not be volatilized more than five (5) per cent of the bitumen, nor shall the penetration after such heating be less than one-half (½) the original penetration.

A briquette of the asphaltic cement of a consistency equivalent to eighty (80) penetration shall have a ductility of at least ten (10) centimeters.

The asphaltic cement used in the above proposed improvement shall be applied at a temperature of not less than three hundred (300) degrees Fahrenheit.

Sixteen (16) new brick catchbasins shall be constructed and trapped and connected with the sewer in Winnemac avenue and located in the roadway of said Winnemac avenue at necessary points, adjacent to the curb lines of said Winnemac avenue.

Fourteen (14) new brick catchbasins shall be constructed and trapped and connected with the sewer in Carmen avenue and located in the roadway of said Carmen avenue at necessary points, adjacent to the curb lines of said Carmen avenue.

Twelve (12) new brick catchbasins shall be constructed and trapped and connected with the sewer in Winona street and located in the roadway of said Winona street at necessary points, adjacent to the curb lines of said Winona street.

Two (2) new brick catchbasins shall be constructed and trapped and connected with the sewer in North Lotus avenue and located in the roadway of said North Lotus avenue at necessary points, adjacent to the curb lines of said North Lotus avenue.

Two (2) new brick catchbasins shall be constructed and trapped and connected with the sewer in Lovejoy avenue and located in the roadway of said Lovejoy avenue at necessary points, adjacent to the curb lines of said Lovejoy avenue.

One (1) new brick catchbasin shall be constructed and trapped and connected with the sewer in North Long avenue and located in the roadway of said North Long avenue at necessary points, adjacent to the curb line of said North Long avenue.

Each of said catchbasins shall be seven feet two inches deep, measuring from the top of the brickwork, and shall have an internal diameter of four feet at the bottom and to plane five feet above and parallel therewith. The walls of said catchbasins shall be eight inches thick and shall be built of two courses of sewer brick laid edgewise in perpendicular courses, upon a floor of pine plank two inches in thickness. The top of each of said catch-basins shall decrease to two feet internal diameter, being drawn in by means of nine header courses, the diameter being decreased uniformly for each course.

Each of said catchbasins shall be connected with the sewer with tile pipe of eight inches internal diameter and shall be trapped with a half trap also of tile pipe of eight inches internal diameter. The said trap of each of said catchbasins shall be set so that the elevation of the bottom of the inside of the same shall be three feet six inches above the floor of the catchbasin.

Each of said catchbasins shall be provided with a suitable cast-iron cover, each of which covers, inclusive of lid, shall weigh five hundred and forty pounds. Each of said cast-iron covers shall be set so that the top of the same shall coincide with the finished surface of the pavement herein described.

The tile pipe specified above shall be straight, smooth and sound, thoroughly burned, well glazed and free from lumps and other imperfections, and three-fourths of an inch thick.

All brick and the joints of the tile pipe above referred to shall be laid with the best quality of natural hydraulic cement mortar, composed of one part natural hydraulic cement and two parts clean, sharp sand.

The several sewer manholes and catchbasins located in said roadways shall be raised or lowered as may be necessary to make them conform to the finished surface of said pavement; and the several catchbasins located outside of said roadways shall be raised or lowered as may be necessary to make them conform to the established grade herein described. The several catchbasins located on the line of the curb shall be raised or lowered and adjusted as may be necessary to make them conform to the finished surface of said pavement, or to said established grade according to whether the major part of said catchbasin lies within or without

the line of said curb. Catchbasin inlets shall be constructed at necessary points in said gutters. The catchbasins not located in the gutters shall be connected with said inlets by means of tile pipe of eight (8) inches internal diameter laid with the best quality of natural hydraulic cement mortar, composed of one (1) part natural hydraulic cement and two (2) parts clean, sharp sand. Said tile pipe shall be straight, smooth and sound, thoroughly burned, well glazed, free from lumps and other imperfections, and three-fourths of an inch thick.

Said work to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

SECTION 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement, together with the estimate of the cost thereof made by the engineer of said Board, both hereto attached, be and the same are hereby approved.

SECTION 3. That said improvement shall be made and the cost thereof be paid by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements," approved June 14, A. D. 1897, and the amendments thereto.

SECTION 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five per centum per annum according to law until paid.

SECTION 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement, bonds shall be issued payable out of said installments bearing interest at the rate of five per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements," approved June 14, A. D. 1897, and the amendments thereto.

SECTION 6. That the Corporation Counsel be and he is hereby directed to file a petition in the Circuit, Superior or County Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special asessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

SECTION 7. That all ordinances or parts of ordinances conflicting with this ordinance be and the same are hereby repealed.

SECTION 8. This ordinance shall be in force from and after its passage.

Gas, Oil and Electric Light.

The Committee on Gas, Oil and Electric Light submitted the following report:

CHICAGO, May 11, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Gas, Oil and Electric Light, to whom was referred (May 6, 1918, page 73) an order directing that, pending further investigation, Donald R. Richberg continue to represent the City as special counsel in certain litigation between the City and The Peoples Gas Light and Coke Company, having had the same under advisement, beg leave to report and recommend the passage of said order:

WHEREAS, By action of the City Council Donald R. Richberg has been employed as Special Counsel for the City of Chicago in litigations with The Peoples Gas Light & Coke Co. and has been representing the City in proceedings in the Circuit Court of Cook County and in hearings before the State Public Utilities Commission and elsewhere; and

WHEREAS, On May 4, 1918, without communication with or authorization from the City Council the Corporation Counsel announced that he had dismissed Mr. Richberg from the service of the City and Mr. Richberg has denied the authority of the Corporation Counsel to terminate his employment or to control his conduct of these legal proceedings in behalf of the City; and

WHEREAS, Hearings are now in progress before the State Public Utilities Commission, upon the application of the Gas Company to increase rates in Chicago 30%, and hearings are imminent in the Circuit Court to determine the liability of the Company to refund alleged overcharges to gas consumers, estimated at $10,000,000, and Special Counsel for the City is exceptionally equipped to maintain the City's interests because of nearly three years study and investigation by him and by engineers and accountants working for the City under his general direction; and

WHEREAS, The immediate cause of the action of the Corporation Counsel in seeking to dismiss Special Counsel was the charge made recently by Mr. Richberg that the Corporation Counsel was embarrassing the work of Special Counsel and by his conduct aiding The Peoples Gas Light & Coke Co. in its suit against the City; and

WHEREAS, The Corporation Counsel has not made public any adequate justification of his sudden and arbitrary attempt to remove the attorney in charge of the city's interests in a critical time of litigation between the City and the Gas Company, following the winning of substantial victories for the City by this attorney, before the State Public Utilities Commission and in the Circuit Court, now therefore be it

Ordered, That pending further investigation by the City Council the Corporation Counsel be and he is hereby directed to refrain from any interference in, or from taking any action concerning, the litigations between the City of Chicago and The Peoples Gas Light & Coke Co. pending in various courts and particularly in the Circuit Court of Cook County, or concerning the hearings pending before the State Public Utilities Commission on the application of said company for authority to increase rates, or concerning the case entitled Sutter vs. The Peoples Gas Light & Coke Co. pending on appeal to the Supreme Court of Illinois from the Municipal Court of Chicago, and the Corporation Counsel is hereby directed to notify his assistants to refrain from any similar interference or action in these matters; and be it

Ordered, That, pending further investigation by the City Council, Donald R. Richberg be and he is hereby directed to continue to represent the City of Chicago as Special Counsel in charge of those matters heretofore committed to his charge, including therein the litigations between the City of Chicago and The Peoples Gas Light & Coke Co. pending in various courts and particularly in the Circuit Court of Cook County, and the hearings pending before the State Public Utilities Commission on the application of said company for author-

ity to increase rates and the matter of the case entitled Sutter vs. The Peoples Gas Light & Coke Co.

Respectfully submitted,

(Signed) THOMAS J. LYNCH,
Chairman.

Ald. Thos. J. Lynch moved to concur in said report and to pass said order.

Request being made by Ald. Powers and L. B. Anderson to defer consideration of said report for final action thereon until the next regular meeting, consideration thereof was deferred, and said report was ordered published.

Nays—Kenna, Coughlin, L. B. Anderson, Jackson, Hickey, McDonough, Mulcahy, Cullerton, Ahern, Horne, Kunz, Piotrowski, Powers, Fick, Franz, Ellison, Roeder, Haderlein, Wm. J. Lynch, O'Toole, Long—21.

Whereupon said resolution was

Referred to the Committee on Judiciary.

Ald. Nance presented a resolution directing that, pending Council action on an order referred to the Committee on Gas, Oil and Electric Light, May 6, 1918, authorizing Donald R. Richberg to continue to represent the City as special counsel in certain litigation between the City and The Peoples Gas Light and Coke Company, the Corporation Counsel and Donald R. Richberg take no action contrary to the provisions of said order.

Ald. Nance moved to adopt said resolution.

Unanimous consent being refused for consideration of said resolution, Ald. Nance moved to suspend the rules temporarily, to permit such consideration.

The motion to suspend the rules prevailed, by yeas and nays as follows:

Yeas—Iliff, Schwartz, Hickey, McDonough, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Krumdick, Novak, Kerner, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—56.

Nays—Kenna, Coughlin, L. B. Anderson, Jackson, Mulcahy, Cullerton, Powers, Fick, Franz, Wm. J. Lynch, O'Toole—11.

The question being put on the adoption of said resolution, the motion prevailed.

The following is said resolution as adopted:

Resolved, That until the City Council disposes of the order introduced by Ald. Nance on May 6, 1918, and recommended for passage in the report of the Committee on Gas, Oil & Electric Light received today, the Corporation Counsel, Mr. Ettelson, and the Special Counsel for the City, Mr. Richberg, are hereby directed not to take any action contrary to the said order recommended for passage by the Committee on Gas, Oil and Electric Light.

Ald. Nance presented an ordinance approving and confirming the continued employment of Donald R. Richberg to represent the City as special counsel in certain litigation between the City and The Peoples Gas Light and Coke Company, which was

Referred to the Committee on Gas, Oil and Electric Light.

Ald. Nance presented a claim of Mrs. F. D. Stout for a rebate of water rates, which was

Referred to the Committee on Finance.

SEVENTH WARD.

Ald. Guernsey presented the following order, which was, on motion, duly passed:

Ordered, That the Commissioner of Public Works be and he is hereby directed to issue a permit to David Ringbloom to construct and maintain two driveways across the sidewalk in front of premises known as 7305-7-9 Blackstone avenue; said permit to be issued and the work therein authorized to be done in accordance with the terms of an ordinance passed July 28, 1913, governing the construction and maintenance of driveways.

The Board of Local Improvements submitted a recommendation, estimate and ordinance for grading and paving with Portland cement concrete the alley between East 64th street, East 65th street, South Park avenue and Vernon avenue, which were

Referred to the Committee on Home Defense.

ALSO,

The following is said resolution as adopted:

WHEREAS, The Socialist Party of the United States in its Emergency National Convention in the Planters Hotel of St. Louis, between April 7 and April 10, 1917, announced its principles, among which were the following:

"The Socialist Party * * * proclaims its unalterable opposition to the war just declared by the Government of the United States.

"The Socialist Party of the United States is unalterably opposed to the system of exploitation and class rule which is upheld and strengthened by military and sham national patriotism. We therefore call upon the workers of all countries to refuse support to their governments in their wars.

"As against the false doctrine of national patriotism, we uphold the ideal of international working class solidarity.

"It is not a war against militarist regime of the Central Powers.

"We brand the declaration of war by our Government as a crime against the people of the United States and against the nations of the world.

"In all modern history there has been no war more unjustifiable than the war in which we are about to engage.

"We recommend to the workers and pledge ourselves to the following course of action: (1) Continuous, active and public opposition to the war, through demonstrations, mass petitions and all other means within our power. (2) Unyielding opposition to all proposed legislation for military or industrial conscription. * * * We pledge ourselves to oppose with all our strength any attempt to raise money for payment of war expense by taxing the necessaries of life or issuing bonds which will put the burden on future generations. (4) Consistent propaganda against military training and militaristic teaching in the public schools.

"We recommend that the convention instruct our elected representatives in Congress, in the State Legislature and in local bodies to vote against all proposed appropriations or loans for military, naval and other war purposes." And,

WHEREAS, The resolutions, from which the above are excerpts, were adopted by a vote of 140 to 36; and,

WHEREAS, This Council, as representatives of the people of Chicago and their sentiments, has made a record of its unstinted loyalty to the United States Government by the adoption of a resolution and its personal presentation to Woodrow Wilson, President; and,

WHEREAS, This Council has further indicated the patriotism of Chicago by investing $3,000,000 in the Third Liberty Loan, as well as investing in previous loans; therefore be it

Resolved, That we, the City Council of Chicago, earnestly and urgently request the Board of Education to deny the use of Chicago's public school property to the Socialist Party, its officers and committees or local component branches and sub-organizations, their officers and committees, during the period of the war; and be it further

Resolved, That we request the Board of Education to deny the use of public school property to any leader or member of the Socialist Party, or any other person or society or group of persons, who it is deemed probable will permit the spread of the doctrines above quoted; and be it further

Resolved, That the Clerk of this Council be and he is hereby requested to send, at his earliest convenience, a certified copy of this resolution to the Board of Education.

Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark and Thos. J. Lynch.

Absent—Ald. Jackson and Ahern.

Call to Order.

At 2:00 o'clock P. M. (the hour appointed for the meeting), the Mayor called the Council to order.

Quorum.

The Clerk called the roll of members, and there was found to be

A quorum present.

JOURNAL.

Ald. Bowler moved to approve the printed record of the proceedings of the regular meeting held Monday, May 13, 1918 (as submitted and signed by the City Clerk), as the Journal of the Proceedings of said meeting, and to dispense with the reading thereof.

Ald. Nance moved to amend said motion by adding thereto the following language: "except as to that portion of the annual message of the Mayor which relates to certain pending gas litigation, appearing on page 92 of said record, which is hereby ordered expunged from said record".

Ald. Cullerton raised the point of order that said motion to amend was out of order on the ground that it was not germane to the question.

The Chair sustained the point of order.

The question being put, on the motion of Ald. Bowler, the motion prevailed.

Communications from the Mayor, City Clerk and Other Officers, Departments and Branches of the City Government.

Veto.

Gas Litigation: in the Matter of the Procedure To Be Followed by the Corporation Counsel.

The Mayor submitted the following veto message:

OFFICE OF THE MAYOR,
CHICAGO, May 20, 1918.

To the Honorable, the City Council, of the City of Chicago:

GENTLEMEN—I return herewith, without my approval, a resolution passed by Your Honorable Body, appearing on page 129 of the Journal of the Proceedings of the City Council of May 13, 1918, whereby it is sought to direct the action of the Corporation Counsel concerning the litigation against The Peoples Gas Light & Coke Co. While the legislative act in question is in the form of a resolution, I am advised that it is nevertheless of such a character that it stands on the same footing as an order or ordinance so far as a right to veto the same is concerned, and is, therefore, subject to veto.

My reason for vetoing said resolution is, first, that it attempts to anticipate and forestall the action of the City Council on an order now pending and undisposed of, thereby enforcing the said order before it is passed, and, second, because the effect of such action would be to override both statutes and ordinances which require the Corporation Counsel to control all litigation of the city.

To attempt to change this status requires more than a resolution, and it would not in any event be within the power of the City Council to modify the force and effect of the statute which makes the Corporation Counsel the head of the Law Department.

I, therefore, recommend that the vote by which said resolution was passed be reconsidered and that the same be referred to the Committee on Gas, Oil and Electric Light.

Yours respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Nance moved to reconsider the vote by which said resolution, vetoed by His Honor the Mayor, was adopted.

The motion prevailed.

Ald. Nance moved to adopt said resolution, the veto of the Mayor to the contrary notwithstanding.

The motion prevailed by yeas and nays as follows:

Yeas—Iliff, Schwartz, Richert, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Krumdick, Novak, Kerner, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Walkowiak, Touhy, Kavanagh, Bowler, R. H. McCormick, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Long, Moran, Fisher, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—52.

Nays—Kenna, Coughlin, L. B. Anderson, Hickey, McDonough, Mulcahy, Cullerton, Adamkiewicz, Powers, Fick, Franz, Haderlein, Byrne, Wm. J. Lynch, O'Toole—15.

Edwin S. Davis, Albert H. Severinghaus and John A. Torstenson: Appointments (as Members of the Board of Education).

The Mayor submitted the following communication, consideration of which was deferred until the next succeeding regular meeting:

OFFICE OF THE MAYOR,
CHICAGO, May 20, 1918.

To the Honorable, the City Council:

GENTLEMEN—By virtue of the power and authority conferred upon me by law I hereby appoint the following to be members of the Board of Education of the City of Chicago for the term of five years from the first day of May, 1918:

Edwin S. Davis to succeed himself,

Albert H. Severinghaus to succeed himself,

John A. Torstenson to succeed Charles S. Peterson, whose term has expired,

and respectfully ask the concurrence of your Honorable Body in said appointments.

Yours respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

In connection with the foregoing communication the Mayor submitted the following communication, which was ordered published, and consideration of which was deferred:

OFFICE OF THE MAYOR,
CHICAGO, May 20, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—In an accompanying communication I am submitting to your Honorable Body the names of three persons to be members of the Board of Education of the City of Chicago to succeed the three whom I appointed May 21, 1917, for the term of one year.

I am re-appointing Mr. Edwin S. Davis and Mr. Albert H. Severinghaus, now serving as President and Vice-President of the Board, with whose names and records I trust the members of your Honorable Body are familiar. These gentlemen, both business men, have rendered honest, faithful and intelligent service and are entitled to the thanks of the community for the time and effort they have devoted to the school system. I am appointing Mr. John A. Torstenson to succeed Mr. Charles S. Peterson, who has been able to give but very little time to school affairs in the past year, but whose services in previous years should be gratefully acknowledged by the citizens of Chicago.

The Board of Education has been viciously attacked and slandered and defamed by a section of the public press led by the Chicago Tribune whose motives, as divulged by public records, are so selfish, disgraceful and corrupt that the animus of this newspaper is unmistakable when examined in the light of truth.

"Tribune methods," as old as the publication itself, are but partially known to the people of Chicago because of the tremendous advantage it wields in the suppression of public information. Its record, however, has been consistently destructive for years past and up to the present hour, when it opposes the Board of Education that is contemplating the erection of a School Administration Building which will cause space in the Tribune Building, now occupied for School Board of-

fices to be vacated, and for which the public pays almost enough annual rental to offset the rental paid by the Tribune for the ground on which its building stands.

I charge here and now that the articles and editorials which the Tribune has published, seeking to influence your Honorable Body against the confirmation of these trustees are maliciously false and have but one purpose—and that a hidden and infamous one—which should be dragged into the light of day, viz: to re-establish their control of School Board affairs, that their own selfish interests may be compliantly served in the future as in the past, and that their profits may be multiplied in terms of dollars, at the sacrifice of certain income from school fund property which the school children of this city should derive the sole benefit from.

What is the history of the Chicago Tribune in dealing with school fund property? Let the records speak and contrast the Tribune's daily protestations of "self-righteousness" and anxiety for the "public welfare" as preached in its news columns, with its "business policy" and solicitude for profits as exemplified in its acquisition of school lands and the money tribute it exacts therefrom.

I transmit to each Alderman with this message, a map showing a number of properties in the neighborhood of Madison and Dearborn streets, where the Tribune is located. It appears to me that this map is sufficiently explanatory, but in case it is not clear to all, if any of the members of your Honorable Body will call at my office, I will discuss its details with you, or I will meet with your Committee on Schools, Fire, Police and Civil Service, and we will discuss its details in public.

You will note that the Tribune occupies a tract of school land 120x144 feet in dimensions at the southeast corner of Madison and Dearborn streets, in one of the most valuable blocks in Chicago, if not in the world. The Tribune Company prior to 1895, had a lease on one-half of this tract, or 72x120 feet, containing a revaluation clause. Early in the year 1895 they opened negotiations with the Board of Education for the extension of their lease. At this time Mr. A. S. Trude, the attorney of record for the Chicago Tribune was President and a member of the Board of Education, and a member of the Committee on School Fund property. On April 24, 1895, and as the time for final consummation of the deal between the Board and the Tribune approached, Mr. Trude resigned as President, but retained his membership on the Board and on the committee. It was through Mr. Trude's influence, as the printed proceedings show, that the Committee on School Fund Property on May 22, 1895, recommended to the Board an extension of the Tribune lease with the revaluation clause stricken out and the rental up to May 8, 1905, fixed at $30,000 per annum and thereafter and until May 8, 1985, the end of the term, at $31,500 per annum.

The printed proceedings further show that on May 22, 1895, an attempt was made by the majority of the Committee on School Fund Property to "jam" its report through the meeting of the Board and thus close the Tribune's deal. This move was successfully blocked by minority members. At the succeeding meeting, however, the deal was put through the Board of Education, with Mr. Trude, the attorney for the Tribune, as the guiding genius of the majority, leading the fight, voting in the Tribune's interest on each roll-call, offering the motion to "suspend the rules" in order to prevent postponement, and seconding the motion "to lay upon the table" a motion "to reconsider," all for the benefit of that hypocritical institution which makes merchandise of public sentiment for private gain—the Chicago Tribune.

Certain members of the Board of Education who were in the minority at that time, exhausted all efforts in trying to protect the public interest and safeguard the school children's rights, but the hunger and greed of the Tribune goaded the majority of the Board into riding rough-shod over opposition. There has been preserved in the record a report of one of the minority members of the Committee on School Fund Property, which is very interesting reading and which I submit herewith:

"Mr. Joseph W. Errant, member of the Committee on School Fund Property, presented the following minority report:

CHICAGO, Ill., May 22, 1895.

To the Board of Education of the City of Chicago:

The undersigned, a member of the Committee on School Fund Property, respectfully presents the following minority report:

In the first place, I desire to protest against the manner in which this whole proceeding, relating to the giving of these leases, has been conducted. On the evening of Friday, May 17th, the Committee on School Fund Property met, and the propositions of the Tribune Company and Hannah & Hogg were then presented. The Committee received said propositions with the wording expressed in the motion to receive said propositions, that they were to be considered at a subsequent meeting of the Committee. I spoke to the Chairman of the Committee, and asked him whether there would be any meeting of the Committee before the next meeting of the Board, and he said there would not be any meeting until the end of the week ending with May 25th. Relying upon his word, I made an appointment for the evening of Tuesday, May 21. Tuesday morning, too late to change my appointment, I received notice of a meeting of the Committee. I went to the Secretary, and told him just what the Chairman of the Committee, Mr. Keane, had told me, and that I could not be present. Neither in business nor conscience can I find any reason why the matter should have been rushed through in the shape that it was, and I desire here to protest most earnestly against any such proceedings.

In the second place, I desire to dissent, and to express my dissent as strongly as I can, as regards the action of the Committee, expressed in the majority report presented here tonight. The Board of Appraisers appraised the rent upon the Tribune Company's leasehold for the next ten years at $30,000 a year. The Board of Appraisers also appraised the rent on Hannah & Hogg's leasehold for the next ten years at $24,000 a year. The lessees above mentioned, the Tribune Company and Hannah & Hogg, wanted a lease for the balance of their terms at the same rental which the Board of Appraisers has appraised for the next ten years. The Committee proposed to give them just what they asked for. As a sop to some of those who might differ from others of the Committee in opinion, the Committee has agreed on the addition of five per cent to the Appraisers' rental after the expiration of ten years. This addition is so insignificant that it stamps the character of the entire transaction.

No figure yet offered by the Tribune Company, either publicly or privately by its representatives, has reached that point which would justify this Board in giving the Tribune Company a long-term lease. The same is true of the proposition of Hannah & Hogg.

I further object to the majority report because I find therein no such stipulations as are usually required in similar leases. There is absolutely nothing requiring any new improvement within a certain

time, nothing as to the character or value of such improvement, and nothing providing that in case of default in the payment of rent, or other default, or in case of the termination of the lease, the improvement shall be the property of the lessor. The whole transaction is thoroughly unbusinesslike, and is one which none of the gentlemen on the Committee would be guilty of, if the transaction involved their own property.

In fact, the lessees are to receive all that they ask for, and the interests of the School Fund Property of this city are not to be protected in the lease. The contention that it is desired to make these leases at this time on the basis proposed, because in ten years from now the property will be worth less than it is at the present time, is utterly absurd to any one who will carefully consider the matter. If these leases grow in value, the lessees will have the entire benefit; if they diminish in value, these lessees will come before some future Committee of this Board of Education, and will plead that they cannot pay the rentals any longer under their leases, and that there must be a reduction, and I am quite sure that when that time comes, they will receive a reduction in their rent; so that that argument must be entirely eliminated from consideration.

I cannot but feel that the majority of the Committee have not given this matter that consideration which it deserves. I feel that they are disposing of the matter too hurriedly, that they are sacrificing the public interests, that they are taking money from the public school children of this city which should go towards their education, and this, without a particle of justification. I protest that because parties who come before us are powerful and influential, that therefore this Board should yield one iota of the manhood and independence which should characterize us as trustees of public property. I wish that these parties should simply receive the same consideration which the poorest man would receive, were he to come before this Board, and it is because I feel that these parties are receiving special consideration, because it is proposed to treat them as a privileged class who are entitled to special consideration, that I protest against the recommendation of the Committee. It is such actions as this which bring disgrace and contempt upon public bodies, and which drive from the minds of the people those few feelings of respect which they may still hold for their public servants.

I therefore recommend the rejection of the proposition made by the Tribune Company, offering $30,000 per year for ten years and $31,500 per year for seventy-nine years thereafter, and the rejection of the proposition of Hannah & Hogg, offering $24,000 per years for ten years and $25,200 per year for seventy-nine years thereafter.

Respectfully submitted,

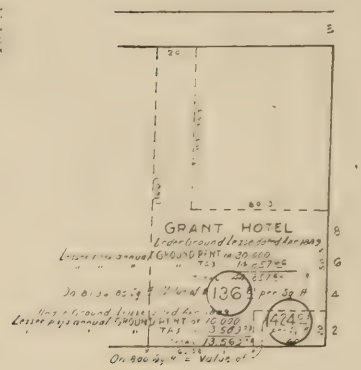
(Signed) JOSEPH W. ERRANT."

The Tribune Company pays the Board of Education at the present time a gross annual rental of $47,640.60 for the ground upon which its building stands, viz: said seventy-two feet and an additional seventy-two feet subsequently acquired, and the Board of Education has for fifteen years past paid the Chicago Tribune as rental for a little more than three floors of office space in its seventeen-story building, an annual rental of $40,800. The difference between what the Tribune ought to pay and what it actually pays into the school fund represents morally an actual steal just as bald as any act of plunder on record. The only saving clause is that extreme care and precautions were taken to legalize it. But any reasoning person after going over the record and reviewing the maneuvers and manipulations is bound to conclude that the proceedings smack emphatically of collusion and fraud and that the school children of Chicago were made the victims of a huge swindle by an interest too powerful for them to successfully combat.

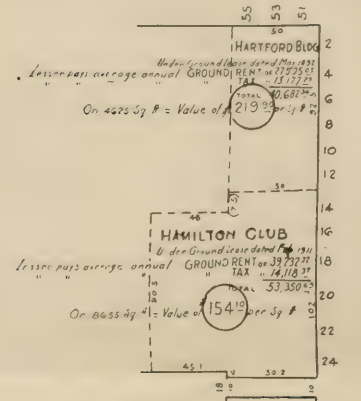
During the past year members of the Board of Education, independent of Tribune influences, have given thought to the matter of planning the construction of a School Administration Building, to be ready for occupancy when the present lease of quarters in the Tribune Building expires May 1, 1920. The Board is now paying in rent the interest on the cost of a new building and gets nothing permanent in return. This prospect, together with general political antipathy accounts for the Tribune attitude of "rule or ruin" and its particular hostility to any members or prospective members of the Board of Education whom it cannot own.

In again referring to the map, I desire to direct your attention to a comparison of the following corners as showing the inadequacy of the present rental which the Chicago Tribune is paying the Board of Education.

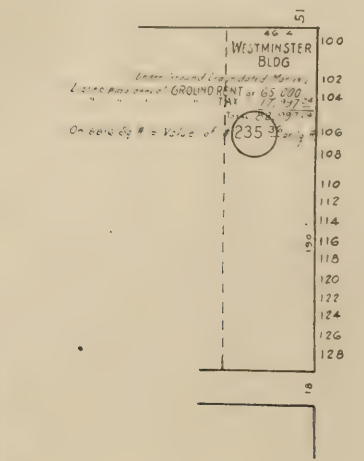
The Grant Hotel property, diagonally opposite the Tribune, on the northwest corner of Madison and Dearborn streets, an area of ground about one-half the Tribune's size, pays relatively more than two and one-half times the ground rent of the Tribune, under the terms of a lease made in April, 1889, six years before the making of the Tribune lease, so that at the time the Tribune lease was made, the Grant Hotel lease furnished an actual standard of property value.



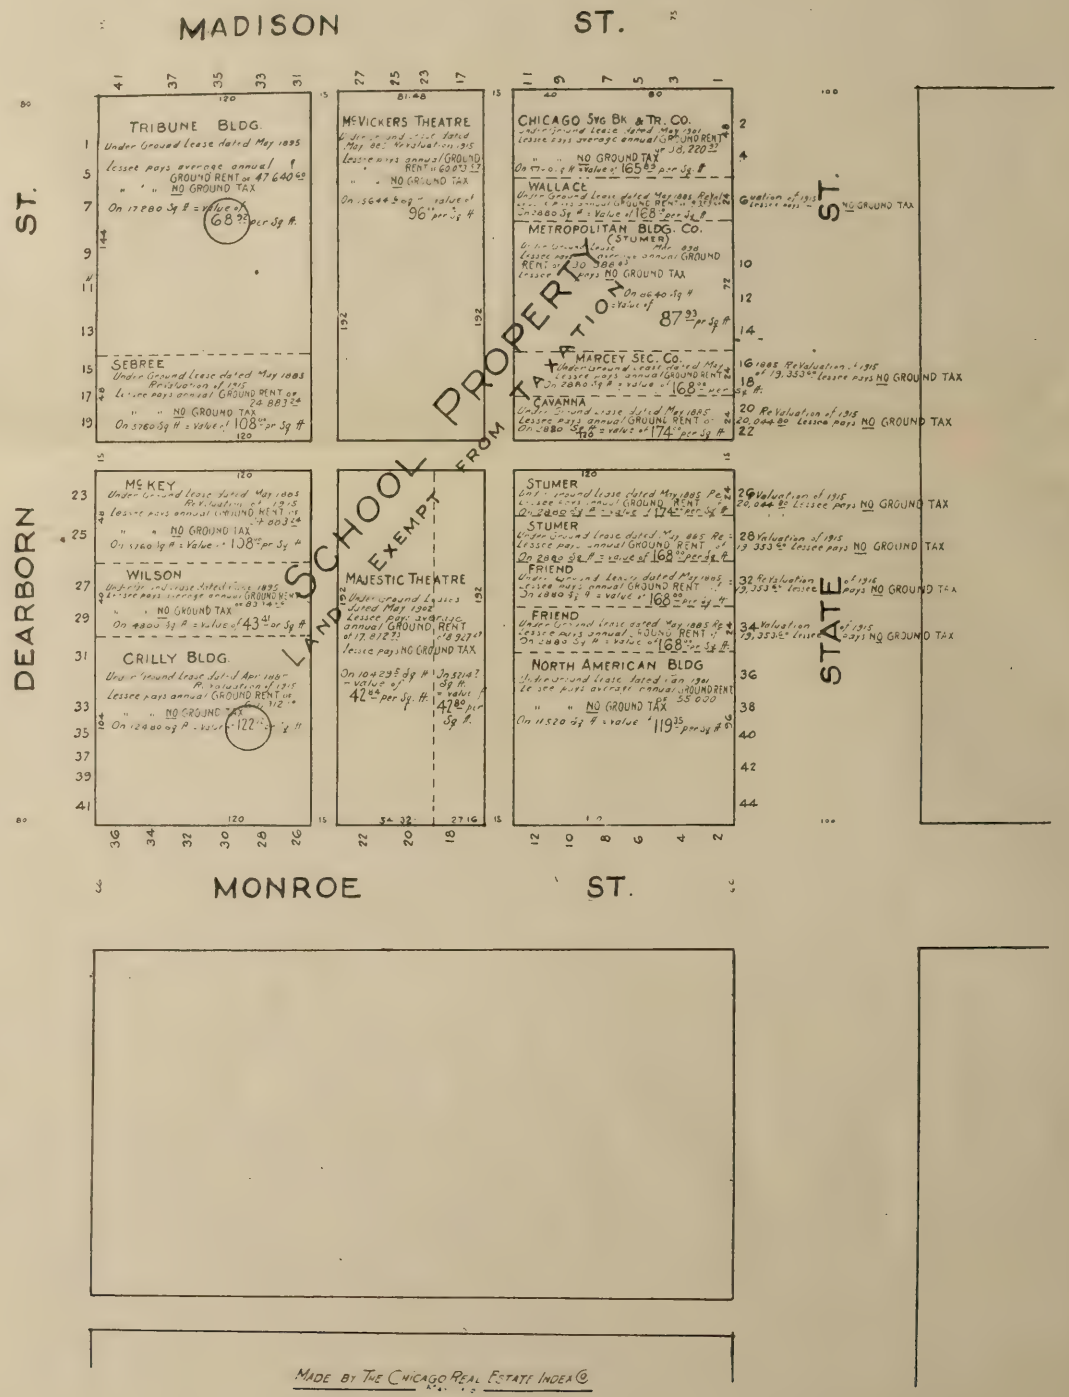
The Hartford Building, directly opposite the Tribune, on the southwest corner of Madison and Dearborn streets, on an area of ground about one-fourth the Tribune's size, pays relatively more than three times the ground rent of the Tribune under the terms of a lease made May 1, 1892, three years prior to the making of the Tribune lease, so that at the time the Tribune lease was made, the Hartford building lease also furnished an actual standard of property value.



The Hamilton Club property, directly opposite the Tribune, on Dearborn street, and adjoining the Hartford Building on the south, on an area of ground a little less than one-half the size of the Tribune, pays relatively more than double the ground rent of the Tribune under the terms of a lease made in February, 1911, and it is inside property, not a corner.



The Crilly Building at the northeast corner of Monroe and Dearborn streets, in the same block as the Tribune, built upon school land, on an area about two-thirds the size of the Tribune, pays relatively over one and one-half times the ground rent of the Tribune under the terms of a lease made in 1885, with a ten year revaluation clause and re-appraised in 1915. This corner is 25% lower in commercial value than the Tribune corner, and the lease was in existence at the time the Tribune lease was made, and it at that time furnished an actual standard of property value.



The Westminster Building, on the southwest corner of Monroe and Dearborn streets, on an area of ground about one-half the Tribune size, pays relatively nearly three and one-half times as much ground rent as the Tribune, under the terms of a lease made March 1, 1912, on a corner that is also 25% lower in commercial value than the Tribune corner.

These properties compared with the Tribune furnish an accurate estimate of what the Tribune should pay, and of what nothing stands in the way of its paying today if it chooses to permit its boasted spirit of civic righteousness and patriotism, and loyalty, if you please, to hold sway for a brief interval over its grasping spirit of commercialism. I assume that the Board of Educa-

tion will gladly make a new lease on the Tribune property and with the Tribune Company under terms which will bring to the school children of Chicago a revenue based upon the true and actual value of their property. If the Tribune had paid into the school fund a rental equal to the average paid by the properties which I just compared it with, it would have paid in the past twenty-three years, since its present lease has been in force, over $1,525,000 more than it has paid, or enough to cover the present deficit in the Educational Fund and meet the salary increases justly due Principals and Teachers and it would pay during the coming years that the lease has to run approximately five million dollars more than it is going to pay under the present terms.

From the information at hand the members of your Honorable Body can readily figure the financial expense to municipal Chicago of the Tribune. What the expense is morally and physically, no one knows. If their deal was with private capital, no one could complain, and their shrewdness would merit compliment on every hand, but they took the most dastardly advantage on record to betray a trust, which they as a public newspaper were obligated to protect and conserve just as scrupulously as the yielding School Trustees over whom they held the most powerful whip-hand of modern times—the patronage of favorable publicity.

In closing I desire to call your attention to the fact that during the past year the present Board of Education has reduced the price of text-books to the children, so that they are now lower than in any other city in the United States, except in the cities that issue free text-books. During the past year the public schools have operated more closely to the people than at any previous period in their history. They have rendered more genuine co-operation in every direction with the Nation in war and have contributed more to the necessities of the Government than any other agency of equal power or opportunity.

Under the new school law, the Board of Education is required to have its accounts audited as often as yearly, by certified public accountants, and to forward a report thereof with recommendations to the Mayor and the City Council. The audit of accounts as of December 31, 1917, is published and submitted to your Honorable Body herewith.

The oppression of teachers and other employes, which was notorious up to a year ago, has ended. Teachers enjoy the liberty of citizens, amenable only to the equitable rules prescribing professional duties and responsibilities.

The issue before your Honorable Body is, shall independent citizens of honest and intelligent character, respected in the community, constitute the membership of the Board of Education, or shall it recede toward that seductive sphere of influence where the friendliness of corporate interests predominates and the favor of a rich and powerful newspaper prevails?

As I view it, the confirmation of these trustees signifies that the Council is to join hands with the Mayor in sanctioning an honest, economic and incorruptible administration of our school affairs, or on the contrary it is to indorse sinister, wasteful and corrupt methods of management in our educational system, and a policy of selling out a sacred trust.

Respectfully submitted,

(Signed) WILLIAM HALE THOMPSON,
Mayor.

Board of Education: Audit of Books and Accounts for 1917.

The Mayor submitted the following report, which was ordered published and consideration of which was deferred:

Hon. Edwin S. Davis, President, Board of Education, Chicago, Illinois:

DEAR SIR—Pursuant to instructions, we have audited the books and accounts of the Board of Education of the City of Chicago for the year ended December 31, 1917, and beg to submit the following statements as reflecting the results of operations for the period under review and the financial condition at December 31, 1917:

Property Accounts:

This item represents the value of school lands and buildings at 31st December, 1917, as follows:

BUILDING FUND.

	Land	Buildings
Value as per books at 31st December, 1916	$ 12,048,041.32	$ 54,463,705.58
Additions—		
School Sites	455,470.54	
New Buildings		2,664,703.32
Permanent Improvements		398,047.36
	$ 12,503,511.86	$ 57,526,456.26
Less—Sale of Old Buildings on Land Purchased	21,279.55	
Value as per books at 31st December, 1917	$ 12,482,232.31	$ 57,526,456.26

The propriety of the charges composing the additions to property was investigated and found, in all instances, to be properly charged.

School Tax Levy 1916 Uncollected:

This item, representing the balance of uncollected taxes for building purposes, has increased very largely over the amount of uncollected taxes at 31st December, 1916, and the folowing summary is submitted to show the extent of this increase:

	31st December 1916	31st December 1917	Increase *Decrease
Taxes Levied	$ 6,270,000.00	$ 6,300,000.00	$ 30,000.00
Less—Reserve for Loss (4¾%)	297,825.00	299,250.00	1,425.00
	$ 5,972,175.00	$ 6,000,750.00	$ 28,575.00
Remitted by County Treasurer	5,767,102.05	5,564,506.11	*202,595.94
Uncollected 31st December	$ 205,072.95	$ 436,243.89	$231,170.94

Upon this situation we comment further in our discussion of the Educational Fund.

Material and Supplies:

This item represents the value of the building material and supplies on hand at the Factory Division and Supply Department as shown by the books, the accuracy of which has not been verified by us. Our limited investigation of the stock on hand, however, disclosed a quantity of unusable sizes of nails, nuts, bolts and miscellaneous hardware, which has been carried in stock for the past eight or ten years, and we would suggest that some action be taken to ascertain the actual extent to which this condition affects the entire stock to the end that articles for which no use is found may be disposed of.

An examination was made of the books and records of the Factory Division and we regret to report that the accounting department of this Division has been very much neglected. The books have not been balanced and brought into reconcilement with the general office records since the 30th September, 1917; no credit for unused materials, which had been previously charged to specific work, has been made, and the improper distribution of factory expenses to work completed has resulted in the cost of the work performed being incorrectly reported. These conditions are, to some extent, due to lack of supervision and have greatly reduced the usefulness of the cost accounting system. In our opinion, an investigation should be made by your Auditing Department to determine whether the Factory Division is not conducted at a loss, as compared with the cost of the same work done by outside establishments.

Deferred Charges:

These items represent the cost of work of these departments uncompleted at 31st December, 1917, which will be charged to future operations. The amount so carried in the Factory Division, being $76,059.00, seems to us as unusually large, and in view of the fact that the average monthly capacity of this department is only $20,000.00, as indicated by the amount expended for materials, labor and expenses, it would indicate either a stagnation of uncompleted work in the factory or errors and omissions in reporting completed work to the factory office.

EDUCATIONAL FUND.

School Tax Levy 1916 Uncollected:

The same conditions prevail with reference to this item as apply to uncollected taxes in the Building Fund heretofore referred to, and we have prepared the following summary to show the unusual increase in the amount of uncollected taxes as compared with the fiscal year ended 31st December, 1916:

	31st December 1916	31st December 1917	*Decrease Increase
Taxes Levied	$ 12,586,049.23	$ 13,014,793.71	$428,744.48
Less—Reserve for Loss	597,837.33	618,202.70	20,365.37
	$ 11,988,211.90	$ 12,396,591.01	$408,379.11
Remitted by County Treasurer	11,576,859.66	11,495,380.38	*81,479.28
Uncollected 31st December	$ 411,352.24	$ 901,210.63	$489,858.39

The cause of this large increase in the uncollected taxes can, no doubt, be attributed to some extent to the result of litigation by citizens protesting the collection of an increase of five cents in the rate of tax levied for educational purposes to cover the loss and cost of collection, making a refund of this additional tax collected a possibility and causing the retention by the County Treasurer of funds so collected pending the final adjudication of the matter. To just what extent this will affect the value of this asset as carried on the books can not be determined at this date, therefore the condition of the Building and Educational Funds as reflected by the attached statements will be affected to the extent of this adjustment.

Accounts Receivable:

The details of this item are shown on Exhibit 12 and need no further comment other than to say that from a cursory examination of the individual accounts all seem to be good and collectible.

Material and Supplies:

The greater part of the items carried on the balance sheet under this heading is represented by school supplies to the value of $245,048.26, being the book inventory of these commodities at 31st December, 1917, based on an actual inventory at 30th June, 1917, We have tested the inventory by comparison of a number of the records with the materials on hand and are of

the opinion that the values as shown by the books at 31st December, 1917, are approximately correct.

Anticipatory Tax Warrants:

The amount of anticipatory tax warrants outstanding at 31st December, 1917, as shown by the balance sheet, was reconciled with the amount called for by records on file in the Secretary's office.

The amount outstanding at 31st December, 1917, is greater by $1,400,000.00 than at the same date last year. This increase can be largely attributed to three contributory causes:

First—Excess of Expenditures over Revenue.
Second—Increase of Amount of Uncollected Taxes.
Third—Deferred Collection of Contested Rentals of School Fund Property.

Accounts Payable:

This item needs no further comment than to say that as far as we are able to determine, all ascertainable liabilities are contained therein, including all open orders for material, which item is subject to adjustment by reason of cancellations and non-deliveries.

Evening School Registration Subject to Refund:

This item represents registration fees collected from students attending evening schools subject to refund upon the attendance of the required number of evenings.

SCHOOL FUND.

Investments:

The details of this item is shown in Exhibit 10. The securities were examined by us and found to agree with the amount called for by the general ledger.

Accounts Receivable:

This item amounting to $863,661.51, as shown by Exhibit 13, includes accrued rentals on contested leases of school property, together with items aggregating $11,044.65, due from Cook County and sundry school districts and individuals for tuition of non-resident pupils. This item does not appear upon the general books of the Board of Education but is carried in memorandum form by the Secretary's office and only amounts collected from this source are reported to the auditor for entry upon the general books.

The present method of obtaining the number of non-resident pupils attending the school is entirely dependent upon the reporting of the same by principals of the various schools, there being no other attempt to verify this important source of revenue.

In our opinion all non-resident pupils should be required to secure a permit from the General Superintendent's office before they are allowed to enter the schools. (We are informed that this rule obtains as relates to all entrants to the Secondary Schools and could be easily extended to cover non-resident pupils of the Elementary Schools). A report of the permits issued should be made to the Secretary's office to be used in verifying the reports made by the principals of the various schools and, after the necessary exemptions have been made by the Secretary, a revised report should be made by him to the Auditor for entry upon the general books thus placing these transactions on the basis of amounts due instead of amounts collected as at present.

SPECIAL FUNDS.

The securities representing the investments of these several funds, the details of which are shown on Exhibit 11, were inspected by our representative and found to agree with the amounts called for by the general ledger.

The expenditures made from the income from these investments were found to be in accordance with the conditions controlling them. The detail of these expenditures by funds will be found in Exhibit 9.

GENERAL.

In addition to the matters specifically referred to in the foregoing comments, we made further verifications and tests of the transactions as follows:

Cash Receipts:

The amount of general taxes received for educational and building purposes, together with the state per-capita tax received for the benefit of the School Fund, was verified by comparison with the records of the City Comptroller and County Superintendent of Schools, respectively.

Revenue from the rental of school property was verified by comparison of the amounts received or charged with the rates stipulated in the leases.

Receipts from the sale of old buildings and deposits on bids were verified by reference to the Board proceedings authorizing the same.

Tuition fees, registration fees and receipts from miscellaneous sources were vouched by comparison with the stubs of the receipts issued to payers.

Interest on investments was investigated and found to be properly accounted for.

Cash on hand in all funds was reconciled with statements furnished by the City Treasurer.

The several department working funds, as shown by Exhibit 14, have not been verified by us with the exception of that of the Assistant Business Manager which amounts to $3,000.00 and which was verified by actual count.

The general cash receipts record was footed for the entire period and found correct.

Cash Disbursements:

We examined vouchers supporting cash disbursements for the months of March, July and November. The voucher register was footed for corresponding months and the entire period proven by reconcilement with the City Treasurer's monthly reports of warrants paid.

Teachers' pay rolls, except substitute rolls for October and November, were verified as to names and rates of pay by comparison with the official list of teachers as presented by the Bureau of Audit, and verified as to extensions, footings and time reported by the principals, for the months of March, October and November.

The above tests revealed discrepancies of $79.12 overpayment and $20.02 underpayment to teachers.

Pay rolls of other departments for corresponding months were footed and tested as to the accuracy of computations and found correct.

RESULTS FROM OPERATIONS.

The details of the operations of the Building Fund, Educational Fund, School Fund and Special Funds will

be shown in Exhibits 5, 6, 7 and 9, respectively.

As the law prescribes that the operations under the Educational and School Funds shall be shown separately upon the general books, we have submitted statements showing these operations and inter-charges and have also prepared as Exhibit 8 a composite statement to show the combined operations under the entire Educational Fund.

We desire to call attention to the fact that the results of the operations under the Building and Educational Funds are subject to further adjustment on account of the possible increase in loss and cost of collection of the 1916 tax levy over the reserves provided for that contingency and such further loss will reduce the excess revenue over expenditures of the Building Fund for the year, as shown by Exhibit 5, and increase the excess of expenditures over the revenue of the Educational Fund for the year, as shown by Exhibit 6.

Adjustments:

On account of the various accruals and other items which had not been taken on to the books at 31st December, 1917, it was necessary for us to change the statements submitted to the extent of these adjustments, and to that extent they do not agree with the books. A detailed statement of these adjustments is appended to this report as Exhibit 15.

In conclusion, we wish to acknowledge the courtesy and co-operation extended to our representatives by the officers, department heads, and employes of the Board.

Respectfully,

(Signed) BARROW, WADE, GUTHRIE CO.

"Closed Hours" for Bridges: Suspension of Regulations to Facilitate Movement of Boats Operated by the U. S. Government.

The Mayor submitted the following communication:

OFFICE OF THE MAYOR,
CHICAGO, May 20, 1918.

To the Honorable the City Council:

GENTLEMEN—I transmit herewith a communication from the Hon. John Barton Payne, General Counsel for the United States Railroad Administration, requesting that war traffic in the river be exempted from the bridge ordinance.

I transmit also an ordinance prepared by the law department covering the situation and complying with the request of Judge Payne.

I respectfully recommend the passage of the ordinance without the usual reference to a committee.

Yours respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

The following communication was submitted with the foregoing communication:

UNITED STATES RAILROAD ADMINISTRATION,
WASHINGTON, May 13, 1918.

Hon. William Hale Thompson, Mayor, Chicago, Ills.:

My Dear Mr. Mayor:

My attention is called to the fact that the hours at which bridges are closed, as established by the ordinances of the City of Chicago, interfere with the movement of war traffic, under the jurisdiction of the Director General of Railroads.

Am advised Mr. Richard Fitzgerald has had a conference with you on the subject and am gratified to learn that you are disposed to meet the situation. It will be most satisfactory to the Railroad Administration to have the matter arranged as proposed.

The arrival of vessels as far as may be will be so timed as to come within the hours now established, the present purpose being to provide for exceptional and emergency cases.

I desire to express the deep interest of the Director General in having this brought about, and our sincere appreciation of your co-operative attitude in the matter.

Very truly yours,

(Signed) JOHN BARTON PAYNE.

Unanimous consent was given for consideration of the ordinance submitted with said communication from the Mayor.

Ald. Kostner moved to pass said ordinance.

The motion prevailed by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Novak, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. The following is said ordinance as passed:

AN ORDINANCE

Exempting water-craft operated by the United States Government from such provisions of Sections 1107 and 1108 of The Chicago Code of 1911 as interfere with their unobstructed passage.

WHEREAS, The Government of the United States, through its Director General of Railroads, has taken over for use during the existing war and is now operating in connection with the railroads under its control certain large boats and water-craft, among which are included the following named boats: Kearsarge, Arthur Orr, Wilkesbarre, Mt. Chunk, Utica, Chicago, Milwaukee, Underwood and Cook; and,

WHEREAS, The said vessels and others which may from time to time be so taken over are now and will in the future be engaged in the war traffic under the jurisdiction of the United States Railroad Administration for the purpose of relieving freight traffic over the railroads operating east of the City of Chicago, thereby releasing cars and engine power for purposes of traffic west, northwest and southwest of said city; and

WHEREAS, The provisions of Sections 1107 and 1108 of The Chicago Code of 1911, in so far as they require bridges to be closed at certain hours and under certain conditions and limit the time during which they may remain open constitute an interference and obstruction to the expeditious movement of war traffic, which the authorities representing the National Government have asked to have abated; therefore,

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That in so far as the restrictions and limitations concerning the opening and closing of bridges in the City of Chicago contained in Section 1107, as amended, and Section 1108, of The Chicago Code of 1911, interfere with, obstruct or impede the free movement of the boats operated by the United States Government, known as Kearsarge, Arthur Orr, Wilkesbarre, Mt. Chunk, Utica, Chicago, Milwaukee, Underwood, Cook, and all other vessels operated by the United States Government in connection with the railroads under the jurisdiction of the United States Railroad Administration, the said provisions shall be and the same are hereby repealed, and the said sections of said Code are hereby modified so as not to apply when the said governmentally-operated vessels are seeking to pass up or down the Chicago River or the Calumet River or their branches.

SECTION 2. This ordinance shall take effect from and after its passage and approval.

CITY CLERK.

Memorial Day: Proclamation.

The Clerk presented the following proclamation submited by the Mayor, which was ordered published and placed on file:

OFFICE OF THE MAYOR,
CHICAGO, May 16, 1918.

PROCLAMATION.

Of all our civic holidays, there is none which is fraught with such solemn significance as that which we call Memorial Day, which, in the recurring cycle of the seasons, draws near to us once more. The nation, at the suggestion of America's greatest volunteer soldier, John A. Logan, has created Memorial Day, and consecrated it to the memory of those who have followed the flag on land and sea, and are now gathered to their fathers.

In previous years, on the occasion of this solemn anniversary, we have thought only of those who have fought and died under the folds of Old Glory in the past. But this year, while not less mindful of those whose sacrifice was made in other days, we turn our thoughts especially to them, who in accordance with the laws of the land, have been called upon to make

the supreme sacrifice at their country's altar in this day and generation.

It is, therefore, my earnest hope and desire that all the people of Chicago will observe May 30th, commonly known as Decoration Day, as a day of reverent homage to the spirits of the nation's heroic dead of other days, but more particularly to our own sons who are now giving the last full measure of devotion on the battlefields of Europe. Let it be a day of rededication to the flag and reconsecration to the ideals for which it stands.

(Signed) WM. HALE THOMPSON,
Mayor.

Boulevarding of Longwood Drive: Non-acceptance of Ordinance by Calumet Park District.

The Clerk presented the following communication which was ordered published and placed on file:

CALUMET PARK DISTRICT,
MORGAN PARK, May 15, 1918.

Mr. James T. Igoe, City Clerk, City of Chicago:

DEAR SIR—Replying to yours of 13th February, 1918, I am instructed to say that the Commissioners of Calumet Park District regret that they do not at this time find it possible to accept the ordinance of the City of Chicago transferring to them control of that portion of Longwood drive lying within Calumet Park District.

Very truly yours,

Secretary.

Street Railways and Elevated Railroads: in Matter of Increases in Wage Rates for Employes.

The Clerk presented the following communication:

CHICAGO, Ill., May 20, 1918.

To the Honorable Wm. Hale Thompson, Mayor, and the Honorable, the City Council of the City of Chicago:

HONORABLE AND DEAR SIRS—As officers of Divisions Nos. 241 and 308 of the Amalgamated Association of Street and Electric Railway Employes of America, of which more than 14,000 employes of the transportation companies of Chicago are members, we respectfully request your Honorable Body in their behalf to endorse their petition to the companies for an increase in wage sufficient to meet the increase in living costs. This request comes through resolutions unanimously endorsed by our members at meetings held May 16 and 17, 1918.

The transportation employes are confronted with a serious situation. Their wage is inadequate to cover costs of necessaries, while prices are mounting to unheard of heights.

The employes have been patiently bearing this burden for some time because of a wage agreement made in a period when we could not possibly foresee the upheaval in prices that has since taken place, and in the hope that living costs would recede to a level within our wages. But prices keep going higher, and no one can tell when the limit may be reached. We are therefore forced to seek relief in higher wage rates that will enable us to protect our families from want and to maintain necessary health standards.

The transportation companies of Chicago are now seeking to change their contracts with the city, which do not expire for a number of years, and to secure for their stockholders more favorable financial conditions. The employes have no connection with this matter. The pending franchise negotiations hold no hope to the employes for relief from their present predicament. Their needs are immediate, and if they are to be enabled to keep their families from want, the necessary wage relief must come soon.

The transportation workers of other cities and local workers in most lines of industry have been granted this relief. Where agreements between employers and employes are in existence, the wage clauses have been opened and wage increases granted to meet the extraordinary times. But the Chicago transportation employes are expected to meet the abnormal costs of today on a wage that was established when these costs did not exist and could not be foretold.

That the transportation employes of this city are inadequately paid may be realized when we compare their wages with those paid in other occupations. The wage recently established for stock yards workers added to the former wage rate from 12½ to 20 cents an hour, making the wage rate of the common laborer in the stock yards much higher than that paid the transportation employes. The stock yards men are now enjoying the basic eight-hour day, with an additional rate for overtime and Sunday work, while the car men must cover long periods of hours to complete the day's work, with no additional overtime or Sunday rate, and they are compelled to work seven days a week in order to eke out an existence.

The recent award to the railroad workers by the Railroad Wage Commission is another comparison. The wage increase recommended by this Government commission varied up to as high as 43 per cent. It was based on the increased cost of living since December, 1915, and aimed to establish a wage for the railroad workers that would meet this increased cost. The wage standards thus fixed by our Government as necessary for the railroad workers to meet present conditions are considerably higher than those of the transportation employes of Chicago.

The lower living standards to which the Chicago transportation employes and their families have been reduced, owing to the decrease in purchasing value of the amount in their pay envelopes, has caused a general feeling of dissatisfaction. These men and their families are not only obliged to forego ordinary comforts, but many of the essentials to health. Numbers of men have left the service to work at other occupations where the pay is much higher, the hours of labor less and Sunday work is not demanded. The wages paid by the transportation companies of Chicago no longer attract men to the occupation, and as a result the companies are not only finding it difficult to retain men, but to hire any that will continue in the occupation. There is a shortage in the repair department and runs are not being filled, due to lack of trainmen. Thus equipment and service are both affected. The sole reason for this is inadequate pay.

We have made our appeal to the companies for wage relief, but have been given no assurance that any will

be granted. We now come to the City Council as the representative body of our citizens, realizing that the City will bear 55 per cent of any wage increase granted by the Chicago Surface Lines, under the provisions of its contract with the City.

Our membership has laid down a course of orderly procedure to bring our necessities to the attention of the companies, the Mayor and City Council, and The National War Labor Board, if necessary, that the relief so vital in the present emergency may be forthcoming:

FIRST, to request the companies for a wage increase:

SECOND, to ask the City Council to endorse our movement to secure a wage sufficient to meet living costs; and

THIRD, in the event this procedure fails to bring the necessary relief, to seek the intervention of the National War Labor Board to readjust the wage rates of the members of Divisions 241 and 308, surface and elevated railway employes, and to establish such wage rates as will meet the extraordinary conditions of the times.

We ask your Honorable Body to give this orderly and reasonable movement of the underpaid Chicago car employes your endorsement. We want to continue in the occupation that great numbers of us have devoted the best of our lives to. We do not want to be forced into other occupations in order to secure a wage that will insure ourselves and families proper living conditions. The industry that we are a part of, and have grown proficient in, should pay a living wage and should not compel its workers to bear unnecessary burdens.

We are as patriotic as any other class of workers and should be shown as much consideration. In all of the war activities we have cheerfully responded and are grateful for the privilege of doing our duty as loyal citizens. Numbers of our members and sons are in war service, and our greatest desire is to be helpful to our nation in its present struggle. Our industry plays an important part in war production, and we have been giving the best that is in us to promote this production, notwithstanding the heavy burden we are bearing.

The transportation employes should be relieved of this burden. A wage should be established that will guarantee them and their families the American standard of living.

Our Federal Government has recently announced this wise policy in its national war program: "The right of all workers, including common laborers, to a living wage", and "in fixing wage rates, minimum rates of pay shall be established which will insure the subsistence of the worker and his family in health and reasonable comfort." To no class of workers in Chicago is the need for the application of this policy more urgent than the transportation employes.

We therefore request your Honorable Body:

To recommend that the transportation companies of Chicago grant a wage increase to their employes, members of Divisions 241 and 308 of our association, sufficient to meet the increased cost of living; and

To recommend further that in the event this wage relief is denied, that the National War Labor Board take up the matter and establish an adequate wage rate for the Chicago surface and elevated railway employes.

Respectfully submitted,

President.

Dated Chicago, May 20, A. D. 1918.

ESTIMATE OF ENGINEER.

To the Board of Local Improvements of the City of Chicago, and to the Mayor and Aldermen of the City of Chicago, in City Council Assembled:

The Board of Local Improvements of the City of Chicago, having adopted a resolution that the roadways of a system of streets as follows, to wit: South Marshfield avenue, from the south line of West 72nd street to a line parallel with and eight feet south of the north line of West 74th street; South Hermitage avenue, from the south line of West 72nd street to a line parallel with and eight feet south of the north line of West 74th street; South Paulina street, from the south line of West 72nd street to a line parallel with and eight feet south of the north line of West 74th street; South Wood street, from the south line of West 72nd street to a line parallel with and eight feet south of the north line of West 74th street; South Honore street, from the south line of West 71st street to a line parallel with and eight feet south of the north line of West 74th street; South Lincoln street from the south line of West 71st street to a line parallel with and eight feet south of the north line of West 74th street; South Winchester avenue, from the south line of West 71st street to a line parallel with and eight feet south of the north line of West 74th street; West 71st street, from the west line of South Ashland avenue to a line parallel with and eight feet west of the east line of South Robey street; West 72nd street, from the west line of South Ashland avenue to a line parallel with and eight feet west of the east line of South Robey street; West 73rd street, from the west line of South Ashland avenue to a line parallel with and eight feet west of the east line of South Robey street, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described (except the intersections of South Marshfield avenue, South Paulina street, South Hermitage avenue and South Wood street with West 71st street and also except that part of the intersections of South Lincoln street and South Winchester avenue, from a line parallel with and ten feet south of the north line to the north line of West 71st street), be improved by adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick catchbasins complete, constructing a granite concrete combined curb and gutter on cinders, gravel or sand, grading and paving with asphalt on six inches of Portland cement concrete, swept with natural hydraulic cement, and presented to the City Council of the City of Chicago, a recommendation that such local improvement be made. I hereby submit an estimate of the cost of such improvement, including labor and materials, viz:

Granite concrete combined curb and gutter on cinders, gravel or sand, 36,900 lineal feet at 95c	$ 35,055.00
Grading 23,000 cubic yards at $1.50	34,500.00
Paving with asphalt on six inches of Portland cement concrete, swept with natural hydraulic cement, 59,360 square yards at $2.45	145,432.00
Constructing new brick catchbasins complete, 112 at $70.00	7,840.00
Adjusting sewer manholes and catchbasins, and constructing and connecting catchbasin inlets	11,935.00

Deficiency in interest on the assessment, cost of making, levying and collecting said assessment, and lawful expenses attending the making of such improvement.....	11,738.00
Total	$246,500.00

And I hereby certify that in my opinion the above estimate does not exceed the probable cost of the above proposed improvement and the lawful expenses attending the same.

(Signed) C. D. HILL,
Engineer of the Board of Local Improvements.

Dated, Chicago, May 20, A. D. 1918.

AN ORDINANCE

For the improvement—adjusting sewer manholes and catchbasins, constructing and connecting catchbasin inlets, constructing new brick catchbasins complete, constructing a granite concrete combined curb and gutter, grading and paving—of the roadways of a system of streets as follows, to wit: South Marshfield avenue, from the south line of West 72nd street to a line parallel with and eight (8) feet south of the north line of West 74th street; South Hermitage avenue, from the south line of West 72nd street to a line parallel with and eight (8) feet south of the north line of West 74th street; South Paulina street, from the south line of West 72nd street to a line parallel with and eight (8) feet south of the north line of West 74th street; South Wood street, from the south line of West 72nd street to a line parallel with and eight (8) feet south of the north line of West 74th street; South Honore street, from the south line of West 71st street to a line parallel with and eight (8) feet south of the north line of West 74th street; South Lincoln street, from the south line of West 71st street to a line parallel with and eight (8) feet south of the north line of West 74th street; South Winchester avenue, from the south line of West 71st street to a line parallel with and eight (8) feet south of the north line of West 74th street; West 71st street, from the west line of South Ashland avenue to a line parallel with and eight (8) feet west of the east line of South Robey street; West 72nd street, from the west line of South Ashland avenue to a line parallel with and eight (8) feet west of the east line of South Robey street; West 73rd street, from the west line of South Ashland avenue to a line parallel with and eight (8) feet west of the east line of South Robey street, and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described (except the intersections of South Marshfield avenue, South Paulina street, South Hermitage avenue and South Wood street with West 71st street, and also except that part of the intersections of South Lincoln street and South Winchester avenue from a line parallel with and ten (10) feet south of the north line of West 71st street), in the City of Chicago, County of Cook and State of Illinois.

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That a local improvement shall be made within the City of Chicago, County of Cook and State of Illinois, the nature, character, locality and description of which local improvement is as follows, to wit:

That the roadway of South Marshfield avenue, from the south line of West 72nd street to a line parallel with and eight (8) feet south of the north line of West 74th street, also the roadway of South Hermitage avenue, from the south line of West 72nd street to a line parallel with and eight (8) feet south of the north line of West 74th street, also the roadway of South Paulina street, from the south line of West 72nd street to a line parallel with and eight (8) feet south of the north line of West 74th street, also the roadway of South Wood street, from the south line of West 72nd street to a line parallel with and eight (8) feet south of the north line of West 74th street, also the roadway of South Honore street, from the south line of West 71st street to a line parallel with and eight (8) feet south of the north line of West 74th street, also the roadway of South Lincoln street, from the south line of West 71st street to a line parallel with and eight (8) feet south of the north line of West 74th street, also the roadway of South Winchester avenue, from the south line of West 71st street to a line parallel with and eight (8) feet south of the north line of West 74th street, also the roadway of West 71st street, from the west line of South Ashland avenue to a line parallel with and eight (8) feet west of the east line of South Robey street, also the roadway of West 72nd street, from the west line of South Ashland avenue, to a line parallel with and eight (8) feet west of the east line of South Robey street, also the roadway of West 73rd street, from the west line of South Ashland avenue to a line parallel with and eight (8) feet west of the east line of South Robey street, the width of each of said roadways being hereby established at thirty (30) feet and also the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points herein described except as hereinafter specifically provided, be and the same are hereby ordered improved as follows:

A granite concrete combined curb and gutter shall be constructed on each side of the roadway of each of said above specified streets between the points hereinbefore described (except the intersections of South Marshfield avenue, South Paulina street, South Hermitage avenue and South Wood street with West 71st street and except across the roadways of all other intersecting streets and also except across the roadways of all intersecting alleys between the points hereinbefore described), in such a manner that the roadway face of the curb shall be parallel with and fifteen (15) feet from the center line of each of said above specified streets; and a granite concrete combined curb and gutter shall be constructed on each side of the roadways of all intersecting streets and alleys extended from the curb line to the street line produced on each side of each of said above specified streets between the points hereinbefore described (except the intersections of South Marshfield avenue, South Paulina street, South Hermitage avenue and South Wood street with West 71st street and also except that part of the intersections of South Lincoln street and South Winchester avenue, from a line parallel with and ten (10) feet south of the north line to the north line of West 71st street), in such a manner that the roadway face of the curb shall conform with the curb line produced on each side of all said intersecting streets and in such a manner that the back of the curb shall conform with the

alley line produced on each side of all said intersecting alleys between the points hereinbefore described.

Said combined curb and gutter shall be made as follows, to wit:

The concrete to be used shall consist of the best quality of Portland cement mixed with fine crushed granite in the proportion of one (1) part cement and two (2) parts fine granite, into which shall be incorporated four (4) parts of broken granite of varying sizes which will pass through a ring of one and one-half (1½) inches internal diameter and be held on a ring of one-fourth (¼) of an inch internal diameter. The cement shall be mixed thoroughly with fine crushed granite, after which it shall be moistened with water to form a mortar and into which shall be incorporated the four (4) parts of broken granite as specified above and rammed into forms until solid.

The material to be used in finishing the surface of said combined curb and gutter shall consist of the best quality of Portland cement mixed with finely crushed granite in the proportion of two (2) parts cement and three (3) parts granite, which, after being moistened with water to form a mortar, shall be evenly spread over the top and roadway face of the curb to a thickness of one-fourth (¼) inch, and over the surface of the gutters to a thickness of one (1) inch, so as to insure a smooth and even surface on the exposed surfaces of the combined curb and gutter after being evenly trowelled and finished with a broom.

The curb shall be seven (7) inches thick and the height at the back shall vary from eighteen (18) inches at the catchbasin inlets to eleven (11) inches at the summits, and the gutter shall be twelve (12) inches in width and eight (8) inches in thickness. The upper roadway edge of the curb shall be rounded to an arc of a circle having a radius of one and one-half (1½) inches.

Said combined curb and gutter shall be constructed upon a bed of cinders, gravel or sand three (3) inches in depth after being flooded with water and thoroughly compacted to an even surface, and said combined curb and gutter shall be backfilled with earth, free from animal or vegetable matter, said filling to be four (4) feet wide at the top of the curb and even therewith and shall slope down at the rate of one and one-half (1½) feet horizontal to one (1) foot vertical.

Said combined curb and gutter shall be so constructed that the upper surface of the gutter shall conform to the surface of the finished roadways as hereinafter described, and the top edge of the curb on each side of the roadway of each of said above specified streets shall be at the elevation of straight lines connecting the several points at the elevations hereinafter described and the top edge of the curb on each side of the roadways of all intersecting streets extended from the curb line to the street line produced on each side of each of said above specified streets shall be at the elevation of said intersecting streets hereinafter described and the top edge of the curb on each side of the roadways of all intersecting alleys extended from the curb line to the street line produced on each side of each of said above specified streets shall rise from the curb line to the street line produced at the rate of one (1) inch vertical to three (3) feet horizontal from the elevation of the curb of said above specified streets between said points, which elevations shall be as follows, to wit:

At the intersection of South Ashland avenue with West 71st street, 22.30 feet above datum.

At the intersection of South Ashland avenue with West 72nd street, 22.50 feet above datum.

At the intersection of South Ashland avenue with West 73rd street, 22.50 feet above datum.

At the intersection of South Marshfield avenue with West 71st street, 22.50 feet above datum.

At the intersection of South Marshfield avenue with West 72nd street, 23.00 feet above datum.

At the intersection of South Marshfield avenue with West 73rd street, 23.50 feet above datum.

At the intersection of South Marshfield avenue with West 74th street, 23.00 feet above datum.

At the intersection of South Paulina street with West 71st street, 23.00 feet above datum.

At the intersection of South Paulina street with West 72nd street, 23.00 feet above datum.

At the intersection of South Paulina street with West 73rd street, 23.50 feet above datum.

At the intersection of South Paulina street with West 74th street, 23.50 feet above datum.

At the intersection of South Hermitage avenue with West 71st street, 23.00 feet above datum.

At the intersection of South Hermitage avenue with West 72nd street, 23.50 feet above datum.

At the intersection of South Hermitage avenue with West 73rd street, 23.75 feet above datum.

At the intersection of South Hermitage avenue with West 74th street, 23.00 feet above datum.

At the intersection of South Wood street with West 71st street, 23.20 feet above datum.

At the intersection of South Wood street with West 72nd street, 23.30 feet above datum.

At the intersection of South Wood street with West 73rd street, 24.40 feet above datum.

At the intersection of South Wood street with West 74th street, 23.00 feet above datum.

At the intersection of South Honore street with West 71st street, 23.00 feet above datum.

At the intersection of South Honore street with West 72nd street, 23.50 feet above datum.

At the intersection of South Honore street with West 73rd street, 24.50 feet above datum.

At the intersection of South Honore street with West 74th street, 24.00 feet above datum.

At the intersection of South Lincoln street with West 71st street, 23.70 feet above datum.

At the intersection of South Lincoln street with West 72nd street, 24.00 feet above datum.

At the intersection of South Lincoln street with West 73rd street, 24.50 feet above datum.

At the intersection of South Lincoln street with West 74th street, 24.00 feet above datum.

At the intersection of South Winchester avenue with West 71st street, 23.50 feet above datum.

At the intersection of South Winchester avenue with West 72nd street, 24.00 feet above datum.

At the intersection of South Winchester avenue with West 73rd street, 25.20 feet above datum.

At the intersection of South Winchester avenue with West 74th street, 24.00 feet above datum.

At the intersection of South Robey street with West 71st street (east curb), 24.20 feet above datum.

At the intersection of South Robey street with West 72nd street, 24.00 feet above datum.

At the intersection of South Robey street with West 73rd street, 24.50 feet above datum.

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadways of the several streets specified above between the points hereinbefore described and also the roadways of all streets and alleys intersecting the several streets specified above and extending from the curb line to the street line produced on each side of each of said above specified streets between the points hereinbefore described (except the intersections of South Marshfield avenue, South Paulina street, South Hermitage avenue and South Wood street with West 71st street and also except that part of the intersections of South Lincoln street and South Winchester avenue from a line parallel with and ten (10) feet south of the north line to the north line of West 71st street), shall be so graded that after being thoroughly puddled and rolled with a roller of ten (10) tons weight until the roadbeds are thoroughly compacted and after the pavement hereinafter described shall have been placed thereon, the surface of the pavement at the center of the finished roadway of each of said above specified streets and the center of the finished roadways of all intersecting streets extended from the curb line to the street line produced on each side of each of said above specified streets shall be at the elevation of the top of the curbing hereinbefore described, and the surface of the finished roadways at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and the surface of the finished roadways at the catchbasin inlets in the gutters adjoining the face of the curbing shall be ten (10) inches below the top of said curbing.

The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets, and a transverse section of the finished surface of the pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadways, at every part of the roadway of each of said above specified streets and at every part of the roadways of all streets intersecting the several streets specified above, between the points hereinbefore described.

In all intersecting alleys hereinbefore specified at the street lines produced of said above specified streets, the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway of said alleys shall be three (3) inches below the top of the curbing, and a transverse section of the finished surface of the pavement at the street lines produced of said above specified streets shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadways. The surface of the said pavement thence shall slope gradually to meet the gutters hereinbefore specified.

Upon the roadbeds thus prepared between said points and between said gutters shall be spread a layer of Portland cement concrete six (6) inches in thickness. Said cement shall be so ground that ninety-two (92) per cent will pass through a standard number one hundred (100) sieve having ten thousand (10,000) meshes per square inch.

Briquettes made from a mortar composed of one (1) part said Portland cement and three (3) parts torpedo sand, or three (3) parts of limestone screenings, free from dirt, dust and other impurities, exposed to the air for one (1) day and immersed in water for six (6) days, shall develop an ultimate tensile strength of two hundred (200) pounds per square inch.

One (1) part cement which shall stand the above test and comply with the above requirements, and three (3) parts of torpedo sand, or three (3) parts of limestone screenings, free from dirt, dust and other impurities, shall be thoroughly mixed dry and then made into a mortar with the least possible amount of water.

Seven (7) parts of the best quality of slag, limestone, or other stone which shall be equal in quality for concrete purposes, of a size that will pass through a ring of two (2) inches internal diameter and be held on a ring of one-half (½) inch internal diameter, all of which slag or stone shall be thoroughly cleaned, free from all foreign substances and drenched with water, shall then be incorporated immediately with the mortar. Each batch of concrete shall be thoroughly mixed and at once spread upon the surface of said roadbeds and thoroughly compacted by ramming until free mortar appears on the surface. The surface of said layer of concrete shall be parallel with and three and one-half (3½) inches below the top of the finished pavement.

Upon the concrete foundation as above specified shall be laid a binder course, composed of asphaltic cement and gravel or clean broken limestone crusher run and of varying sizes which will pass through a ring of one (1) inch internal diameter.

The gravel or stone shall be heated and thoroughly mixed with the asphaltic cement in the proportions of six (6) parts by weight of asphaltic cement and ninety-four (94) parts by weight of gravel or stone. This binder shall be spread on the base above described, and while in a hot and plastic condition shall be rolled until it has a uniform thickness of one and one-half (1½) inches. The upper surface shall be exactly parallel with and two (2) inches below the finished surface of the pavement.

Upon this binder course shall be laid a wearing surface or pavement proper, which shall be composed of asphaltic cement seventeen (17) parts, sand seventy-three (73) parts, and pulverized carbonate of lime or pulverized silica ten (10) parts. The sand and asphaltic cement shall be heated separately to a temperature of three hundred (300) degrees Fahrenheit. The pulverized carbonate of lime or pulverized silica shall be mixed with the sand and these ingredients then mixed with the asphaltic cement at the above temperature in an apparatus which shall effect a perfect mixture.

The material for pavement when mixed as above shall be spread at a temperature of two hundred and fifty (250) degrees Fahrenheit. It shall be carefully spread by means of hot iron rakes in such manner as to give uniform and regular grade to such a depth, that after having received its ultimate compression it will have a thickness of two (2) inches.

The entire surface of the roadways thus improved shall then be compressed by hand rollers, after which natural hydraulic cement in the proportion of one (1) barrel to each one thousand (1,000) square yards of surface shall be swept over it, and the whole then thoroughly compressed by rolling with a steam roller of ten (10) tons weight, the rolling being continued for five (5) hours for each one thousand (1,000) square yards of surface.

All asphaltum used in the making of the asphaltic cement for both the binder and the wearing surface shall be asphaltum obtained from Pitch Lake in the Island of Trinidad, or asphaltum which shall be equal in quality for paving purposes to that obtained from Pitch Lake in the Island of Trinidad.

Eight (8) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Marshfield avenue and located in the roadway of said South Marshfield avenue at necessary points, adjacent to the curb lines of said South Marshfield avenue.

Eight (8) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Paulina street and located in the roadway of said South Paulina street at necessary points, adjacent to the curb lines of said South Paulina street.

Eight (8) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Hermitage avenue and located in the roadway of said South Hermitage avenue at necessary points, adjacent to the curb lines of said South Hermitage avenue.

Eight (8) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Wood street and located in the roadway of said South Wood street at necessary points, adjacent to the curb lines of said South Wood street.

Ten (10) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Honore street and located in the roadway of said South Honore street at necessary points, adjacent to the curb lines of said South Honore street.

Twelve (12) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Lincoln street and located in the roadway of said South Lincoln street at necessary points, adjacent to the curb lines of said South Lincoln street.

Eight (8) new brick catchbasins shall be constructed and trapped and connected with the sewer in South Winchester avenue and located in the roadway of said South Winchester avenue at necessary points, adjacent to the curb lines of said South Winchester avenue.

Sixteen (16) new brick catchbasins shall be constructed and trapped and connected with the sewer in West 71st street and located in the roadway of said West 71st street at necessary points, adjacent to the curb lines of said West 71st street.

Sixteen (16) new brick catchbasins shall be constructed and trapped and connected with the sewer in West 73rd street and located in the roadway of said West 73rd street at necessary points, adjacent to the curb lines of said West 73rd street.

Eighteen (18) new brick catchbasins shall be constructed and located in the roadway of West 72nd street at necessary points, adjacent to the curb lines of said West 72nd street; two (2) of said catchbasins shall be trapped and connected with the sewer in South Ashland avenue; two (2) shall be trapped and connected with the sewer in South Marshfield avenue; four (4) shall be trapped and conected with the sewer in South Paulina street; two (2) shall be trapped and connected with the sewer in South Honore street; two (2) shall be trapped and connected with the sewer in South Lincoln street; two (2) shall be trapped and connected with the sewer in South Robey street, and four (4) shall be trapped and connected with the sewer in South Wood street.

Each of said catchbasins shall be seven feet two inches deep, measuring from the top of the brickwork, and shall have an internal diameter of four feet at the bottom and to plane five feet above and parallel therewith. The walls of said catchbasins shall be eight inches thick and shall be built of two courses of sewer brick laid edgewise in perpendicular courses, upon a floor of pine plank two inches in thickness. The top of each of said catchbasins shall decrease to two feet internal diameter, being drawn in by means of nine header courses, the diameter being decreased uniformly for each course.

Each of said catchbasins shall be connected with the sewer with tile pipe of eight inches internal diameter and shall be trapped with a half trap also of tile pipe of eight inches internal diameter. The said trap of each said catchbasins shall be set so that the elevation of the bottom of the inside of the same shall be three feet six inches above the floor of the catchbasin.

Each of said catchbasins shall be provided with a suitable cast-iron cover, each of which covers, inclusive of lid, shall weigh five hundred and forty pounds. Each of said cast-iron covers shall be set so that the top of the same shall coincide with the finished surface of the pavement herein described.

The tile pipe specified above shall be straight, smooth and sound, thoroughly burned, well glazed and free from lumps and other imperfections, and three-fourths of an inch thick.

All brick and the joints of the tile pipe above referred to shall be laid with the best quality of natural hydraulic cement mortar, composed of one part natural hydraulic cement and two parts clean, sharp sand.

The several sewer manholes and catchbasins located in said roadways shall be raised or lowered as may be necessary to make them conform to the finished surface of said pavement; and the several catchbasins located outside of said roadways shall be raised or lowered as may be necessary to make them conform to the elevations herein described. The several catchbasins located on the line of the curb shall be raised or lowered and adjusted as may be necessary to make them conform to the finished surface of said pavement, or to said elevations according to whether the major part of said catchbasin lies within or without the line of said curb. Catchbasin inlets shall be constructed at necessary points in said gutters. The catchbasins not located in the gutters shall be connected with said inlets by means of tile pipe of eight (8) inches internal diameter laid with the best quality of natural hydraulic cement mortar, composed of one (1) part natural hydraulic cement and two (2) parts clean, sharp sand. Said tile pipe shall be straight, smooth and sound, thoroughly burned, well glazed, free from lumps and other imperfections, and three-fourths of an inch thick.

Said work to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

SECTION 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement, together with the estimate of the cost thereof including the lawful expenses attending the same, made by the engineer of said Board, both hereto attached, be and the same are hereby approved.

SECTION 3 That said improvement shall be made and the cost thereof, including the lawful expenses attending the same, be paid by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled, "An Act Concerning Local Improvements," approved June 14th, A. D. 1897, and the amendments thereto and that of said special assessment, the sum of eleven thousand seven hundred thirty-eight and no one-hundredths dollars ($11,738.00), not exceeding five (5) per centum of the amount of said assessment as finally determined after the completion of said improvement in accordance with Section 84 of said Act, shall be applied toward the payment of the cost of making, levying and collecting said special assessment, and of letting and executing contracts, advertising, clerical hire, engineering and inspection, court costs and deficiency in interest in the matter of said special assessment, in accordance with the provisions of said Act.

SECTION 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five per centum per annum according to law until paid.

SECTION 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement, bonds shall be issued payable out of said installments bearing interest at the rate of five per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements," approved June 14th, A. D. 1897, and the amendments thereto.

SECTION 6. That the Corporation Counsel be and he is hereby directed to file a petition in the Circuit, Superior or County Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special asessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

SECTION 7. That all ordinances or parts of ordinances conflicting with this ordinance be and the same are hereby repealed.

SECTION 8. This ordinance shall be in force from and after its passage.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Committee on Railway Terminals, by and through its chairman, be and it is hereby authorized and empowered to make and execute a contract in the manner and form hereinafter set forth for and on behalf of the City of Chicago with John F. Wallace.

SECTION 2. The form of said contract shall be in sentences, words, letters and figures as follows:

This agreement, made this ——— day of ——————— A. D. 191—, by and between John F. Wallace of the City of Chicago as chairman of the Railway Terminal Commission, party of the first part, and the City of Chicago, a municipal corporation, party of the second part, witnesseth; that

For and in consideration of the mutual covenants and undertakings hereinafter set forth to be made, done and performed by the respective parties, it is agreed that the said John F. Wallace will, during the period commencing April 1, 1918, and ending June 30, 1918, furnish and deliver reports to the City Council from time to time embodying the results of his investigations and those of the Railway Terminal Commission, during said period, and an expert study of the passenger and freight railway terminal situations and problems, present and future, in the City of Chicago, similar to reports heretofore furnished by him and said Commission to said City, and furnish and provide at his own expense to the Chicago Railway Terminal Commission during said period proper and suitable headquarters and meeting room in said City of Chicago, one assistant engineer, one or more draftsmen as required by said Commission, such stenographic assistance as it needs, the telephone and stationery for the Commission.

It is further agreed that the said City of Chicago for and in consideration of the covenants and agreements specified to be kept and performed by the said John F. Wallace, shall become liable to and will pay to the said John F. Wallace as and for his full compensation for said reports herein before mentioned the sum of nine thousand dollars ($9,000.00) payable at the rate of three thousand dollars ($3,000.00) per month, commencing April 1, 1918, and ending June 30, 1918.

It is further agreed that nothing done or implied shall render the said City of Chicago liable to the said John F. Wallace for the expenditure of any money for any items over and above the items specified herein, nor shall the City of Chicago or any of its officers or agents become liable to said John F. Wallace for any extra sum of money whatever other than the regular specified sum or sums herein provided, nor for any additional or extra services or expenses of any kind or nature rendered or expended by said John F. Wallace, or his agents, except upon an ordinance or order of the City Council of the City of Chicago duly passed.

Under and by virtue of this agreement, the right is hereby reserved to the said Committee on Railway Terminals to decide finally all questions arising and submitted to said committee as to the proper performance of this contract and as to the construction and interpretation thereof, and no money shall become due or payable under this contract until the said committee on Railway Terminals, by and through its chairman, shall have determined or certified that the said John F. Wallace is entitled to such payment, and all moneys paid out under this contract shall be paid by the City Comptroller upon the requisition of the chairman of the Committee on Railway Terminals.

This contract shall be executed in triplicate; it shall be executed for and on behalf of the City of Chicago by the chairman of the Committee on Railway Terminals after being duly authorized therefor by said committee and shall be approved by the Mayor and countersigned by the City Comptroller; one original copy so executed shall be filed with and kept by the chairman of said Committee on Railway Terminals, one shall be filed in the office of the City Comptroller and the third shall be given to the said John F. Wallace.

In witness whereof, the said John F. Wallace has hereunto set his hand and seal and the said City of Chicago has caused these presents to be signed by its chairman of the Committee on Railway Terminals and approved by its Mayor and countersigned by its City Comptroller this ——— day of ——————— A. D. 191—.

Ordered, That the Commissioner of Public Works be and he is hereby directed to at once cause the Chicago and Oak Park Elevated Railway Company to discontinue the practice of storing cars on the sidetrack on the right of way of said elevated railway between piers 372 and 699 (between North Talman and North Crawford avenues), for the reason that the storage of cars on said track is in violation of the condition contained in the permit issued by the City of Chicago for the construction and maintenance of said sidetrack.

Donald R. Richberg: Continuation of Employment as Special Counsel in Gas Litigation.

Ald. Thos J. Lynch moved to proceed to consideration of the report of the Committee on Gas, Oil and Electric Light on an order directing that, pending further investigation, Donald R. Richberg continue to represent the City as special counsel in certain litigation between the City and The Peoples Gas Light and Coke Company, deferred and published May 13, 1918, page 112.

The motion prevailed.

Ald. Thos. J. Lynch moved to concur in said report and to pass the order submitted therewith.

Ald. Walker moved to amend said order by striking therefrom the second, fourth and fifth paragraphs of the preamble.

Ald. Nance moved to lay said amendment on the table.

In the course of remarks by Ald. Nance, Ald. Cullerton raised the point of order that a motion to table is not debatable.

The Chair ruled the point of order well taken.

The question being put on the motion to lay on the table, the motion was lost, by yeas and nays as follows:

Yeas—A. A. McCormick, Nance, Fetzer, Johnson, Walkowiak, Wallace, Steffen, Kennedy, Watson, Hazen, A. O. Anderson, Kostner—12.

Nays—Kenna, Coughlin, L. B. Anderson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, Guernsey, Woodhull, Furman, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Kerner, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. The question then being put on the motion to adopt said amendment, the motion prevailed.

The question next being put on the passage of said order as amended, the motion prevailed.

The following is said order as passed:

WHEREAS, By action of the City Council Donald R. Richberg has been employed as Special Counsel for the City of Chicago in litigations with The Peoples Gas Light & Coke Co. and has been representing the City in proceedings in the Circuit Court of Cook County and in hearings before the State Public Utilities Commission and elsewhere; and

WHEREAS, Hearings are now in progress before the State Public Utilities Commission, upon the application of the Gas Company to increase rates in Chicago 30%, and hearings are imminent in the Circuit Court to determine the liability of the Company to refund alleged overcharges to gas consumers, estimated at $10,000,000, and Special Counsel for the City is exceptionally equipped to maintain the City's interests because of nearly three years study and investigation by him and by engineers and accountants working for the City under his general direction; now therefore be it

Ordered, That pending further investigation by the City Council the Corporation Counsel be and he is hereby directed to refrain from any interference in, or from taking any action concerning, the litigations between the City of Chicago and The Peoples Gas Light & Coke Co. pending in various courts and particularly in the Circuit Court of Cook County, or concerning the hearings pending before the State Public Utilities Commission on the application of said company for authority to increase rates, or concerning the case entitled Sutter vs. The Peoples Gas Light & Coke Co. pending on appeal to the Supreme Court of Illinois from the Municipal Court of Chicago, and the Corporation Counsel is hereby directed to notify his assistants to refrain from any similar interference or action in these matters; and be it

Ordered, That, pending further investigation by the City Council, Donald R. Richberg be and he is hereby directed to continue to represent the City of Chicago as Special Counsel in charge of those matters heretofore committed to his charge, including therein the litigations between the City of Chicago and The Peoples Gas Light & Coke Co. pending in various courts and particularly in the Circuit Court of Cook County, and the

hearings pending before the State Public Utilities Commission on the application of said company for authority to increase rates and the matter of the case entitled Sutter vs. The Peoples Gas Light & Coke Co.

Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark and Thos. J. Lynch.

Absent—None.

Call to Order.

At 2:00 o'clock P. M. (the hour appointed for the meeting), the Mayor called the Council to order.

Quorum.

The Clerk called the roll of members, and there was found to be

A quorum present.

JOURNAL.

Ald. Bowler moved to approve the printed record of the Proceedings of the regular meeting held Monday, May 20, 1918 (as submitted and signed by the City Clerk), as the Journal of the Proceedings of said meeting, and to dispense with the reading thereof.

The motion prevailed.

Communications from the Mayor, City Clerk and Other Officers, Departments and Branches of the City Government.

Releases from House of Correction: Report.

The Mayor submitted a report containing a list of the names of persons released by him from the House of Correction during the two weeks ended May 25, 1918, together with the cause of each release, which was ordered

Placed on file.

Veto.

Donald R. Richberg: Continuation of Employment as Special Counsel in Gas Litigation.

The Mayor submitted the following veto message:

OFFICE OF THE MAYOR,
CHICAGO, May 27, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I return herewith without my approval the order passed by your Honorable Body on May 20, 1918, which appears at pages 222 and 223 of the Journal of the Proceedings of the City Council of that date and which relates to certain litigation between the city and the Peoples Gas Light & Coke Company. My reasons for this action are as follows:

1. I am advised by the Corporation Counsel, who is, in my view, the official representative of the City in the law business of the City, that such order is illegal and void for the reason that your Honorable Body in passing the same has exceeded the powers vested in it by law.

2. However, as I am informed, Judge Torrison of the Circuit Court of Cook County decided on May 25, 1918, in substance that your Honorable Body is vested with the power to control such litigation; that Donald R. Richberg as special counsel employed by authority of your Honorable Body, and not as an Assistant Corporation Counsel, is authorized to appear for and represent the city in such litigation; that the Corporation Counsel, personally and through assistants designated by him, is also authorized to appear for and represent the city in such litigations; but that, in case of conflict between the Corporation Counsel and Mr. Richberg, in the management thereof, the court will recognize Mr. Richberg's authority as controlling.

The Corporation Counsel advises me that, in his opinion, the conclusion reached by Judge Torrison is unsound, and that steps will be taken to have the Supreme Court pass upon this question at the earliest opportunity.

But, since a cardinal principle of my administration is obedience to the law, I shall, in the meantime and unless and until the Supreme Court decides to the contrary, consider the law to be as held by Judge Torrison; and shall not allow the controversy, as to who shall represent the city, to interfere with or impede the progress of these litigations.

3. I point out that by the first paragraph of the order under consideration your Honorable Body, in effect, directs the Corporation Counsel to refrain from all participation in these litigations. This part of the order is clearly illegal even under Judge Torrison's decision. And, since I have promised the people to do all in my power to protect their rights and interests in these litigations I have directed the Corporation Counsel, pending the settlement by the Supreme Court of the question of his authority fully to represent the City, to appear in these litigations and do all in his power, in the subordinate capacity in which Judge Torrison has placed him, and to expedite these litigations and protect and advance the rights of the City and the people to the extent of his ability.

4. Let me call to your attention that the litigation in the Circuit Court is about seven years old; that Mr. Richberg, on July 23, 1918, will have been in sole charge of it for three years; that it is still in its preliminary stages; that the pleadings have not yet been settled; that no evidence has been taken; and that very slight substantial progress has been made; although the city has been put to an expense of over $300,000 and is now incurring an expense of more than $11,000 each month. And, now at this late date, the question is being seriously considered whether the Gas Company will be financially able to pay any judgment or decree which may eventually be rendered against it.

It seems to me that if this litigation had been diligently attended to by Mr. Richberg, for whose selection I am not responsible, there should have been an end of this litigation before this time.

5. Let me also call to your attention that the Corporation Counsel advises me, that in the *Sutter* case now pending in the Supreme Court all legal questions of substance, as distinguished from mere questions of pleading and practice, which control this litigation are duly presented and can be definitely decided by that court. Obviously, it will make no difference to the Supreme Court in deciding a legal question whether the same comes to it by way of the Municipal Court or by way of the Circuit Court. But to the city and the people there is this important difference. A decision by the Supreme Court in the *Sutter* case can be obtained at an early date (not later than next October in all probability) and at very small expense (not to exceed $5,000 and probably much less); but the Circuit Court case can reach the Supreme Court only after a vast amount of evidence has been introduced, requiring probably another year before a final decree is entered; and, judging the future by the past, at an expense far in excess of $300,000.

I know that Mr. Richberg disagrees with the Corporation Counsel regarding this *Sutter* case; but I prefer to rely upon the judgment of the Corporation Counsel. But, in case the Supreme Court approves Judge Torrison's decision, the responsibility of following the advice of the Corporation Counsel or the advice of Mr. Richberg is upon you.

6. With respect to the proceeding before the Public Utilities Commission let me call to your attention that the Chicago Tribune, which has hitherto accurately voiced Mr. Richberg's views in these litigations, has editorially published, at a time when the hearing before the Commission is in its initial stages and before the city has even been heard from, that the Gas Company is probably entitled to and will be allowed to increase the rates which it will charge consumers, i. e. the people.

7. By Judge Torrison's decision and unless and until it is overruled by the Supreme Court my hands are tied. Up to date I have done all in my power to redeem my pledge to the people in regard to this litigation with the Peoples Gas Light & Coke Company. I shall continue to do so. But, as I have indicated, my hands are tied, at least temporarily, by such decision. I believe that the order now under consideration is both illegal and unwise and, therefore, I return it to you without my approval and recommend that you give it further consideration. But, if you see fit to pass it over my veto, you must do so with the clear understanding that you are assuming the full responsibility of getting results for the city and the people and of protecting them against unnecessary delay and extravagant expenditures in carrying on these litigations with the Gas Company.

Respectfully submitted,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Nance moved to reconsider the vote by which said order, vetoed by His Honor the Mayor, was passed.

The motion prevailed.

Ald. Nance moved to pass said order, the veto of the Mayor to the contrary notwithstanding.

The motion prevailed, by yeas and nays as follows:

Yeas—Iliff, Schwartz, Richert, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Krumdick, Novak, Kerner, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Walkowiak, Touhy, Kavanagh, Bowler, R. H. McCormick, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—53.

Nays—Kenna, Coughlin, L. B. Anderson, Jackson, McDonough, Mulcahy, Cullerton, Ahern, Adamkiewicz, Powers, Fick, Franz, Byrne, Wm. J. Lynch, O'Toole—15.

—

In connection with the matter last under consideration Ald. A. A. McCormick presented a printed communication from Donald R. Richberg, and moved that said communication be published and referred to the Committee on Gas, Oil and Electric Light.

After debate Ald. McCormick, with the consent of the Council, withdrew said communication.

Thereupon Ald. Kunz presented a copy of said communication, and moved that it be read by the Clerk.

Ald. Cullerton raised the point of order that said motion was out of order until a later order of business was reached.

The Chair sustained the point of order, and, on an informal vote of the Council, directed that the regular order of business be proceeded with.

—

"Closed Hours" for Bridges: Suspension of Regulations to Facilitate Movement of Boats Operated by the U. S. Government (Amendment).

The Mayor submitted the following communication:

OFFICE OF THE MAYOR,
CHICAGO, May 27, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith a communication from Honorable Edward N. Hurley, Chairman of the United States Shipping Board, in which he requests that vessels controlled and operated by the United States Shipping Board or on behalf of the United States Shipping Board be exempted from the bridge ordinance.

I also transmit an ordinance prepared by the Law Department covering the situation and complying with Mr. Hurley's request.

I respectfully recommend the passage of the ordinance without the usual reference to a committee.

Yours respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

The following communication was submitted with the foregoing communication:

UNITED STATES SHIPPING BOARD,
WASHINGTON, May 24, 1918.

Hon. Wm. Hale Thompson, Mayor, City of Chicago, Chicago, Illinois:

MY DEAR MR. MAYOR—I am greatly obliged to you for your letter of May 22, 1918, enclosing copy of an ordinance enacted May 20th by the City Council relative to exemption of government vessels from the operation of the bridge ordinance. I note, however, that the ordinance is restricted to certain named vessels operated by the United States Government and "all other vessels operated by the United States Government in connection with the railroads under the jurisdiction of the United States Railroad Administration."

The Shipping Board is interested in the rapid dispatch of its own ships now being constructed on the Great Lakes, which will load in the Chicago River. The ordinance, as passed on May 20th, apparently would not include these Shipping Board ships, inasmuch as the Railroad Administration has no jurisdiction over them.

May I, therefore, suggest the passage of a supplemental ordinance to cover Shipping Board ships in the same manner as the Railroad Administration ships are covered by the existing ordinance. It is impracticable at this time to specify the names of these Shipping Board ships which may load in the Chicago River, so if agreeable to City Authorities, I suggest that the supplemental ordinance might provide exemption from the bridge ordinance of all ships "controlled by the United States Shipping Board and operated by the United States Shipping Board, or on behalf of the United States Shipping Board".

Thanking you for your courtesy, I am

Yours very truly,

(Signed) EDWARD N. HURLEY,
Chairman.

Unanimous consent was given for consideration of the ordinance submitted with said communication from the Mayor.

Ald. Powers moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—70.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That Section 1 of an ordinance passed by the City Council of the City of Chicago May 20, 1918,

and appearing in the Journal of the Proceedings of the City Council of that date, in the right-hand column of page 181, be and the same is hereby amended so that the same will read as follows:

"SECTION 1. That in so far as the restrictions and limitations concerning the opening and closing of bridges in the City of Chicago contained in Section 1107, as amended, and Section 1108, of The Chicago Code of 1911, interfere with, obstruct or impede the free movement of the boats operated by the United States Government, known as Kearsarge, Arthur Orr, Wilkesbarre, Mt. Chunk, Utica, Chicago, Milwaukee, Underwood, Cook, and all other vessels operated by the United States Government in connection with the railroads under the jurisdiction of the United States Railroad Administration *or controlled and operated by the United States Shipping Board, or on behalf of the United States Shipping Board,* the said provisions shall be and the same are hereby repealed, and the said sections of said Code are hereby modified so as not to apply when the said governmentally-operated vessels are seeking to pass up or down the Chicago River or the Calumet River or their branches."

SECTION 2. This ordinance shall take effect from and after its passage and approval.

Board of Education: Appointments of Members.

By direction of the Chair the Clerk read the following communication, consideration of which had been deferred May 20, 1918, page 162:

OFFICE OF THE MAYOR,

RESOLUTION ADOPTED BY THE UNION MINISTERS MEETING, CENTRAL Y. M. C. A., MAY 27, 1918.

To the Mayor and City Council:

The Union Ministers Meeting of Chicago, assembled at the Central Y. M. C. A., Monday, May 27, adopts the following resolution:

Realizing that Major Funkhouser has been a powerful friend of all that stands for a clean city and has done more to give Chicago a good name at home and abroad than any other man in official position in Chicago, we are unalterably opposed to the Maypole Ordinance now before the City Council.

We also look with extreme suspicion upon the action that has resulted in the suspension of Major Funkhouser.

We also order that a copy of this resolution be sent to the City Council, and given to the press.

WESTON HUNTER,
NORMAN B. HENDERSON,
W. S. FLEMING.

Vacation of Part of Alley: in Block Bounded by Armitage Av., Cortland St., N. Fairfield Av. and N. Washtenaw Av.

The Clerk presented an ordinance providing for the vacation of part of the east-and-west alley in the block bounded by Armitage avenue, Cortland street, North Fairfield avenue and North Washtenaw avenue (Oscar Heineman Company, beneficiary), which was

Referred to the Committee on Local Industries.

European Barberry: Prohibition against Planting or Growth.

The Clerk presented an ordinance, submitted by the United States Department of Agriculture, prohibiting the planting or growth of European barberry, which was

Referred to the Committee on Home Defense.

Mothers' Relief Association: "Flower Day" (June 20, 1918).

The Clerk presented a communication, submitted by the president of the Mothers' Relief Association, requesting authority to sell flowers on the streets of the city on Thursday, June 20, 1918, which was

Referred to the Committee on Finance.

Sundry Claims.

The Clerk presented a claim of W. Gibbons Uffendell for a refund of permit fee, and a claim of Mrs. Mary Reese for a refund of 90% of a special assessment for a water supply pipe, which were

Referred to the Committee on Finance.

DEPARTMENT OF POLICE.

Motion-picture Films: in Matter of Creation of a Board of Censorship.

The Clerk presented the following communication submitted by the Acting General Superintendent of Police, which was referred to the Committee on Judiciary:

OFFICE OF THE GENERAL SUPERINTENDENT OF POLICE,
CHICAGO, May 27, 1918.

To His Honor the Mayor and the Members of the City Council:

GENTLEMEN—I understand that an ordinance will be presented to your Honorable Body today, amending the present ordinance regulating the censoring of motion pictures. On May 25, 1918, I suspended the Second Deputy Superintendent of Police and certain of his subordinates pending investigation of charges. It has been insinuated by certain persons that there is some connection between the ordinance to be presented to your Honorable Body today and my investigation of the office of the Second Deputy Superintendent of Police. I am also informed that there were some features of the new ordinance which might be objectionable to this Department. I have had no opportunity because of lack of time to study the proposed ordinance, and I would respectfully recommend that action on this proposed ordinance be deferred until such time as I can study the same thoroughly and present my views on it through the proper committee.

Trusting you will grant my request in this matter, I remain,

Respectfully yours,

(Signed) JOHN H. ALCOCK,
Acting General Superintendent of Police.

"Dry" Cabarets: in Matter of Regulation by Department of Police.

The Clerk presented the following communication submitted by the Acting General Superintendent of Police:

OFFICE OF THE GENERAL SUPERINTENDENT OF POLICE,
CHICAGO, May 24, 1918.

To His Honor the Mayor and the Members of the City Council:

GENTLEMEN—I wish to call your attention to the fact that since the cabaret ordinance has been enforced the proprietors of several places, which formerly were conducted under dramshop licenses, failed to take out licenses of that nature for this period and are running their establishments as so-called "dry" cabarets where dancing is permitted practically all night. No license is required for such places and owing to this fact this department has practically no jurisdiction in regulating the hours during which dancing may be conducted, and we can take no action unless the patrons are guilty of disorderly conduct.

This department has been working in conjunction with the U. S. Government and the State Council of Defense in suppressing all places where the morals of the soldiers and sailors, as well as the young men and women of this community, might be contaminated. These so-called "dry" cabarets are of such a character that the hours during which they are conducted certainly should be regulated; otherwise this department will be unable to give the protection that it should.

In connection with these so-called "dry" cabarets, this department has secured evidence of the sale of beer and whiskey highballs in such places and proper action will be taken in this regard.

I, therefore, respectfully recommend to your Honorable Body that steps be taken to give the Police Department the power to regulate the hours during which these so-called "dry" cabarets shall be allowed to operate, and such other additional powers as might be necessary in order that the police may properly control them.

Respectfully,

(Signed) JOHN H. ALCOCK,
Acting General Superintendent.

Ald. Smith moved to refer said communication to the Committee on License.

Ald. Kostner moved to refer said communication to the Committee on Home Defense.

The question being put on the motion to refer to the Committee on Home Defense, the vote thereon was as follows:

Chicago Av. and 22nd St. Pumping Stations: Cancellation of Contract for Removal of Cinders and Rubbish.

The Clerk presented the following communication

submitted by the Commissioner of Public Works, which was, together with the order transmitted therewith, referred to the Committee on Finance:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF ENGINEERING,
CHICAGO, May 22, 1918.

To the Honorable City Council of the City of Chicago:

GENTLEMEN—I submit herewith Council Order providing for the cancellation of a contract held by Jos. Quinn, Jr., for the removal of cinders and boiler room rubbish from the Chicago avenue and 22nd street Pumping Stations. This is requested on account of Mr. Quinn's having been called to service in the U. S. Army.

Yours truly,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

Sinclair Oil Co.: in Matter of Construction of Certain Driveways.

The Clerk presented the following communication submitted by the Commissioner of Public Works, which was referred to the Committee on Streets and Alleys:

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
CHICAGO, May 25, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—With reference to the order passed by your honorable body on May 20, 1917 (Council Journal, page 217), namely:

"That the Commissioner of Public Works and the Superintendent of Streets be and he is hereby directed to revoke the driveway permits granted to the Sinclair Oil Company for driveways on La Crosse avenue, south of Washington boulevard; said permits being illegally granted to the said company for the reason that no Council order giving permission to construct and maintain the said driveways had been obtained,"

we respectfully report that there is no driveway at the location named in said order; neither has a permit for one been issued by this department.

The Bureau of Streets, however, on July 7, 1917, issued a permit to the Sinclair Refining Company to construct and maintain driveways across the sidewalk on the east side of Kilpatrick avenue, one about six feet and the other about 80 feet south of Washington boulevard. These driveways have been constructed in accordance with the provisions of the ordinance of July 28, 1913.

Very truly yours,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

(Signed) F. J. MITCHELL,
Superintendent of Streets.

Ald. Cullerton moved to reconsider the vote by which the order referred to in the foregoing communication was passed.

The motion prevailed.

Ald. Cullerton moved to refer said order to the Committee on Streets and Alleys.

Minority Report.

In connection with the foregoing report, Ald. A. A. McCormick presented a report of a minority of said committee, and moved that said report be published and that consideration thereof be deferred.

The motion prevailed.

The following is said minority report:

CHICAGO, May 21, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

The undersigned, a minority of your Committee on Judiciary, to whom was referred (May 6, 1918, page 76) an ordinance for amendment of Sections 1626 and 1627 of The Chicago Code of 1911, in reference to the issuance of permits for the exhibition of motion-picture films, beg leave to report and recommend that said ordinance and the substitute ordinance printed in Pamphlet No. 870 be placed on file, for the reasons set forth in the following statement:

I.

THE PRESENT ORDINANCE AND ITS OPERATION.

The existing ordinance has been in effect, in its substantial provisions for about ten years. During that time there have been at all times censors (employed since 1912 as assistants in the office of the Second Deputy Superintendent of Police) whose duties are to *first* pass upon films for which permits were asked. These censors were at first assigned from the police force and later, by appropriation ordinance, civilian censors were provided, who are under civil service. There are now twelve of these censors. The volume of applications for permits is such that only two view each picture, unless there is objection found, in which case all the censors see the film. If there is disagreement among them the Second Deputy acts as umpire and decides the controversy, granting or rejecting the permit.

The Second Deputy therefore becomes directly and solely responsible for the refusal of the permit. In case of doubt he frequently calls for representatives (whose opinions he values) of races or creeds to whom the picture might be considered objectionable, and considers their views upon it.

Administrative authority is essentially a one-man power, to be exercised within the channels prescribed by legislative authority.

To a proper discharge of administrative functions in dealing with questions of fact *some* latitude for the exercise of official judgment is commonly necessary.

The censorship ordinances in this respect do not vary from the many other laws and ordinances governing the duties of elective and appointive officials. Before the act of such an official can be reviewed by the courts it must appear that it is arbitrary or capricious, and not the result of exercise of his official judgment. In the case of the censorship of moving pictures the courts will decline to interfere with the exercise of this executive judgment of the Second Deputy's office if there is room for reasonable difference of opinion as between fair-minded men. If, on the other hand, the censor should arbitrarily or capriciously, without legal cause, refuse a permit, the aggrieved applicant is entitled to a writ of mandamus requiring the issuance of the permit.

II.

THE CENSORSHIP TESTED AND PROVED EFFICIENT AND SATISFACTORY.

So eminently fair and efficient has been the conduct of the censorship of the vast number of moving-picture productions submitted, that of eight suits carried to Appellate Courts, the Second Deputy's office has been sustained in six, the other two having been decided on technical points.

There is entire unanimity among the general public in approval of the conduct of the censorship under the administration of Maj. Funkhouser as Second Deputy.

Some of the moving-picture interests who would capitalize vice and make profit out of debauching the minds of Chicago's children, have, for a considerable period, waged warfare on Maj. Funkhouser. The ultimate purpose is to get rid of the moving-picture censorship in its entirety; preliminarily, to disorganize, demoralize and discredit the censorship.

Under the existing ordinance the Second Deputy is the active, responsible, directing head; subject only to his superior officer, the Chief of Police, who rarely interferes.

But under the new ordinance the Second Deputy is to be eliminated and the Chief is to be a mere *rubber stamp* for the board of censors. He must assume the responsibility for denying or issuing the permit but is without authority to control his own action. The board of censors has authority but no responsibility. There is good legal opinion that this diffusion of authority and responsibility spells the invalidity of that portion of the new ordinance the old one repealed, the new invalid censorship would be abolished.

Under the new ordinance the board of censors would be the sole judges, so far as the Police Department is concerned, as to the propriety of the picture, and the Chief of Police would be required to issue a permit for the exhibition of the picture on the mere order of the majority of the board of censors. The superior would take orders from his subordinates—a splendid (?) form of discipline to introduce into Municipal government!

III.

THE "BOGY MAN"—THE "ONE-MAN POWER"!

The visible supporters of the proposed amended ordinance have projected the bugaboo that the old ordinance creates "one-man power", inherently vicious!

This argument is specious, unsound and hypocritical.

There is the same one-man power in every judge of every court. There is a one-man power in the Mayor and in every executive officer of every municipality; the like one-man power in the President, each of his Cabinet and department heads; and in the Governor, the Attorney General, Auditor, Secretary of State and State department heads.

The soundest theory of municipal administration is that of centralized executive authority within channels prescribed by proper legislation.

Questions concerning the public morals are peculiarly within the jurisdiction of the Police Department.

The Postmaster General is the one-man power in forbidding the use of the mails to swindling concerns. The censoring of mail is done by a single individual, not by a board or jury.

One-man power is objectionable *only when it is not subject to proper limitations of authority.*

The proposed ordinance, vesting original censorship powers exclusively in the board of censors, is a clear move to decentralize and diffuse authority and responsibility.

IV.

THE STRATEGY OF THE MANUFACTURERS' CAMPAIGN AGAINST THE CENSORSHIP.

The moving-picture interests have learned that victory may be won by insidious approach and demoralization more readily than by direct attack.

The *first step*, therefore, is to be the decentralization of authority *which has been efficiently and properly exercised to the entire satisfaction of the public*, as well as of all decent moving-picture producers (including *all* Chicago producers) for a period of many years.

It has been found that the Second Deputy cannot be controlled or influenced by moving-picture interests. Although under civil service and amenable to charges before the Civil Service Commission, no one has had

the temerity to suggest, by that route, that he has been guilty of abuse of authority or excesses in office.

An individual, it has been found, who is vested with discretion and charged with authority, cannot evade responsibility. Not so with a body of twelve, a shifting majority of whom controls.

The *second step* the amended ordinance contemplates as the means of disintegration and eventual destruction of the censorship is a *specific provision* permitting the trial *in court* of the question of fact of whether or not the picture *is* immoral or improper. Under the existing ordinances a court can only review the official judgment of the Second Deputy *in case of a clear and manifest abuse of authority* in denying the permit for a picture concerning the propriety of which there could be no difference of opinion as between reasonable men.

The proposed ordinance opens wide the door to have tried, *not* the question of an abuse of authority on the part of the censors, *not* the question of whether they have been arbitrary, *but precisely the same question as was passed upon by the censors, namely, the question of fact as to whether or not the picture is immoral or obscene, etc.* The resultant effect would be a flood of litigation—"good advertising", even if unsuccessful.

This gives any one of the thirty-six judges sitting in the Circuit and Superior Courts of Cook County the "one-man power" (to pass upon and determine the question of fact as to the morality of the picture) which the Second Deputy now has. Right back where we started, to the "one-man power" bogy—*except worse off than before!*

For this raises the question—are the judges of the courts, in not all of whom the public has confidence, even *as well* qualified to pass upon the morals of the picture as a Second Deputy, who has devoted so many years to this work, who knows what the mothers and fathers in Chicago consider objectionable, who knows the effect of certain classes of pictures on the youthful mind, who, in short, is a highly trained specialist? In other words, by the proposed ordinance, instead of a *trained* judge, the matter is to be taken before an *untrained* judge, who is the "one-man power"!

The Appellate Courts have *reversed* trial judges in *four* cases where such judges had issued writs of mandamus against the Second Deputy for the issuance of permits; the trial judge in each case had held the picture moral and proper; the Appellate Court in each case held it *immoral and improper;* their decisions upheld the opinion of the Second Deputy. *He* was the trained, the trial judge the untrained, "one-man power".

It is assumed, of course, there is a right of appeal under the new ordinance in the event the board of censors is overruled by the judge. Theoretically, yes; *practically,* no. *The ordinance viciously designs to take this away,* by providing that, in the event of the decision by the judge that a permit should issue, *such permit shall immediately issue notwithstanding any appeal. Hence, the most obscene picture might be exhibited on the order of the trial judge.* The city *might* take an appeal from his decision, *but such appeal would not be heard and disposed of for from a year to two years. In the meantime the picture could have been shown everywhere in Chicago and done all possible damage to the morals of the youth of Chicago.*

Had the proposed ordinance been in force heretofore, these immoral pictures, for which the "one-man power" of trial judges ordered permits, would have been exhibited throughout Chicago before the Appellate Court could have interfered. Interfered? No, it could never have interfered, because it would have been too late. The indecent pictures would have been shown, taken their toll of moral wreckage and gone to fresh fields of pander.

The *Mayor* of Chicago, under the present ordinances, has the question of the moving picture censorship safely within his control. The Chief of Police may overrule the Second Deputy, or for abuse of authority the Civil Service Commission may remove him. *The Mayor may remove the Chief of Police at any time.* The Mayor is responsible to the people.

V.

QUESTIONS WHICH THE CITY COUNCIL MAY ANSWER.

Did you ever see the concentrated vice and crime represented by the "cut-outs" in the Second Deputy's office?

Do you want your children—or even your worst enemy's children—to see them?

Whence comes the outcry against the present "one-man system"?

Will any aldermen say it comes from his constituents?

Is it from the innocent young children of Chicago yearning to view the portrayal of vice and crime?

Is it from their mothers and fathers?

Who but those who capitalize and wax fat on the proceeds of sensation and immorality, desire the change?

For whom and for whose benefit is the proposed change to be made, if not solely for the panders of the moving picture industry,—the men who wish to produce indecent pictures, who are willing, nay, anxious, for the nickels and dimes that will add to already swollen fortunes, to corrupt the minds of our children?

Every speaker, but one, at the two sessions held by the committee endorsed the present ordinance and spoke favorably of the manner in which it had been interpreted and enforced.

Public opinion is unquestionably in favor of the ordinance. Only film manufacturers wish it changed.

The new ordinance is in favor of the commercialization of vice.

The subjoined list shows the record for three years of reels rejected and passed:

Year.	Passed.	Rejected.
1915	11,392	132
1916	10,756	166
1917	10,541	153

Insidious attacks were made by members of the committee on the patriotism of the Second Deputy. If he is unpatriotic he should be tried and dismissed on that charge. But a fight for indecent pictures should not be won by such methods. If he be guilty of unpatriotism, change the man not the law. The following is from the Chicago Herald of November 3, 1917:

"Editor Chicago Herald:

"Several times there have appeared in the press statements intended to give the impression to the public that I am a kaiser booster and pro-German.

"These statements were made to discredit me with

the public. The name Funkhouser might lend some color to such statements, and were it not for the fact that our country is at war with Germany I would pay no attention to them.

"ANCESTORS ALL AMERICANS."

"As a matter of fact, all my ancestors were Americans, 90 per cent of them being of English extraction. After a careful search as far back as 1700, when my original ancestor come from Berne, Switzerland, I cannot find any intermarriage with Germans. The names which predominate are Cross, Morgan, Young and Selmes. I inclose a synopsis of the history of my ancestors since 1700.

"My ancestors have served in every war in the United States since 1700. I served with honor in 1898 in the invasion of Cuba, for which the government presented service medals.

"I have been in the military service of this country since I was 17 years old, and am still major of the quartermaster's corps, Illinois National Guard, and subject to call for federal service.

"In view of the above I think you will agree with me that any allusion made to me as having pro-German tendencies is malicious and libelous.

M. L. C. FUNKHOUSER."

THE FUNKHOUSER GENEALOGY.

Christopher and John Funkhouser: These two men came from Berne, Switzerland, in 1692 to Holland, and in 1698 went to England, from whence they went to New Amsterdam (now New York), in the year 1700, and the same year they proceeded to Virginia, one to Fredericksburg and the other to "The Neck."

John Funkhouser had two sons, John and Christian. John, Jr., had a son named Christopher, who was born in Fredericksburg in 1752.

Christopher married Margaret Young. Eleven children were the result of this marriage, the sixth son being Robert Roland, my grandfather, who married Rachael Cross, the daughter of Zacheriah Cross.

Zacheriah Cross was born in Baltimore County, Maryland. He was the father of nine children, all of whom were born in Kentucky. His grandfather came from England in 1646 to Baltimore and married the sister of Lord Cole.

Zacheriah Cross served as a volunteer under Colonel Isaac Shelby, Major Anthony Bledsoe, Captain Maxwell, Captain Thomas Wallace, Colonel Anderson and Colonel Sevier in North and South Carolina, Tennessee, Georgia and Alabama from 1777 to 1792.

MOTHER OF ENGLISH DESCENT.

My mother's father, Tilden Russell Selmes, was born in Sussex County, England, December 7, 1804. His father was Spencer Russell Selmes, who was first cousin to Lord John Russell and whose family, the Selmes and the Spencers (Marlboroughs) twice intermarried, the first time in 1592. His mother was (before she was married) Philadelphia de LaHook.

He married Mary Dobbs Reeves, who was born in New York, January 3, 1813, the daughter of James Reeves and Catherine Ennis of New Jersey (one of the many "Anneke Jans" heirs). James Reeves' father was in the Horse Guards in England, and while on a mission to Edinburgh won and married the daughter of Lord Gardner, with whom he soon after emigrated to Nova Scotia and later to this country.

CHICAGO, May 24, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Buildings and City Hall, to whom was referred (May 20, 1918, page 215) an order directing issuance of permit to Charles J. Wall to remodel frame building at 5025 West Grand avenue, having had the same under advisement, beg leave to report and recommend that said order be placed on file.

Respectfully submitted,

(Signed) GEORGE PRETZEL,
Chairman.

Ald. Pretzel moved to concur in said report.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put,

The motion prevailed.

Schools, Fire, Police and Civil Service.

The Committee on Schools, Fire, Police and Civil Service submitted the following report, which was, on motion of Ald. Franz, ordered published and placed on file:

DEPARTMENT OF POLICE,
CHICAGO, May 13, 1918.

Ald. Matt Franz, Chairman, and Members of the Schools, Fire, Police and Civil Service Committee of the City Council:

GENTLEMEN—Since our last report relative to the Chicago and Cook County School for Boys, a bond issue of $250,000 was approved by the voters. The following buildings were immediately placed under construction: One large dining hall and dormitory, one power house, one additional dormitory and a large barn.

The barn has been completed. The power house will be completed shortly, as will also the dining hall. It is expected that the dormitory will be completed by August 1st. It is also contemplated to build a conservatory. This, however, is being held in abeyance until we see how far our finances reach.

These buildings are being erected through the supervision of the Commissioner of Public Works, Frank I. Bennett, and are, without a doubt, perfect construction. Through the House of Correction all the necessary stone for concrete work was secured. We also made arrangements with the House of Correction to sell us brick at actual cost, which was $4.00 per M.

Arrangements were made with the Cook County Commissioners to equip our laundry with machinery from the old Cook County Hospital laundry, as same was abandoned by them on account of new laundry being built. This was a saving of $4,500.00.

The Board of Education, on September 21, 1917, sanctioned the building of the balance of roads within the ground, which amounts to $6,473.00.

Through the South Park Commissioners we secured 15 electric lamp posts, that will be distributed throughout the grounds of the school.

Arrangements perfected for the placing of a sewer in 22nd street from Harlem avenue to Homan avenue. This will give direct connection with a large sewer in Oak Park avenue.

Estimates were received to put in a local telephone system to connect all buildings.

The City Council passed an order granting free use of water to the school.

Because of the city's abandonment of the Springfield avenue pumping station, we were able to secure two large boilers for our power house, thereby saving about $6,700.00.

Through the Sanitary District of Chicago we have been provided with electric light and power at only ¾ per cent per kilowatt hour. This brings our lighting bill down to almost nothing.

Your committee, feeling that in case of fire in any of the buildings, and if any were destroyed, that same would be almost a total loss, as the buildings were built through a bond issue, and if the building so destroyed had to be replaced, it would require an additional appropriation from the Finance Committee, therefore, it was deemed advisable to try to have the County insure the buildings. The County Commissioners felt it was up to the Board of Education as the property had been deeded to them for this particular purpose. After a few conferences with the members of the Board of Education, they finally acquiesced in the request and the buildings are now insured.

All work is progressing rapidly and expect that these buildings will be entirely completed by September 1st. We will then be able to take care of 162 boys.

As this work is incomplete, it is desired that a committee be appointed to complete the work.

Very respectfully submitted,

(Signed) SI MAYER,
JOHN G. HORNE,
MATT FRANZ.

Compensation.

The Committee on Compensation submitted the following report, which was, on motion of Ald. Iliff, deferred and ordered published:

CHICAGO, May 27, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Compensation, to whom was

All Matters Presented by the Aldermen; and Special Assessment, Improvement and Repealing Ordinances Submitted by the Board of Local Improvements (Said Matters Having Been Presented in Order, by Wards, Beginning with the First Ward).

FIRST WARD.

Ald. Kenna presented the following order, which was, on motion, duly passed:

Ordered, That the Commissioner of Public Works be and he is hereby authorized to issue a permit to Herman Fehr to maintain and operate a canopy over the sidewalk in South Clark street to be attached to the building or structure located at 315-319 South Clark street, in accordance with plans and specifications to be filed with the Commissioner of Public Works and approved by the Commissioner of Buildings and Chief of Fire Prevention and Public Safety, said canopy not to exceed 16 feet in length nor 24 feet in width, upon the filing of the application and bond and payment of the initial compensation provided for by ordinance.

Ald. Coughlin presented the following orders, which were, on motion, duly passed:

Ordered, That the Commissioner of Buildings be and he is hereby directed to issue a permit to Carlstein, Williams Co. to erect and maintain three wire

signs, 20 feet by 10 feet, 30 feet by 10 feet, and 65 feet by 10 feet, respectively, on the roof of their building at 2246 and 2248 South Michigan avenue. Said signs shall be erected and maintained in accordance with all rules and regulations of the Department of Buildings. This privilege shall be subject to termination by the Mayor at any time in his discretion.

Ordered, That the Commissioner of Public Works be and he is hereby directed to issue a permit to McKillip College, 1639 South Wabash avenue, to construct and maintain a driveway in front of premises known as 1639 South Wabash avenue; said permit to be issued and work to be done according to the provisions of the ordinance of July 28, 1913, governing the construction and maintenance of driveways.

Ordered, That the Commissioner of Gas and Electricity be and he hereby is directed to issue a permit to the Morrison Hotel Co. to erect and maintain one projecting electric sign in front of premises known as 79 West Madison street. Said sign shall be installed in accordance with all the rules and regulations of the Department of Gas and Electricity. Said permit shall be subject to revocation by the Mayor at any time at his discretion.

Ald. Coughlin presented an order directing issuance of a permit to The Eighth Street Garage Company to maintain and occupy two-story building at 800-10 South Wabash avenue as a public garage, which was

Referred to the Committee on Buildings and City Hall.

Ald. Coughlin presented a claim of Jacob Lanski for a rebate of water rates, which was

Referred to the Committee on Finance.

The Board of Local Improvements submitted an ordinance providing for construction of cement sidewalks on both sides of South State street from East and West 12th street to East and West 18th street.

By unanimous consent, on motion of Ald. Kenna, said ordinance was passed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. Nays—None.

SECOND WARD.

Ald. L. B. Anderson presented the following communication and statement, which was ordered published and referred to the Committee on Gas, Oil and Electric Light:

COMMUNICATION AND STATEMENT OF SAMUEL A. ETTELSON, CORPORATON COUNSEL, TO THE CITY COUNCIL OF THE CITY OF CHICAGO IN REFERENCE TO THE GAS RATE LITIGATION.

CHICAGO, May 9, 1918.

To the Honorable Mayor and Members of the City Council:

GENTLEMEN—Donald R. Richberg, formerly special assistant corporation counsel in charge of the gas litigation, has made a lengthy report to the Select Committee on Gas Litigation, in which he charges me with improperly representing the city's interests in the conduct of the litigation with the Peoples Gas Light & Coke Company, and I deem it necessary to advise your committee of the true facts concerning the questions which he has raised.

Mr. Richberg was selected to handle that litigation after many conferences had been held by the Select Committee, which at that time consisted of Aldermen Lawley, chairman; Utpatel, Merriam, Capitain, Nance and Richert, and at a meeting held July 14, 1915, he was formally notified of his selection. On July 23, 1915, the terms of employment were agreed upon.

The regularity of this selection and appointment was questioned by the City Comptroller, and after receiving an opinion from the Corporation Counsel to the effect that neither the City Council, nor any of its committees, could properly select or appoint "special counsel," the matter of Mr. Richberg's selection and appointment was again brought before said committee.

On March 30, 1916, at a meeting of the committee, I stated that I would appoint Mr. Richberg to represent the city in order to dispose of any possible questions as to his authority to act. Mr. Richberg was duly notified of his appointment by me as special assistant corporation counsel, to be known as "special counsel for the city in charge of the gas litigation," and upon the same date I informed the Comptroller of the appointment of Mr. Richberg, and ratified the services which Mr. Richberg had already performed.

Although Mr. Richberg had not been appointed in accordance with law until March 30, 1916, he had worked in co-operation with Richard S. Folsom, my predecessor, and all the formal pleadings filed in the litigation were signed by the latter, as well as by Mr. Richberg as "special counsel," and the work was carried on with full information furnished to the Corporation Counsel, and with the co-operation of the Corporation Counsel's office.

When I became Corporation Counsel of the City of Chicago, the gas litigation had been pending four years and three months, and Mr. Richberg had been in charge for a period of four months. Following the policy of my predecessor, I did not interfere, or in any manner participate in the preparation or handling of the case, leaving the matter entirely in the charge of Mr. Richberg and his associate. This policy I pursued for a period of two years and three months, but in October, 1917, an assistant corporation counsel was instructed by me to look into the progress of the gas litigation, and to keep me advised, inasmuch as it appeared that no substantial progress had been made, either in the matter of settling the pleadings or of having a trial upon the facts. The investigation disclosed that no

progress whatever had been made in the Circuit Court litigation since March 24, 1916, at which time Judge Baldwin had entered an order permitting the city's accountants and engineers access to the company's books, records and property.

Although the controversy was replete with legal questions still unsettled, no motion or effort had been made from the last-named date to obtain a decision upon them. Mr. Richberg's report to your committee indicates that he was awaiting the preparation of the evidence necessary to a hearing on the question of the reasonableness of the rates fixed by the ordinance of July 17, 1911, but it was my belief that this furnished no reason for absolute inaction upon the preliminary legal questions.

With respect to the preparation of the evidence, in a report to your committee under date of April 17, 1917 (Council Proceedings of April 23, 1917, at pages 4326 to 4332, inclusive), Mr. Richberg stated that the accounting and engineering work would be practically completed during the summer so that the city could be prepared to demand a trial upon the facts with the opening of court in the fall of that year. I was later advised, however, that numerous postponements were being asked for by Dr. Bemis and the engineering force, and it became apparent to me that it would be necessary to take an active part in the gas litigation with a view to its immediate determination.

The paramount questions involved in the gas litigation were discussed by Mr. Richberg in his report to your committee made in *September, 1915.* These questions were the pivotal legal questions upon which the whole litigation turns. In his report, at page 37, he said:

> *"There are certain preliminary legal questions which should have been determined long ago.*
>
> *(1) The constitutionality of the law of 1905 granting the City of Chicago the right to regulate gas rates.*
>
> (2) The validity of the ordinance of 1911 as an act in conformity with the power granted to the city.
>
> (3) Determination of the legal forum wherein evidence shall be taken of the value of the gas company's property and wherein shall be determined the reasonableness of the rates; that is, whether these issues should be tried out in the state or Federal Court.
>
> *These preliminary questions should be immediately fought out* so that the city and gas company may be at issue in either the state or Federal Court upon the reasonableness of the rates fixed in 1911. If in the lower court (either federal or state) one of these vital preliminary points should be decided against the city, the sooner such an adjudication is had and a ruling on appeal in the court of final jurisdiction, the sooner will the city and the gas consumers learn the strength of their case, and be able to determine the amount of expenditure justifiable in its prosecution.* * *"

On page 39 of the same report he continued as follows:

> "The prosecution of the city's case has been deferred from time to time in fear of the difficulty of meeting certain legal questions—difficulties which subsequent events have shown to be greater in anticipation than in realization. * * *"

In conclusion on page 40 he stated:

> *"Steps should be and will be taken immediately by counsel to bring to issue the preliminary legal questions* and in the event of a decision favorable to the city, counsel will be able to force the gas company to take up promptly the long neglected burden of presenting the evidence of its records, to prove whether or not the rates fixed in the ordinance of 1911 are just and reasonable."

More than two years elapsed since that report was written, but no move had been made by Mr. Richberg to have determined the preliminary legal questions which he stated should have been brought to issue without delay. The City of Chicago had spent during this period for lawyers, experts and miscellaneous items a sum of approximately $340,000 in the litigation. An itemized statement of this expenditure follows:

	Mr. Richberg	Mr. Plumb	Mr. Bemis and Eng. Force	Misc.
1915	$10,353.75	$ 5,200.00	$ 995.00	$ 80.00
1916	11,400.00	14,874.50	72,162.77	6,789.68
1917	13,449.25	950.00	165,716.22	7,848.60
1918 (3 mos.)	2,637.50		25,665.97	1,945.91
	$37,840.50	$21,024.50	$264,539.96	$16,664.19

After consideration of these facts it became clear to me that there should be no further delay. I called Mr. Richberg into conference in my office and I insisted that the gas litigation must not be allowed to drag out beyond the expiration of my term of office, and into future administrations.

Furthermore, I was advised by counsel in the case that the trial upon the reasonableness of the rates in the Circuit Court would last from six months to a year and would involve an expenditure by the city of several hundred thousand dollars, as well as an even larger expenditure by the gas company, all of which would have to be borne ultimately by the gas consumers of Chicago. I came to the conclusion that before this huge expense should be incurred there should be an effort made at once to have the legal questions determined so that the rights of the gas consumers and the city might be *known.*

Meanwhile in February, 1918, a gas consumer named J. F. Sutter commenced suit in the Municipal Court of Chicago to collect $11.53 which he alleged was an overcharge paid by him to the Peoples Gas Light and Coke Company during the period of the ordinance of July 17, 1911. The suit was thus based upon the same ordinance and was brought for the same purpose as the litigation in the Circuit Court, although it presented merely his individual claim rather than the claims of the gas consumers of Chicago in general. The gas company filed an answer in the case, making the defense that the ordinance in question was enacted under the Act of 1905, which was null and void, and that the ordinance was therefore of no force and effect. Without being advised as to the suit further than could be gathered from an examination of the pleadings and comments in the public press, it was apparent to me that the city could not, without endangering the interests of the city and the gas consumers in the gas litigation, ignore this case,

and furthermore that there was here possibly an opportunity to press to a speedy termination some of the vital legal issues involved in the long drawn out gas litigation with a minimum of expense and with safety to the interests of the gas consumers. Several of my assistants, at my request, made a study of the situation and came to the conclusion that if the Sutter case continued it was essential that since it involved issues which the company was also raising in the Circuit Court, a representative of the city should participate in it in some form in order to see that the case was not determined without the court being fully advised and the interests of the city and the gas consumers protected, and further that the participation of the city's representative might be in his individual capacity, as *amicus curiae* or friend of the court, without the city in any way being a party to the suit and without any question arising as to waiver of any rights possessed by the city in the Circuit Court litigation.

Mr. Richberg took the position in the conferences held in my office that he was not opposed to having the two main legal questions involved in the Circuit Court litigation, namely, the constitutionality of the Act of 1905, and whether or not the company was estopped to raise that question, determined at once, provided they could be both presented to the court at the same time. But when the opportunity for such a determination was presented in the Sutter case he opposed having those issues determined, upon the ground, as he stated, that it was a collusive proceeding. I thereupon requested him and my assistants to try to evolve some plan by which those questions could be separated from the question of the reasonableness of the rates in the Circuit Court case and taken to the Supereme Court apparent that no such plan could be worked out. A conference was held at my office, attended by Mr. Hedrick, attorney for the gas company, Mr. McIlvaine, of the firm of Wilson, Moore & McIlvaine, also representing the gas company, Mr. Richberg, myself and several of my assistants, at which the matter of separating the legal questions from the questions of fact for the purpose of securing a decision by the Supreme Court upon the legal questions were discussed, but no method of accomplishing the desired result was found. It was evident that if there was to be obtained any decision of the Supreme Court indicating to the people of Chicago the strength of their case in the Circuit Court before the huge expense of a trial upon the facts should be undertaken it would be necessary to look to the Sutter case for that decision.

Mr. Richberg continued his opposition to taking any part in that case, although he at no time suggested any facts to prove his contention that it was collusive, and although the attorneys for the plaintiff called at my office, expressed their entire willingness to disclose their connection with the Sutter case, showed that the suit was brought by them as a test suit on behalf of the Gas Refund Association which had been recently organized and had at that time about 600 members who were interested in securing an early determination of their rights against the Peoples Gas Light and Coke Company for sums paid to it in excess of the rates prescribed by the 1911 ordinance, and not only stated that they were willing to have the city's co-operation, but sought it and would welcome any assistance in the matter of framing their pleadings and presenting the issues in such a way as to safeguard the interests of the city and the gas consumers.

When it became apparent that the legal questions could not be determined in the Circuit Court litigation independently of a trial upon the facts, Mr. Richberg and I reached an understanding as to the policy to be pursued with respect to the Sutter case. Mr. Richberg receded from his former position as to the suit being collusive in fact, stating that it was not his intention to charge that the gas company had anything to do with the institution of the Sutter suit or that any collusive arrangements existed between the attorneys for the plaintiff and the attorneys for the gas company. It was agreed that he should appear in the Sutter case as a friend of the court and show that some of the issues necessary to a proper determination of the case were not raised by the pleadings and that there was therefore collusion *in law* and that upon that ground he would make a motion to dismiss the case for the purpose of evading the appearance of participation in it, but that in connection with this motion he would make an argument upon the legal questions involved.

This program was followed. Mr. Richberg presented an affidavit in the Sutter case setting forth with much detail all of the proceedings which had taken place in the Circuit Court litigation and showing that under the injunction issued by Judge Gibbons in that court in the proceeding instituted by the gas company under the terms of the Act of 1905 to have the reasonableness of the rates prescribed by the 1911 ordinance determined, the gas company was authorized by the court to charge an 80 cent rate for gas, which was in excess of the ordinance rates; that by said injunction the company was obligated to refund the difference between the 80 cent rate and the ordinance rates to the gas consumers of Chicago in case the ordinance should be determined to be reasonable; that the company thereafter charged 80 cents for gas in accordance with that injunction throughout the period that the 1911 ordinance was in force and thereby obligated itself to refund the difference under the terms of the injunction irrespective of the validity of the Act of 1905, and that the gas company was therefore estopped to assert the unconstitutionality of that act or the invalidity of the ordinance of 1911.

The facts contained in Mr. Richberg's affidavit did not show or attempt to show any fraudulent or improper alliance between the attorneys for the plaintiff and the attorneys for the defendant, and he took occasion to make this entirely clear in a statement to the court.

The attorneys for the plaintiff took the opportunity offered by Mr. Richberg's affidavit to file further pleadings, setting forth the facts relative to the Circuit Court litigation which were claimed to estop the Gas Company from asserting the unconstitutionality of the Act of 1905, and to introduce in evidence the complete record of those proceedings. Mr. Richberg made an argument as requested by the court, and a decision was rendered as to the two legal questions which are still undetermined in the Circuit Court after seven years of litigation. Judge Doyle stated in his opinion:

> *"The court has given careful consideration to every suggestion made by Mr. Richberg acting as amicus curiae and appreciates his suggestions and argument. The court is convinced that he has presented*

no fact which would justify in the slightest degree this court dismissing the action brought by the plaintiff in this case."

Judge Doyle then passed upon the merits of the case, which he found in favor of the plaintiff, Sutter, held that as a gas consumer the latter was entitled to a rebate from the Gas Company, and entered judgment for it.

In the course of his argument before Judge Doyle, Mr. Richberg in support of his motion to dismiss the case contended that the introduction in evidence of the proceedings of the Circuit Court litigation had the effect of showing that the plaintiff had no right to recover, for the reason that the injunction issued by Judge Gibbons authorized the 80 cent rate, and that recovery of the overcharge was based upon a finding that the rates prescribed by the 1911 ordinance was reasonable. Mr. Richberg stated in his recent report to the Select Committee that this is the real defense of the Gas Company in the Sutter case, and that any other defenses made are merely fictitious. If the Supreme Court takes this view, then the case wil be dismissed without any decision as to the constitutionality of the Act of 1905 and as to whether the company is estopped to raise that question, and no harm can result to any one. Why Mr. Richberg should so strenuously oppose the Sutter case upon that ground is very difficult to understand. The company, however, by not contesting the reasonableness of the rates in the 1911 ordinance in the Sutter case, thereby admits their reasonableness, and there is clearly at least an even chance that the Supreme Court will not agree with Mr. Richberg's theory that the injunction bars recovery in this case. If the Supreme Court does not agree with Mr. Richberg, and renders a decision upon the merits of the case, then before it passes upon the constitutionality of the Act of 1905, it will necessarily pass upon the question as to the Gas Company's right to raise that issue, or in other words, the question of estoppel, and there will be a determination of the issues which must eventually be met in the Circuit Court litigation.

Mr. Richberg also took the position, in conferences at my office, and before Judge Doyle in the Municipal Court, that the injunction issued by Judge Gibbons *prohibited* the institution of a suit such as the Sutter case. In my opinion and in the opinion of my assistants, Mr. Richberg places a construction upon the injunction which would not be sustained in any court. The injunction prohibited the City of Chicago, its officers and agents, and any other person acting under the authority of the ordinance, from "enforcing" its provisions, but it did not, in terms or in effect, apply to a suit instituted by a gas consumer merely to recover payments made to the company in excess of the ordinance rates, and not seeking to enforce the penalties provided in the ordinance for the enforcement of its provisions. The city itself in 1911, shortly after that injunction was issued, started a proceeding in the Circuit Court (Gen. No. 309569) to enjoin the Gas Company from charging more than the ordinance rates, said case being the one which has been recently transferred by Judge Windes and consolidated with the case before Judge Pinckney.

The understanding of myself and my assistants was that Mr. Richberg was ready to participate in the Sutter case as a friend of the court, without seeking any action by the Circuit Court to interfere with its progress. During my absence from the city, however, Judge Pinckney returned and Mr. Richberg appeared before him with an affidavit setting forth the developments in the Sutter case, and argued that the injunction issued by Judge Gibbons prohibited the institution of a suit of that character. Judge Pinckney expressed surprise that it should be contended that said injunction had the effect of prohibiting a suit such as the Sutter case, and he intimated clearly that he did not intend to instruct Judge Doyle as to what action Judge Doyle should take with regard to that proceeding. Mr. Richberg in his report to your committee states that "on the hearing before Judge Pinckney, Assistant Corporation Counsel Righeimer took the same position as the Gas Company attorneys, in opposing any interference by the Circuit Court with the Municipal Court case," and quotes remarks of himself and Judge Pinckney in such a way as to give the impression that Judge Pinckney indicated that but for the position taken by Mr. Righeimer he (Judge Pinckney) would have stopped the Municipal Court case. I regard this as no less than deliberate misrepresentation.

In the discussion which followed a difference of opinion arose between Mr. Richberg and Assistant Corporation Counsel Righeimer, who represented me on that occasion, as to whether the Circuit Court case should proceed to trial pending the disposition of the Sutter case. This was the only question in dispute, and Judge Pinckney stated that it was the only one before him. Mr. Righeimer, on my behalf, suggested that a postponement of the trial of the case seemed advisable, since the Sutter case would be heard at the June term of the Supreme Court and important legal questions presented in the Circuit Court case might there be determined in such a way as to influence that litigation, and thereby much time and large sums of money might be saved. In the controversy that took place, Mr. Richberg resented any interference by the corporation counsel's office or myself, although the appearance of the corporation counsel was on file as one of the attorneys in that litigation, and in spite of the fact that Mr. Richberg was appointed special assistant corporation counsel by me and had been attending many conferences in my office in regard to that case. And without any previous intimation of his intention so to do, he at that time made an uncalled-for and unjust personal attack upon me, which he has recently repeated in his report to the Select Committee and in the public press, upon the ground that the firm of which I was a member prior to my becoming corporation counsel, but with which I am not now identified and in which I am not now interested, was and is representing the Peoples Gas Light & Coke Company in certain matters, not, however, having anything to do with the litigation with the city.

The question whether the trial upon the facts in the Circuit Court litigation should be postponed pending the determination of the Sutter case was really unimportant, because the Circuit Court case was not then, is not now, and cannot be for some time to come, ready for trial, since certain preliminary questions were, and are, still undisposed of. There was, first of all, a motion by the Gas Company to amend its bill for the purpose of inserting the question as to the unconstitutionality of the Act of 1905 into that case. There was also

the question presented by the consolidation of the two Circuit Court cases, which was effected on February 27, 1918, when Judge Windes ordered that the case then pending before him should be consolidated with the case before Judge Pinckney. Also there were and are questions undetermined in the case transferred by Judge Windes—for example, a motion by Mr. Richberg to strike the cross-bill of the gas company. Arguments, moreover, will be necessary with respect to the theory which shall govern the admission of evidence upon the trial as to the value of the company's property upon which the reasonableness of the rates under the 1911 ordinance should be predicated. Mr. Richberg stated in his report to your committee as one of his achievements that he has cleared away the legal entanglements in the case. I submit that he has not done so, and that his statement is utterly false. The case is still honeycombed with legal questions which should have been settled long ago, and some of which reach to the very foundation of the company's liability to the gas consumers of Chicago.

It is my conviction that Mr. Richberg's objections to any decision by the Supreme Court in the Sutter case is not actuated by his belief that the legal questions, which must be ultimately determined before the city and the gas consumers can recover from the gas company in the Circuit Court litigation, cannot be adequately and fully presented to the court in the Sutter case, or that the interest of the city and the gas consumers in that case will be jeopardized, but that he is opposed to having those questions determined for reasons personal to himself. The objections that he has raised to the continuation of the Sutter suit are hypocritical. He has insisted that the suit is collusive, although, as previously shown, he has failed to produce any evidence whatsoever in support of that contention, and he has taken care to state in his arguments in court upon the question that there was no collusion in fact, but merely that certain issues were not presented by the pleadings in the Sutter case, as they were originally framed, which could properly, and should be, raised. Having failed to substantiate that charge in court, or to present any facts even tending to substantiate it, he is now giving out statements to the press with regard to collusion in the case, which can be for no other purpose than to raise an absolutely false issue in this controversy. Likewise, his contentions as to the inability of the plaintiff to recover because of the injunction issued by Judge Gibbons, do not tend to show that the interest of the gas consumer will be prejudiced in any way by a presentation in that case of the legal issues, which must eventually be determined and which it is to the interest of the public of Chicago should be determined without delay.

On March 28, 1914, an opinion was written to the Committee on Gas, Oil and Electric Light by *Assistant Corporation Counsel Bryan Y. Craig* and approved by *Corporation Counsel William H. Sexton*, with respect to the status of the gas litigation at that time, and in the course of that opinion it was said:

"The city's power to prescribe rates for gas rested solely on the gas rate act of May 18, 1905, and it is apparent that if this act should be held to be unconstitutional and void on account of its not having been passed in the mode prescribed by the constitution, the city's suit to enforce the ordinance fixing rates for gas would necessarily fail.

"In the absence of an agreement between the parties to the suit no method was available for forcing a decision of the court upon the question of the constitutionality of the gas rate act, as a question separate and distinct from the other issues in the case. A decision on this point could only be had at the conclusion of the trial of the case upon all of the issues in the case, including the question as to the reasonableness of the rates prescribed in the ordinance.

"Inasmuch as a trial of all the issues in the case would have entailed a very large expenditure of public money for expert witnesses and other items, this department in view of the uncertainty that existed under the ruling in the Neiberger case as to the constitutionality of the gas rate act, was unwilling to proceed with the trial of the case and to expend the public's money therefor until the question of the constitutionality of that act had been defintely settled by the courts.

"In these circumstances this department endeavored (but without success) to arrange a program with the attorneys for the gas company which would induce a decision on the point of the unconstitutionality of the gas rate act without a trial of the other issues in the case.

"Having been unsuccessful in our effort to have the point referred to determined in the manner above indicated, we sought through the channel of certain other suits (wherein the question could be presented in a short time and without any considerable expense) to induce the Supreme Court to recede from or modify the position taken by it on the point in question in the Neiberger case, or to explain or clarify the opinion in that case so that it might be definitely known whether the manner in which the gas rate act had been passed was or was not a sufficient compliance with the constitutional requirements in respect to the mode of passage of bills."

It will be seen that the views expressed in the above opinion prior to the employment of Mr. Richberg as special assistant corporation counsel in the gas litigation were precisely the same as those which it seemed to me advisable to follow in connection with the Sutter case. The question as to the constitutionality of the Act of 1905 is necessarily involved in the Circuit Court litigation, as well as the question whether the Gas Company, by having obtained the advantages of the injunction issued by Judge Gibbons, has thereby estopped itself from asserting the unconstitutionality of that act. Judge Torrison, to whom the Circuit Court case has been transferred, has recently rendered a decision upholding the city's contention that the Gas Company is estopped, and thereby there is inserted into the case, despite Mr. Richberg's protestations, first, the question of estoppel, and, secondly, the question as to the constitutionality of the Act of 1905, both of which will necessarily have to be presented to the Supreme Court for final determination.

The question with which we have been and are now confronted is whether we shall make no effort to have these questions determined by the Supreme Court until the conclusion of a trial lasting a year or more and necessitating an expenditure of hundreds of thousands of dollars, or whether the opportunity which is presented by the Sutter case should be seized for the purpose of having those questions determined now.

The substantial facts which must be relied upon in supporting the contention that the gas company is bound to refund to the gas consumers of Chicago the difference between the 80-cent rate and the rates prescribed by the ordinance of 1911, if the latter are reasonable, irrespective of the constitutionality of the Act of 1915, and that the company is estopped to question the constitutionality of that act, are now contained in the record of the Sutter case. Mr. Richberg refers o a "conglomerate mass of confusing, misleading and largely irrelevant documents presented in that case." These documents all relate to the proceedings in the Circuit Court litigation to which Mr. Richberg referred in his affidavit filed in the Sutter case, and the attorneys for the plaintiff had the assistance of Mr. Richberg in determining the accuracy of the evidence which was introduced. If documents were introduced which were not relevant it merely indicates that the attorneys for the plaintiff wished to overlook no evidence which might have a proper bearing upon the question of estoppel in order that the most effective argument possible might be made to the Supreme Court upon that question.

I do not intend to discuss here the outrageous and libelous attacks made upon me by Mr. Richberg in the public press, but I have sought to show that the legal questions, which it is of vital importance to the gas consumers of Chicago should be determined without delay, may be urged in the Sutter case without prejudice to their interests, and that I have justification for my firm belief that Mr. Richberg is not playing fair with the public in so energetically seeking to destroy the opportunity of having these vital questions settled. Mr. Richberg's attacks upon me will be answered in the proper forum, but it is apparent that in view, not merely of his insubordination, but his deliberate misrepresentation of my actions in this matter, it will be impossible for the city's legal representatives to continue in harmonious and effective cooperation in the handling of this important litigation. I have, therefore, although with great reluctance because of the fact that Mr. Richberg was recommended by the Select Committee on Gas Litigation, found it necessary to relieve him of his duties.

Very truly yours,

SAMUEL A. ETTELSON,
Corporation Counsel.

Ald. L. B. Anderson presented an order directing issuance of permits to the De La Salle Institute to construct a four-story-and-basement addition to building at 3455 South Wabash avenue, and an order directing issuance of a permit to O. Reznick to construct a frame addition to barn at rear of premises known as 3212 South State street, which were

Referred to the Committee on Buildings and City Hall.

THIRD WARD.

Ald. Iliff presented the following order, which was, on motion, duly passed:

Ordered, That the Commissioner of Public Works be and he is hereby authorized and directed to issue a permit to J. J. Geary, contractor for the Champlain Improvement Association and the Vincennes Improvement Association, authorizing the use of City water from fire hydrants, without cost, from April 1, 1918, to November 30, 1918, in consideration of the cleaning of the following streets:

Champlain avenue, from East 46th street to East 51st street.

Vincennes avenue from East 39th street to East 43rd street.

Forrestville avenue, from East 43rd street to East 46th street.

Calumet avenue, from East 47th street to East 49th street.

Prairie avenue, from East 47th street to East 49th street.

East 44th street, from Grand boulevard to Vincennes avenue.

Langley avenue, from East 47th street to East 49th street.

Calumet avenue, from East 49th street to East 51st street, and

Prairie avenue, from East 49th street to East 51st street.

Ald. Iliff presented an ordinance for repeal of an ordinance passed June 30, 1916, granting permission and authority to Ajax Forge Company to maintain and operate two narrow-gauge tracks over and across South Hoyne avenue, south of Blue Island avenue, which was

Referred to the Committee on Compensation.

Ald. Iliff presented an ordinance for repeal of an ordinance passed May 27, 1912, granting permission and authority to Ajax Forge Company to install a water supply pipe under and across South Hoyne avenue, southeasterly of Blue Island avenue, and under and along certain east-and-west alleys adjacent to South Hoyne avenue, south of Blue Island avenue, which was

Referred to the Committee on Compensation.

Ald. Schwartz presented a claim of Maurice Alschuler for a rebate of water rates, and a claim of Herman Weingart for wages, which were

Referred to the Committee on Finance.

Ald. Schwartz presented an order for paving an alley in the block bounded by East 48th street, East 49th street, South Michigan avenue and Indiana avenue, which was

Referred to the Board of Local Improvements.

FOURTH WARD.

Ald. Richert presented the following resolution, which was, on motion, duly adopted:

"*Whereas,* The Chicago Retail Hardware Association is complaining that the enforcement of the ordinance regarding storage of gasoline is seriously interfering with their business and consolidating the business in the hands of the Standard Oil Company, therefore be it

Resolved, That the Chicago Retail Hardware Association's representatives be given a hearing before the Committee on Gas, Oil and Electric Light in relation to this matter, and the Bureau of Fire

Prevention and Public Safety be and it is hereby directed to refrain from compelling compliance with the ordinance relating to this subject pending a hearing by the committee.

Ald. Smith moved that the Committee on License be directed to give consideration to the subject-matter of the foregoing resolution.

The motion prevailed.

Ald. Richert presented a claim of Allen McNeil for a refund of 90% of special assessment for water supply pipe, and claims of M. A. Cushman, L. E. Gosselin, D. Haines, McKey & Poague, Sheridan Trust and Savings Bank and C. L. Willey Company for rebates of water rates, which were

Referred to the Committee on Finance.

FIFTH WARD.

Ald. McDonough and Mulcahy presented the following orders, which were, on motion, duly passed:

Ordered, That the Commissioner of Public Works be and he is hereby directed to issue a permit to L. Rosenbloom to construct and maintain a driveway across the sidewalk in front of premises known as 3548 South Morgan street; said permit to be issued and the work therein authorized to be done in accordance with the terms of an ordinance passed July 28, 1913, governing the construction and maintenance of driveways.

Ordered, That the Commissioner of Public Works be and he is hereby directed to remove the water meter installed at 3657 South Union avenue, and charge for water consumed thereon on the frontage basis.

The Board of Local Improvements submitted a recommendation, estimate and ordinance for curbing, grading and paving with granite blocks a system of streets as follows, towit: West 42nd street from South Ashland avenue to South Marshfield avenue produced north, etc., which were

Referred to the Committee on Home Defense.

ALSO,

A recommendation, estimate and ordinance for a tile pipe sewer in a system of streets as follows: South Rockwell street from West 35th street to West 34th street, etc.

By unanimous consent, on motion of Ald. McDonough, said estimate was approved and said ordinance was passed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. H. McCormick, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—70.

Nays—None.

ALSO,

A recommendation, estimate and ordinance for curbing grading and paving with asphalt West 34th street from 20 feet west of the west line of South Western avenue to 33 feet west of the east line of South Rockwell street produced north,

Consideration of which was, on motion of Ald. Mulcahy, deferred.

ALSO,

A recommendation, estimate and ordinance for a tile pipe sewer in West 37th place from 280 feet west of South Homan avenue to 141 feet east of South St. Louis avenue.

By unanimous consent, on motion of Ald. Mulcahy, said estimate was approved and said ordinance was passed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Kerner, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. Nays—None.

ALSO,

A recommendation, estimate and ordinance for curbing, grading and paving with asphalt West 37th place from South Kedzie avenue to 298.6 feet west of the west line of South Kedzie avenue, which were

Referred to the Committee on Home Defense.

SIXTH WARD.

Ald. A. A. McCormick presented the following statement, which was ordered published and referred to the Committee on Gas, Oil and Electric Light:

STATEMENT CONCERNING "THE SUTTER CASE" BY DONALD R. RICHBERG, SPECIAL COUNSEL FOR THE CITY OF CHICAGO.

CHICAGO, May 25, 1918.

To the Honorable, the Mayor, and Members of the City Council of the City of Chicago:

Members of the City Council may have been confused by conflicting arguments and statements made before the City Council and its Committees concerning the case entitled: *James F. Sutter* v. *The Peoples Gas Light & Coke Company*, recently tried in the Municipal Court and now pending on appeal in the Supreme Court of Illinois, and not understand clearly that the *Sutter* case is being used, not merely to delay the enforcement of the rights of the City and gas consumers in the Circuit Court; but for the purpose of injuring, and if possible

destroying, the rights of gas consumers to recover the charges made by the Gas Company from 1911-1916 in excess of the rates fixed by the ordinance of the City Council of July 7, 1911. *The following statement of facts and law is submitted to make the menace of the Sutter case clear to the City Council:*

THE ORDINANCE OF JULY 17, 1911.

The ordinance of 1911 fixed the following rates to be charged for gas in the City of Chicago for five (5) years:

1911 to 1912, 75 cents per thousand cubic feet.

1912 to 1914, 70 cents per thousand cubic feet.

1914 to 1916, 68 cents per thousand cubic feet.

THE CIRCUIT COURT CASE.

After the passage of this ordinance the Gas Company, on July 31, 1911, filed its suit in the Circuit Court to prevent the enforcement of the ordinance and to obtain a decision as to whether the rates were reasonable or not.

On August 2, 1911, Judge Gibbons issued an injunctional order fixing a "temporary" rate of 80 cents for gas and containing the following language:

> "And it is further ordered that an order issue out of and under the seal of this court *directed to the City of Chicago, its officers, agents, servants and employes, and any and every person acting under and by virtue or authority of said ordinance restraining them and each of them from in any way enforcing said ordinance or any of the provisions thereof against the Peoples Gas Light & Coke Company,* and also directed to the Peoples Gas Light & Coke Company, its officers, agents, servants and employes, restraining them and enjoining them and each of them during the said period from charging, accepting or collecting for gas supplies any sum or price in excess of the prices hereinbefore specified.
>
> *"And it is further ordered that each and every consumer of gas paying said rate of 80 cents per thousand cubic feet or said penalty of 10 cents, or any rate in excess of the rates prescribed in said ordinance until final action by the court shall receive a refund of so much of said payment as is in excess of the rates prescribed by said ordinance of July 17, 1911, in the event the said rates so prescribed are finally adjudged just and reasonable."*

No further action was taken in this case (in which the City had not been made a formal defendant) until the undersigned was employed as Special Counsel in the Summer of 1915. After investigating the situation thoroughly Special Counsel made the City a defendant in this case in October, 1915, and filed a Cross-bill in this case in behalf of the City and all other gas consumers *in order that if the Company failed to prove its case the court might order all the excess charges repaid to gas consumers from the books of the Company,* thereby eliminating the necessity of separate suits for each gas consumer and making it possible to obtain refunds for consumers who had not preserved their receipted gas bills.

CITY WINS RIGHT TO INVESTIGATE GAS COMPANY.

After a hard fight on technicalities the Company was ordered March 24, 1916, to give accountants and engineers, employed by the City, access to the Company's plants and books in order to make a complete valuation of the Company's property and a complete accounting of its operating expenses and revenues so that the City might defend itself against the Gas Company's evidence of the valuation and accounting being prepared by the Company's engineers and accountants. Dr. Bemis and his force of engineers and accountants have done this work in a year and a half, at an expense of about one-fourth of the cost of the same work done for the Company upon which the Company's engineers have been working for two and a half years. Being ready for trial, the City, on January 3, 1918, asked the Circuit Court to set the case for trial. On February 11, Judge Pinckney entered an order setting the case for hearing on April 8. *According to the rulings of Judge Pinckney all technical questions had been eliminated and the only issue before the Court was to determine, upon the evidence to be taken, whether the rates of the ordinance of 1911 were reasonable or not.*

After the case had been set for hearing the Company moved to amend its bill in the Circuit Court in order to claim that the Act of 1905, giving the City the power to fix gas rates, was unconstitutional and that, therefore, the ordinance of 1911 was void. Judge Pinckney stated clearly on February 11 and April 2 that the Company, *by its conduct in the Circuit Court case,* had waived its right to question the constitutionality of the Act of 1905.

The Gas Company took a change of venue from Judge Pinckney, April 8, and the case was sent to Judge Torrison and the Company's attorneys argued their right to question the constitutionality of the Act of 1905 before Judge Torrison for several days.

JUDGE TORRISON UPHOLDS THE CITY.

On May 1, 1918, Judge Torrison decided in favor of the City holding that the Company had waived its right and was estopped to question the constitutionality of the Act of 1905. Judge Torrison held:

> "The result of allowing such amendments if the act should be held unconstitutional would be to allow the Gas Company to retain the excess collected by it during the five-year period over and above the rate fixed by ordinance, even though such rate should be held to be reasonable, and the company having had the benefit of the injunction allowing it to collect the eighty-cent rate while it would be relieved from the other part of the injunctional order which provided that the company should refund to the consumers the excess collected above the rate fixed if held to be a reasonable rate. *Not only would this be an injustice to the City and other consumers but it would be a breach of faith on the part of the court and place the court in the attitude of allowing itself to be used for the benefit of one party to the litigation as long as that party felt it had been of use to it by its injunction, and refusing to do justice to the other party to the litigation."*

The result of Judge Torrison's ruling is that the *Company* can now be forced to attempt to prove its case immediately in the Circuit Court and if the Company fails to prove the rates reasonable (as the City's witnesses believe the Company will fail) the Gas Company can be ordered to refund the entire overcharges, estimated at $10,000,000 *from the books of the Company* to

the gas consumers from whom these overcharges have been collected.

THE SUTTER CASE.

On February 26, 1918, a person named James F. Sutter sued in the Municipal Court for $11.53 claiming that he had paid this amount on his gas bills in excess of the rates fixed by the ordinance of 1911. The Company made its sole defense to that suit the claim that the Act of 1905 was unconstitutional and that, therefore, the ordinance was void.

It should be noted that this suit was filed fifteen days *after* Judge Pinckney had ordered (on February 11) the Gas Company to go to trial on April 8.

Special Counsel for the City appeared in the Municipal Court as a "Friend of the Court" and filed an affidavit claiming the suit to be fraudulent, collusive and fictitious and solely in the interest of the Company. He pointed out that the suit could not be brought except with the consent of the Company, because the Company did not enforce the Gibbons' injunction preventing such suits. He pointed out also that the very important issue as to whether the Company had waived its right to question the constitutionality of the Act of 1905 was not presented in the Municipal Court. To meet this attack the attorneys for Sutter and the attorneys for the Gas Company filed in the Municipal Court a mass of documents regarding the Circuit Court case and then claimed, as they have since claimed, that the issue was then presented to the Municipal Court as to whether the Company had waived its right, or was estopped, to question the unconstitutionality of the Act of 1905.

THE REAL "ESTOPPEL QUESTION" IS NOT IN THE SUTTER CASE.

This claim that the "estoppel question" is involved in the Municipal Court and will be decided by the Supreme Court is absolutely false.

Any unbiased lawyer will admit that the question: "Is the Gas Company estopped to claim the unconstitutionality of the Act of 1905 *in the Municipal Court*, in the case brought by Sutter, February 26, 1918?" *is not the same question* as: "Is the Gas Company estopped to question the constitutionality of the Act of 1905 *in the Circuit Court*, in the case brought by the Gas Company in 1911?" A court can only decide *the question before that court* and the Supreme Court, on appeal, can only decide on the question before the Municipal Court. The Supreme Court cannot decide in the *Sutter* case whether the decision in the Circuit Court, in an entirely different case, is correct or not.

Therefore, *the Supreme Court in deciding the Sutter case cannot possibly determine whether Judge Torrison's ruling, in the Circuit Court, is correct* and any lawyer who states to the contrary is either misinformed or wilfully untruthful.

The truth of this is brought out by comparing the language of Judge Doyle, in the Municipal Court and of Judge Torrison, in the Circuit Court. In deciding the Municipal Court case Judge Doyle held:

> "And the court further holds that the defendant herein is not by virtue of any of its acts estopped to raise such questions and is not estopped to assert *in this proceeding* the unconstitutionality of the Act."

Judge Torrison held that if the company was allowed to question the constitutionality of the Act this

> "would allow the complainant company to deny the jurisdiction and authority of the *court which by filing its petition and procuring its injunction it has invoked in its aid; and would allow it to reap the benefit of the injunctional order without assuming any of its burdens and obligations would allow it to seek and receive equity without its doing equity.*"

It may well be that Judge Doyle's decision and Judge Torrison's decision are both good law and that *the Company is not estopped to question the Act of 1905 in the Municipal Court but is estopped in the Circuit Court.* The misstatement has been made constantly that the "estoppel question" was argued in the Municipal Court. It was argued somewhat by the Gas Company's attorneys, but *not* by Sutter's attorneys nor by Special Counsel for the City who stated at the close of his arguments, "I have not claimed estoppel in this case. I claim the case should be dismissed. I never argued estoppel in this case."

SUTTER CASE SHOULD BE DISMISSED.

Special Counsel believes that any unbiased lawyer will understand and approve the position he took. As soon as the record of the Circuit Court case was presented in the Municipal Court Special Counsel for the City took the position that the case in the Municipal Court should be dismissed because the Circuit Court record showed that the *Sutter* case was collusive and *that Sutter had no right of action.*

This was precisely the opinion expressed by Judge Pinckney on April 2, 1918, when he said: "Now then, until there is a final determination in this court of that proceeding, of that suit (the Company's suit against the City), until it is determined whether or not these rates fixed by the ordinance are fair, just and reasonable, or what is fair, just and reasonable, certainly *there is no right of action on the part of any consumer* in my opinion, none whatever. *If it is properly presented to the court in the Municipal Court in all its phases and you go to the Supreme Court on appeal, the Supreme Court will say there is no jurisdiction and it is wiped out, in my opinion.'*

In order to support their claim that Sutter has a right of action in the Municipal Court his attorneys, the Gas Company's attorneys and the Corporation Counsel have taken the position that the injunctional order of Judge Gibbons was not binding upon the gas consumers, that is, that a gas consumer could bring a suit notwithstanding Judge Gibbons' order.

"STABBING GAS CONSUMERS IN THE BACK."

Special Counsel has claimed this opinion "stabs the gas consumers in the back," because the Gas Company will argue that if the gas consumers were not *forced* to pay their overcharges by Judge Gibbons' injunction, they are not protected by the provision of Judge Gibbons' injunction requiring a re-payment of the overcharges; and the Gas Company will also argue that, even if the City wins its case the gas consumers cannot obtain refunds because they have paid the overcharges *voluntarily.*

The opinions of Judge Pinckney and Judge Torrison have supported the argument of Special Counsel that

the Gibbons' order *forced* gas consumers to pay the overcharges by the provision above quoted, that is, by the provision restraining "any and every person acting under and by virtue or authority of said ordinance * * * from in any way enforcing said ordinance or any of the provisions thereof against the Peoples Gas Light & Coke Company."

If the gas consumers are bound by this order then they are also entitled to its benefits, that is to a refund of the overcharges. *Why, therefore, should any attorney representing the City join with the Gas Company's attorneys in arguing that the gas consumers are not bound by the order and, therefore, cannot have the benefit of the refunding provision?* The law on this subject is well stated in the case entitled: *San Francisco Gas & Electric Company* v. *City and County of San Francisco*, 164 Fed. 884, where the court cites four United States Supreme Court decisions and one California Supreme Court decision and holds, page 888:

> "These cases proceed upon the theory that the rights to be protected under the regulating ordinance and which complainant has assailed are public rights and that the only practical way of making the public a party is by suing its representative; that when this is done the individuals composing the public are, equally with the parties named in the bill, bound by every step properly taken in the action, and may, therefore, be included in and restrained by the injunctive orders of the court."

IF SUTTER WINS, OTHER GAS CONSUMERS LOSE.

If Sutter's right to bring a suit in the Municipal Court is sustained on the theory of the Gas Company's attorneys, and of the Corporation Counsel, that gas consumers were not bound by the Gibbons' injunction then the Gas Company will argue that whether the Act of 1905 is constitutional or not, or whether the ordinance rates of 1911 were reasonable or not, gas consumers, having voluntarily paid the eighty-cent rate, can never obtain any refunds from the Gas Company.

THE MENACE OF THE SUTTER CASE.

The only decision helpful to gas consumers in the *Sutter* case will be a dismissal of that case by the Supreme Court because—

(1) If Sutter wins on the theory that the gas consumers are not bound by Judge Gibbons' order the Gas Company will deny to all other gas consumers the right to obtain refunds under Judge Gibbons' order.

(2) Although the Gas Company has waived its rights to raise constitutional questions in the Circuit Court case (where it started suit July 31, 1911, and did not question the constitutionality of the Act of 1905 until February 15, 1918), this question is not properly involved in the *Sutter* case (where the Company questioned the constitutionality of the Act within a week after the suit was started). The Gas Company commenced the case in the Circuit Court and is estopped *by its conduct in that case.* The Gas Company's rights *as a defendant* in the *Sutter* case stand on an entirely different basis.

(3) The City's power to regulate gas rates is not properly presented in the *Sutter* case because—

a. The powers of the City previous to the Act of 1905, which help to sustain that Act, are not properly set forth nor have they been argued.

b. Sutter's attorneys did not present or argue some of the strongest points in favor of the constitutionality of the Act of 1905, and,

c. The City's attorneys cannot argue in the *Sutter* case the constitutionality of the Act of 1905 without risk of waiving the City's rights in the Circuit Court case.

CONCLUSION.

Therefore, it is practically impossible for any decision, helpful to the City or gas consumers, to come from the Supreme Court in the Sutter case. But, on the other hand, any decision of the Supreme Court, except a dismissal of the Sutter case, is almost certain to be harmful (1) to the rights of the City to sustain its power to regulate gas rates and (2) to the rights of gas consumers to obtain refunds of overcharges.

If the City Council wishes to prevent the destruction of valuable rights of the City and gas consumers through an unfortunate opinion by the Supreme Court, in the fictitious and collusive *Sutter* case, the City Council should see to it that the legal representative of the City opposes vigorously any action by the Supreme Court except the dismissal of that case.

Meanwhile, if rights of gas consumers are not to be frittered away and the City funds wasted by further delays and conflicts of authority between City officials, the City Council should insist that a trial of the case in the Circuit Court begin at the earliest convenience of the Court and that the trial be carried on with the greatest speed and smallest expense consistent with adequate support of the interests of the City and gas consumers.

The question of the constitutionality of the Act of 1905 as a part of the larger question of the present power of the City of Chicago to regulate gas rates, will be determined finally as a result of the present hearings before the State Public Utilities Commission, in which proceeding the authority of the City is adequately set forth, so that upon proper presentation to the Supreme Court the rights and powers of the City can receive most favorable consideration.

THE LATEST GAS ATTACK.

The latest strategy of the Gas Company and its allies is to becloud the issue by arguing that the rebate case may as well be chloroformed by the Sutter case, or in some other way, because they suggest that Company is practically insolvent. This argument may be answered as follows:

> 1). Mr. Insull testified, May 23, before the Public Utilities Commission, that the Company's property has been valued at $100,000,000. Its bonded indebtedness is about $46,500,000. Even if Mr. Insull's valuation is grossly excessive, it is clear that the Company claims to have ample property to satisfy a judgment for $10,000,000.
>
> 2). The Gas Company is asking for a 30 per cent increase in rates. Suppose the company obtains lawful authority to increase rates heavily and, under improving conditions, earns an excessive profit on the true value of its property, would not

a judgment for rebates transfer those excess profits from stockholders to gas consumers?

3). Most important of all—the city is now prepared to obtain a *judicial* decision (1) as to the true value of the Company's property, (2) as to the legality of its "operating expenses," (3) as to the actual investment upon which it is entitled to earn interest charges in the gas rates. (A utility commission valuation can not be as satisfactory to the city as a court valuation. The Public Utilities Commission is not a *judicial body.*) Every $10,000,000 of excess valuation upon which the Company is permitted to earn interest costs the gas consumers about 3 cents per thousand cubic feet, thus taxing the people of Chicago about $600,000 per year. Is it any wonder that the gas company would like to have the rebate case killed by a decision in the Sutter case and to prevent the Circuit Court from determining the true value of the company's property? Naturally the gas company and its allies cry out their pain at the thought that the City may spend another $100,000 and "waste" six months or even a year in proving the amount of "wind and water" in the company's securities. The City in the Circuit Court case may save the people of Chicago millions of dollars in *future* gas rates.

It is not surprising that the gas company seeks any excuse to delay and any means to prevent a trial in the Circuit Court. But it is surprising that any public official should aid the company in its effort to avoid *facing the facts.*

Respectfully submitted,

(Signed) DONALD R. RICHBERG,

Special Counsel for City of Chicago.

NOTE.

Judge Torrison ruled today, May 25, that the City Council has the power to control the conduct of city litigation; that the Corporation Counsel is subject to the directions of the City Council; that Special Counsel is now in charge of the gas litigation, under the orders of the City Council; and that in case of conflict with the Corporation Counsel the authority of Special Counsel is controlling.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the employment of Donald R. Richberg by the action of the City Council and its committees to serve as Special Counsel for the City of Chicago in charge of the interests of the city in various legal proceedings between the City of Chicago and the Peoples Gas Light & Coke Co., is hereby approved, ratified, confirmed and continued until said employment shall be terminated, by further action of the City Council or by resignation of the said Special Counsel; and, subject to the further directions of the City Council acting directly or through an appropriate committee, said Donald R. Richberg is hereby given sole and complete control of the conduct and prosecution of all the proceedings in behalf of the city with regard to past, present or future rates, standards or service for the supply of gas in the City of Chicago, in which he has been heretofore engaged and employed and in which he is hereby and may be hereafter employed.

SECTION 2. That Donald R. Richberg is hereby employed to represent the City of Chicago as the attorney in charge of the city's interests in all legal proceedings which are now pending in the Circuit Court of Cook County and before the State Public Utilities Commission and elsewhere or which may be instituted during the term of his employment between the City of Chicago and the Peoples Gas Light & Coke Co. or which involve or may involve or affect the rights and obligations of the City of Chicago or of the Peoples Gas Light & Coke Co. with regard to past, present or future rates, standards or service for the supply of gas in the City of Chicago.

SECTION 3. That the Corporation Counsel and each and every assistant corporation counsel are hereby directed to refrain from any interference with or from taking any action in the proceedings, or in regard to the matters, heretofore, hereby or hereafter committed to the charge of said Special Counsel.

SECTION 4. That compensation for the services of said special counsel employed as hereinbefore set forth and provided, or for the services of any associate counsel whose employment has been or may be duly authorized, shall be paid in accordance with the contract entered into between said attorney and the Special Gas Rate Litigation Committee of the City Council on July 23, 1915, which contract is hereby ratified and approved, and said compensation and all expenses of carrying on the work placed in charge of said attorney shall be paid out of the funds heretofore or hereafter appropriated by the City Council for carrying on this work, upon the approval of the chairman of the appropriate committee of the City Council to whom the direction of such work has been or may be committed by this Council, in accordance with the rules, orders, regulations and ordinances of the City Council.

SECTION 5. That the said attorney, Donald R. Richberg, employed as heretofore provided, shall be known as and is hereby designated, "Special Counsel for the City of Chicago in Gas Matters" and that he shall be entitled to recognition in the state and federal courts and before the State Public Utilities Commission of Illinois as the official legal representative of the City of Chicago in sole and complete control of the conduct and prosecution of the proceedings heretofore, hereby or hereafter committed to his charge, subject, however, at all times, to the directions of the City Council of the City of Chicago.

SECTION 6. That this ordinance shall operate as a repeal, amendment or modification of any ordinance or of any provisions of any ordinance of the City of Chicago in conflict with or inconsistent with the provisions hereof.

SECTION 7. This ordinance shall take effect and be in force from and after its passage.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the South Chicago & Southern Railroad Company, a corporation, its successors and assigns, to construct, maintain and operate a double track railroad across Brandon avenue from points on the west line thereof approximately two hundred seventy (270) feet and two hundred five (205) feet north of the north line of East 117th street respectively to points on the east line thereof approximately forty (40) feet and five (5) feet north of the north line of East 117th street respectively; thence across private property and across East 117th street from points on the north line thereof approximately five (5) feet and twenty (20) feet east of the east line of Brandon avenue respectively to points on the south line thereof approximately twenty (20) feet and thirty-five (35) feet east of the east line of Brandon avenue respectively; thence across private property and across the first north-and-south public alley east of Brandon avenue from points on the west line thereof approximately two hundred eighty-five (285) feet and three hundred thirty (330) feet north of the north line of East 118th street respectively to points on the east line thereof approximately two hundred forty-five (245) feet and two hundred ninety (290) feet north of the north line of East 118th street respectively; thence across private property and across East 118th street from points on the north line thereof approximately fifty (50) feet and thirty-five (35) feet west of the west line of Burley avenue respectively to points on the south line thereof approximately seventy (70) feet and fifty-five (55) feet west of the west line of Burley avenue respectively; thence across private property and across East 122nd street at points approximately thirty (30) feet and seventeen (17) feet east of the east line of Brandon avenue respectively, as shown in red upon blue print hereto attached which for greater certainty is hereby made a part of this ordinance.

The authority herein granted is for the purpose of re-locating certain railroad tracks now maintained by the grantee on an existing right of way lying immediately west of and parallel to the west line of Brandon avenue and the west line of Brandon avenue produced south, and by the acceptance of this ordinance, the grantee herein agrees to remove within ninety (90) days after the date of the passage thereof the existing tracks across East 117th street, East 118th street and East 122nd street and waives any rights which it, the said grantee, may have to operate said existing tracks across the streets last mentioned by virtue of any ordinance heretofore passed by the Trustees of the Village of Hyde Park or the City Council of the City of Chicago for the benefit of said grantee, or any other railroad company.

SECTION 2. In the event of the termination of the authority or privileges hereby granted for non-payment of the compensation herein provided, the grantee by the filing of the written acceptance hereinafter mentioned shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal or revocation.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at its own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the tracks herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the tracks herein referred to. Said tracks, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said tracks shall be of the same character as that used in the construction of the main tracks with which said tracks connect.

SECTION 3. During the life of this ordinance the grantee herein shall keep such portion of said streets and alley as are occupied by said tracks in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. In the event of the termination of the rights and privileges herein granted, the said grantee shall forthwith restore such portion of said streets and alley occupied by said tracks to a condition safe for public travel, similar to the remaining portion of said streets and alley in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to so restore said streets and alley, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the tracks herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under

the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5 The said grantee agrees to pay to the City of Chicago as compensation for said tracks, the sum of nine hundred seventy-seven and 50-100 ($977.50) dollars per annum, payable annually in advance, the first payment to be made as of the date of February 20, 1918, and each succeeding payment annually thereafter, provided, that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council, and thereupon the same shall become null and void; provided further, however, that the City Council may in its discretion at the end of any twenty-year period increase or decrease the amount herein provided to be paid as compensation by the passage of an amendatory ordinance fixing such amount.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of ten thousand ($10,000.00) dollars, with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said city in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said city from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within sixty (60) days after the passage of this ordinance.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to Jeanette M. Stevens and Jessie C. Stevens, co-partners, doing business as Alex. B. Stevens Co., their heirs, executors and assigns, to maintain and operate as now constructed, a single railroad switch track across West 104th street from a point on the south line thereof approximately thirty-eight (38) feet west of the west line of Throop street to a point on the north line thereof, approximately fifty (50) feet west of the west line of Throop street, as shown in red upon blue print hereto attached which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after March 1, 1918, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understod as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantees hereby agree to elevate at their own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch track herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch track herein referred to. Said switch track, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch track shall be of the same character as that used in the construction of the main tracks with which said track connects.

SECTION 3. During the life of this ordinance the grantees herein shall keep such portion of said street as is occupied by said switch track in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At

the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said street occupied by said switch track to a condition safe for public travel, similar to the remaining portion of said street in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantees shall fail to restore said street at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantees.

SECTION 4. The operation and maintenance of the switch track herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantees agree to pay to the City of Chicago as compensation for said switch track, the sum of one hundred ($100.00) dollars per annum, payable annually in advance, the first payment to be made as of the date of March 1, 1918, and each succeeding payment annually thereafter, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantees shall execute a bond to the City of Chicago in the penal sum of ten thousand ($10,000.00) dollars, with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said city in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said city from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantees herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within sixty (60) days after the passage of this ordinance.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That, for the purpose of connecting on each floor (except as hereinafter specified) buildings now standing or hereafter to be erected upon Lot nine (9) in B. S. Morris' Subdivision of Original Lots two (2) and three (3) and the north one-quarter (N. ¼) of Lot six (6), also upon Lot six (6) except therefrom the north one-quarter (N. ¼) of said Lot six (6), and upon Lot one (1) in the subdivision of Original Lots seven (7) and ten (10), in Block two (2), Fractional Section fifteen (15) Addition to Chicago, Township thirty-nine (39) North, Range fourteen (14), East of the Third Principal Meridian, with the corresponding floors of the buildings now standing or hereafter to be erected upon Lot five (5) and the north forty (40) feet of Lot eight (8) in said Block two (2), permission and authority be and the same are hereby given and granted to Samuel C. Pirie, John T. Pirie, Gordon L. Pirie, John W. Scott, Robert L. Scott, Frederick H. Scott Andrew McLeish, Bruce McLeish, Samuel Carson and John H. Woods, co-partners, doing business under the firm name and style of Carson, Pirie, Scott & Company, their heirs, executors, administrators and assigns (hereafter designated as the grantees), to construct, maintain and use buildings or structures over that portion of the north-and-south public alley lying between South State street and South Wabash avenue, between said respective lots, and to maintain such portions of said buildings or structures as are now in existence over said alley, between said respective lots.

Permission and authority are also given and granted to said grantees to excavate, use and occupy all of the space under the aforementioned alley and that portion of the intersection of said alley with East Madison street from the south curb line of said Madison street to a point two hundred eighty (280) feet south of the south line of Madison street; provided, however, that that portion of the space under said alley north of a line one hundred sixty (160) feet south of the south line of Madison street shall not be excavated for a depth exceeding fifteen (15) feet.

SECTION 2. The permission and authority herein granted are upon the express condition that nothing shall be so constructed over any portion of said alley above described as to interfere with public travel on the surface thereof, and the lowest portion of said construction above said alley shall not be less than seventeen (17) feet above the level thereof.

The permission herein granted is upon the further express condition that the grantees shall upon thirty (30) days' notice from the Commissioner of Public Works, whenever in the opinion of said Commissioner of Public Works, it shall be necessary or advisable to have the space under said alley and under that portion of the intersection of said alley with East Madison street, or any portion thereof, vacated, or any structures, coal hole, trap doors or other openings therein removed, for the use of said space, or any portion thereof, for public purposes, or because of the construction of a subway for transportation purposes under or near said alley, or for the purpose of moving, laying or maintaining street car tracks, sewers, drains, conduits, pipes, tubes or wires of any kind whatsoever, because of the construction of such a subway, vacate the said space under said alley, or such portion thereof as the said Commissioner of Public Works shall designate.

The work under the authority and permission herein granted shall be done in accordance with plans which have heretofore or may hereafter be signed by the Commissioner of Public Works, the Building Commissioner and the Fire Marshal of the City of Chicago, and the construction herein authorized and the maintenance thereof shall be under the supervision and to the satisfaction of said Commissioner of Public Works, Building Commissioner and Fire Marshal.

SECTION 3. The permission and authority hereby granted shall cease and determine July 29, 1933; provided, however, that the authority herein granted for the construction of new structures over said alley shall become null and void and of no effect in the event that said grantees shall have failed to complete such structures prior to January 1, 1920.

SECTION 4. In consideration of the privileges herein granted and as compensation therefor the said grantees shall pay to the City of Chicago the sum of twenty-three hundred twenty-five and forty-two one hundredths ($2,325.42) dollars per annum in semi-annual installments, the first payment to be made as of the date of the passage hereof and subsequent payments semi-annually thereafter, and upon the completion of any part of the structure herein authorized above the surface of said alley other than the structure or building in existence at the date of the passage hereof, the said grantees shall pay to the City of Chicago the further sum of three thousand, eight hundred thirty-one and sixty-four one-hundredths ($3,831.64) dollars per annum in semi-annual installments, the first payment to be made as of the date of the completion of any part of that portion of the structure herein authorized above the surface of said alley and subsequent payments to be made on the same dates as the payments hereinbefore provided for, provided, however, that if the grantees shall at any time hereafter vacate that portion of the space under the portion of said alley lying south of a line one hundred

sixty (160) feet south of the south line of Madison street, after having been required so to do pursuant to Section two (2) hereof, then the total amount of the annual compensation herein provided for shall thereafter be reduced by deducting therefrom the sum of six hundred seven and eighty-five one-hundredths ($607.85) dollars, and if only a portion of such space shall be so vacated, then the amount deducted from the annual compensation shall bear the same proportion to the sum of six hundred seven and eighty-five one-hundredths ($607.85) dollars as the amount of space so vacated shall bear to the entire amount of space theretofore used by virtue hereof; and provided further that if the grantees shall at any time hereafter vacate the space under the surface of said alley and that portion of the intersection of said alley with East Madison street north of a line one hundred sixty (160) feet south of the south line of Madison street, after having been required so to do pursuant to Section two (2) hereof, then the total amount of the annual compensation hereinbefore provided for shall be reduced by deducting therefrom the sum of nine hundred ninety and thirty-four one-hundredths ($990.34) dollars, and if only a portion of such space shall be so vacated, then the amount deducted from the annual compensation shall bear the same proportion to the sum of nine hundred ninety and thirty-four one-hundredths ($990.34) dollars as the amount of space so vacated shall bear to the entire amount of space theretofore used by virtue hereof.

It is hereby made an express provision of this ordinance that the privileges herein granted shall cease and determine and this ordinance shall beccome null and void if the said grantees shall fail to promptly notify the Commissioner of Public Works of the City of Chicago of the completion of any part of the construction over said alley herein authorized.

SECTION 5. At the termination of the privileges herein granted, said grantees shall clear said alley of all construction installed under this ordinance above and below the surface of said alley (including the filling up of the space beneath said alley), and shall place the surface of the alley in condition for use by the public at their expense, without cost of any kind whatsoever to the City of Chicago, and in the event of the failure, neglect or refusal on the part of said grantees to comply with the provisions of this section of the ordinance, the City of Chicago may proceed to remove same and fill said space and charge the expense thereof to said grantees.

SECTION 6. Said grantees shall execute to the City of Chicago a good and sufficient bond in the penal sum of twenty-five thousand ($25,000.00) dollars, with sureties to be approved by the Mayor, conditioned to indemnify, save and keep harmless the City of Chicago from any and all liability, cost, damage or expense of any kind whatsoever which may be suffered by it, said City of Chicago, or which may accrue against, be charged to or recovered from said city from or by reason of the passage of this ordinance, or from or by reason of any act or thing done under or by virtue of the permission herein granted, and conditioned further to observe and perform all and singular the conditions and provisions of this ordinance. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance, and if at any time during the life of this ordinance said bond shall not be in full force, then the privileges herein granted shall cease, unless said grantees shall, within ten (10) days after written notice from said city, furnish a new and substitute bond with the same conditions, for the same amount and with good sureties.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided the said grantees shall file their written acceptance of this ordinance, together with the bond hereinbefore provided for, with the City Clerk within sixty (60) days after the passage hereof.

Placed on file.

Veto.

Donald R. Richberg: in Matter of Employment as Special Counsel in Gas Litigation.

The Mayor submitted the following veto message:

OFFICE OF THE MAYOR,
CHICAGO, June 3, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I return herewith, without my approval, an ordinance passed by your Honorable Body at its meeting held on May 27, 1918, and appearing at page 291 of the Journal of the Proceedings of the City Council of that date; which ordinance purports to employ Donald R. Richberg as Special Counsel to be the sole representative of the City in all legal proceedings in court and before the State Public Utilities Commission, which may involve or affect the rights and obligations of the City of Chicago or of the Peoples Gas Light & Coke Company with regard to past, present or future rates, standards or service for the supply of gas in the City of Chicago, and purports to exclude the Corporation Counsel and his Assistants from taking any action in the proceedings or in regard to the matters thus attempted to be committed to the charge of said Special Counsel.

I refer to my message to your Honorable Body appearing at page 230 of the Journal of the Proceedings of the City Council of May 27, 1918, which related to an order passed by your Honorable Body on May 20, 1918, and appearing at pages 222-223 of the Journal of said Proceedings, as setting forth my position with regard to the ordinance now under consideration and my reasons for vetoing the same. It is unnecessary to restate such position and reasons in this message, except to say, that under the decision of Judge Torrison therein referred to, you have undertaken to deprive me and the Corporation Counsel of all control over the controversies relating to gas rates, and unless and until Judge Torrison's decision is overruled by some higher authority, the responsibility is upon your Honorable Body to get results for the people at an early date and at a reasonable expense.

It seems to me that it is important constantly to bear in mind that this litigation is over seven years old; that on July 23, 1918, Mr. Richberg will have been in charge of the same for three years; that more than $300,000 has been spent since Mr. Richberg took charge of the litigation; that over $11,000 a month is being spent; that only some technical progress has been made; that the cases in the Circuit Court are not yet ready for trial and that no substantial results have been obtained.

Hence, if you adhere to the position taken by you in the ordinance which I herewith return, without my approval, it is to be hoped that you will see to it that in the future the interests of the people will be attended to more vigorously and with greater regard to economy than in the past.

Respectfully submitted,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Nance moved to reconsider the vote by which said ordinance, vetoed by His Honor the Mayor, was passed.

The motion prevailed.

Ald. Nance moved to pass said ordinance, the veto of the Mayor to the contrary notwithstanding.

The motion prevailed, by yeas and nays as follows:

Yeas—Iliff, Schwartz, Hickey, Richert, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Krumdick, Horne, Maypole, Smith, Olsen, Kunz, Piotrowski, Walkowiak, Touhy, Kavanagh, Bowler, R. H. McCormick, Walker, Ellison, Bauler, Wallace, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thomas J. Lynch—49.

Nays—Kenna, Coughlin, L. B. Anderson, Jackson, McDonough, Mulcahy, Cullerton, Ahern, Adamkiewicz, Powers, Fick, Franz, Byrne, Wm. J. Lynch—14.

Veto.

Charles J. Hruby: Installation of House Drains.

The Mayor submitted the following veto message:

OFFICE OF THE MAYOR,
CHICAGO, June 3, 1918.

To the Honorable, the City Council:

GENTLEMEN—I return herewith, without my approval, an order passed by your Honorable Body at its meeting of May 20, 1918, directing the Commissioner of Public Works to issue a permit to Charles J. Hruby, owner of Lots one (1) to thirteen (13), both inclusive, in Block forty-nine (49), in Norwood Park Subdivision, located in Albion avenue, between Oak Park and North

Normandy avenues, to connect house drains in said premises to main sewer pipes in said street, for the reasons set forth in the attached communication from the Commissioner of Public Works.

Yours respectfully,

(Signed) WM. HALE THOMPSON,
Mayor.

The following communication was submitted with said veto message:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF SEWERS,
CHICAGO, June 3, 1918.

Hon. Wm. Hale Thompson, Mayor, City of Chicago:

DEAR SIR—On May 20, 1918, the following order was passed and is printed on page 211 of the Council Proceedings:

Ordered, That the Commissioner of Public Works be and he is hereby directed to issue a permit to Charles J. Hruby, owner of Lots one (1) to thirteen (13), both inclusive, in Block forty-nine (49), in Norwood Park Subdivision, located in Albion avenue, between Oak Park and North Normandy avenues, to connect house drains in said premises to main sewer pipes in said street.

The property described in this order is not within the limits of the City of Chicago, it being part of the Village of Niles. For this reason and because the order does not provide that plans be submitted to the Department of Public Works showing the sewer work to be done, and further, that no compensation to the City of Chicago is provided for to cover any future maintenance charges, I respectfully request that this order be vetoed, with a recommendation that the order be referred to the appropriate committee for investigation and recommendation.

Respectfully,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

Recommended by:

GEO. E. MCGRATH,
Superintendent, Bureau of Sewers.

Ald. Richert moved to reconsider the vote by which said order, vetoed by His Honor the Mayor, was passed.

The motion prevailed.

Ald. Richert moved to refer said order to the Committee on Finance.

The motion prevailed.

Referred to the Committee on Streets and Alleys.

Vice Conditions in the Second Ward.

The Clerk presented the following communication, which was referred to the Committee on Home Defense:

THE STATE COUNCIL OF DEFENSE,
CHICAGO, June 3, 1918.

The Honorable, the Mayor and City Council, City Hall, Chicago, Illinois:

DEAR SIRS—Referring to my recent interview with the Home Defense Committee of the City Council, we are informed that the vice conditions in the Second Ward are deplorable. There are a great many dances running where it is claimed liquor is not sold, but where, as a matter of fact, there is a great deal of drunkenness and open solicitation by women. Most of these places, we are informed are most active between 1:00 o'clock A. M. and 5:00 o'clock A. M. It would seem to me very desirable that a special investigation of these conditions should be made and the proper department of the City requested to deal with them.

Our concern about the matter is owing to the reports we have received as to these places being visited by men of the army and navy and we are told that a number of these men become more or less intoxicated in these dives.

Our information leads us to believe that conditions on the South Side are infinitely worse than on the West and North Sides.

Yours truly,

(Signed SAMUEL INSULL,
Chairman.

Police Measures against Unemployed Persons.

The Clerk presented a communication from the Illinois Federation of Labor and the Chicago Federation of Labor, protesting against certain measures now being taken to compel unemployed persons to seek employment, and urging the City Council to adopt formally the national war labor program as outlined in a proclamation of President Wilson under date of April 8, 1918, which was

Referred to the Committee on Home Defense.

Motion-picture Censorship and Suspension of Major Funkhouser.

The Clerk presented a communication, submitted by The Woman's Committee, Council of National Defense, protesting against a proposed change in the method of censorship of motion-picture films, and also protesting against the suspension of Major Funkhouser, which was

Referred to the Committee on Home Defense.

National Association of Comptrollers and Auditors: in Matter of Representation of City of Chicago at Annual Convention.

The Clerk presented a communication, submitted by the National Association of Comptrollers and Auditors, requesting representation from the City of Chicago at the annual convention of said association, which was

Referred to the Committee on Finance.

Alley in Block Bounded by Ferdinand St., Leamington Av., Le Claire Av. and W. Ohio St.: Petition for Paving.

The Clerk presented a petition for the paving of the alley in the block bounded by Ferdinand street, Leamington avenue, Le Claire avenue and West Ohio street, which was

Referred to the Board of Local Improvements.

CITY COMPTROLLER.

City Depositaries: Minimum and Average Daily Balances (for May, 1918).

The Clerk presented the following communication

submitted by the City Comptroller, which was, together with the statement transmitted therewith, ordered placed on file:

DEPARTMENT OF FINANCE,
CHICAGO, June 3, 1918.

To the Honorable, the Mayor and Aldermen, in City Council Assembled:

GENTLEMEN—In accordance with the order of the City Council passed February 3, 1914, we beg to submit herewith City Comptroller's bank statement showing the minimum and average daily balances in each of the City Depositaries for the month of May, 1918.

Respectfully,

(Signed) EUGENE R. PIKE,
Comptroller.

DEPARTMENT OF POLICE.

"Dry" Cabarets: in Matter of Regulation by the Department of Police.

The Clerk presented the following communication submitted by the Acting General Superintendent of Police, which was ordered published and referred to the Committee on Home Defense:

OFFICE OF THE GENERAL SUPERINTENDENT OF POLICE,
CHICAGO, June 1, 1918.

To His Honor the Mayor and the Members of the City Council:

GENTLEMEN—Since the passage by your Honorable Body on March 26, 1918, of an ordinance prohibiting so-called cabarets in connection with dram shops, a number of the proprietors of dramshops with which cabarets were formerly connected have constructed partitions, some made of glass, others of lattice work, etc., in which separated portions they do not sell intoxicating liquors but conduct dancing and other forms of entertainment; while in other places amusements are conducted in an adjoining building with an entrance from the cafe portion to the place where the dancing and other forms of entertainment is held. The commanding officers of the various police districts submitted reports to me, describing in detail the places and the manner in which these entertainments were held. I transmitted each one of these reports to the Corporation Counsel, with the request that I be advised whether or not they were in violation of the ordinance passed by your Honorable Body and referred to above. I am this day in receipt of the following opinion from the Corporation Counsel in the matter, in which he states that because of the ambiguity of Section 1 of the ordinance in question it is impossible for him to determine whether or not your Honorable Body intended to prohibit amusements conducted by persons licensed to conduct dramshops on premises covered by their dramshop license only, or whether you intended to prohibit such persons from giving entertainments at places not covered by the dramshop license and where intoxicating liquor is not sold, served or consumed:

"We beg to acknowledge receipt of your several communications of recent date requesting us to advise you whether or not the entertainment given by the persons referred to in your communications are in violation of the ordinance passed by the City Council on March 26, 1918, pages 2510 and 2511, Council Journal of said date.

"In reply, we beg to advise you that we have given the matter most careful consideration and have carefully read the cabaret ordinance recently passed by the City Council of the City of Chicago. So much of Section 1 of said ordinance as it is necessary or material to consider in determining upon an answer to your communication is as follows:

"'No person, firm or corporation licensed under Sections 1526 to 1545, inclusive, of The Chicago Code of 1911 or such sections as amended, to conduct a saloon or dramshop, shall at such saloon or dramshop, or in connection with the offering, serving, sale, consumption or giving away of any intoxicating, malt, spirituous or vinous liquors at such saloon or dramshop, either as owner, lessee, manager, officer or agent, give, conduct, produce, present, offer, permit, suffer or allow any exhibition, show amusement, cabaret, entertainment, act of entertainment, performance whatsoever, whether musical or otherwise, or any dance, or skating, either of patrons or other persons; provided, however, that in any such saloon or dramshop or place conducted therewith, and licensed under and by virtue of said section or said sections as amended, musical selections for the entertainment of the patrons thereof may be played by a musician or musicians on some musical instrument or instruments, upon the person, firm or corporation conducting such place securing a separate permit therefor from the City of Chicago.'

"The provisions of Section 1 of said ordinance above quoted are not free from ambiguity, and the intent and meaning of the same is somewhat doubtful. From the language of said ordinance it is impossible for us to determine whether or not the City Council intended to prohibit amusements conducted by persons licensed to conduct dramshops on premises covered by their dramshop license only, or whether they intended to prohibit such persons from giving entertainments at places not covered by the dramshop license and where intoxicating liquor is not sold, served or consumed. We have tried to ascertain from the language used the intention of the City Council, but we are unable to do so, and the ordinance now in force is bound to lead to a multiplicity of suits in the courts for the purpose of ascertaining and determining the exact meaning of the ordinance, and it is impossible for us to determine in advance what the courts will decide when the question of construing the so-called cabaret ordinance is presented.

"In our opinion, this ordinance should be amended by the City Council so as to remove the ambiguity as to the place where the entertainment may take place; that is to say, so as to indicate clearly whether the cabaret is prohibited only in the place covered by the dramshop license or is also prohibited in places not covered by the dramshop license but connected therewith in actual operation."

You will, of course, appreciate that if the Corporation Counsel cannot determine the meaning of the ordinance, it is impossible for the Police Department to do so, and I am referring the matter to your Honorable

Body with the request that you advise me what disposition you wish to make of the question.

Respectfully,

(Signed) JOHN H. ALCOCK,
Acting General Superintendent of Police.

Habitual Criminals: Arrests and Prosecutions.

SECTION 2. That this ordinance shall be in force from and after its passage.

B. H. Hellen: Termination of Liability on Bond.

The Clerk presented the following communication submitted by the Commissioner of Public Works:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, May 27, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—I transmit herewith an ordinance directing the City Clerk to cancel a bond filed by B. H. Hellen in connection with a canopy at 1330-34 Morse avenue. Mr. Hellen has sold the property at that location to Abner H. Stone. Mr. Stone filed a new bond on May 6, 1918, a report of the same having been made to the City Council by the City Clerk on May 13, 1918, page 98 Council Proceedings.

Yours very truly,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

(Signed) H. V. MCGURREN,
Superintendent of Compensation.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Kennedy moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. H. McCormick, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch —68.

Nays—None.

The following is said ordinance as passed:

WHEREAS, The City Council of the City of Chicago did on the 6th day of February, A. D. 1913, pass an ordinance granting permission to Anton Wille, his heirs, executors and assigns, to construct and maintain a canopy over the sidewalk in front of the premises known as 1330-34 Morse avenue, which said ordinance is printed upon pages 3677-78 of the Journal of the Proceedings of said date; and

WHEREAS, The said Anton Wille did on the 20th day of December, A. D. 1917, assign all his right, title and interest in and to said ordinance and canopy to B. H. Hellen; and

WHEREAS, The said B. H. Hellen did on the 6th day of May, A. D. 1918, assign all his right, title and interest in and to the said ordinance and canopy to Abner H. Stone; and

WHEREAS, The said Abner H. Stone did on the 6th day of May, A. D. 1918, file his bond in the penal sum of ten thousand dollars ($10,000.00) with Louis Bomash and Thomas Joyce as sureties thereon with the City Clerk of the City of Chicago, together with a copy of said last-mentioned assignment; now, therefore,

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That all liability on the ten thousand dollar ($10,000.00) bond filed with the City Clerk of the City of Chicago on the 12th day of January, A. D. 1918, by B. H. Hellen, with the Fidelity and Deposit Company of Maryland as surety thereon, in accordance with the provisions of an ordinance passed by the City Council of the City of Chicago on February 6, 1913, pages 3677-78 of the Journal of the Proceedings of that date, granting permission to Anton Wille, his heirs, executors and assigns, to construct and maintain a canopy over the sidewalk in front of the premises known as 1330-34 Morse avenue, which said ordinance was assigned to the said B. H. Hellen on the 20th day of December, A. D. 1917, be and the same is hereby canceled from and after May 6, 1918, except for such acts or causes of action as may have accrued prior thereto.

SECTION 2. This ordinance shall take effect and be in force from and after its passage.

MUNICIPAL TUBERCULOSIS SANITARIUM.

Local Improvements by Special Assessments: Discontinuance during Duration of the War.

The Clerk presented the following communications, which were ordered published and referred to the Committee on Home Defense:

BOARD OF LOCAL IMPROVEMENTS,
CHICAGO, May 29, 1918.

Hon. Wm. Hale Thompson, Mayor, and Members of the City Council:

GENTLEMEN—At the meeting of the Board of Local Improvements on May 29, the following resolution was adopted:

WHEREAS, It is necessary that the people of the United States shall conserve all available moneys to buy Liberty Bonds and Stamps for use of the Government in the successful conduct of the war; and

WHEREAS, There are other necessary demands upon the public incident to the war; now, therefore, be it

Resolved, That for the duration of the war the Board of Local Improvements will not hereafter order local improvements by special assessment, unless the same are desired by the property-owners, or are necessary for military purposes, or public health and safety.

Yours very truly,

(Signed) M. J. FAHERTY,
President.

(Signed) EDWARD J. GLACKIN,
Secretary.

THE STATE COUNCIL OF DEFENSE,
CHICAGO, June 3, 1918.

The Honorable, the Mayor and City Council, City Hall, Chicago, Illinois:

DEAR SIRS—From the information we have received we believe that a strong effort should be made to curtail the expenditure of money on public improvements. The levying of special assessments for this work results in great hardship on a great many people of small means and on men drafted into the service of the army or who have volunteered for work in the navy.

It should also be borne in mind that these improvements cannot go on without the employment of a great deal of railroad equipment that could be used in moving coal. The shortage in open top equipment is resulting in far less coal being proposed than is necessary and in view of the experience of last winter, the Federal authorities are confident that there will be a great shortage of coal next winter, unless every effort is made to conserve all railroad equipment possible, for the movement of fuel.

In view of the hardship imposed by special assessments and the importance of releasing as much railroad equipment as possible, we think your Committee on Home Defense should take up with the city department having improvement work in charge, the question of suspending all local improvements that are not absolutely necessary. If you desire, we shall be very glad to confer with the Home Defense Committee on this subject and would suggest that Mr. Michael J. Faherty, president of the Board of Local Improvements, be invited to attend a conference with the Home Defense Committee and ourselves at the State Council of Defense office.

Yours truly,

(Signed) SAMUEL INSULL,
Chairman.

P. S.—Since dictating the above letter, I have received a communication signed by the president and secretary of the Board of Local Improvements, dated May 28th, setting forth a resolution adopted by the Board to the effect "that for the duration of the war the Board of Local Improvements will not hereafter order local improvements by special assessment unless the same are desired by the property-owners, or are necessary for military purposes or public health and safety."

I do not think that this resolution covers the whole situation. There are a number of local improvements for which special assessments have been ordered, that I believe could with advantage be suspended. In any event, I think it would be desirable to have the conference suggested in the foregoing letter.

MISCELLANEOUS.

Milk Depots Selling Milk at 10 cts. Per Quart.

By unanimous consent, Ald. Nance presented the following memorandum, which was ordered published and referred to the Committee on Public Health:

A list of milk depots, the owners or person in charge of which have stated to inspectors of the Department of Health that they are now selling milk at ten cents a quart, on demand, if ten cents and an empty quart bottle are presented, the milk to be carried away by the purchaser:

The following is said ordinance as passed:

WHEREAS, On the 28th day of December, 1917, a certain ordinance was passed by this Council which authorized and directed the City Comptroller of the City of Chicago for and on behalf of the City of Chicago to enter into an agreement for a lease of a strip of ground, 9 feet 3 inches wide and 18 feet 4 inches long, lying immediately north of the north line of West Monroe street on the east bank of the Chicago River, with Charles B. Osborne, as trustee under the last will and testament of Lucius G. Fisher, deceased, said agreement to be approved by the Mayor, and setting forth a form of agreement and providing that said agreement should be in substantially the form set forth in said ordinance, which ordinance appears in the Journal of the Council Proceedings of said date at pages 1780 and 1781; and

WHEREAS, Said agreement as finally drawn and approved by the Corporation Counsel and counsel for the said Charles B. Osborne, trustee, and as signed by the parties to said agreement, while changed in some respects, is still substantially in the form provided in said ordinance of December 28, 1917, and it is deemed to be for the best interests of all concerned that said agreement, as finally entered into, be confirmed, ratified and approved by this Council; now, therefore,

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the action of the City Comptroller in entering into an agreement, dated May 31, 1918, with Charles B. Osborne, as Trustee under the last will and testament of Lucius G. Fisher, deceased, pursuant to authority conferred by ordinance passed December 28, 1917, appearing in the Journal of the Council Proceedings at pages 1780 and 1781, and which agreement is substantially in words and figures as follows:

THIS AGREEMENT, Made and entered into this 31st day of May, A. D. nineteen hundred and eighteen, by and between Charles B. Osborne, as trustee under the

last will and testament of Lucius G. Fisher, deceased, party of the first part, and City of Chicago, a municipal corporation of the state of Illinois, party of the second part, witnesseth:

That, whereas, the party of the first part is the owner of

All that part of lot four (4) in block eighty (80) in School Section Addition to Chicago, lying west of the middle line of a wall, which middle line at the south end thereof is one hundred forty and ninety-two one-hundredths (140.92) feet west of the east line of said lot four (4) and at the north end thereof is one hundred forty-one and eighteen one-hundredths (141.18) feet west of said east line, situated in the County of Cook and State of Illinois;

said premises being located on the north side of West Monroe street and on the east side of the Chicago River, having a frontage on West Monroe street of about 135 feet and on the Chicago River of about 99 feet, and being improved with two buildings, the west building being an eight-story brick building known as number 376 West Monroe street, Chicago, Illinois, and having been heretofore demised by Lucius G. Fisher to S. D. Childs & Company, a corporation, by indenture of lease dated the twentieth day of August, A. D. nineteen hundred and three; and

WHEREAS, The party of the second part is and has been for some time last past erecting and constructing a bridge across the Chicago River at West Monroe street, and during the course of said construction it became necessary for said party of the second part to excavate at and near the foundations of said building and to a depth below the foundations of said building; and

WHEREAS, Said party of the second part was apprehensive that said excavation would endanger the foundations and walls of and cause injury to said building; and

WHEREAS, The said party of the second part thereupon served notice upon said party of the first part to shore up and protect the said foundations, walls and building, and to remove certain parts of the foundations of said building which the party of the second part claimed extended into West Monroe street; and

WHEREAS, The party of the first part claimed that he was not compelled or required by law to protect said foundations, walls and building, and that if any injury or damage should occur thereto it would be caused by the disturbance or removal of the easement of lateral support to which said premises and said party of the first part were entitled; and

WHEREAS, The said party of the second part thereupon served notice upon the party of the first part that unless the party of the first part shored up and protected the said foundations, walls and building, the party of the second part would cause Fitzsimmons and Connell Dredge & Dock Company to shore up and protect the said foundations, walls and building, and to remove said encroachments, and would hold the said party of the first part or said S. D. Childs & Company, lessee of said building, or one of them, liable for the cost thereof; and

WHEREAS, The party of the first part thereupon served notice on the party of the second part, that if any of the acts or things mentioned in the said notice were done or caused to be done by party of the second part, the Chicago Union Station Company or the Fitzsimmons and Connell Dredge & Dock Company, such acts or things would be without the consent or authority and contrary to the wishes of the party of the first part and that said party of the first part would not pay for the cost thereof or be or become liable therefor in any way, and that said party of the first part would hold the party of the second part to strict account for all damages sustained from injuries to the building, by reason of the doing of the acts and things referred to in said notice; and

WHEREAS, The party of the second part at a considerable expense thereupon caused said building to be protected and shored up, and new foundations to be placed under part of said building; and

WHEREAS, The west end of said property consists of a dock on the east bank of the Chicago River; and

WHEREAS, The party of the second part is desirous of obtaining a right to use a part of the premises occupied by said dock for the construction thereon of a bridgetender's house, to be used in connection with said bridge across the Chicago River at West Monroe street; and both parties are desirous of settling all claims and controversies existing between them by reason of the erection and construction of said bridge and foundations thereof and the shoring and protection of said foundations, walls and building; and

WHEREAS, The party of the first part, in consideration of the settlement and waiver of all claims that the party of the second part may or can have against the party of the first part by reason of the protection and shoring of said building, foundations and walls, and of the covenants and agreements hereinafter contained to be kept and performed by said second party, is willing to release and discharge the party of the second part, and its agents and representatives and persons and corporations employed by it, of and from all claims and demands of every name, nature and description, which the party of the first part has or claims to have against them or any of them, on account or arising out of or resulting from the erection and construction of said bridge and foundations thereof and the shoring and protection of said foundations, walls and building and the construction of said new foundations and is also willing to grant to the party of the second part the right to use the parcel of land hereafter described for the construction and maintenance thereon of said bridgetender's house.

NOW, THEREFORE, In consideration of the premises and of the agreements hereinafter contained, to be kept and performed by the parties hereto respectively, the party of the first part hereby gives and grants to the party of the second part the right to erect, at its own expense, substantially according to the plans and specifications hereto attached, marked Exhibit A and made a part hereof, said bridgetender's house upon a strip of land, described as follows:

Beginning at the southwest corner of said building, known as number 376 West Monroe street, and extending thence west along the north line of Monroe street nine (9) feet and three (3) inches; thence in a northerly direction parallel with the west line of

said building eighteen (18) feet and four (4) inches; thence east to the west line of said building; thence south along the west line of said building eighteen (18) feet and four (4) inches to the place of beginning;

and also the right to maintain said bridgetender's house, or one substantially the same, on said parcel of land, so long as a bridge is maintained and operated by the party of the second part over the Chicago River at Monroe street.

It is expressly understood and agreed that said bridgetender's house shall not, nor shall any part thereof, be attached to the building of the party of the first part, and that the party of the second part shall keep the premises occupied by said bridgetender's house, as well as the foundations and dock on said premises, in good condition and repair during the term of this lease, and the party of the second part further agrees, at its own expense, to shore and protect said bridgetender's house and the foundation thereof, should the party of the first part, his successor or assigns, hereafter construct a new building or foundations therefor on the premises first hereinabove described, except that part hereby demised to the party of the second part.

It is expressly understood and agreed that upon the completion of the construction and erection of said bridge and bridgetender's house, the party of the second part shall repair any portion of the dock not herein leased which has been occupied or used or damaged by said party of the second part or by any contractor engaged in said work of constructing said bridge and bridgetender's house and their foundations so that the said remaining portion of the dock shall be restored to as good condition as it was prior to the beginning of operations for the construction of said bridge and bridgetender's house.

The party of the second part further agrees to protect said two buildings and their foundations from injury resulting from the construction of said bridge and bridgetender's house and their foundations, while said bridge and bridgetender's house is being constructed, and if necessary, to shore up said buildings at its own expense and to leave said buildings and foundations in as good physical condition as they were prior to the construction of said bridge and bridgetender's house, ordinary wear and tear excepted.

It is expressly understood and agreed that the party of the second part shall cause a roadway and pavement and sidewalks to the new established grade to be constructed or laid in front of the property owned by said party of the first part without cost to him and that should the party of the second part find it necessary to remove any obstructions, above or below the street level, prior to or in the course of said work, the cost of the removal of such obstructions shall be borne by the party of the second part.

The party of the second part further agrees that it will give the party of the first part and his tenants such reasonable access to said two buildings while said bridge, bridgetender's house, roadway and sidewalks are being constructed, as will not unreasonably obstruct or interfere with such construction.

The party of the second part agrees to pay to the party of the first part, as rental for the use of said parcel of land, the sum of One Dollar ($1.00) annually, payable on the second day of January in each year, beginning the second day of January, A. D. 1918.

It is expressly understood and agreed that this agreement is subject to the rights, if any, of said S. D. Childs & Company.

In consideration of this agreement, the party of the first part hereby releases and discharges the party of the second part, its agents and representatives and all persons and corporations employed by it in the erection and construction of said bridge and said bridgetender's house, and their foundations and in such shoring up of and from all claims and demands of every name, nature and description, which he or the estate represented by him has or claims to have against them or any of them, on account or arising out of or resulting from the erection and construction of said bridge and its appurtenances, including said bridgetender's house and such shoring up and from all claims and demands of every name, nature and description which he has or claims to have against them or any of them, by reason of the raising of the grade of the roadway and sidewalk in front of said buildings owned by said party of the first part, and the party of the second part for the same consideration hereby releases and discharges the party of the first part of and from all claims and demands which it has or claims to have against him, on account of or arising out of or resulting from said erection and construction of said bridge and its foundation, and said bridgetender's house and its foundation, and said shoring up and protection of said foundations, walls or building and the construction of said new foundations, and agrees to hold said party of the first part harmless from, and indemnify him against all claims and demands that may be brought against him by any person, firm or corporation, on account of or accruing out of or resulting from said erection and construction of said bridge and its foundation, and said bridgetender's house and its foundation, and said shoring up and protection of said foundations, walls or buildings and the construction of said new foundations or by reason of the raising of the grade of the roadway and sidewalk.

This agreement is entered into by the party of the second part, pursuant to authority from the City Council, as appears at pages 1780-1 of the Journal of said Council Proceedings on the 28th day of December, A. D. 1917.

In Witness Whereof, The party of the first part has hereunto set his hand and seal, and the party of the second part has caused these presents to be duly executed, the day and year first above written.

AN ORDINANCE

Authorizing and requiring the Calumet and South Chicago Railway Company to construct, maintain and operate an extension of its street railway system in Ewing avenue from East 108th street to East 118th street, East 118th street and Ewing avenue to Burley avenue, Burley avenue from East 118th street to East 123rd street, in accordance with the terms and conditions of the ordinance of the City of Chicago to said company passed March 30, 1908.

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That subject to all the provisions, requirements, conditions and limitations of the ordinance passed by the City Council of the City of Chicago on March 30, 1908, entitled "An ordinance authorizing the Calumet and South Chicago Railway Company to construct, maintain and operate a system of street railways in streets and public ways in the City of Chicago," and all amendments of said ordinance heretofore or hereafter made, permission and authority are hereby given to the Calumet and South Chicago Railway Company, and the said Calumet and South Chicago Railway Company is hereby ordered, directed and required to construct, maintain and operate an extension of its street railway system in, upon and along Ewing avenue from East 108th street to East 118th street, upon and along East 118th street from Ewing avenue to Burley avenue, upon and along Burley avenue from East 118th street to East 123rd street, upon the express terms and conditions that said street railway shall be constructed, maintained and operated as an extension of the system of the Calumet and South Chicago Railway Company under and in accordance with the provisions, conditions, requirements and limitations of said ordinance of March 30, 1908, and all amendments thereto heretofore or hereafter made as though the right to construct, maintain and operate the same had been granted to said company in and by said ordinance of March 30, 1908, and particularly with the provisions, conditions, requirements and limitations of Section 3 of said ordinance of March 30, 1908. Said extension is to constitute no part of the compulsory mileage for any calendar year and is to be constructed and and in operation within one month after the passage of this ordinance.

SECTION 2. This ordinance shall take effect and be in full force from and after its acceptance by the Calumet and South Chicago Railway Company under its corporate seal; provided that if said company shall not file its formal acceptance of this ordinance and all its terms and conditions within thirty (30) days from the passage hereof, then all rights and privileges granted shall be wholly null and void and of no effect.

—

In connection with the foregoing ordinance, Ald. Capitain presented the following order, which was, on motion, duly passed:

The following is said ordinance as passed:

AN ORDINANCE

Authorizing and requiring the Chicago Railways Company to construct, maintain and operate an extension of its street railway system in, upon and along Monroe street from La Salle street to the west bank of the Chicago River and thence on a prolongation of said Monroe street to Canal street, in accordance with the terms and conditions of the ordinance of the City of Chicago to said Company, passed February 11, 1907.

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That subject to all the provisions, conditions, requirements and limitations of the ordinance passed by the City Council of the City of Chicago on February 11, 1907, and entitled "An Ordinance authorizing the Chicago Railways Company to construct, maintain and operate a system of street railways in streets and public ways of the City of Chicago," and all amendments of said ordinance heretofore or hereafter made, consent, permission and authority are hereby granted to the Chicago Railways Company, and the said Chicago Railways Company is hereby required to construct, maintain and operate an extension of its street railway system in, upon and along Monroe street from La Salle street to the west bank of the Chicago river, and thence on a prolongation of said Monroe street to Canal street, upon the express terms and conditions that said street railway shall be constructed, maintained and operated as an extension of the system of the Chicago Railways Company under and in accordance with the provisions, conditions, requirements and limitations of said ordinance of February 11, 1907, and of all amendments thereto heretofore or hereafter made, as though the right to construct, maintain and operate the same had been granted to said company in and by said ordinance of February 11, 1907, and particularly with the provisions, conditions, requirements and limitations of Section 3 of said ordinance of February 11, 1907. Said extension is to constitute no part of the compulsory mileage for any calendar year and is to be constructed and in operation within six months after Monroe street between La Salle street and Canal street is opened for street traffic.

SECTION 2. This ordinance shall take effect and be in full force from and after its acceptance by the Chicago Railways Company under its corporate seal; provided that if said company shall not file its formal acceptance of this ordinance and of all its terms and conditions within thirty days from the passage hereof, then all rights and privileges granted shall be wholly null and void and of no effect.

12th St. Viaduct: Supplemental Agreement to Provide for Construction by the Chicago Union Station Co.

Ald. Lipps moved to proceed to consideration of the report of the Committee on Railway Terminals on an ordinance authorizing execution of a supplemental agreement between the City of Chicago and the Chicago Union Station Company and certain railroad companies for construction by the Chicago Union Station Company of a viaduct on West 12th street between South Canal street and the Chicago River, deferred and published May 27, 1918, page 258.

The motion prevailed.

Ald. Lipps moved to concur in said report and to pass the substitute ordinance submitted therewith [printed in Pamphlet No. 871].

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. Lynch, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch —68.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Mayor and the City Clerk be and they are hereby authorized and directed to enter into a supplemental agreement on behalf of the City, with the Chicago Union Station Company, the Baltimore and Ohio Chicago Terminal Railroad Company, the Chicago, Burlington & Quincy Railroad Company and the Pennsylvania Company, operating the Pittsburgh, Ft. Wayne & Chicago Railway, the Chicago, Milwaukee & St. Paul Railway Company, and The Pittsburgh, Cincinnati, Chicago & St. Louis Railroad Company, form of which supplemental agreement is attached to this ordinance as Exhibit "A" and by this reference made a part hereof.

SECTION 2. The Chicago Union Station Company, the Baltimore & Ohio Chicago Terminal Railroad Company, Chicago, Burlington & Quincy Railroad Company, Pennsylvania Company, the Chicago, Milwaukee & St. Paul Railway Company, and The Pittsburgh, Cincinnati, Chicago & St. Louis Railroad Company, successor to The Pittsburgh, Cincinnati, Chicago & St. Louis Railway Company, shall, within thirty (30) days of the passage hereof, file with the City Clerk their acceptance of this ordinance, and when so accepted this ordinance shall be in full force and effect.

Form of Agreement. Exhibit "A".

This Agreement entered into, by and between the City of Chicago, a municipal corporation duly organized and existing under and by virtue of the laws of the State of Illinois (hereinafter designated the City) party of the first part; the Chicago Union Station Company, a corporation duly organized and existing under and by

virtue of the laws of the State of Illinois, (hereinafter designated Station Company); Chicago, Burlington & Quincy Railroad Company, a corporation of the State of Illinois, (hereinafter designated Burlington Company); the Pennsylvania Company, a corporation duly organized and existing under and by virtue of the laws of the State of Pennsylvania, operating the Pittsburgh, Ft. Wayne & Chicago Railway (hereinafter designated Pennsylvania Company); the Chicago, Milwaukee & St. Paul Railway Company, a corporation duly organized and existing under and by virtue of the laws of the State of Illinois, (hereinafter designated St. Paul Company); and The Pittsburgh, Cincinnati, Chicago & St. Louis Railroad Company, a corporation duly organized and existing under and by virtue of the laws of the State of Illinois, (hereinafter designated Panhandle Company), parties of the second part; and the Baltimore & Ohio Chicago Terminal Railroad Company, a corporation existing under and by virtue of the laws of the State of Illinois, (hereinafter designated Terminal Company) party of the third part, Witnesseth, that

WHEREAS, The Station Company, successor to the Union Station Company, by virtue of its acceptance of the ordinance passed by the City Council of the City of Chicago on March 23, 1914, page 4548 of Council Proceedings, agreed to pay its share of the cost of the construction of a viaduct on West Twelfth street from the east line of South Canal street to the west line of the South Branch of the Chicago River, to be determined by the ratio which all the tracks maintained by said Station Company or any railroad company or companies then using the passenger station thereby authorized, bear to the entire number of tracks of all kinds maintained beneath said viaduct so to be constructed, it being provided further, however, that should all parties concerned in the construction of said viaduct agree on a different basis of prorating the cost of the construction thereof, then the Station Company should pay its pro rata share of the cost of the construction of said viaduct in accordance with such agreement; and

WHEREAS, The Terminal Company entered into an agreement with the city dated January 26, 1915, and approved by the City Council by its ordinance of March 1, 1915, in which agreement it was provided that the City of Chicago should construct the said viaduct and in said agreement it was further provided that the Terminal Company should pay its pro rata share of the cost of said viaduct to be determined by the ratio that all the railroad tracks maintained by the said Terminal Company bore to the entire number of tracks of all kinds maintained beneath said viaduct so to be constructed; and

WHEREAS, The Station Company is now constructing the various viaducts, bridges and other facilities required under its said ordinance to be constructed by it under the supervision of the Commissioner of Public Works of the city; and

WHEREAS, It is advisable that the construction of said Twelfth street viaduct shall be in harmony and erected co-ordinate with the other work now being done by said Station Company and said viaduct can be constructed more efficiently and economically by the Station Company than if separate contracts were let by the City of Chicago for the construction of said viaduct;

Therefore, In consideration of the premises and of the provisions herein contained, it is understood and agreed by and between the parties hereto, that:

1. The Station Company shall construct said viaduct one hundred eighteen (118) feet in width with approaches thereto, extending from the west dock line at West Twelfth street of said South Branch, to South Canal street, in accordance with plans which are hereto attached and made part of this agreement, marked "Exhibit B".

2. The Station Company hereby agrees that it will commence the construction of said viaduct within thirty (30) days after notice in writing has been served on it to proceed with such construction by the Commissioner of Public Works of said City and after the establishment of the grade at West Twelfth street and complete the same, within two (2) years thereafter, unless prevented by strikes, riots, the act of God, the United States, or a public enemy, or restrained by injunction or other order of process of a court of competent jurisdiction not obtained through the collusion of the Station Company in which event the time the Station Company shall be so prevented, as aforesaid, shall be added to the time hereby given for the completion of the said viaduct, provided that notice in writing is served upon the corporation counsel of said city of the institution of such legal proceedings and strikes. Upon the service of such notice the city shall have the right to intervene as provided in Section 17 of the ordinance of March 23, 1914.

3. The Terminal Company does hereby assume the cost of the construction of said viaduct from the west dock line of the South Branch of the Chicago River across said West Twelfth street to a point two hundred seven and twenty-seven hundredths (207.27) feet west of said dock line, and the Terminal Company agrees to pay to the Station Company the entire cost of the portion of the viaduct two hundred seven and twenty-seven hundredths (207.27) feet in length so to be constructed by it, including the relocation of sewers and public utilities within said distance.

4. The Station Company shall advertise for bids and make all necessary contracts for the construction of said viaduct and shall construct said viaduct according to said plans, Exhibit "B" approved by the Commissioner of Public Works of the city and who shall also supervise the construction of said viaduct and divide the cost thereof, exclusive of the east two hundred seven and twenty-seven hundredths feet thereof, among the several corporations maintaining railroad tracks underneath said new viaduct and in accordance with said ordinance of March 23, 1914. The work of removing the present viaduct shall be done by the Station Company in such manner as not unnecessarily to inconvenience, impede, hinder or obstruct the traffic of the Terminal Company.

5. The Station Company shall, on the first day of each month render to the Burlington Company, the Pennsylvania Company, and the Terminal Company monthly statements of advances made by the Station Company for such construction work, including the cost of any work which may have been done by its own agents and employes and each said Company shall, on or before the 15th day of such month, pay to the Station Company its share or pro rata part thereof as hereinbefore fixed.

6. The Terminal Company hereby agrees to pay to the Station Company on or before the 15th day of each month in which monthly statements shall be rendered as above required its share or pro rata part thereof as shown by such statements of the cost of all said viaduct between the west dock line of the South Branch of the Chicago River at West Twelfth street and a line two hundred seven and twenty-seven hundredths (207.27) feet west thereof including the cost of relocation of sewers and all public utilities within said space.

7. The Station Company shall prosecute the work on said viaduct with approaches thereto in accordance with the terms hereof, diligently and without interruption. Should said Company fail or neglect to so prosecute said work, the Commissioner of Public Works of the city shall have and is hereby given the right, power and authority to give said Station Company ten (10) days' notice in writing to prosecute such work. If after the expiration of the time, mentioned in said notice, said Station Company shall fail or neglect to comply with said notice, the Commissioner of Public Works may take charge of and cause the work herein agreed to be done by said Station Company to be performed and thereupon the expense thereof shall be paid by said Station Company and Terminal Company as provided in the ordinance of March 23, 1914, and the agreement of January 26, 1915, and ordinance of March 1, 1915.

8. The St. Paul Company and the Panhandle Company hereby agree to the construction of said viaduct as provided in this agreement.

9. Nothing in this agreement contained shall be construed to change or impair the rights or obligations of the City of Chicago and the Station Company as provided in the ordinance of March 23, 1914, or to change or impair the rights and obligations of the City of Chicago or the Terminal Company as provided in the said contract of January 26, 1915 and the said ordinance of March 1, 1915, except as is herein specifically otherwise provided.

IN WITNESS WHEREOF, The City of Chicago has caused this agreement to be executed in quintuplicate by its Mayor and City Clerk; the Station Company, the Burlington Company, the Pennsylvania Company, the Terminal Company, the St. Paul Company and the Panhandle Company have each caused these presents to be executed in quintuplicate by their respective officers duly authorized and their respective corporate seals to be affixed this.....day of.....A. James S. Agar: Two Switch Tracks.

Ald. Fisher moved to proceed to consideration of the report of the Committee on Local Industries on an ordinance granting permission and authority to James S. Agar to construct, maintain and use two railroad switch tracks over and across West 41st street, east of South Union avenue, deferred and published May 27, 1918, page 258.

The motion prevailed.

Ald. Fisher moved to concur in said report and to pass said ordinance, with compensation of $200.00 per annum, as fixed by the Committee on Compensation [printed in Pamphlet No. 872].

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson.

Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. H. McCormick, Walker, Ellison, Bauler, Wallace, Steffen, Roeder, Haderlein, Capitain, Link, Lipps, Pretzel, Kennedy, Watson, Littler, Adamowski, Hrubec, Byrne, Wm. J. Lynch, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch —68.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to James S. Agar, his heirs, executors and assigns, to construct, maintain and use a single railroad switch track over and across West Forty-first street, from a point on the north line thereof, approximately one hundred forty-five (145) feet east of the east line of South Union avenue, to a point on the south line thereof, approximately one hundred thirty-four (134) feet east of the east line of South Union avenue, also a single railroad switch track, over and across West Forty-first street, from a point on the north line thereof, approximately two hundred and seventy-four (274) feet east of the east line of South Union avenue, to a point on the south side thereof, approximately three hundred and nine (309) feet east of the east line of South Union avenue, each of the above tracks being shown in red upon the blue print hereto attached, which, for greater certainty, is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after the date of the passage of this ordinance, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at his own expense and without any expense, damage or liability to the City of Chicago of any kind whatsoever, the switch tracks herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch tracks herein referred to. Said switch tracks, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch tracks shall be of the same character as that used in the construction of the main tracks with which said tracks connects.

SECTION 3. During the life of this ordinance the grantee herein shall keep such portion of said street as is occupied by said switch tracks in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said street as is occupied by said switch tracks to a condition safe for public travel, similar to the remaining portion of said street in the same block to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said street at the termination of said privileges, then the work shall be done by the City of Chicago, and the cost and expense of doing such work shall be paid by the said grantee.

SECTION 4. The operation and maintenance of the switch tracks herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks, and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay to the City of Chicago as compensation for said switch tracks, the sum of two hundred ($200.00) dollars per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of ten thousand ($10,000.00) dollars, with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance; and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said city in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said city from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in full force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond herein-

above provided for shall be filed with the City Clerk within sixty days (60) after the passage of this ordinance.

Armour & Co.: Switch Tracks in Benson and W. 32nd Sts.

Ald. Fisher moved to proceed to consideration of the report of the Committee on Local Industries on an ordinance granting permission and authority to Armour & Company to maintain and operate five switch tracks in and along Benson street, between West 31st place and West 32nd place, and one switch track in and along West 32nd street, between Fox street and 142 feet west thereof, deferred and published May 27, 1918, page 258.

The motion prevailed.

Ald. Fisher moved to concur in said report and to pass said ordinance, with compensation of $707.00 per annum, as fixed by the Committee on Compensation [printed in Pamphlet No. 872].

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, Mulcahy, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Klaus, McNichols, Cullerton, Krumdick, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Adamkiewicz, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. Lynch, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch —68.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to Armour & Company, a corporation, its successors and assigns, to maintain and operate as now constructed the following tracks, to wit:

A. A single railroad switch track connecting with the westerly existing track in Benson street at a point approximately thirty-five (35) feet southeasterly of the north line of West 32nd place produced west; thence running in a northwesterly direction on a curve along and across the westerly side of Benson street to a point on the westerly line thereof approximately ten (10) feet northwesterly of the northerly line of West 32nd place produced west, as shown in red and marked "A-B" on the blue print hereto attached which for greater certainty is hereby made a part of this ordinance.

B. A single railroad switch track connecting with the westerly existing track in Benson street at a point approximately sixty (60) feet northwesterly of the north line of West 32nd place produced west; thence running in a northerly direction on a curve along and across the easterly side of Benson street to a point on the easterly line thereof approximately two hundred thirty (230) feet northwesterly of the northerly line of West 32nd place, as shown in red and marked "C-D" on the aforementioned blue print.

C. A single railroad switch track connecting with the easterly existing track in Benson street at a point approximately two hundred ninety (290) feet northwesterly of the northerly line of West 32nd place produced west; thence running in a southeasterly direction on a curve along and across the easterly side of Benson street to a point on the easterly line thereof approximately two hundred eight (208) feet northwesterly of the northerly line of West 32nd place, as shown in red and marked "E-F" on the aforementioned blue print.

D. A single railroad switch track connecting with the easterly existing track in Benson street at a point approximately two hundred sixty-five (265) feet northwesterly of the northerly line of West 32nd place produced west; thence running in a northerly direction on a curve along and across the easterly side of Benson street to a point on the easterly line thereof approximately four hundred seventy-five (475) feet northwesterly of the northerly line of West 32nd place, as shown in red and marked "G-H" on the aforementioned blue print.

E. A single railroad switch track connecting with the easterly existing track in Benson street at a point approximately two hundred five (205) feet south of the south line of West 31st place produced west; thence runnning in a northwesterly direction on a curve along and across the westerly side of Benson street to a point on the west line thereof approximately one hundred fifty-five (155) feet south of the south line of West 31st place produced west, as shown in red and marked "I-J" on the aforementioned blue print.

F. Also to construct, maintain and operate a single railroad switch track in and along the northerly side of West 32nd street (the center line of which track shall be approximately thirteen (13) feet south of and parallel to the north line of West 32nd street), between the west line of Fox street and a point approximately one hundred forty-two (142) feet west thereof, as shown in red and marked "K-L" on the aforementioned blue print.

SECTION 2. The permission and authority herein granted shall cease and determine twenty (20) years from and after August 18, 1917, and this ordinance shall at any time before the expiration thereof be subject to modification, amendment or repeal without the consent of the grantee herein, and in case of repeal all the privileges hereby granted shall thereupon cease and determine. In the event of the termination of the authority or privileges hereby granted by the repeal of this ordinance, the grantee by the filing of the written acceptance hereinafter mentioned, shall be understood as consenting that the city shall retain all money it shall have previously received from said grantee under the provisions of this ordinance, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such repeal.

By the filing of the written acceptance of this ordinance hereinafter provided for, said grantee hereby agrees to elevate at its own expense and without any expense, damage or liability to the City of Chicago of

any kind whatsoever, the switch tracks herein authorized, upon notice so to do from the Commissioner of Public Works, or failing so to do, shall within sixty (60) days after being notified to that effect by the Commissioner of Public Works, remove the switch tracks herein referred to. Said switch tracks, if elevated, shall be elevated under the direction and supervision and to the satisfaction of the Commissioner of Public Works, and the construction and material used in the elevation of said switch tracks shall be of the same character as that used in the construction of the main tracks with which said tracks connect.

SECTION 3. During the life of this ordinance the grantee herein shall keep such portion of said streets as are occupied by said switch tracks in good condition and repair and safe for public travel, to the satisfaction and approval of the Commissioner of Public Works. At the termination of the rights and privileges herein granted, by expiration of time or otherwise, the said grantee shall forthwith restore such portion of said streets occupied by said switch tracks to a condition safe for public travel, similar to the remaining portion of said streets in the same block, to the satisfaction and approval of the Commissioner of Public Works. If said grantee shall fail to restore said streets at the termination of said privileges, then the work shall be done by the City of Chicago and the cost and expense of doing such work shall be done by the said grantee.

SECTION 4. The operation and maintenance of the switch tracks herein provided for shall be subject to all existing ordinances of the City of Chicago now in force or which may hereafter be in force relating to the use and operation of switch tracks and railroad tracks and the construction and maintenance thereof shall be under the supervision and to the satisfaction of the Commissioner of Public Works.

SECTION 5. The said grantee agrees to pay the City of Chicago, as compensation for the switch tracks described in paragraphs A, B, C, D and E of Section 1 hereof the sum of five hundred fifteen ($515.00) dollars per annum, payable annually in advance, the first payment to be made as of August 18, 1917, and each succeeding payment annually thereafter and as compensation for the switch track described in paragraph F of Section 1 hereof the sum of one hundred ninety-two ($192.00) dollars per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter on August 18 of each year, provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately revoked by the Mayor, or this ordinance may be repealed by the City Council under the powers reserved in Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 6. Before doing any work under and by virtue of the authority herein granted, said grantee shall execute a bond to the City of Chicago in the penal sum of ten thousand ($10,000.00) dollars, with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said city in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said city from or by reason or on account of the passage of this ordinance or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 7. That an ordinance passed by the City Council on June 26, 1916, and appearing upon pages 1003-4-5 and 6 of the Journal of the Proceedings of said date granting permission to Armour & Company to maintain and operate seven (7) switch tracks along and across Benson street be and the same is hereby repealed.

SECTION 8. This ordinance shall take effect and be in force from and after its passage, provided that a written acceptance of this ordinance and the bond hereinabove provided for shall be filed with the City Clerk within sixty (60) days after the passage of this ordinance.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That all that part of Lowe avenue west of and adjoining the west line of Block nine (9), and east of and adjoining the east line of Block ten (10); also all of the public alleys in Blocks nine (9) and ten (10); also all of the north-and-south sixteen (16) foot public alley and that part of the east-and-west sixteen (16) foot public alley south of and adjoining the south line of Lots one (1) to eight (8), both inclusive (except therefrom the west sixteen (16) feet of said Lot eight (8)), in Block fifteen (15), all in Superior Court Partition of west half (W. ½), northwest quarter (N. W. ¼), Section four (4), Township thirty-eight (38) North, Range fourteen (14), east of the Third Principal Meridian; said part of said street being further described as all that part of Lowe avenue lying between the south line of West 41st street and the north line of Root street; and said alleys being further described as all of the public alleys in the two blocks bounded by West 41st street, Root street, Wallace street and South Union avenue; also all of the north-and-south public alley, and the east one hundred seventy-seven and four-tenths (177.4) feet, more or less, of the east-and-west public alley in the block bounded by Root street, West 42nd street, Lowe avenue and South Union avenue, as colored in red and indicated by the words "TO BE VACATED" on the plat hereto attached, which plat for greater certainty is hereby made a part of this ordinance; be and the same are hereby vacated and closed, inasmuch as same are no longer required for public use and the public interests will be subserved by such vacation.

SECTION 2. The vacation herein provided for is made upon the express condition that within sixty (60) days after the passage of this ordinance, James S. Agar shall dedicate to the public and open up for public use as an alley the west sixteen (16) feet of Lot eight (8), Block fifteen (15), Superior Court Partition aforementioned, as colored in yellow and indicated by the words "TO BE DEDICATED" on the aforementioned plat; and further shall within sixty (60) days after the passage of this ordinance, pay to the City of Chicago the sum of nineteen thousand five hundred ninety-two and ninety-one one-hundredths dollars ($19,592.91) toward a fund for the payment and satisfaction of any and all claims for damages which may arise from the vacation of said part of said street and alleys; provided, that if said sum is not sufficient to pay any damages occasioned by the passage of this ordinance, said James S. Agar shall not be liable to pay to the City of Chicago any further sum, and if the damages occasioned by the passage hereof do not amount to the sum above provided to be paid by said James S. Agar, or no damages are occasioned by the passage of this ordinance, the City of Chicago shall not be liable to repay to said James S. Agar any portion of said nineteen thousand five hundred ninety-two and ninety-one one-hundredths dollars ($19,592.91); and further shall within sixty (60) days after the passage of this ordinance, deposit in the city treasury of the City of Chicago a sum sufficient to defray all cost of constructing sidewalk and curb across the entrances to the part of the street and alleys herein vacated, and paving and curbing returns into the alley herein dedicated, similar to the sidewalk, paving and curbing in West 41st street, Root street and West 42nd street, between Wallace street and South Union avenue, and in Wallace street, Lowe avenue and South Union avenue, between West 41st street and West 42nd street. The precise amount of the sum so deposited shall be ascertained by the Commissioner of Public Works after such investigation as is requisite.

SECTION 3. This ordinance shall take effect and be in force from and after its passage, subject to the conditions of Section two (2) hereof, provided said James S. Agar shall within sixty (60) days after the passage of this ordinance file for record in the office of the Recorder of Deeds of Cook County, Illinois, a certified copy of this ordinance, together with a plat properly executed and acknowledged showing the vacation and dedication herein provided for.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to Carl J. Atkins and Louis P. Freund, co-partners, doing business as Atkins & Freund, their heirs, executors and assigns, to construct, maintain and use a bridge or covered passageway across the north-and-south sixteen-foot public alley in the block bounded by South Ashland avenue, West 48th street, Justine street and West 49th street, connecting the second floor of the building situate on Lots three (3), four (4) and five (5), Block four (4), in Re-Subdivision of Blocks three (3) and four (4) in Kay's Addition to Chicago, Section eight (8), Township thirty-eight (38), Range fourteen (14) and known as 4807-11 South Ashland avenue with the corresponding floor of the building situate on Lots forty-four (44), forty-five (45) and forty-six (46), Block four (4) in Re-Subdivision aforementioned and known as 4804-8 Justine street. Said bridge or covered passageway shall be constructed of incombustible material and shall not exceed seventy-five (75) feet in length, sixteen (16) feet in width and one story in height, the lowest portion of same to be not less than fourteen (14) feet above the surface of the alley at that point.

Permission and authority are also given and granted to the said Atkins and Freund to excavate for, construct, maintain and use a vault under the surface of the same alley connecting the premises aforementioned; said vault shall not exceed seventy-five (75) feet in length, sixteen (16) feet in width and fifteen (15) feet in depth, the location and construction of said bridge and vault to be substantially as shown upon blue print hereto attached which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine ten (10) years from and after the date of the passage of this ordinance, or may be revoked at any time prior thereto by the Mayor in his discretion without the consent of the grantees herein named. This ordinance shall also be subject to amendment, modification or repeal at any time without the consent of the said grantees, and in case of such repeal all the privileges herein granted shall thereupon cease and determine. In the event of the termination, revocation, amendment or modification of the authority or privileges hereby granted, by lapse of time, the exercise of the Mayor's discretion, or the exercise by the City Council of the powers above reserved, the grantees, by the filing of the written acceptance hereinafter provided for, shall be understood as consenting that the City shall retain all money it

shall have previously received under the provisions of this ordinance from said grantees, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such action by the Mayor or City Council as the case may be.

In case of the termination of the privileges herein granted by lapse of time, or by the exercise of the Mayor's discretion, or otherwise, said grantees, their heirs, executors or assigns, shall remove said bridge or covered passageway and fill up said vault and restore the pavement over the same to a condition similar to the balance of the alley in the same block, to the satisfaction of the Commissioner of Public Works, at the sole expense of the grantees herein, without cost or expense of any kind whatsoever to the City of Chicago; provided that in the event said grantees, their heirs, executors or assigns, shall refuse or neglect to remove said bridge or covered passageway and fill up said vault when so directed to do, the City of Chicago may proceed to do said work and charge the expense thereof to said grantees.

SECTION 3. At the expiration of the privileges herein granted, the bridge or covered passageway herein authorized shall be removed and the vault filled up by said grantees, unless this ordinance shall be renewed. No permit shall be issued allowing any work to proceed in and about the construction of said bridge or covered passageway or the construction of said vault until plans and specifications of the completed structures shall first have been submitted to and approved by the Commissioner of Public Works.

SECTION 4. Said grantees, their heirs, executors or assigns, shall pay as compensation for the privileges herein granted the sum of one hundred dollars ($100.00) per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter; provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately terminated under any one of the powers reserved to the Mayor or City Council by Section two (2) hereof and thereupon this ordinance shall become null and void.

SECTION 5. Before doing any work under or by virtue of the authority herein granted, the said grantees shall execute to the City of Chicago a good and sufficient bond in the penal sum of Ten Thousand Dollars ($10,000.00) with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liability, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of any act or thing done by the grantees herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force and effect, then the privileges herein granted shall thereupon cease.

SECTION 6. This ordinance shall take effect and be in force from and after its passage, provided the said grantees file their written acceptance of this ordinance and the bond hereinabove provided for with the City Clerk within sixty (60) days after the passage hereof.

Ehman Tire & Rubber Co.: Bridge over Alley and Tunnel in Alley.

Ald. Lynch, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch —68.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the Ehman Tire & Rubber Company, a corporation, its successors and assigns, to construct, maintain and use a bridge or covered passageway over and across the first east-and-west sixteen-foot public alley north of West 27th street in the block bounded by West 26th place, South LaSalle street, West 27th street and Wentworth avenue, connecting the second floor of the building now located, or to be constructed, on Lot thirty-one (31) and the west thirteen and thirty-eight hundredths (13.38) feet of Lot thirty-two (32), in W. H. Adams' Subdivision of part of the east half (E. ½), southeast quarter (S. E. ¼), Section twenty-eight (28), Township thirty-nine (39) North, Range fourteen (14) and known as 143-7 West 26th place with the corresponding floor of the building now located, or to be constructed, on the west thirteen and thirty-eight hundredths (13.38) feet of Lot eighty-three (83) and Lot eighty-four (84) in W. H. Adams' Subdivision aforementioned and known as 142-6 West 27th street. Said bridge or covered passageway shall be constructed of incombustible material and shall not exceed forty (40) feet in length,

sixteen (16) feet in width and the lowest portion of same shall not be less than fifteen (15) feet above the grade of alley at that point.

Permission and authority are also given and granted to the said Ehman Tire & Rubber Company to excavate for, construct and maintain a tunnel under the surface of the aforementioned alley connecting the above described premises, which said tunnel shall not exceed sixteen (16) feet in length, five (5) feet, six (6) inches in width, inside dimensions and fifteen (15) feet in depth, the location and construction of said bridge and tunnel to be substantially as shown upon blue print hereto attached which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine ten (10) years from and after May 1, 1918, or may be revoked at any time prior thereto by the Mayor in his discretion without the consent of the grantee herein named. This ordinance shall also be subject to amendment, modification or repeal at any time without the consent of the said grantee, and in case of such repeal all the privileges herein granted shall thereupon cease and determine. In the event of the termination, revocation, amendment or modification of the authority or privileges herein granted, by lapse of time, the exercise of the Mayor's discretion, or the exercise by the City Council of the powers above reserved, the grantee, by the filing of the written acceptance hereinafter provided for, shall be understood as consenting that the City shall retain all money it shall have previously received under the provisions of this ordinance from said grantee, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such action by the Mayor or City Council as the case may be.

SECTION 3. At the expiration of the privileges granted, by lapse of time, or otherwise, the bridge herein authorized shall be removed and the tunnel filled up, unless the privileges herein granted shall be renewed. If said tunnel is so filled up, the alley where the same shall have been located shall be restored to a condition similar to the balance of the alley in the same block to the satisfaction of the Commissioner of Public Works at the sole expense of the grantee herein, without cost or expense of any kind whatsoever to the City of Chicago; provided that in the event said grantee shall refuse or neglect to remove said bridge and fill up said alley when ordered so to do, said work shall be done by the City of Chicago and the cost thereof charged to the said grantee. Said grantee shall do no permanent injury to said alley or in any manner interfere with any public cable, wire, pipe or conduit therein, and shall not open or incumber more of said alley than shall be necessary to enable it to proceed with advantage in excavating said tunnel and constructing foundations and walls. No permit shall be issued allowing any work to be done in and about the construction of said bridge and tunnel until plans and specifications of the completed structures shall first have been submitted to and approved by the Commissioner of Public Works. A copy of said plans shall at all times remain on file in the office of the said Commissioner of Public Works.

SECTION 4. During the life of this ordinance the grantee herein, its successors, or assigns, shall at all times keep the surface of the alley over the said tunnel in a condition satisfactory to the Commissioner of Public Works and safe for public travel.

SECTION 5. No work shall be done under the authority of this ordinance until a permit authorizing same shall have been issued by the Commissioner of Public Works, and no permit shall issue until the grantee herein shall execute to the City of Chicago a good and sufficient bond in the penal sum of Ten Thousand Dollars ($10,000.00), with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of said ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 6. The said grantee agrees to pay to the City of Chicago as compensation for said bridge and tunnel, the sum of one hundred dollars ($100.00) per annum, payable annually in advance, the first payment to be made as of the date of May 1, 1918, and each succeeding payment annually thereafter; provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately terminated under any one of the powers reserved to the Mayor or City Council by Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 7. This ordinance shall take effect and be in force from and after its passage, provided that the grantee herein files its written acceptance of this ordinance and the bond hereinabove provided for with the City Clerk within sixty (60) days after the passage of this ordinance.

Union Special Machine Co.: Tunnel in Alley.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to the Union Special Machine Company, a corporation, its successors and assigns, to excavate for, maintain and use a tunnel under and across the eighteen-foot east-and-west public alley in the block bounded by West Austin avenue, North Franklin street, West Kinzie street and Orleans street, the east line of said tunnel to be approximately one hundred eight feet, eight and one-quarter inches (108′, 8¼″) west of the west line of North Franklin street, connecting the buildings known as 311-13 West Austin avenue and 300-12 West Kinzie street. Said tunnel shall not exceed thirteen (13) feet in width, outside dimensions and twelve (12) feet in depth, the location and construction of same to be substantially as shown upon blue print hereto attached which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine ten (10) years from the date of the passage of this ordinance, or may be revoked at any time prior thereto by the Mayor in his discretion without the consent of the grantee herein named. This ordinance shall also be subject to amendment, modification or repeal at any time without the consent of the said grantee and in case of such repeal all the privileges herein granted shall thereupon cease and determine. In the event of the termination, revocation or modification of the authority or privileges herein granted, by lapse of time, the exercise of the Mayor's discretion, or the exercise by the City Council of the powers above reserved, the grantee by the filing of the written acceptance hereinafter provided for, shall be understood as consenting that the City shall retain all money it shall have previously received under the provisions of this ordinance from said grantee, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such action by the Mayor or City Council as the case may be.

SECTION 3. At the expiration of the privileges granted, by lapse of time or otherwise, the tunnel herein authorized shall be filled up unless the privileges herein granted shall be renewed. If said tunnel is so filled up, the space where the same shall have been located shall be restored to a condition similar to the balance of the alley in the same block, to the satisfaction of the Commissioner of Public Works, at the sole expense of the grantee herein, without cost or expense of any kind whatsoever to the City of Chicago; provided that in the event said grantee shall refuse or neglect to fill up said space when so ordered to do, said work shall be done by the City of Chicago and the cost thereof charged to the grantee herein. Said grantee shall do no permanent injury to said alley or in any manner interfere with any public cable, wire, pipe or conduit therein, and shall not open or incumber more of said alley than shall be necessary to enable it to proceed with advantage in excavating said tunnel and constructing foundations and walls. No permit shall be issued allowing any work to be done in and about the construction of the said tunnel until plans and specifications of the completed structure shall have been submitted to and approved by the said Commissioner of Public Works.

SECTION 4. During the life of this ordinance the grantee herein, its successors or assigns, shall at all times keep the surface of the alley over the said tunnel in a condition satisfactory to the Commissioner of Public Works and safe for public travel.

SECTION 5. No work shall be done under the authority of this ordinance until a permit authorizing same shall have been issued by the Commissioner of Public Works, and no permit shall issue until the grantee herein shall execute to the City of Chicago a good and sufficient bond in the penal sum of Ten Thousand Dollars ($10,000.00) with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any way come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of the passage of this ordinance, or from or by reason or on account of any act or thing done by the grantee herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 6. The said grantee agrees to pay to the City of Chicago as compensation for said tunnel, the sum of Fifty Dollars ($50.00) per annum, payable annually in advance, the first payment to be made as of the date of the passage of this ordinance and each succeeding payment annually thereafter; provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately terminated under any one of the powers reserved to the Mayor or City Council by Section two (2) hereof, and thereupon this ordinance shall become null and void.

SECTION 7. This ordinance shall take effect and be in force from and after its passage and approval, provided that the grantee herein shall file with the City Clerk a written acceptance of the same and the bond hereinabove provided for within sixty (60) days after the passage of this ordinance.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That permission and authority be and the same are hereby given and granted to Albro B. Prindle, Martha P. Griffin, James P. Prindle and James W. T. McCrea, their heirs, executors and assigns, to reconstruct, maintain and use a vault under the surface of the east-and-west public alley in the rear of the premises known as 558-60 West Washington boulevard. Said vault shall not exceed forty-one (41) feet, six (6) inches in length, inside dimensions; five (5) feet, four (4) inches in width, inside dimensions and fifteen (15) feet in depth, together with three (3) two-foot coal-holes in the surface of the alley over same, the construction and location thereof to be substantially as shown upon blue print hereto attached which for greater certainty is hereby made a part of this ordinance.

SECTION 2. The permission and authority herein granted shall cease and determine ten (10) years from and after May 1, 1918, or may be revoked at any time prior thereto by the Mayor in his discretion without the consent of the grantees herein named. This ordinance shall also be subject to amendment, modification or repeal at any time without the consent of the said grantees, and in case of such repeal all the privileges herein granted shall thereupon cease and determine. In the event of the termination, revocation, amendment or modification of the authority or privileges herein granted, by lapse of time, the exercise of the Mayor's discretion, or the exercise by the City Council of the powers above reserved, the grantees, by the filing of the written acceptance hereinafter provided for, shall be understood as consenting that the City shall retain all money it shall have previously received under the provisions of this ordinance from said grantees, said money to be considered and treated as compensation for the authority, permission and privileges enjoyed from the date of the passage of this ordinance until such action by the Mayor or City Council as the case may be.

SECTION 3. At the expiration of the privileges herein granted, by lapse of time or otherwise, the vault herein authorized shall be filled up, unless the privileges herein granted shall be renewed. If said vault is so filled up, the alley where the same shall have been located shall be restored to a condition similar to the balance of the alley in the same block to the satisfaction of the Commissioner of Public Works, at the sole expense of the grantees herein, without cost or expense of any kind whatsoever to the City of Chicago; provided, that in the event said grantees shall refuse or neglect to fill up said alley when ordered so to do, said work shall be done by the City of Chicago and the cost thereof charged to the grantees herein. Said grantees shall do no permanent injury to said alley or in any manner interfere with any public cable, wire, pipe or conduit therein, and shall not open or incumber more of said alley than shall be necessary to enable them to proceed with advantage in excavating said vault. No permit shall be issued allowing any work to

be done in and about the construction of said vault until plans and specifications of the completed structure shall have first been submitted to and approved by the same Commissioner of Public Works. A copy of said plans shall at all times remain on file in the office of the said Commissioner of Public Works.

SECTION 4. The said grantees agree to pay to the City of Chicago as compensation for said vault, the sum of Fifty and no/100ths Dollars ($50.00) per annum, payable annually in advance, the first payment to be made as of the date of May 1, 1918, and each succeeding payment annually thereafter; provided that if default is made in the payment of any of the installments of compensation herein provided for, the privileges herein granted may be immediately terminated under any one of the powers reserved to the Mayor or City Council by Section two (2) hereof, and thereupon this ordinance shall become null and void.

No work shall be done under the authority of this ordinance until a permit authorizing same shall have been issued by the Commissioner of Public Works, and no permit shall issue until the grantees herein shall execute to the City of Chicago a good and sufficient bond in the penal sum of Ten Thousand Dollars ($10,000.00) with sureties to be approved by the Mayor, conditioned upon the faithful observance and performance of all and singular the conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago against all liabilities, judgments, costs, damages and expenses which may in any wise come against said City in consequence of the granting of this ordinance, or which may accrue against, be charged to or recovered from said City from or by reason or on account of any act or thing done by the grantees herein by virtue of the authority herein granted. Said bond and the liability of the sureties thereon shall be kept in force throughout the life of this ordinance, and if at any time during the life of this ordinance such bond shall not be in full force, then the privileges herein granted shall thereupon cease.

SECTION 6. This ordinance shall take effect and be in force from and after its passage and approval, provided the said grantees shall file their written acceptance of this ordinance and the bond hereinabove provided for with the City Clerk within sixty (60) days after the passage hereof.

Adjournment.

Ald. Powers moved that the Council do now adjourn.

The motion prevailed and the Council stood adjourned to meet on Monday, June 10, 1918, at 2:00 o'clock P. M.

The motion prevailed.

Communications from the Mayor, City Clerk and Other Officers, Departments and Branches of the City Government.

Releases from House of Correction: Report.

The Mayor submitted a report containing a list of the names of persons released by him from the House of Correction during the week ended June 8, 1918, together with the cause of each release, which was ordered

Placed on file.

Veto.

Bureau of Employment, Woodyards, Lodging Houses and Gardens: Creation of the Bureau; Department of Public Welfare: Repeal of Ordinance Establishing the Department.

The Mayor submitted the following veto message:

OFFICE OF THE MAYOR,
CHICAGO, June 10, 1918.

To the Honorable, the City Council of the City of Chicago:

GENTLEMEN—I return herewith, without my approval, an ordinance passed by your Honorable Body on June 3, 1918, and appearing on page 331 of the Journal of the Proceedings of the City Council of said date, purporting to repeal the ordinance creating the Department of Public Welfare and creating a bureau to be known and designated as the Bureau of Employment, Woodyards, Lodging-houses and Gardens.

I withhold my approval of the said ordinance for the reason that I am advised by the Corporation Counsel that Section 73 of Article VI of the Cities, Villages and Towns Act, page 311, Hurd's Revised Statutes of 1915-1916, expressly provides that your Honorable Body has only power to abolish an executive department of the city government by an ordinance to take effect at the end of the then fiscal year, and for that reason the ordinance as passed by your Honorable Body, I am advised, is void in so far as it attempts to abolish the Department of Public Welfare.

I withhold my approval of the said ordinance for the further reason that I do not believe it received at the hands of your Honorable Body prior to its passage that deliberate and careful consideration that its importance demanded.

The Department of Public Welfare was established by your Honorable Body after a most exhaustive and thorough investigation in regard to the advisability and importance of establishing such a department in the City of Chicago, and since its establishment I am advised that it has rendered valuable service to the many citizens of the city who have had occasion to be brought in contact with the workings of the said department.

I am advised, and I know it to be a fact, that the Commissioner of the Department of Public Welfare has for nearly a year been engaged in promoting and organizing the garden movement throughout Chicago, and that she has been in this connection, co-operating and working in conjunction with the Garden Branch of the State Council of Defense and the various park officials throughout the city; and for the purpose of arousing interest in the garden movement of the city she has organized the women of the various nationalities that reside within our city into neighborhood clubs through which garden seeds might be distributed to all residents of Chicago desirous of participating in the garden movement.

I do not deem it wise or prudent to permit any ordinance to become a law that might in any way interfere with the efforts that are being made by the national, state and city officials to encourage among the people of our city the idea of utilizing the vacant lots throughout the city for the purpose of raising garden products.

I, therefore, recommend that the vote by which the said ordinance was passed be reconsidered and that the same be referred to the appropriate committee for further consideration.

Yours very truly,

(Signed) WM. HALE THOMPSON,
Mayor.

Ald. Nance moved to reconsider the vote by which said ordinance, vetoed by His Honor the Mayor, was passed.

The motion prevailed.

Ald. Nance moved to pass said ordinance, the veto of the Mayor to the contrary notwithstanding.

Ald. Cullerton moved to defer consideration of said motion until the next succeeding regular meeting.

The motion to defer prevailed.

"July 4th" Celebrations: Appointment of Committee to Assist in Promotion.

Private Secretary to the Secretary of War: in re Visit to Chicago.

The Clerk presented the following communication, which was ordered published and placed on file:

WAR DEPARTMENT,
WASHINGTON, June 5, 1918.

Hon. Joseph O. Kostner, care of Chairman Home Defense Committee, City Council, Chicago, Ill.:

DEAR MR. KOSTNER—Let me say this word of thanks

to you for the courtesy and generosity shown by your committee at the time I had the pleasure of visiting Chicago two weeks ago. From the moment that I arrived, and during the too brief time that I could remain, my stay was made a continual pleasure by your committee and by the other men in charge of the meeting at the Pier.

If I might do so without impropriety I should be mightily glad if my appreciation might be conveyed to those who designated your committee.

With kindest personal regards, I am,

Cordially yours,

(Signed) RALPH A. HAYES,
Private Secretary to Secretary of War.

Referred to the Committee on Streets and Alleys.

Motion-picture Films: Protest against Proposed Change in Method of Censorship.

The Clerk presented communications, submitted by the Protestant Episcopal Diocese Convention, the Normal Park Presbyterian Church and the Marlboro Presbyterian Church, protesting against a proposed change in the method of censorship of motion-picture films, which were

Referred to the Committee on Judiciary.

"Bubbly Creek", East of S. Ashland Av.: Protest Against Filling.

The Clerk presented a communication, submitted by property-owners adjacent to "Bubbly Creek", protesting against the proposed filling in of the stream east of South Ashland avenue, which was

Referred to the Committee on Public Health.

S. Oakley Av., between W. 57th and W. 58th Sts.: in Matter of Proposed Vacation.

The Clerk presented a communication, submitted by James E. MacMurray, setting forth his reason for requesting the vacation of South Oakley avenue between West 57th street and West 58th street, which was ordered

Placed on file.

CITY COMPTROLLER.

Duplicate Pay Rolls: for April and May, 1918.

The Clerk presented duplicate pay rolls, submitted by the City Comptroller, for the months of April and May, 1918, which were ordered

Placed on file.

DEPARTMENT OF LAW.

Settlements of Claims against the City: Monthly Reports (for May, 1918).

The Clerk presented reports, submitted by the Corporation Counsel, of settlements of claims against the City during the month of May, 1918, which were ordered

Placed on file.

Delinquent Unpaid Special Assessments: in Matter of Establishment of Collection Agency.

The Clerk presented the following communication submitted by the Corporation Counsel, which was ordered published and referred to the Committee on Finance:

DEPARTMENT OF LAW,
CHICAGO, June 10, 1918.

The Honorable, the City Council of the City of Chicago:

GENTLEMEN—There is due the city a vast number of delinquent unpaid special assessments. The individual assessments are mainly for small amounts; but they aggregate, as I am advised, more than a million dollars.

Heretofore substantially all that has been done about collecting such delinquent unpaid special assessments has been through the City Collector and the County Collector, culminating in offering the property for sale under the statute. The city has tried buying in at such sales; withdrawing the property from such sales; sending out notices to owners; and other like methods, but the results have been far from satisfactory.

I believe that, if your Honorable Body will provide the means, I can establish in my department a collection agency, which, by taking up these assessments personally with the property-owners, and where necessary bringing suits against them, will be able to collect on account of these assessments much more than enough to warrant the expense of conducting such collection department.

The agency which I suggest would be like the agency now in my office, which has charge of making collections on delinquent warrants. As you know, until recently comparatively nothing was realized from these small delinquent warrants, but now through this agency we have during the present year collected more than $100,000.

Perhaps, if you view my suggestion with favor, this same collection department might handle the collection of special assessments, but in order for it to do so, it will be necessary for your Honorable Body to make adequate provision for the additional expense.

Yours truly,

(Signed) SAMUEL A. ETTELSON,
Corporation Counsel.

DEPARTMENT OF PUBLIC SERVICE.

Telephone Bureau: Monthly Report (for April, 1918).

The Clerk presented a report of the Telephone Bureau, submitted by the Commissioner of Public Service, for the month of April, 1918, which was

Referred to the Committee on Gas, Oil and Electric Light.

DEPARTMENT OF PUBLIC WORKS.

Grades: Sundry Streets.

The Clerk presented the following communication, submitted by the Commissioner of Public Works:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF SEWERS,
CHICAGO, June 10, 1918.

To the Honorable the Mayor and the City Council:

GENTLEMEN—I transmit herewith a proposed ordinance for the establishment of sundry street grades in the City of Chicago with the recommendation that it be passed.

Respectfully,

(Signed) FRANK I. BENNETT,
Commissioner of Public Works.

Recommended by:

(Signed) WILLIAM R. MATTHEWS,
Bench and Grade Engineer.

(Signed) GEO. E. McGRATH,
Superintendent, Bureau of Sewers.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Littler moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, A. A. BOARD OF EDUCATION.

Public School Buildings: Denial of Use for Disloyal Propaganda.

The Clerk presented the following communication and resolution submitted by the Board of Education, which were ordered published and placed on file:

BOARD OF EDUCATION,
CHICAGO, June 7, 1918.

To the Honorable, the Mayor and the Aldermen of the City of Chicago in City Council Assembled:

GENTLEMEN—The Board of Education of the City of Chicago begs to inform you that under date of June 5, 1918, it received from Mr. James T. Igoe, City Clerk, copy of resolution adopted by the City Council in reference to denying the use of Chicago's Public School property to members of the Socialist Party, and in response thereto unanimously adopted the attached resolutions.

Respectfully,

BOARD OF EDUCATION OF THE CITY OF CHICAGO,

(Signed) By EDWIN S. DAVIS,
President.

Attest:

(Signed) ALBERT H. MILLER,
Secretary.

WHEREAS, The Board of Education of the City of Chicago is in official receipt of the foregoing resolutions, duly attested by the City Clerk of the City of Chicago as having been adopted by the City Council of the City of Chicago on the 13th day of May, 1918, and

WHEREAS, The excerpts quoted from the announced principles of the Socialist party of the United States adopted in its Emergency National Convention held in St. Louis between April 7-10, 1917, embody ideas hostile to representative government, irreconcilable with the spirit of American institutions, and antagonistic to the paramount interests of the Government and the people in time of war, and

WHEREAS, The public schools should be centers of patriotic instruction and activity and it is the duty and purpose of the Board of Education of the City of Chicago to promote and maintain in the public schools loyalty and devotion to the city, state and nation, and develop in the citizen a full sense of individual responsibility, duty and obligation to the Government of the United States, therefore, be it

Resolved, That no person, society or organization shall be permitted to use the schools for the propagation of the doctrine quoted in the resolutions of the City Council, or as a medium for engendering or spreading disloyalty in any guise, by means of teachers, employees, pupils, grounds or buildings, or any school facility whatsoever, either through meetings or entertainments in school buildings or grounds, or by distribution of disloyal literature or dissemination of disloyal propaganda among or with the aid of teachers, employees, or pupils; and no person, society or organization shall be permitted to hold any meeting or give any entertainment in any school, assembly hall or room, or on any ground of the Board of Education, which by intent or in fact will promote disloyalty or will tend to discourage loyalty and patriotic devotion to the United States and its cause, or incite disregard for the law, or encourage an attitude of contempt for the law and its authority, and be it further

Resolved, That whenever any request is made for the use of any school, assembly hall, room or ground of the Board of Education for a public meeting by any political party or faction of a party or any kind of an organization, or any person or persons, or for entertainment, the Superintendent of Schools or the Business Manager, or both, shall investigate such request and the purposes of the applicants and promoters in holding such proposed meeting or entertainment and the character and objects of such proposed meeting or entertainment, and in all cases require such applicants or promoters to file with the Board of Education a sworn statement that the terms of these resolutions will in no wise be violated, and if doubt then exists as to the purpose or character of any such proposed meeting or entertainment, to notify the Bureau of Investigation of the United States Department of Justice and the Department of Police of the City of Chicago of the granting of leave for such use of any school, assembly hall, room or grounds, and request them to have representatives present at such proposed meeting or entertainment to secure compliance with the terms of these resolutions, and be it further

Resolved, That a copy of these resolutions, duly attested by the President and Secretary of the Board of Education be transmitted to the City Council.

HARBOR BOARD.

Municipal Pier: Lease of Storage Space to Israel Slavin (Renewal) for "Parking" of Motor Vehicles.

The Clerk presented the following communication submitted by the Harbor Board:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, June 10, 1918.

To the Honorable, the Mayor and City Council of the City of Chicago:

GENTLEMEN—I transmit herewith for consideration by your Honorable Body an ordinance renewing agreement with Israel Slavin for the use of not exceeding one hundred thousand (100,000) square feet of space on the Municipal Pier for the storage of automobiles for the period ending May 1, 1919, subject to cancellation in the event the space is required for government or shipping purposes. The rate fixed is $0.20 per square foot, an increase of $0.05 over the rate now in

effect. The ordinance has the recommendation of the Harbor Board.

Yours very truly,

(Signed) FRANK I. BENNETT,
Chairman, Harbor Board.

(Signed) H. V. MCGURREN,
Secretary, Harbor Board.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Littler moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Cullerton, Krumdick, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—65.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Commissioner of Public Works be and he is hereby authorized to enter into a lease on behalf of and in the name of the City of Chicago with Israel Slavin for the use of twenty thousand (20,000) square feet of space on the first or freight floor of the freight and passenger building on the Municipal Pier for the temporary storage of automobiles for the period from June 20, 1918, to May 1, 1919, and if and when said Israel Slavin desires the use of additional space to enter into a lease or leases on behalf of and in the name of the City of Chicago for additional space not to exceed eighty thousand (80,000) square feet on the first or freight floor of the freight and passenger buildings on the Municipal Pier for a period terminating not later than May 1, 1919, said lease or leases to provide for the payment of rental at the rate of twenty cents ($0.20) per square foot per annum and to be subject to cancellation by the City of Chicago on thirty (30) days' notice in writing in the event the said space is required for government or shipping purposes. Said lease or leases shall be drawn in a manner and form satisfactory to the Corporation Counsel of the City of Chicago.

SECTION 2. This ordinance shall take effect and be in force from and after its passage.

Municipal Pier: Lease of Docking Space to Chicago, Duluth and Georgian Bay Transit Co. (Amendment).

The Clerk presented the following communication submitted by the Harbor Board:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, June 7, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—Under date of November 26, 1917, on recommendation of the Harbor Board, a lease was authorized by the City Council with the Chicago, Duluth & Georgian Bay Transit Company for use of space on the Municipal Pier and the docking of its steamers North American and South American.

Because of the withdrawal of a number of passenger boats from the lake service, it has been necessary for this Company to rearrange its schedule, which will require the docking of the boats four times a week instead of two as originally arranged. The total period of docking, however, will be increased approximately two hours per week.

We are therefore enclosing an ordinance authorizing a change in the lease and making a slight adjustment in the rates to conform to the new schedule.

Yours very truly,

(Signed) FRANK I. BENNETT,
Chairman, Harbor Board.

(Signed) H. V. MCGURREN,
Secretary, Harbor Board.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Littler moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That an ordinance passed by the City Council on November 26, 1917, and appearing upon page 1520 of the Journal of the Proceedings of said date, as amended May 13, 1918, page 105 of the Journal of the Proceedings of said last-mentioned date, directing the Commissioner of Public Works to enter into lease on behalf of and in the name of the City of Chicago with the Chicago, Duluth & Georgian Bay Transit Company for the use of certain space on the Municipal Pier be and the same is hereby amended as follows:

By striking out the word "two" in line 25; the words and figures "one hundred sixty (160)" in lines 26 and 27 and the words and figures "two hundred forty (240)" in lines 29 and 30, Section 1 of said ordinance, and inserting in lieu thereof the words and figures "four"; "one hundred eighty-three (183.00)" and "two hundred seventy-five (275.00)" respectively.

SECTION 2. This ordinance shall take effect and be in force from and after its passage.

Municipal Pier: Report of Operations (for 1917).

The Clerk presented the following communication submitted by the Harbor Board, which was, together with the report transmitted therewith, ordered published and placed on file:

DEPARTMENT OF PUBLIC WORKS,
BUREAU OF COMPENSATION,
CHICAGO, June 7, 1918.

To the Honorable, the Mayor and the City Council of the City of Chicago:

GENTLEMEN—In accordance with Paragraph 17 of the Chicago Harbor Act, a statement showing the operation of the Municipal Pier for the year 1917 is transmitted herewith.

Under the provisions of said Act, the City Council is required to cause the report to be printed for public distribution.

Yours very truly,

(Signed) FRANK I. BENNETT,
Chairman, Harbor Board.

(Signed) H. V. MCGURREN,
Secretary, Harbor Board.

—

DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
CHICAGO, April 28, 1918.

Hon. Frank I. Bennett, Chairman, Harbor Board:

DEAR SIR—In compliance with Paragraph 17, of the Chicago Harbor Act, I am submitting herewith a report of financial standing January 1, 1918, and results of operation for the year 1917, of the Municipal Pier, as shown by the following exhibits attached:

Exhibit I—Paragraph 17, of the Chicago Harbor Act;

Exhibit II—Statement of Operation, 1917;

Exhibit III—Balance Sheet as of January 1, 1918.

The items of expense and revenue have been apportioned as fairly as possible between the Commercial and the Recreation sections. The statement shows the deficit from operation of $23,289.98, the amount necessary to advance from the Corporate Fund as the excess of cash expenses over revenue, apportioned as follows:

$5,389.31 to the Commercial section, and $17,900.62 to the Recreation section, showing that the revenue from the Commercial section will very nearly offset the cash cost of operation, although only one-fifth of this section was rented.

Charges for depreciation have been included, based on the estimated life of each portion of the property; also charges for interest at 4%, taxes, insurance and water assessment.

Yours very truly,

(Signed) EUGENE R. PIKE,
Comptroller.

EXHIBIT I.

Paragraph 17, of Chicago Harbor Act.

Every such city and village owning and operating or owning and leasing any portion of any of the utilities mentioned in Section 1 of this Act, shall keep the books of account for such utilities separate and distinct from other city or village accounts and in such manner as to show the true and complete financial standing and results of such city or village ownership and operation of such city or village ownership and leasing as the case may be. Such accounts shall be so kept as to show the actual cost to such city or village of such utilities owned; all costs of maintenance, extension and improvement; all operating expenses of every description, in case of such city or village operation, whether in whole or of a part of such utilities; if water or other service shall be furnished for the use of such utilities without charge, the accounts shall show, as nearly as possible, the value of such service, and also the value of any service, if any, rendered by such utilities, to any other city or village department without charge; such accounts shall also show reasonable allowances for interest, depreciation and insurance, and also estimates of the amount of taxes that would be chargeable against such utilities if owned by a private corporation. The city council of such city or village shall cause to be printed annually for public distribution, a report showing the financial standing and results, in form as aforesaid of such city or village ownership and operation, or of such city or village ownership and leasing. The accounts of such utilities, kept as aforesaid, shall be examined at least once a year by an expert accountant, who shall report to the city council the results of his examination. Such expert accountant shall be selected in such manner as the city council may direct, and he shall receive for his services such compensation to be paid out of the income or revenues from such utilities, as the city council may prescribe.

BOARD OF LOCAL IMPROVEMENTS.

C., M. & St. P. Ry. Co.: Easement For Construction of Sewer.

The Clerk presented the following communication submitted by the Board of Local Improvements:

BOARD OF LOCAL IMPROVEMENTS,
CHICAGO, June 10, 1918.

To the Honorable, the Mayor and Members of the City Council:

GENTLEMEN—I transmit herewith an ordinance authorizing the Mayor and City Clerk to execute and accept a grant in perpetuity for an easement in, and the right, privilege and authority to construct a seven-foot sewer in the property as described in said ordinance, and respectfully request that it be passed at to-day's meeting of the Council.

Respectfully yours,

BOARD OF LOCAL IMPROVEMENTS,

(Signed) By EDWARD J. GLACKIN,
Secretary.

Unanimous consent was given for consideration of the ordinance submitted with the foregoing communication.

Ald. Richert moved to pass said ordinance.

The motion prevailed, by yeas and nays as follows:

Yeas—Kenna, Coughlin, L. B. Anderson, Jackson, Iliff, Schwartz, Hickey, Richert, McDonough, A. A. McCormick, Nance, Fetzer, Guernsey, Woodhull, Furman, Johnson, Govier, Cullerton, Krumdick, Novak, Ahern, Horne, Maypole, Smith, Kaindl, Olsen, Kunz, Piotrowski, Walkowiak, Touhy, Kavanagh, Powers, Bowler, Fick, Franz, R. Lynch, O'Toole, Long, Moran, Fisher, Lyle, Hazen, A. O. Anderson, Kostner, Toman, Clark, Thos. J. Lynch—65.

Nays—None.

The following is said ordinance as passed:

Be it ordained by the City Council of the City of Chicago:

SECTION 1. That the Mayor and City Clerk be and they are hereby authorized to enter into an agreement and execute and accept from the Chicago, Milwaukee and St. Paul Railway Company for and on behalf of the City of Chicago a grant in perpetuity for an easement in, and the right, privilege and authority to construct a seven-foot circular sewer with the right of access thereto upon and under a strip of land described as follows:

A strip of land twelve (12) feet in width, six (6) feet of such width being on each side of the center line, the center line of which strip of land is described as follows: Beginning at a point on the easterly right of way line of said Chicago, Milwaukee & St. Paul Railway, where the same intersects a line two hundred and seventy-four (274) feet south of and parallel with the north line of Berteau avenue as produced from the east; thence northwesterly to a point on the westerly right of way line of said railway company twenty-five (25) feet north of the south line of Berteau avenue to the west, in the south half (S. ½) of the south west quarter (S. W. ¼) of Section fifteen (15), Township forty (40), Range thirteen (13), East of the Third Principal Meridian, in Cook County, Illinois,

which agreement shall be substantially in the following form:

"WHEREAS, The Chicago, Milwaukee & St. Paul Railway Company is the owner in fee of a strip of land one hundred (100) feet in width, occupied and used by it as railroad right of way, in the South half (S. ½) of the Southwest quarter (S. W. ¼) of Section fifteen (15), Township forty (40) North, Range thirteen (13), East of the Third Principal Meridian, situated in the County of Cook and State of Illinois; and

"WHEREAS, The City of Chicago, a municipal corporation, desires to construct a sewer along and through said tract of land;

"NOW, THEREFORE, In consideration of the sum of One Dollar ($1.00) in hand paid, the receipt of which is hereby acknowledged, and other valuable considerations, the said Chicago, Milwaukee & St. Paul Railway Company does hereby give and grant in perpetuity to the City of Chicago an easement in and the right, privilege and authority to construct a seven (7) foot circular sewer with right to access thereto upon and under a strip of land described as follows: 'A strip of land twelve (12) feet in width, six (6) feet of such width being on each side of the center line, the center line of which strip of land is described as follows: Beginning at a point on the easterly right of way line of said Chicago, Milwaukee & St. Paul Railway, where the same intersects a line two hundred and seventy-four (274) feet south of and parallel with the north line of Berteau avenue as produced from the east; thence northwesterly to a point on the westerly right of way line of said Railway Company twenty-five (25) feet north of the south line of Berteau avenue to the west, in the South half (S. ½) of the South West quarter (S. W. ¼) of Section fifteen (15), Township and Range aforesaid, and to maintain, clean, repair, alter and operate and to regulate the connections therewith for and during such time as said sewer shall be so used across said strip of land;' but no other privileges or rights shall accrue to said City by virtue of these presents than are herein contained; and the said grantor reserves the right to make connections with said sewer under the rules and regulations of the Sewer Department of said City, and the said grantor further reserves the right to use the surface of said strip of land for the operation of its railroad thereon.

The grant aforesaid is made subject to the following conditions, covenants and agreements, each and all of which the City of Chicago hereby agrees to observe, keep and perform:

1. That the City shall, at its own cost and expense, construct and maintain said sewer; and in case said sewer should become damaged, will at its own cost immediately repair the same.

2. That the City shall, in carrying on any of the work hereinbefore mentioned or referred to, strictly conform to the directions and requirements of the Chief Engineer of the Railway Company in all matters relating to the safety of operating trains upon and over the Railway Company's tracks; and will not in any manner interfere with such operation without his consent; and that said Chief Engineer may, if he deems necessary so to do, protect and support said tracks while the City of Chicago is doing any work under and about the same.

3. That all rights and privileges hereby granted to the City shall cease and determine in case said sewer is permanently abandoned by the City.

4. That the City shall, and it does hereby, assume the risk of all damage or injury to said sewer, caused by the operation of trains upon and over the tracks now laid, or which may hereafter be laid by the Railway Company, or caused by any change which the Railway Company may make in the grade of its tracks, or in the grade or use of its premises, in accordance with the requirements of the track elevation ordinance of December 29, 1913; and the City hereby releases said Railway Company from all claims and demands for damages on account thereof.

IN WITNESS WHEREOF, The said Railway Company and the City of Chicago have caused this instrument to be executed by their proper officers thereunto duly authorized, this second day of May, A. D. 1918."

SECTION 2. This ordinance shall be in force and effect from and after the date of its passage and approval.

Nays—None.

The following is said order as passed:

WHEREAS, In the opinion of the Committee on Home Defense every possible effort should be made to curtail the expenditure of money on public improvements during the war, and that only such special assessment improvement work should be done at this time as is now desired by the property owners who will be called upon to pay the assessments, or is necessary for military or other important purposes; and

WHEREAS, Many proceedings, commenced at the request of property owners, are pending for special assessment improvements, which improvements are not now desired by the property owners because of the change in conditions brought about by the war, and the proceedings for which have progressed beyond the point where it is possible for the property owners to stop them by legal action; therefore, be it

Ordered, That the Corporation Counsel and the Board of Local Improvements be and they are hereby directed to at once institute the necessary legal steps to abandon the respective proceedings for the following special assessment improvements, for the reason that the said improvements are not necessary at this time and are not now desired by the property owners:

Proceedings for opening, by condemnation, Wrightwood avenue between North Crawford and North Keeler avenues;

Proceedings for paving a system of streets as follows: North Richmond street, North Sacramento avenue and North Whipple street from Devon avenue to Albion avenue, and Arthur avenue from North Francisco avenue to the alley first west of North Whipple street;

Proceedings for laying cement sidewalk on a system of streets as follows: North Richmond street, North Sacramento avenue and North Whipple street from Devon avenue to Albion avenue, and Arthur avenue from North Francisco avenue to the alley first west of North Whipple street;

Proceedings for laying water supply pipe in a system of streets as follows: North Richmond street, North Sacramento avenue and North Whipple street from Devon avenue to Albion avenue, and Arthur avenue from North Francisco avenue to the alley first west of North Whipple street;

Proceedings for paving Kenton avenue from West Madison street to West Jackson boulevard;

Proceedings for laying a six-foot cement sidewalk on both sides of Concord place between North Laramie and North Cicero avenues; and

Proceedings for laying house drains in Concord place between North Cicero and North LeClaire avenues.

ALSO,

The same committee submitted a report as follows:

CHICAGO, June 4, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your committee on Home Defense, who have under consideration the matter of curtailing expenditures for local improvements during the war, beg leave to submit, for the information of the City Council, the following resolution which has been adopted by the Chicago Real Estate Board and the Cook County Real Estate Board, and recommend that said resolution be published and placed on file.

Respectfully submitted,

(Signed) JOS. O. KOSTNER,
Chairman.

Ald. Kostner moved to concur in said report.

No request being made by any two Aldermen present to defer consideration of said report for final action thereon until the next regular meeting, and the question being put,

The motion prevailed.

The following is the resolution recommended for publication in the foregoing report:

WHEREAS, The winning of the war is and should be the first test of every act in the administration of both public and private affairs, and

WHEREAS, It is announced through the public press that the National Administration, to make sure of unrestricted access to the investment public for the purpose of selling by July 1st Liberty Bonds to the amount of $10,000,000,000 to prosecute the war, will conserve all available capital, and

WHEREAS, Public and private work is being held in abeyance in all directions, which course has been found expedient by European Governments engaged in the war, and

WHEREAS, Loyal citizens throughout the United States, particularly property owners, are practicing many economies in order to provide the Government with necessary funds both in the way of paying large war taxes and the purchase of Liberty Bonds, and

WHEREAS, Where work that is now being contracted for, is let at a greatly increased cost over normal times and it also is of utmost importance to conserve the man power of the country for military purposes, supplying munitions and the necessaries of life, both for our own country and our Allies,

THEREFORE, BE IT RESOLVED, That it is for the public interest that expenditures for improvements, including those that are to be paid for by special assessment, shall be postponed until after the close of the war, excepting such as are found by the Board of Local Improvements and the State Council of Defense to be public necessities or necessary to the prosecution of the war, and that representations to this effect be made to the Board of Local Improvements and the State Council of Defense, and be it

RESOLVED, FURTHER, That the Leglislative Committee be and hereby are directed to present this matter to the said Board of Local Improvements and the State Council of Defense.

ALSO,

The same committee submitted a report as follows:

CHICAGO, June 4, 1918.

To the Mayor and Aldermen of the City of Chicago in City Council Assembled:

Your Committee on Home Defense, to whom were referred
